WILLIAM B. DANA. JOHN G. FLOYD. } **WILLIAM B. DANA & Co., Publishers, 79 & 81 William Street, NEW YORK.** POST OFFICE BOX 958.

### *THE FINANCIAL SITUATION.*

The new year has scarcely progressed far enough yet to make much of a record for itself. It opens with a decidedly lower range of Wall Street values than prevailed a year ago, especially for non-dividend paying stocks. To that extent at least the condition is more hopeful, and to it is probably due, in a great degree, the less despondent and more buoyant feeling which has prevailed during the past week.

Still, many argue that a lower deep is yet in reserve. And there are not wanting plausible reasons to support such a view. For instance, commercial affairs are less active, in many departments the production of goods is being restricted, consequently the distribution is likely to show some falling off. For this reason, and because the proportion of the crops left to be moved from first hands is, in some instances, smaller now than it was last January, there seems to be a reasonable prospect that railroad earnings in certain sections will not prove as satisfactory as during the first six months of 1882. On the other hand, however, it should be remembered, as in part a compensation for this, that stocks of produce are unusually large at interior towns, all of which must sooner or later find a market; and, furthermore, if we include every kind of agricultural product, it is pretty certain that the first of January never opened on a larger aggregate supply existing in the country. Even in wheat, though the crop of 1883 was short of the previous one, the year's supply is supplemented by a very considerable remnant from 1882, while 1882 began the year with the granaries bare. In corn the same facts as to old stocks are also true, while this year's shortage, so far as it exists, will not show itself in the traffic returns until next summer.

Out of these facts, therefore, we can find nothing to cause anxiety or alarm. If there is to be a railroad war, no one can forecast the results or measure the extent of the demoralization it would produce; but the adverse influences growing out of shorter crops, which are just now being made so prominent in some quarters, are obviously overstated. Besides, the decline the past year has not been large for the better class of securities; speculative stocks and specialties are the main sufferers, and in their demoralization the whole list has shared. In fact, the success which has attended the downward movement in prices has in great part been due to the weakness disclosed in these special properties; and the hope widely entertained that such plague spots have at length been mostly revealed, is perhaps the basis for the greater confidence at the moment felt. Still, the public is in a waiting mood. Some railroad problems yet remain to be worked out, and it is by no means clear that the slight revival observable in the iron trade betokens a gradual recovery in commercial affairs. Until greater certainty exists on these points, any great improvement in Wall Street cannot be anticipated.

The first surprise of the year was an event not a little startling, and which for the moment was quite disappointing and elicited considerable adverse comment. We refer to the midnight appointment of a receiver of the New York & New England Railroad. It was supposed that the advent of a new board of directors had obviated the necessity for any such action, and besides that, the haste shown excited suspicion and no little distrust, for the public is wonderfully sensitive just now about railroad management. But reflection has at least led to a suspension of judgment. Of course the granting of the order by the court under such unusual circumstances is presumptive evidence that the occasion was urgent and that the course pursued by the directory was justified. At all events it is reported that there is to be a meeting of the full board of directors on Monday, that Mr. Clark will at that time explain the reason for his haste, and that all interests will be protected.

The step, however, having been taken, the question arises as to the position it places the property in as to

traffic. We hear it contended that the road, under the present management, will be run in the interest of the New York & New Haven. Well, is there anything especially objectionable in that? Do not, in fact, its own best interests suggest such an alliance? The point is also made hat Mr. Vanderbilt is apparently inimical to the new arrangement. Would he not naturally be? Consider for a moment his position. His principal eastern connection now and for a long time has been the Boston & Albany road, in which he is supposed to be heavily interested. Only recently it was announced that even the small amount of traffic which he has been giving the Hoosac Tunnel line was to be withdrawn and given to the Boston & Albany. It is this Boston & Albany route that the New Haven road uses to reach Boston, connecting with the same at Springfield, 98 miles west of Boston. Hence on all through traffic carried over this route, the Boston & Albany gets a haul of 98 miles, or but 38 miles less than the New Haven road secures itself. But with the New York & New England operated in harmony with the New Haven, the former line, and not that of the Boston & Albany, might very likely supply the entrance to Boston, since it is known that the New York & New England has excellent terminal facilities at that city, and, besides, such an arrangement would shorten the distance to New York, as is shown by the following table. This route, it should be said, is made up of the New Haven road from New York to New Haven, the Air Line from New Haven to Willimantic, and the New York & New England road to Boston.

| | |
|---|---|
| Present line via New York & New Haven and Boston & Albany | 234 miles |
| New York & New England and New York City & Northern (to 155th Street) | 245 miles |
| Line via New England road, New Haven road, and the Air Line | 214 miles |

Thus the distance over this new route would be 20 miles shorter than over the line now used, while the New York & New England would still have the alternative route to New York by way of the New York City & Northern and the Elevated roads to all parts of the city. Further, under such control, the Fishkill connection with the Erie, upon which so much money has been spent, could be developed to its fullest extent. It thus appears quite likely that the road's true interests all lie in the direction in which the receivership seems to tend.

Another feature in railroad circles this week has been the completion and publication of the statement of the Oregon & Trans Continental Investigating Committee, appointed to report on the present position of that much involved concern. It was expected that the report of the committee would be full and exhaustive, but on the contrary it is a bare statement of the company's holdings of securities and a brief exhibit of its floating liabilities, not in detail, but in the aggregate. The extent of its holdings of securities it was of course important to know, since Wall Street had claimed that they had all been squandered. So, too, the present aggregate of its current liabilities had been the subject of much discussion and contention, and light upon the same was imperatively called for. But there are other matters which the committee have not even touched upon. For instance, they might have told us what the present amount of the company's collateral trust bonds is, and how largely the sum is likely to be increased in the immediate future, since the debt increases with the construction of each additional mile of new road. They might also have given us some information as to the earning capacity of the branch lines already built and in operation, about which nothing is known. Are these earning anything net, and if so what disposition is being made of such earnings? Then as to the Oregon & California road, which the Trans-Continental operates under lease, are the requirements for its construction and support being met in the way originally proposed?—namely, by the sale of Oregon & California securities. The appearance of the item of $2,000,000 Oregon & California second mortgage bonds among the assets would lead one to suppose that in part at least the company had been forced to abandon that plan.

Taking the information given, however, we find that the 1½ million of Northern Pacific scrip which the company held June 30 has disappeared; that the holdings of Northern Pacific stock have changed but little; that the company has augmented its holdings of Oregon Railway Navigation stock from 128,535 shares June 30 (or 8,535 more than a majority of the entire stock outstanding) to 152,027 shares, an increase of 23,492 shares during the last six months. This latter increase must have involved the expenditure of about 2½ million dollars, and as the company has been in financial straits during the whole of that period it seems a little curious that so much money should have been spent for such a purpose.

The aggregate of current liabilities is given at $11,008,128, against which there are accounts owing to the company, cash, real estate, &c., of amount $2,657,648, leaving the net floating debt $8,350,480. On June 30 the gross total of the floating debt was $9,810,808, against which the company held in cash, in bills receivable, in Northern Pacific dividend scrip, and in other accounts, &c., no less than $11,007,471, or $1,196,663 more than enough to meet the entire amount of the debt. The difference between the two periods is consequently very great. The 2½ millions increase in Oregon Navigation stock suggests one way in which this was brought about, and possibly the holding of the 2 million Oregon & California 2d mortgage bonds in minor degree suggests another, but with those exceptions the report gives no light on that point.

The only other subjects which have especially interested Wall Street this week are the Eastern and Western Pool movements and the first of January debt and Treasury statements. The lines embraced in the new Iowa Pool held a meeting on Wednesday and it was reported subsequently that a truce of thirty days had been agreed upon pending negotiations with the Chicago Burlington & Quincy to co-operate with them. It is stated, however, that the Quincy has by no means abandoned its aggressive policy regarding the Union Pacific, but that it is pushing a line through the territory north of the Platte river in Nebraska claimed by the Pacific road. An attempt by Commissioner Fink to discipline the Delaware Lackawanna & Western for alleged infraction of the rules of the Trunk Line Pool was resisted by Mr. Sloan, who claimed that his road was doing business at the same rates as those charged by other roads, and that some of those in the Pool were even below the schedule of the Lackawanna. Evidently there is trouble in this Pool and it is not unlikely that the Commissioner will have to enforce the rule and order a reduction by all the lines to the lowest cut rate, instead of attempting to cut off the Western connections of the Lackawanna. Mr. Sloan seems somewhat restive over the admission of the N. Y. West Shore & Buffalo to the Pool, with 12 per cent allowance, without requiring that road to establish its claim to admission by demonstrating its ability to get business. The bears on Thursday sought to take advantage of this trouble in the Pool, but could not make much headway, and the market was subsequently turned upward. They were hardly more successful on Friday, when, after an early decline, the market rapidly advanced and closed at the best figures of the day, and in many cases of the week. Mr. Villard's resignation had comparatively little effect on the market.

The financial statements issued from the Treasury with the first of January bring up prominently again the importance of the position the question of taxation must hold in the coming deliberations of Congress. A further reduction of nearly 12 millions in the public debt during December, making 109 millions in the calendar year, tells its own story of the amount that is thus unnecessarily being drawn from the people in these dull times for the purpose of paying bonds no one wants paid. Through the kindness of the Secretary of the Treasury, we have received the following statement of the Government revenues in December and since July 1.

| Government Receipts from— | 1883. | | 1882. | |
|---|---|---|---|---|
| | For December. | Since July 1. | For December. | Since July 1. |
| | $ | $ | $ | $ |
| Customs | 19,341,183 14 | 100,949,113 29 | 14,918,751 78 | 113,609,413 72 |
| Internal revenue | 9,838,231 91 | 61,310,204 53 | 12,112,756 85 | 74,745,328 42 |
| Miscellaneous sources | 1,850,856 13 | 16,078,709 75 | 3,385,069 04 | 18,446,445 29 |
| Total receipts | 25,030,270 18 | 178,344,207 57 | 30,416,577 67 | 206,801,187 43 |

In November the receipts were a little short of 4 millions less than in 1882 and in December they are nearly 5½ millions less. If the average decrease of these two months is taken as the monthly loss for the remainder of the year, the Government will have a large surplus for bond redemptions. Certainly Congress cannot too speedily enter upon its work of tax reduction.

Foreign exchange has been firm and higher this week, in consequence of a demand, mainly to remit in settlement of accounts and for coupons and interest payments, and the supply of bills coming on the market from cotton shipments has been quickly absorbed. This reaction from the rather heavy tone in the early part of last week is not unnatural, especially as there has been some return of securities, possibly caused by the unsettled state of our stock market toward the close of the year. The following shows relative prices of leading securities in London and New York.

| | Dec. 31. | | Jan. 1. | Jan. 2. | | Jan. 3. | | Jan. 4. | |

* Expressed in their New York equivalent.
† Reading on basis of $50, par value. ‡ Ex-interest.

Money on call was in a little better demand on Monday when the rate advanced to 5 per cent, but since then the supply has been abundant at 2 to 3 per cent. The following statement made up from returns collected by us exhibits the week's receipts and shipments of currency and gold by the New York banks.

| Week Ending Jan. 4, 1884. | Received by N.Y. Banks. | Shipped by N.Y. Banks. | Net Interior Movement. |
|---|---|---|---|
| Currency | $1,397,000 | *$902,000 | Gain. $495,000 |
| Gold | ..... | 235,000 | Loss. 235,000 |
| Total gold and legal tenders | $1,397,000 | $1,197,000 | Gain. $200,000 |

* $615,000 of this was transferred in the shape of silver certificates by a deposit of gold in the Sub-Treasury.

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement, the banks have gained $4,500,000 throu the operations of the Sub-Treasury. Adding that item therefore to the above, we have the following, which should indicate the otal gain to the New York Clearing House banks of gold and currency for the week covered by the bank statement to be issued to-day.

| Week Ending Jan. 4, 1884. | Into Banks. | Out of Banks | Net Change in Bank Holdings. |
|---|---|---|---|
| Banks' Interior Movement, as above | $1,397,000 | $1,197,000 | Gain. $200,000 |
| Sub-Treasury operations, net | 4,500,000 | ..... | Gain. 4,500,000 |
| Total gold and legal tenders | $5,897,000 | $1,197,000 | Gain. $4,700,000 |

NOTE.—This gain occurred largely in the latter part of the week, so it is not likely that it will be reflected to anywhere near its full amount in to day's bank statement.

The Bank of England return shows a loss of £129,000 bullion for the week, comprising a gain of £31,000 on the movement from the interior, and a loss of £160,000 on the export movement. The gold in the Bank of France decreased 10,262,000 francs, and the silver shows a loss of 6,313,000 francs. The Bank of Germany since our last report has lost 17,766,000 marks. The following exhibits the amount of bullion in the principal banks.

| | Jan. 3, 1884. | | Jan. 4, 1883. | |
|---|---|---|---|---|
| | Gold. | Silver. | Gold. | Silver. |
| | £ | £ | £ | £ |
| Bank of England | 21,437,144 | ..... | 20,353,791 | ..... |
| Bank of France | 38,021,650 | 39,839,074 | 38,196,250 | 43,310,668 |
| Bank of Germany | 7,006,675 | 21,020,025 | 7,001,500 | 21,004,500 |
| Total this week | 66,465,469 | 60,859,099 | 65,551,541 | 64,315,168 |
| Total previous week | 67,202,115 | 61,711,687 | 65,975,998 | 64,655,526 |

The Assay Office paid $287,052 through the Sub-Treasury for bullion during the week, and the Assistant Treasurer received the following from the Custom House.

| Date. | Duties. | Consisting of— | | | |
|---|---|---|---|---|---|
| | | Gold. | U. S. Notes. | Gold Certif. | Silver Certificates. |
| Dec. 28 | $496,254 42 | $6,000 | $15,000 | $396,000 | $79,000 |

## *MERCANTILE FAILURES.*

One did not need to wait until the issue of the usual statement of failures by Messrs. R. G. Dun & Co. to know that there had been an increase in their number. Latterly the reports of these disasters have been so numerous that the alarmists among us have been greatly emboldened, for prophecies of evil naturally find in commercial disasters the material for a marvelously rank growth. Still the facts as thus far developed by no means encourage a feeling of uneasiness.

In the first place it is to be remembered that the failures are not really as significant as their mere number would indicate. This we shall illustrate later on by a comparison of the increase in the disasters year by year, with the increased number of merchants which the reports cover. Then, again, the decline in commercial values has been in progress for two years or more, and if we except breadstuffs and a few allied articles, which are artificially sustained, has about reached its limit. This relieves the situation from its chief pressure. Furthermore, in some trades, and notably in the iron trade, where the depression began, liquidation has proceeded so far that at the moment consumption appears to be in excess of production. And finally a lessening of the cost of manufacture, through lower wages and otherwise, hitherto delayed in many departments, is now generally and actively in progress—a very prudent measure under the circumstances, and a sure step in the process of recovery.

In the meantime failures must continue, but should not of themselves cause either surprise or alarm. A large body of merchants trade on very narrow margins and

only constantly-rising prices keep them afloat. In good times they imprudently extend, and the interest and other expense accounts are swollen, until with the first shrinkage in values and profits the margin becomes nominal, and a struggle sets in for existence. In this class is included the most of the disasters that are now occurring. There are others, special cases, due to special conditions, but our merchants as a body are sound, and to predict a general panic or a collapse of mercantile credit, because these more venturesome traders are dropping out, is wholly without warrant.

But an important feature of these returns is that the number of traders covered by the report is rapidly increasing, so that an increasing number of failures may in no degree indicate a declining commercial condition. We referred to this circumstance a year ago, and as the total disasters now reach over nine thousand, special interest attaches to the fact that the merchants covered by the report have increased to nearly 864,000. This makes the proportion a little larger than in 1882, being a trifle over 1 per cent of the total traders now, against eighty two one hundredths of 1 per cent a year ago. In some of the different sections the showing is even better than this, and, compared with previous years, it is still more favorable, as appears from the following elaborate statement which we have prepared from the reports of the mercantile agency since 1877.

| 1877. | | | | | | |
| Number in business .... | 77,724 | 224,707 | 91,783 | 231,557 | 26,235 | 652,006 |
| Number of failures ..... | 1,353 | 3,049 | 1,078 | 2,756 | 636 | 8,872 |
| Percentage of failures to number in business | 1·74 | 1·36 | 1·17 | 1·19 | 2·42 | 1·36 |

The foregoing shows that in the Middle States the failures last year were sixty-seven one-hundredths of 1 per cent of the total number in business, against eighty-two one hundredths this year—a marvelously small increase, especially when we consider the decided fall in prices that has occurred during the twelve months. The same States, even in 1879 and in the two previous years, showed a larger percentage than in 1883. How very little basis this leaves for the croakers in our midst to stand upon, who, for a purpose, are exaggerating these disasters and assuming that they foreshadow a general liquidation in the immediate future. Turning to the other sections, we find in the Southern States (where the percentage of losses to the number in business is always large), and also in the Western States, that there has been but a trifling increase this year, though the former have fared relatively much better than the latter. Certainly nothing alarming can be extracted from such figures as these. The fact is, the Eastern and Pacific States are the only sections where the percentage has increased to any considerable extent, and in the latter of these it is much less than in 1879.

A correct interpretation of the situation is that the main losses of the last year, have fallen upon our manufacturers. They have been compelled to carry the stocks which during better times are in second hands, distributers only purchasing to supply immediate wants. Hence it is that such large offerings have been made through the auction rooms, although prices realized were below current rates. And this feature in the situation is working the needed cure. The iron industry under such a pressure reduced production until, as already said, consumption is more than taking the new supply; as a result, prices in that department have a rising tendency. The woolen and cotton trades (but especially the latter) were later in disclosing an overproduction and have been slower in curtailing it. But now that process is generally under way, and as lower wages and lower cost of production permit enlarged shipments, it would not be surprising to see an addition during the next six months to our foreign exports of cotton goods and other manufactures which are in oversupply. Furthermore, as merchants are in light stock a falling off in the available supplies might quickly change the tone of all our markets. The failures occurring are only an incident in the situation, and likely to become less frequent after the early months of the year.

A point of some importance connected with these returns of mercantile disasters, is the relative proportion which have been embraced in the reports of the succeeding quarters of the year. To indicate the situation in this particular we have prepared the following exhibit, giving for eight years the percentage of the year's total failures occurring each three months.

| Years. | First Quarter. | | Second Quarter. | | Third Quarter. | | Fourth Quarter. | |
|---|---|---|---|---|---|---|---|---|
| | Percentage of Failures to Year. | Percentage of L'bilities to Year. | Percentage of Failures to Year. | Percentage of L'bilities to Year. | Percentage of Failures to Year. | Percentage of L'bilities to Year | Percentage of Failures to Year. | Percentage of L'bilities to Year. |
| 1876 .. | 30·86 | 33·82 | 19·73 | 22·00 | 26·95 | 25·05 | 22·46 | 18·23 |
| 1877 .. | 32·34 | 28·60 | 21·19 | 23·64 | 20·47 | 22·21 | 26·00 | 25·55 |
| 1878 . | 32·02 | 35·02 | 23·57 | 20·80 | 27·23 | 28·32 | 17·18 | 15·86 |
| 1879 .. | 37·91 | 43·93 | 23·04 | 23·09 | 18·95 | 15·56 | 20·10 | 17·42 |
| 1880 .. | 36·24 | 19·43 | 22·49 | 30·59 | 20·68 | 18·43 | 26·59 | 31·55 |
| 1881 .. | 31·55 | 30·12 | 19·80 | 20·33 | 18·34 | 12·46 | 30 31 | 37·09 |
| 1882 .. | 31·57 | 32·83 | 21·82 | 16·98 | 19·29 | 18·65 | 27·32 | 31·54 |
| 1883 .. | 30·72 | 22·20 | 19·77 | 16·09 | 19·63 | 30·12 | 29·88 | 31·59 |

It is a little surprising to see with how much regularity the proportion of failures in the first quarter is maintained. With the exception of 1879, when there was a special reason for a larger proportion being crowded into that quarter of the year, the percentage has been about 31 per cent of the year's total.

## *ANOTHER FAVORABLE TRADE STATEMENT.*

With the progress of the season it is expected that our foreign commerce will assume an increasingly favorable aspect. The Bureau of Statistics has this week issued the report for the month of November, and from it we see that in that month there was an excess of exports over merchandise imports in the sum of 23⅜ million dollars, while in the month immediately preceding (October) the balance in our favor was only 15 millions. This balance of 23⅜ millions is not as large by 2½ million dollars as was that of the corresponding month of 1882, due about equally to a falling off in exports and an increase in imports, but is almost 10 millions larger than was that of November, 1881, the year of the short crop. The present excess, however, was exceeded in both 1879 and

1880, but in both those years imports were then very restricted. The following table will show the import and export movement from each leading port, for this year and last.

EXPORTS AND IMPORTS OF MERCHANDISE AT U. S. PORTS.

| *Exports (Domestic and Foreign.)* | 1883. | | 1882. | |
|---|---|---|---|---|

| San Francisco | 3,005,606 | 37,325,649 | 2,990,703 | 40,919,890 |
| All other ports | 5,986,405 | 43,596,745 | 7,778,953 | 53,880,369 |
| Total | 56,609,320 | 632,995,212 | 55,183,682 | 693,343,158 |

The increase of a million and a half here noted in the imports over a year ago, is not so significant as would have been a similar increase in any of the months immediately preceding, for in November, 1882, the total had dropped to the smallest monthly figure reached for over a year previously. The total, it will be seen, was about 55 millions then, while the average up to that time had been not far from 65 millions. Now our total is 56½ millions, which, though not as heavy as the aggregates we have become accustomed to see of late years, seems nevertheless, considering the conditions of our trade, a pretty full amount. In this connection, it may be well to note that the stocks of goods in the warehouses this year, instead of further decreasing, as was expected would be the case, have really increased somewhat during the month. On the first of November the amount kept in bond was $26,757,781; on December 1st it had risen to $28,276,924. In the corresponding period a year ago the change was unimportant, but in the direction of lower figures, the total November 1st being $28,078,565, and on December 1st having fallen to $27,947,622.

A gratifying feature in connection with the present large balance in our favor is, that through it we are getting larger amounts of gold than for some time past. In October our imports of that metal were $4,261,430; in November they were $4,363,816. In November, 1882, the importation was about two millions less, though the excess of merchandise exports then was 2¼ million dollars greater than now. The larger balance in our favor on the trade of the immediate past than existed a year ago, enables us to draw gold more quickly and in heavier amounts than in 1882.

Examining the export movement of merchandise, we find a very large aggregate—nearly 80 millions—which however is still about a million dollars smaller than was that of November, 1882. The variation in the totals between the two years, as well as the heavy aggregate in each, is ascribable mainly to the extent of our shipments of cotton. In November, 1882, our exports of cotton, as is well known, were extraordinary, more than 700,000 bales (exactly 704,355 bales) going out, against only 458,539 bales in November, 1881. The dullness in the cotton goods trade abroad, and the large stocks in spinners' hands, led many to expect a very decided contraction in the movement this year, but the falling off has been comparatively light, our figures showing a total of 646,782 bales for the month, or only about 57,500 bales less than the heavy aggregate of a year ago. For December, it should be said, the comparison in the item of cotton with 1882 will be much less favorable, as the total movement for the month in 1883 is only 630,000 bales, against nearly 750,000 bales in 1882. There will, however, be a large gain on the aggregate of two years ago, which was about 483,000 bales.

The falling off of 57,500 bales cotton in the exports for November must have reduced values between 2¼ and 2¾ million dollars, as compared with November, 1882. On the breadstuffs exports, too, there was a decrease, but as predicted in these columns it was not large—only $633,000—the breadstuffs movement having been quite small even in 1882. On these two items, then, we have a falling off of, say, 3¼ million dollars, but against this there was a gain of 2⅛ millions on the exports of provisions, leaving a net loss somewhat above a million dollars, which tallies pretty well with the decrease of $984,447 in the value of all merchandise exports for the month, as shown in the table above, and hence explains the same. The breadstuffs and provisions exports from each leading port appear in the following.

EXPORTS OF BREADSTUFFS AND PROVISIONS FROM LEADING PORTS.

As heretofore, the breadstuffs movement comprises a large augmentation in the item of corn and a decline in the item of wheat. Flour also again (in contrast with the diminution in wheat) exhibits an increase, but the gain in the manufactured article counterbalances only in part the loss on that in its native state. The corn movement is noteworthy as showing the difference between a bad crop (season of 1881) and a good crop (season of 1882). The only other feature of interest is the continued increase in the exports of rye, which is no doubt in part explained by the shortage of that cereal in many countries of Europe. The part played by each item in the breadstuffs movement is shown in the subjoined table in our usual form.

The provisions exports are not very large in themselves, but they record a substantial improvement on a year ago, when they were very small. The gain in quantity is more marked than in values, since prices are lower this year. In pork there is a falling off in the quantity shipped, but in the case of every other item November, 1883, shows larger totals than November, 1882. As illustrating the decline in prices, we may remark that while of

lard the exports are almost three million pounds greater in quantity than last November, in value they are $600,000 less. Below are the figures in full.

EXPORTS OF PROVISIONS, &C., IN NOVEMBER AND SINCE JANUARY 1.

## *COTTON CONSUMPTION AND OVERLAND MOVEMENT TO JANUARY 1.*

We bring down our overland movement to-day to the first of January. The statements now cover four months of the season, and do not make so favorable a showing compared with previous years as those issued during earlier months.

OVERLAND MOVEMENT TO JANUARY 1, 1884.

The *gross* movement overland shows a large falling off from the figures of 1882 and 1881, during the month of December, and the total for the four months to date is now considerably less than the totals for the same period in those years. For the month the gross rail shipments are 213,223 bales, against 265,244 bales in 1882, and 255,210 bales in 1881, and for the season to January 1, the figures of 1883 fall behind those of the previous year 70,811 bales, and those of 1881 114,564 bales. The *net* movement, although below that of last year, is in excess of 1881; the decline from the figures of 1882 is, however, much less decided than in the *gross*. The *net* for December is 121,163 bales, against 168,970 bales for the same month last year, and 102,600 bales in December, 1881. For the season the total reaches 382,415 bales, against 413,082 bales in 1882, and 323,510 bales in the preceding season. The details of the whole amount forwarded are as follows.

OVERLAND FROM SEPTEMBER 1 TO JANUARY 1.

| | 1883. | 1882. | 1881. |
|---|---|---|---|
| *Since September 1, shipped—* | | | |

* This total includes shipments to Canada by rail, which since Sept. 1, 1883, amount to 8,216 bales.

RECEIPTS, EXPORTS AND SPINNERS' TAKINGS.

In common with the overland movement, receipts at the ports have fallen off during the month, as fully shown by our weekly statements. New Orleans continues to record a marked increase over 1882, and the receipts at the Virginia ports, other than Norfolk, are also ahead of last year; this latter is owing in great part to the increased facilities for handling cotton at West Point and Newport News. The total net port receipts to January 1 are 34,536 bales behind 1882, but show a gain over 1881 of 226,115 bales. The exports to foreign ports in December were only 630,353 bales, against 749,852 bales the same month of last year, making the total for the four months 231,821 bales less than for the same period of the preceding season. The whole decline is still in the exports to Great Britain, the Continental figures falling only 1,152 bales below those for 1882. Port and interior towns stocks continue in excess of a year ago. We give below our usual table of receipts, exports and stocks.

| *Movement from Sept. 1, 1883 to Jan. 1, 1884.* | *Receipts since Sept. 1, 1883.* | *Receipts since Sept. 1, 1882.* | EXPORTS SINCE SEPT. 1, 1883, TO— | | | | *Stocks Jan. 1.* |

* Great Britain exports include to the Channel.

Using the facts disclosed by the foregoing statements, we shall find that a portion of the crop which has reached a market through the outports and overland, and the Southern consumption since September 1 this year and the two previous years, is as follows.

| | 1883. | 1882. | 1881. |
|---|---|---|---|
| Receipts at the ports to Jan. 1.....bales. | 3,479,937 | 3,514,473 | 3,253,822 |
| Net shipments overland during same time | 382,415 | 413,082 | 323,510 |
| Total receipts.....bales. | 3,862,352 | 3,927,555 | 3,577,332 |
| Southern consumption since September 1. | 123,000 | 130,000 | 100,000 |
| Total to Jan. 1.....bales. | 3,985,352 | 4,057,555 | 3,677,332 |

The amount of cotton marketed since September 1 in 1883 is thus seen to be 72,203 bales less than in 1882 and 308,020 bales more than in 1881. To determine the portion which has gone into the hands of Northern spinners during the same period, we have prepared the following.

| | | |
|---|---|---|
| Total receipts to Jan. 1, 1884, as above.....bales. | | 3,985,352 |
| Stock on hand commencement of year (Sept. 1, 1883)— | | |
| At Northern ports..... | 135,180 | |
| At Southern ports..... | 96,926 | —232,106 |
| At Providence, &c., Northern interior markets. | 5,011 | — 237,117 |
| Total supply to January 1, 1884 ..... | | 4,222,469 |
| Of this supply there has been exported to foreign ports since Sept. 1, 1883. | 1,879,192 | |
| Less foreign cotton included ..... | 2,682 | —1,876,510 |
| Sent to Canada direct from West ..... | | 8,216 |
| Burnt North and South..... | | 12,327 |
| Stock on hand end of month (Jan. 1, 1884)— | | |
| At Northern ports.....bales. | 331,863 | |
| At Southern ports ..... | 965,416 | —1,297,279 |
| At Providence, &c., Northern interior markets | | 15,068—3,209,400 |
| Total takings by spinners since September 1, 1883..... | | 1,013,069 |
| Taken by Southern spinners..... | | 123,000 |
| Taken by Northern spinners since September 1, 1883..... | | 890,069 |
| Taken by Northern spinners same time in 1882..... | | 928,854 |
| Decrease in takings by Northern spinners this year..bales. | | 38,785 |

AMOUNT OF CROP NOW IN SIGHT.

In the foregoing we have the number of bales which have already been marketed this year and the two previous seasons. An additional fact of interest is the total of the crop which was in sight on Jan. 1, compared with previous years. We reach that point by adding to the above the stock remaining at that date at the interior towns, less stock held by them at the beginning of the season. In this manner we find the result for three years on Jan. 1 to be as follows.

| | 1883. | 1882. | 1881. |
|---|---|---|---|
| Total marketed, as above....bales. | 3,985,352 | 4,057,555 | 3,677,332 |
| Interior stocks in excess of Sept. 1 | 373,000 | 363,500 | 421,000 |
| Total in sight.....bales. | 4,358,352 | 4,421,055 | 4,098,332 |

WEIGHT OF BALES.

To furnish a more exact measure of the receipts up to December 1, we give below our usual table of the weight of bales. We give for comparison the figures for the same time in the two previous seasons.

THE COTTON GOODS TRADE IN DECEMBER.

There has been an absence of anything approaching activity in the more important markets during the month. As usual at the close of the year jobbers bought sparingly, and operations on the part of exporters and the manufacturing trade were strictly moderate. The price reduction made in some of the most popular bleached shirtings did not stimulate business to any great extent. In the main values have not undergone material change during the month, but there was at the close a firmer feeling on fine bleached goods, accompanied by an advance of 2½ per cent on some makes. Print cloths have been in only moderate demand, and close at 3 7-16 cents. Larger stocks than a year ago are now held by manufacturers and their agents, but there is every reason to believe that supplies with jobbers and retailers are exceptionally small as a result of the cautious hand-to-mouth policy pursued for some time past.

*RETROSPECT OF 1883.*

The year 1883 was one of steadily increasing depression in commercial and financial affairs in the United States. The situation became aggravated as the year drew towards a close, and in the month of December there was little relief to the tedium and heaviness which prevailed at the Stock and Commercial Exchanges. Mercantile failures exceeded largely in volume the failures of the previous year; indeed, from the minimum amount of $66,000,000 liabilities involved in the failures during 1880—that remarkable year of buoyancy—the figures were observed to progress steadily upward to $81,000,000 liabilities in 1881, $102,000,000 in 1882, and to $173,000,000 in 1883. Without any feeling of panic; without any threatening of a financial crisis; the year 1883 exhibited a great shrinkage in profits, and it bore all the characteristics of a period of recession from a preceding time of great buoyancy. In fact, it was only when the tide thus continued to fall and fall, beyond all ordinary estimates, that the people began to realize and fully understand how high had been the booming wave of prosperity which culminated in 1881.

The financial machinery worked well, and there was in this quarter nothing to alarm or give shock to the already timid feelings of the business community. The money market was abundantly supplied with funds; no bank failures of first class importance took place; and in the leading financial centres, where Stock Exchange business constitutes a large proportion of the entire volume of financial transactions, there was not a single failure of widespread influence among bankers or brokers. And this strength was exhibited in the face of a decline in stocks and bonds which far exceeded in the total shrinkage of values anything known since the crisis of 1873. The continued coinage of silver by the Government was a cloud upon the horizon; but this had its principal effect in projecting an uncertainty into the future rather than in present injury. It necessarily destroys confidence in the intelligence or good faith of those legislators in Congress who could originate—and still more in those who yet wish to perpetuate—a financial blunder of such indefensible character.

A notable feature of the year was the gigantic losses made in speculative operations—whether in stocks, grain, cotton or provisions. The failures of McGeoch in Chicago and Ranger in Liverpool were instances in which the transactions came to the surface and became notorious; but the losses made by thousands of private individuals and firms who had been carrying stocks or produce on margins, and were squeezed out by the pressure of 1883, could not be even approximately guessed at. As the number of parties engaged in speculation had been large, so the losses were widely distributed among a host of brokers' customers. Many of the failures of mercantile firms, and not a few defalcations, were traceable to the results of speculative operations in stocks or merchandise. The mania for speculation scarcely abated much, but the serious losses incurred were calculated to put a check upon such transactions, and to cause business men, clerks and others to confine their attention to the more legitimate sphere of their regular occupation or to conservative investments.

For the purpose of showing at a glance the industrial and financial statistics, which present a sharp comparison of the two years 1882 and 1883, the following table has been compiled. It should be clearly understood that the

figures here given are published close upon the end of the year 1883, and where they are approximate they are stated in round figures, the estimates of the best authorities being taken. The aggregate mileage operated on the 64 railroads whose total earnings for eleven months are reported was 52,845 miles Dec. 1, 1883, against 48,097 miles Dec. 1, 1882. The estimate of the cotton crop in 1883 is that of the Agricultural Bureau.

| | 1882. | 1883. |
|---|---|---|
| Coin and currency in U. S. Nov. 1 | $1,465,509,449 | $1,523,366,989 |
| Total clearings in 27 cities | $60,808,000,000 | $51,502,000,000 |
| Mercantile failures | $101,547,064 | $173,000,000 |
| Imports of gold and silver (11 mos.) | $19,182,900 | $33,767,115 |
| Exports of gold and silver (11 mos.) | $54,000,489 | $28,629,847 |
| Imports of merchandise (11 months) | $693,310,224 | $632,995,212 |
| Exports of merchandise (11 months) | $675,021,019 | $719,529,625 |
| Railroad constructed (miles) | 11,591 | 6,600 |
| Gross earnings 64 railroads (11 mos.) | $245,391,143 | $269,816,699 |
| Wheat raised, bushels | 503,000,000 | 400,000,000 |
| Corn raised, bushels | 1,624,000,000 | 1,551,000,000 |
| Cotton raised, bales | 6,992,234 | 6,000,000 |
| Pig iron, tons | 4,623,323 | 4,622,000 |
| Anthracite coal, tons | 29,239,919 | 31,200,000 |
| Immigration (11 months) | 686,676 | 536,430 |

I. The agricultural products of the year were only fair. The harvests of 1883 yielded a medium product in the great staples of corn, wheat and cotton, but an abundance of the minor grains and of potatoes. Cotton is estimated to be fully 900,000 bales less than the immense crop of 1882; wheat about 103,000,000 bushels less than 1882; and corn 73,000,000 bushels less than 1882, though the decrease is made larger by a worse condition of the crop, caused by frost and wet. The effect of a deficit in the crop of any year is usually felt most in decreased quantities marketed during the first seven months—January to August—of the year following, and thus the deficit of 1883 is likely to be disclosed most thoroughly in the first half of 1884. This is also the more probable, as the receipts of both grain and cotton in the five months ending with December, 1882, were particularly heavy, leaving, as supposed, a smaller proportion of the crops than usual in the hands of farmers and planters.

II. Manufacturing and industrial enterprises flagged. Railroad construction, which reached the maximum of 11,591 miles in 1882, fell off to about 6,600 in 1883, and seems likely to decline to a much lower mileage in 1884. The effect of such a decline should be duly estimated in considering the distribution of money among manufacturers, transportation companies, contractors, store-keepers, laborers, etc., and it may perhaps be seen most clearly by noting the outlay of capital made in each year. Thus, at an average of $30,000 per mile for railroads fully equipped, (an estimate not too large,) the disbursement for 11,591 miles in 1882 would have been $347,730,000; for 6,600 miles in 1883, $198,000,000; and if construction should fall off to 3,000 miles in 1884, the cash distributed would be only $90,000,000.

In January, 1880, steel rails were worth $71 per ton; in December, 1883, large contracts for steel rails were placed at $33 to $35 per ton. American pig iron was worth at the earlier date $35 per ton, and about Jan. 1, 1884, it sold at $20 per ton. These facts are only indices to the conditions of the iron and steel trade—merely the barometer and thermometer of the tone and temperature—but the conclusion is almost self-evident that there was an unhealthy stimulus in the first period, followed by serious depression in the latter. How far the high tariff had to do with these extremes, it is not the province of this article to inquire. Blast furnaces were blown out; rail mills were shut down; wages were reduced; hands were discharged. Other branches of mining and manufacturing suffered increasingly as the year wore on, and in the later months there was quite a general movement towards curtailing production and reducing all possible expenses, including the wages of operatives.

The anthracite coal trade was rather an exception to other industries, and the mining and transportation companies, led by Philadelphia & Reading, pushed their productions to the utmost, sending to market about 31,200,000 tons in 1883, against 29,239,919 tons in 1882. A much larger tonnage than usual was shipped westward by rail and the Lakes, necessarily competing with the soft coal which was selling at low prices in the Western markets.

III. The foreign commerce of the country exhibited an increase in exports and decrease in imports. The exports of domestic products during the first six months of the year out of the heavy crops of 1882, amounted to $388,000,000, against $333,000,000 the previous year. In the five months ending with November, 1883 there was a decrease in exports of domestic products. The cotton export, though large, was not up to the unprecedented exports in the fall of 1882; and the exports of wheat were checked by the maintenance of high prices in our home markets, in the face of large stocks both here and abroad. The low freights by sailing vessels from San Francisco to Liverpool assisted shipments from the Pacific Coast.

IV. Railroad traffic and earnings were large beyond precedent. While other branches of business were languishing, and while even railroad stocks were declining severely at the Stock Exchanges, the railroads were showing a heavy business, and reporting the largest earnings ever made. The year 1883 was plainly the maximum year yet reached in railroad business. The decline in stocks, therefore, arose more from the immediate influences bearing upon the markets, and from apprehension as to the future, than from any weakness actually developed in the railroad situation. But tonnage in 1883 was very heavy from the large large crops of 1882; from general activity in the movements of various classes of merchandise; from a heavy coal tonnage; from an early movement of crops to market in the fall of 1883; and from a large immigration and settlement of new lands at the West. Passenger business was also heavy. Sharp competition, however, began to develop in consequence of the opening of many new lines; the Iowa Pool rupture was barely healed; and at the close of 1883 the signs were generally unfavorable for a continuance of the great railroad prosperity which had been so conspicuous during that year.

V. Immigration of foreign citizens into the United States continued on a large scale, but the total number arriving was considerably below the previous year, being 536,000 for eleven months of 1883, against 687,000 for the same time in 1882. It is well known that dull times in business usually check immigration into the country.

VI. The meeting of Congress in December did not help the financial situation. There can not be said to be any prejudice in the public mind against one political party or the other on account of financial tenets, provided only that when they happen to be in power they are governed by principles of conservatism and of sound views in regard to prominent financial questions. Iconoclasts and inflationists as leaders of either party do not inspire confidence. In the Congress which convened in December, 1883, the leaders of the party in power had views on the important questions of banking, coinage and tariff which were not generally approved of by bankers and manufacturers throughout the country, and hence the possibility that undesirable measures might be adopted was prejudicial to the business situation.

An interesting comparison is obtained by bringing forward the figures indicating the general financial situation in New York at the opening of the present year and at the same date in each of the two preceding years.

The following summary shows the condition of the New York City Clearing House banks, rate of foreign exchange, and prices of leading securities and articles of merchandise, on or about the 1st of Jan., 1882, 1883 and 1884.

BANK MOVEMENTS.

The returns of the associated banks in New York City afforded nothing worthy of special comment. The banks showed a gain, as usual, in their items of deposits and in specie and legal tenders in the summer, and the deposits at the end of the year were also noticeably large, being not far below the amount reported on the first of July. The statements near the opening of the year on Jan. 1, 1883, and near the close of the year 1883, present quite a contrast; the deposits at the latter period exceeded those of the former by about $29,000,000, and the specie and legal tenders were also about $11,000,000 larger. Circulation fell off during the year about $2,200,000.

The following were the totals of the New York City Clearing House banks about the first of each quarter in the year 1883 and near the 1st of January, 1884:

| | Loans and Discounts. | Specie. | Circulat'n. | Net Deposits. | Legal Tenders. |
|---|---|---|---|---|---|
| | $ | $ | $ | $ | $ |
| Dec. 30, '82 | 311,071,200 | 57,627,100 | 17,625,500 | 291,663,600 | 18,664,200 |
| Mar. 31, '83 | 310,130,100 | 49,086,800 | 16,574,800 | 279,344,200 | 16,801,800 |
| June 30, '83 | 328,083,200 | 64,184,600 | 15,612,600 | 324,289,900 | 26,122,800 |

| Dec. 29, '83 | 327,535,700 | 60,468,100 | 15,456,800 | 320,793,000 | 26,479,100 |

THE MONEY MARKET.

The money market was subject to less violent changes and was more uniformly easy throughout the year than in any former period since 1878. In March and April there was a temporary stringency in rates, when stock brokers paid as high as 20 to 25 per cent per annum for a short time; but relaxation soon followed, and during the balance of the year money was very easy. Even during the autumn months, when the movement of the crops was large in the West and South, there was no stringency in the money market, and the extreme depression in railroad stocks took place without any of the frequent apprehensions of a pinch in money to assist in putting prices down. It was almost unheard of in New York that the outside rate for call loans in October, November and December should be no higher than 4½ and 5 per cent.

The rates for commercial paper were much higher, owing in part to the numerous commercial failures and to the apprehension prevailing in regard to the stability of certain branches of trade.

The lowest rates given on call loans are always based on the transactions with government bonds as collateral, and it is well understood that these form a class by themselves, and that the rates are much lower than those made on loans with ordinary stocks and bonds as collateral.

The following table shows the rates for call loans secured by collaterals and the rates for prime commercial paper of two to four months time during each week of the year 1883.

| Week ending Friday. | Call Loans. | Prime Paper. | Week ending Friday. | Call Loans. | Prime Paper. |

UNITED STATES BONDS.

The dealings in government bonds were mainly influenced by the varying prospects as to the rapidity with which bonds would be retired by the Government through the application of its surplus revenue. There is always a demand for Government bonds for banking purposes, and the use of trust funds, which supports the prices at figures much above the prices of other first-class bonds bearing the same rates of interest. On Jan. 1 1883, the total interest-bearing debt was $1,392,245,450, and on Jan. 1, 1884, $1,276,885,150, a decrease of $115,360,300; but the total debt of all sorts, less cash in Treasury, was $1,607,543,678 on Jan. 1, 1883, and $1,498,041,723 on Jan. 1, 1884, showing $109,501,953 as the actual decrease in the total debt of the Government during the year.

FOREIGN EXCHANGE

The imports of merchandise into the United States in 1883 fell off very materially as compared with the previous year, while the exports of merchandise, particularly in the first six months, were considerably in excess of 1882. As a consequence of this movement, it resulted that for eleven months of the year 1883 (latest yet reported), the excess of exports of merchandise over imports was $86,534,413, while in the corresponding period of 1882 there was an excess of $18,327,233 in imports. And there was in eleven months of 1883 an excess of $5,137,268 in imports of gold and silver, against an excess in exports of $34,817,589 gold and silver in 1882. The uncertain element in the exchanges between the United States and foreign countries was the movement in stocks and bonds. This movement has greatly increased of late years, and the absence of any public record of the amount of securities passing between New York and London, or Continental cities, causes great difficulty in forming correct opinions as to the foreign exchange market. The rates for bankers' bills were strong in May, June and July, and it was believed that a large amount of stocks and bonds had been sent home from abroad. After July, rates weakened, and there was for a time a moderate import of gold; but this soon fell off, and in the late months of the year there was no feature of importance.

RAILROAD AND MISCELLANEOUS STOCKS AND BONDS.

In the stock market the decline in prices during the year 1883 was more general and more severe than in any prior year since the gloomy period of 1873–1878. To account for this extreme depression, which to many parties seemed so extraordinary and unaccountable, it is necessary to go back a few years and take an observation of the actual condition of railroad affairs. The building of many new railroads, and the consolidations and combinations which took place among a great number of the old companies, led to the floating of a mass of new stocks and bonds, upon which it was found impossible to earn interest or dividends. This speculative stuff was floated during the general activity, commonly designated as the "boom," which lasted with more or less variation from July 1, 1878, to July 1, 1881. There are certain laws applicable to the fluctuations of stocks as well as to other financial transactions, and one of these laws may be said to be that railroad stocks or income bonds which have no reasonable prospect of dividends for four or five years to come are not often worth more than 20 to 25 in the market, and some of them may be worth much less. Hence, if the market is loaded up with a mass of such securities at prices ranging from 40 to 100, it is plainly in a dangerous condition, when a great shrinkage in values, and possibly a sudden decline of disastrous

proportions, may begin at any time. The law is almost sure to assert itself in time, and after holders have become convinced that there is no hope of making anything by a rise in prices, or, still worse, that there is no hope of getting rid of their burden for the price at which they took it, the effort to unload will begin, and will keep on till liquidation has taken place.

The above remarks are rather general, but they seem to be necessary to an understanding of the stock market of 1883. The public had become loaded with securities which gave no prospect of furnishing income. They did not realize this fully till 1882 and 1883, and then they began to unload. What prospect could there be of a healthy market of long duration with the following prices ruling, which were reached at some time in 1882?

| | | | |
|---|---|---|---|
| Canada Southern | 73 | N. Y. Lake Erie & Western | 43 |
| Central of New Jersey | 97 | Northern Pacific | 54 |

| Memphis & Charleston | 82 | Wabash | 39 |
| Missouri Kansas & Texas | 42 | Preferred | 71 |
| Nashv. Chatt. & St. Louis | 87 | | |

When prices began to fall heavily, there also came great loss of confidence in railroad managers, and the weak points in our corporation system had their full effect. The chief points in regard to railroad corporations are these—first, the fact that it is lawful for the directors of a company to manage its affairs with absolute secrecy, so that the stockholders (who are the real owners of the property cannot, even on request, get any information of its income or financial status; secondly, that a bare majority of stock—51 per cent out of 100—can lease or mortgage a railroad or do anything with it, while the holders of 49 per cent are powerless and must see their property voted away or dealt with in a manner which may utterly ruin it.

It behooves the Stock Exchange to procure legislation which shall, under reasonable limitations, changet his condition of affairs in New York State.

Details as to the fluctuations of the market in tone and prices throughout the year will be found in the following comments:

*January.*—At the Stock Exchange there was a vacillating and unsatisfactory tone without any healthy activity. The outside holders of stocks had lost much money in the last four months of 1882, and showed little disposition to come into the market again, whereas the large operators and railroad capitalists did little to support prices, and there was a weak and unsatisfactory feeling.

*February.*—There was a lack of animation and generally depression. The blockades of snow in the Northwest had a bad effect on the earnings of railroads in that section, and although in other quarters the railroad prospects were good, prices of stocks did not respond, and the prevailing atmosphere at the Board was one of cloudiness and dissatisfaction by those who were carrying stocks. In the last few days of February prices became firmer, and the month closed with a better outlook.

*March.*—Speculation was very dull, and the sales at the Stock Board often presented the appearance of a midsummer stagnation. Of some stocks there were hardly sales enough at times to make live quotations. The situation was such that those who held stocks and had been carrying them for some time were unwilling to throw them overboard, and on the other hand, there was little inducement for outsiders to come in and buy stocks when they had to pay 10@15 per cent interest for carrying them. Late in the month, when the money market relaxed, there was a more confident tone.

*April.*—In April the course of speculative stocks was unsatisfactory, and it was a disappointment to many holders of stocks that after the market had taken a fair start in the early part of the month, and gave promise of a healthy active movement, it should again sag off and relapse into such a dull condition. It is possible that some of the large operators availed themselves of the early advance to realize on a part of their holdings; but whether or not this was so to any great extent, it seemed obvious that they did little or nothing to advance the general list.

*May.*—Business was most of the time exceedingly dull, and any revival in the strength of prices was quickly followed by a re-action. There were some very important negotiations, such as the lease of the Central of New Jersey to Philadelphia & Reading, but these did not have the effect of inspiring confidence in the public at large.

*June.*—The stock market was something of a disappointment, as it showed much strength at one time and gave promise of a genuine upward movement, in which parties outside of professional speculative circles would take an important part. But this expectation proved to be ill-founded, and the market soon relapsed into its quiet state.

*July.*—Great dulness prevailed, and at times a tone of depression and weakness in prices; but towards the close of the month there was a steadier feeling, and the attacks made by the bears for the purpose of knocking off prices were in some cases met by a support from the large operators who were interested in particular stocks. The strike of the employees of the Western Union Telegraph Company was one of the most important events, and the small decline in the stock gave evidence of the complete control under which it was held by those most heavily interested in it. Owing to the long-continued inactivy at the Stock Exchange, there were sales of seats reported as low as $23,000. The railroad earnings for the first half of the year made an exceedingly good exhibit as compared with the first half of 1882, and this was due in some degree to the fact that the freight movement in 1883, based on the crops of 1882, was larger than the freight movement in 1882, based on the small crops of 1881. The Toledo Cincinnati & St. Louis Railroad went into the hands of receivers.

*August.*—Depression at the Stock Exchange was the prevailing feeling with very few mitigations. The fall in Denver & Rio Grande stock, and in the Northern Pacifics and Oregon Trans-Continental, was most conspicuous. It was believed that large purchases of Denver & Rio Grande were made in the interest of Union Pacific. Just at the close of the month there was a better feeling, and prices rallied quite sharply in some cases.

*September.*—At the Stock Exchange depression was the prevailing tone, and in a few stocks there was a large decline, which had an influence upon the whole market. The Northern Pacifics and Oregon Trans-Continental were the stocks most conspicuous for their downward movement, and a heavy raid upon these stocks was made just about the time when the completion of the Northern Pacific Road was celebrated with festivities in Montana by Mr. Villard and his party of distinguished guests. The weakness in these stocks was made use of to hammer the rest of the market, and the general feeling in stocks was one of depression. The default made by the Ohio Central Railroad in the payment of interest due Sept. 1 on the River Division bonds, had a bad effect in shaking confidence.

*October.*—There was great excitement and the most active business witnessed for months. The shrinkage in prices had long continued, and margins on stocks were reduced or wiped out, when the fall in Northern Pacific stocks, on the proposed issue of $20,000,000 new bonds, precipitated a heavy decline in nearly the whole list. The bear influence was very strong, and short sales were made on an immense scale. In this oversold condition the market was sharply twisted on a number of stocks, with the result of sending up prices with great rapidity—thus Northern Pacific preferred jumped from 56 to 78½ (the latter for cash) within a few days, and Oregon Trans-Continental went from 34½, as the lowest point, to 51. Then Mr. Vanderbilt came into the market, and between buying stock for the long account and calling in shares that had been loaned to the shorts, put up Michigan Central from 77 to 96½ in a few days, and the other Vanderbilt stocks to some extent. But the advance was too sudden to be fully maintained, and during the last week of the month the tone was variable from day to day, though the bears had been too severely punished to sell short again with the same boldness.

*November.*—There was moderate activity on a bull movement in stocks, which soon culminated, and left the market excessively dull during the latter part of the month. The tone was also weakened by the rupture of the Iowa pool, in consequence of the notice given by the Chicago Milwaukee & St. Paul Company that they would withdraw from the pool unless their demands were granted. The earnings of the Union Pacific Railway for August and September showed a considerable decrease in net earnings; other railway returns were generally favorable.

*December.*—There was again renewed depression, and, with large declines in Union Pacific and the Northern Pacifics, prices in some cases ran down to the lowest of the year. The disagreement among the railroads of the Northwest on the Iowa pool and the formation of a new tripartite agreement kept matters unsettled, and there were also rumors of cutting rates by the trunk lines.

## QUOTATIONS OF STERLING EXCHANGE FOR EVERY DAY IN THE YEAR 1883.

## IMPORTS AND EXPORTS FOR NOVEMBER, 1883, AND FOR THE ELEVEN AND TWELVE MONTHS ENDED NOVEMBER 30, 1883.

[Prepared by the Bureau of Statistics and corrected to Dec. 26, 1883.]

Below is given the fifth monthly statement for the current fiscal year of the imports and exports of the United States.

The excess of the value of exports over imports of merchandise was as follows:

| | |
|---|---|
| Month of November 1883 | $23,375,753 |
| Five months ended November 30, 1883 | 40,451,394 |
| Eleven months ended November 30, 1883 | 86,534,413 |
| Twelve months ended November 30, 1883 | 120,000,090 |

The total values of imports and of domestic and foreign exports for the month of November, 1883, and for the eleven and twelve months ended November 30, 1883, are presented in the following tables:

MERCHANDISE.

| | For the month of November. | For the 11 m'nths ended Nov. 30. | For the 12 m'nths ended Nov. 30. |
|---|---|---|---|
| 1883.—Exports—Domestic .... | $78,563,705 | $702,944,795 | $793,307 443 |
| Foreign ..... | 1,421,368 | 16,584,830 | 19,188,208 |
| Total ..... | $79,985,073 | $719,529,625 | $812,495,651 |
| Imports ..... | 56,609,320 | 632,995,212 | 692,495,561 |
| Excess of exports over imports | $23,375,753 | $86,534,413 | $120,000,000 |
| Excess of imports over exports | ..... | ..... | ..... |
| 1882.—Exports—Domestic .... | $79,758,735 | $659,548,661 | $734,432,329 |
| Foreign ..... | 1,210,785 | 15,467,259 | 17,645,233 |
| Total ..... | $80,969,520 | $675,015,920 | $752,077,562 |
| Imports ..... | 55,183,682 | 693,343,158 | 750,680,760 |
| Excess of exports over imports | $25,785,838 | $..... | $1,396,802 |
| Excess of imports over exports | ..... | 18,327,238 | ..... |

GOLD AND SILVER—COIN AND BULLION.

| | | | |
|---|---|---|---|
| 1883.—Exports—Dom.—Gold.. | $398,208 | $2,954,663 | $3,129,862 |

BONDS HELD BY NATIONAL BANKS.—The following interesting statement, furnished by the Comptroller of the Currency, shows the amount of each class of bonds held against national bank circulation and to secure public moneys in national bank depositories on Jan. 1. We gave the statement for Dec. 1 in CHRONICLE of Dec. 8, page 615, and by referring to that the changes made during the month can be seen.

| Description of Bonds. | U. S. Bonds Held Jan 1, 1884, to Secure— Public Deposits in Banks. | Bank Circulation. | Total Held. |
|---|---|---|---|
| 3s, Act July 12, 1882 | $9,180,150 | $193,481,900 | $202,662,350 |
| Currency 6s | 120,000 | 3,538,000 | 3,658,000 |
| 5 per cents | ..... | ..... | ..... |
| 4½ per cents | 1,012,000 | 42,584,000 | 43,596,000 |
| 4 per cents | 6,508,350 | 107,512,300 | 114,020,850 |
| 5s, ext. at 3½ | 25,000 | 422,000 | 447,000 |
| 6s, ext. at 3½ | ..... | ..... | ..... |
| Total | $16,846,000 | $347,538,200 | $364,384,200 |

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show a decrease in both dry goods and general merchandise. The The total imports were $7,413,394, against $10,354,526 the preceding week and $8,788,770 two weeks previous. The exports for the week ended Jan. 1 amounted to $5,432,515, against $8,241,372 last week and $7,384,122 two weeks previous. The following are the imports at New York for the week ending (for dry goods) Dec. 27 and for the week ending (for general merchandise) Dec. 28; also totals since the beginning of first week in January, 1883:

FOREIGN IMPORTS AT NEW YORK.

| For Week. | 1880. | 1881. | 1882. | 1883. |
|---|---|---|---|---|
| Dry goods | $1,573,010 | $1,348,112 | $2,862,937 | $1,495,900 |
| Gen'l mer'dise | 3,443,281 | 5,081,485 | 7,163,927 | 5,917,494 |
| Total | $5,016,291 | $6,929,597 | $10,026,884 | $7,413,394 |
| *Since Jan. 1.* | | | | |
| Dry goods | $119,844,120 | $111,407,545 | $132,262,760 | $121,508,817 |
| Gen'l mer'dise | 351,209,016 | 327,623,512 | 365,517,450 | 339,371,217 |
| Total 52 weeks | $471,053,136 | $439,031,057 | $497,780,210 | $460,880,034 |

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Jan. 1, 1884, and from January 1, 1883, to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1880. | 1881. | 1882. | 1883. |
|---|---|---|---|---|
| For the week | $7,648,993 | $6,395,100 | $6,477,550 | $5,432,515 |
| Prev. reported | 406,077,685 | 370,654,879 | 341,399,730 | 350,930,214 |
| Total 52 weeks | $413,726,678 | $377,049,979 | $347,877,280 | $356,362,729 |

The following table shows the exports and imports of specie at the port of New York for the week ending Dec. 29, and since Jan. 1, 1883, and for the corresponding periods in 1882 and 1881.

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

## NEW YORK, FRIDAY, JANUARY 4—5 P. M.

**The Money Market and Financial Situation.**—A feature of some interest in financial affairs is the favorable report of the Superintendent of the Banking Department of the State of New York for the year to September 30, 1883, which shows that the aggregate of deposits in the eighty-four banks operating under charters from the State have increased over 38 per cent in the year by the sum of $31,863,983, and are now more than double what they were in 1879. The condensed statement of the progress of the various leading items of the report for the last five years indicates that the business and profits of these banks organized under State laws have increased to an extent which makes a favorable comparison with the same items in the business of the national banks. It should be said, however, that in part the recent increase is due to the conversion of some of the national banks to the State system.

| Date. | Capital. | Due depositors on demand. | Loans and discounts. | Profits and surplus. |
|---|---|---|---|---|
| Sept., 1879 | $19,353,200 | $52,259,589 | $51,174,579 | $7,236,465 |
| Sept., 1880 | 18,738,200 | 61,795,773 | 66,179,259 | 8,058,180 |
| Sept., 1881 | 19,025,700 | 75,717,130 | 74,745,135 | 8,928,175 |
| Sept., 1882 | 18,805,700 | 82,050,980 | 80,248,514 | 9,657,702 |
| Sept., 1883 | 21,761,700 | 113,914,963 | 96,338,963 | 11,146,418 |

There have been no special developments in the way of what could be strictly called "failures" in the last week. The resignation of Mr. Villard from the presidency of the Northern Pacific and the incidental development that his private fortune has been lost cannot be called a failure in the mercantile sense of the word. So, also, the fact that the resources of the North River Construction Company are apparently proving insufficient to build and fully equip the New York West Shore & Buffalo Railroad, the actual cost of which has been from $5,000,000 to $7,000,000 over the original estimates, is important only as showing that the West Shore Company may be obliged to raise something like that sum either by a second mortgage or by some other method.

In the New York money market there is still as much of a plethora of unemployed funds as ever, and the amount is daily being increased by the annual interest and dividend disbursements. The distrustful feeling, which has been largely due to the expectation of just such developments as those above referred to in connection with the Northern Pacific and the New York West Shore & Buffalo railroads, still prevails to a large extent, though the better understanding of the real facts in each case has done something to help restore confidence, and in the last day or two there have been more indications of a disposition to invest in railway stocks and bonds than for several weeks before. The rates for money, however, continue extremely low. For call loans on stock collaterals they have ranged from 2 to 3½ per cent during the week. The rates for time loans have continued at 4½ and 5 on similar collaterals for six months. Rates for mercantile discounts remain at 5 and 5½ for first class double-name paper for 60 days and four months, and 6 and 6½ for single names.

The great foreign banks all show considerable losses of specie during the week. The Bank of England lost £129,000. The Bank of France lost 10,262,000 francs in gold and 6,313,000 francs in silver. The Bank of Germany lost 17,766,000 marks. The Bank of England reserve was decreased from 39 13-16 per cent last week to 34⅛ per cent this week. The Bank rate of discount, however, remained unchanged at 3 per cent.

The following table shows the changes from the previous week and a comparison with the two preceding years:

| | 1883. Dec. 29. | Differences fr'm previous week. | 1882. Dec. 30. | 1881. Dec. 31. |
|---|---|---|---|---|
| Loans and dis. | $327,535,700 | Dec. $536,400 | $311,071,200 | $315,443,400 |
| Specie | 60,468,100 | Dec. 226,600 | 57,627,100 | 57,782,500 |
| Circulation | 15,456,800 | Inc. 32,500 | 17,625,500 | 20,162,400 |
| Net deposits | 320,793,000 | Dec. 964,800 | 291,663,600 | 289,890,400 |
| Legal tenders | 26,479,100 | Dec. 160,400 | 18,664,200 | 15,942,000 |
| Legal reserve | $80,198,250 | Dec. $241,200 | $72,915,900 | $72,472,600 |
| Reserve held | 86,947,200 | Dec. 387,600 | 76,291,300 | 73,724,500 |
| Surplus | $6,748,950 | Dec. $145,000 | $3,375,400 | $1,251,900 |

**Exchange.**—The market for sterling has been higher this week, and quotations have been marked up half a cent, namely to 4 83 and 4 86 as the posted rates, the rates for actual business on Friday, the 4th, being as follows, viz.: Sixty days, 4 82@4 82¼; demand, 4 85@4 85¼; cables, 4 85¼@4 86; commercial bills selling at 4 80½@4 81. Continental exchange has also been firmer during the week.

**United States Bonds.**—There has been some abatement in the demand for government bonds, and as a consequence prices show a falling off. The 4½s are ⅝ lower and the 4s ⅝@⅞ lower. For the 3s par is bid.

The closing prices at the N. Y. Board have been as follows:

| | Interest Periods. | Dec. 29. | Dec. 31 | Jan. 1. | Jan. 2. | Jan. 3. | Jan. 4. |
|---|---|---|---|---|---|---|---|
| 4½s, 1891 reg. | Q.-Mar. | 115 | 114¾ | Holiday | *114⅞ | 114⅝ | 114¼ |
| 4½s, 1891 coup. | Q.-Mar. | *114⅞ | *114⅞ | | 114⅞ | 114⅝ | *114¼ |
| 4s, 1907 reg. | Q.-Jan. | 123⅞ | *123⅞ | | 123⅝ | *123½ | *123⅜ |
| 4s, 1907 coup. | Q.-Jan. | 124⅞ | 124⅞ | | x.3¾ | 123⅜ | 123¼ |
| 3s, option U. S. reg. | Q.-Feb. | *101 | *101 | | *100¼ | *100¼ | *100 |

| 6s, cur'cy, '99 reg. | J. & J. | *135 | *135 | | *135½ | *135½ | *135½ |

* This is the price bid at the morning board; no *sale* was made.

**U. S. Sub-Treasury.**—The following table shows the receipts and payments at the Sub-Treasury in this city, as well as the balances in the same, for each day of the past week:

| Date. | Receipts. | Payments. | Balances. Coin. | Balances. Currency. |
|---|---|---|---|---|
| | $ | $ | $ | $ |
| Dec. 29 | 1,042,190 79 | 973,399 35 | 117,241,784 63 | 7,235,916 72 |
| " 31 | 839,552 27 | 1,080,209 88 | 116,878,288 48 | 7,358,755 26 |
| Jan. 1 | | Holiday | | |
| " 2 | 1,124,222 68 | 1,657,382 09 | 116,616,106 84 | 7,087,797 49 |
| " 3 | *1,559,906 05 | 4,904,794 65 | 116,463,194 07 | 6,895,821 36 |
| " 4 | 1,222,807 27 | 2,345,501 92 | 115,598,970 60 | 6,637,350 18 |
| Total | 8,788,679 06 | 10,961,267 89 | | |

* Includes $3,000,000 gold certificates put into cash.

**State and Railroad Bonds.**—The market for railroad bonds was generally lower during the first three days of the past week, but in the last three days has shown a general tendency toward higher prices. The recovery about offsets the previous decline, though the figures of prices do not show this in many cases, from the fact that a majority of the bonds are now quoted ex-interest. The greatest activity and the greatest fluctuation have been in the New York West Shore & Buffalo 5s, which twice during the week have made dips to 64. The first time this decline included the 2½ per cent semi-annual interest, and the second decline to 64 was ex-interest. The range has been 69½, 64, 66½, including interest, and 64, 67½, 65¼ ex-interest. The business in these bonds has averaged nearly $1,000,000 for each of the business days. The range of prices for other bonds during the week has been as follows, viz: Burlington & Quincy debenture 5s at 91¾@93½; Central Pacific gold bonds at 115@116@ ex interest 111⅝@⅛@½; Canada Southern firsts at 98¼@95⅝x; East Tennessee 5s at 75@74@x72½@¼; do incomes at 30@27@28; Northern Pacific firsts at 105⅛@103¾@x101⅛@102½@¼; Kansas & Texas general mortgage 6s at 80⅛@80@81½; New York Chicago and St. Louis firsts at 102@101½@102½@101¾; Ohio Central firsts at 64@65; Ohio Southern incomes at 20@25; Oregon Short Line 6s at 92½@89¾@90; Oregon Railway & Nav. 6s at 107½@106@x102¼@104½@¼; Erie second consols at 92½@88@91¾; New Orleans & Pacific firsts at 88¼@x84@85; New York & New England 7s at 105@x100@93; and Texas & Pacific—Rio Grande division firsts at 72@71¼@73¼.

In State bonds transactions were confined to Tennessee issues, at 37¼ for the old, 37½@37⅝@37¼ for the new, and 41 for the compromise.

**Railroad and Miscellaneous Stocks.**—The stock market has been very much unsettled during the week, owing to conflicting views taken by the public of the developments expected in connection with the examination and report on the financial condition of the Oregon & Trans-Continental Company, the doubt about the settlement of the troubles among the Iowa and Nebraska pools, the complications of the Delaware Lackawanna & Western with the Trunk Line Pool, etc., etc. During the first two of the last seven days the majority of speculators were disposed to take bearish views, and there were free predictions of unfavorable developments on each of the above features. The last three days, however, have shown a considerable recovery of confidence, and the result is that the declines of the first few days have in most cases been more than recovered, some of the advances being important, while only a few of the active stocks show declines for the week. The fluctuations, however, have been wider than usual, as will be seen by the table on another page, some stocks having touched lower prices in the last week than ever before.

## NEW YORK STOCK EXCHANGE PRICES FOR WEEK ENDING JAN. 4, AND FOR YEARS 1883 AND 1882.

# GENERAL QUOTATIONS OF STOCKS AND BONDS.

Quotations in New York represent the per cent value, whatever the par may be; other quotations are frequently made per share.
The following abbreviations are often used, viz: "M.," for mortgage; "g.," for gold; "g'd" for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.
Quotations in New York are to Thursday; from other cities, to late mail dates.

**Subscribers will confer a favor by giving notice of any error discovered in these Quotations.**

## ANNUAL REPORTS.

### Rochester & Pittsburg Railroad.

*For the year ending Sept.* 30, 1883.)

The annual report for the late fiscal year is just out. Mr. Walston H. Brown, the President, states in his report that "the section of the road opened for traffic during the year embraced the Rochester & Salamanca Division, 108¼ miles in length, and 16½ miles of the Buffalo & Pittsburg Division, extending from Salamanca Junction to the city of Bradford. This makes 125 miles of road operated during the entire fiscal year. In addition to the above mileage, there was a portion of the Buffalo & Pittsburg Division, extending from Bradford to Dubois, opened for coal traffic during the last three months of the fiscal year. The gross earnings for the previous fiscal year, ending September 30, 1882, were $305,988, which shows an increase of $237,650 for the present year. The principal source of this increase was derived from the coal tonnage which has passed over the road during the last three months of the present fiscal year. The first shipment of coal over our road from Dubois was on the 1st day of May, 1883. The first shipment of coal from the company's own mines, located at Beechtree, was on the 27th day of June, 1883, and the first shipment of coal from the company's mines located at Walston, two miles south of Punxsutawney, was on the 22d day of September, 1883.

"The division of our road extending from Bradford to Dubois was turned over to the operating department August 1. The division extending from Ashford Junction to Buffalo and from Dubois to Punxsutawney was turned over to the same department on the 15th day of September. It was found to be impracticable, owing to the large number of construction trains upon the line, to run regular coal trains over the road until August 1, and even after that date traffic was very seriously impeded by the construction work."

A serious accident occurred on July 1. There were fifteen persons on the passenger car, seven of whom were killed and eight wounded. The company has settled and paid for all the persons killed and wounded, except one lady slightly injured. The company charges $40,000 on account of this accident, which will cover all the expenses growing out of the same.

ROCHESTER & SALAMANCA DIVISION.

"The operating expenses continue to be very large in proportion to the earnings, owing to the fact that the work of reconstructing the old road between Rochester and Salamanca has been pushed vigorously during the fiscal year."

BUFFALO & PITTSBURG DIVISION.

"The work of construction of this division was retarded by the severe and long-protracted winter which was experienced in that section of the country, and furthermore by the most rainy summer known for several years. The road from Bradford to Dubois was not in condition to hand over to the operating department until August 1, and the balance of the road not until September 15 last. While the track has been laid for several months on the division from Ashford Junction to Buffalo, it was impossible to keep it up to grade for a distance of about six miles through what is known as the Buttermilk Swamp, owing to the fact that the clay soil has quicksand underlying it. * * We have now secured a road bed which, by constant and careful watching, will stand until the foundation for it becomes solid and firm." * *

"We have purchased about thirty acres of land within the city limits of Buffolo, along the banks of the Buffalo Creek, where we have laid out extensive yards for handling our coal trains and delivering coal to the various railroads centering in Buffalo." * *

"We have purchased the franchise and capital stock of the East Buffalo Terminal Railroad of Buffalo, which corporation has the right to extend its line from Howard Street, in East Buffalo, in the heart of the city, where our terminal facilities would be equal to any railroad entering the city. In the meantime we have made a contract with the New York Central & Hudson River Railroad Company for the temporary use of their Howard Street depot in East Buffalo for our passenger business, and for the use of their Ohio Street freight depot for our general freight business. * * Our railroad company own practically all of the capital stock of the Rochester & Pittsburg Coal & Iron Company's stock, which latter corporation has no bonded nor floating debt. * * We are now shipping about 1,500 tons of coal per day from the company's own mines. For the past six weeks there has been a general strike among the miners in Western Pennsylvania, which prevented Messrs. Bell, Lewis & Yates, the owners of the Dubois mines, from shipping any coal over our road. When the strike occurred they were shipping more than 100 cars of coal per day over our road." * *

"Our equipment is all in first-class condition, much the larger part of it having been delivered during the present year. The value of our rolling stock at the close of the fiscal year is upwards of $1,581,000, on which the company owes $748,000, in the shape of car-trust certificates.

"Since the close of the fiscal year we have received 200 additional box cars, and 200 Hopper bottom coal cars, and have purchased 10 additional locomotives."

STATEMENT OF EARNINGS AND EXPENSES FOR YEAR ENDING SEPTEMBER 30, 1883.

| | | | |
|---|---|---|---|
| Gross earnings, including $30,000 for transportation of men and supplies for construction work... | | $543,639 | |
| expenses— | | | |

| Taxes | | 21,000 | |
| | | | 172,099 |
| Deficit | | | $50,491 |

The balance sheet as of September 30, 1883, was given in the CHRONICLE of Nov. 17, page 535.

## GENERAL INVESTMENT NEWS.

**Atchison Topeka & Santa Fe.**—The earnings and expenses for November, and for the eleven months, in 1882 and 1883, have been as follows:

| | November. | | Jan. to Nov., 11 mos. | |
|---|---|---|---|---|
| | 1883. | 1882 | 1883. | 1882. |
| Miles of road operated | 1,820 | 1,820 | 1,820 | 1,815 |
| Gross earnings | $1,340,761 | $1,349,311 | $13,011,530 | $13,314,665 |
| Operating expenses (exclusive of taxes) | 561,053 | 622,433 | 5,901,072 | 7,571,193 |
| Net earnings | $779,708 | $726,878 | $7,110,457 | $5,743,472 |

**Atlantic & Pacific.**—A temporary settlement between the Atchison Topeka & Santa Fe and the St. Louis & San Francisco companies has been formally ratified by both corporations. By the settlement, the Atchison and the St. Louis & San Francisco companies advance each $200,000 and the syndicate $200,000 more to the Atlantic & Pacific Company, and take security upon proceeds of land sales now in negotiation.

**Bankers' & Merchants' Telegraph.**—The Bankers' & Merchants' Telegraph Company has just completed the purchase of the Lehigh Telegraph Company's line, which adds about 300 miles of pole mileage and ninety new offices to its system in Eastern Pennsylvania. The company also begins the new year with the opening of offices at Charleston and Savannah and is the only opposition company that now reaches those and other important cities of the South.

**Buffalo New York & Philadelphia.**—At Philadelphia, December 31, the stockholders of this company approved a proposition of the board of directors to increase the funded indebtedness of the company to the total authorized issue of $25,000,000. The original issue of bonds was $21,000,000, and subsequently $1,700,000 were sold for new cars and engines, stations, depots, sidings, and advances to develop coal properties. The increase authorized now is $2,000,000, which is to be devoted to additional equipment and facilities demanded by the growing business of the road.

**Chicago Burlington & Quincy—The Tripartite Alliance.**—A conference between the managers of the lines in the new Western Railway Alliance and the officers of the Chicago Burlington & Quincy road, with a view to inducing that company to form part of the new combination, was held in Chicago Thursday. The Union Pacific, Rock Island, Milwaukee & St. Paul and Northwestern were represented by the general managers of those roads, the only absentee being the representative of the Wabash. The officers of the Burlington have had in their possession since Monday last a copy of the tripartite agreement, the terms of which were under discussion. The statement was made in an unauthorized way to the Associated Press, that whatever conclusion is reached by the Burlington Company the matter will necessarily be laid before the board of directors of that company for final action. The meeting adjourned until Friday, to await the arrival of Vice-President Hayes of the Wabash road. No decision of any character was reached.

**Delaware Lackawanna & Western.**—At a meeting of the board of directors the following statement was presented for the eleven months ending Nov. 30, including all the company's operations:

| | |
|---|---|
| Gross earnings for eleven months | $20,781,735 |
| Expenses | 21,790,209 |
| Net earnings | $7,982,526 |
| Rentals of leased lines and interest on bonds | 4,523,937 |
| Surplus | $4,458,589 |

Statements of this character, issued occasionally when the figures are exceptionally good, and by companies that never make any annual reports or monthly reports of earnings to their stockholders, carry very little weight with the public.

**Denver & Rio Grande.**—This company makes the following statement for November and the eleven months ending November 30, including the Utah lines:

| | November. | Eleven months. |
|---|---|---|
| Earnings | $635,857 | $6,803,607 |
| Expenses | 413,561 | 4,348,770 |
| Net earnings | $222,296 | $2,454,837 |
| Miscellaneous receipts | | 114,531 |
| Total net income | | $2,569,368 |

For November the increase in net earnings, as compared with November, 1882, was $61,882, or 38·6 per cent. For the eleven months the increase in net income was $160,157, or 6 6 per cent, out of which the rental of the Utah Division is to be paid.

**Green Bay Winona & St. Paul.**—This company publishes the following statement for the eleven months ending Nov. 30:

| | 1883. | 1882. |
|---|---|---|
| Earnings | $375,317 | $358,555 |
| Expenses | 296,288 | 297,221 |
| Net earnings | $79,029 | $61,334 |
| Per cent of expenses | 78·9 | 82·9 |

The earnings, though showing a gain, are still very light, being this year $1,706 gross and $359 net per mile of road.

**Iowa Pool.**—A dispatch from Chicago this week says, as far as the Iowa pool is concerned, it was decided to let it expire under the notice of withdrawal given by the Milwaukee & St. Paul, there being no longer any necessity for its existence. All the arrangements for winding up the affairs of the pool were successfully perfected, and the Commissioner was instructed to close all accounts as speedily as possible

**Little Rock & Fort Smith.**—The Boston *Advertiser* says: "The January coupons will be funded and the interest on the scrip be paid. The trustees have canceled, from the proceeds of land sales, since January 1, $120,000 of the 7s, and have a surplus applicable to the same end. The company has been wrestling with a floating debt, and reduced it from $272,579 a year ago to a nominal figure, proceeds from the sale of treasury bonds and earnings, chiefly the latter, being used for that purpose. The outstanding bonds have been reduced from $2,476,500 to $2,453,500, but the scrip debt has been increased some $200,000. One reason for funding the January coupons is the fact of considerable expenditures for a steamboat line to run along the south bank of the Arkansas River. The railroad is on the north bank, and the ferries are so few that the company has lost considerable freight from the south side. The steamboat line will collect this freight everywhere along the route and deliver it to the railroad for shipment. Two steamboats have been bought, and one or two others are to be added to the line. The Mississippi River & Texas Road has run a steamboat in a similar manner, which has yielded an income of 20 per cent on the cost. Preparations to build the bridge across the river, connecting the two roads, continue; one proposal having been received to do it for $225,000 The Little Rock road will sell the bridge or junction railway company which builds the bridge some $35,000 worth of land needed for the purpose, receiving therefor cash or the equivalent in securities of the new company."

**Missouri Pacific.**—Mr. Jay Gould, President of the Missouri Pacific Railway Company, has issued the following statement to the stockholders:

"Inasmuch as considerable time will elapse before the annual report will be ready, the directors of the company have authorized the following preliminary statement for the year 1883 of the business of the company. December is partly estimated, but the actual results will vary but slightly from the following:

| | |
|---|---|
| Gross earnings Missouri Pacific and Iron Mountain railways for year | $17,107,441 |
| Operating expenses, 53 8-10 per cent of gross earnings (including $507,648 16 for betterments and construction) | 9,205,100 |
| Net earnings | $7,902,341 |
| Dividends received during year on investments, &c | 449,282 |
| Total estimated receipts | $8,351,624 |
| Deduct interest, rentals and other charges, including taxes | 4,137,861 |
| Total net profit after payment of all fixed charges | $4,213,763 |

**New York & New England.**—The annual report of this road, containing the income statement and floating debt on Sept. 30, 1883, was published in the Chronicle of December 1 on page 593. On January 1 a special meeting of the directors was hastily called by Mr. Clark, the newly-elected President, to meet in Hartford. Seven out of the 19 directors were present. President Clark offered a resolution to the effect that the appointment of a receiver should be requested. A discussion arose. Two of the directors present opposed such action. Mr. Clark expressed his unwillingness to further direct the affairs of the corporation unless the plan proposed was carried out. He also declared that persons had been threatening attachments for some time, and these might be put on it any moment.

Then the entire party left the hotel and went to the residence of Judge Shipman of the United States Court, who had previously been notified to expect it. The matter was argued before the Judge, the minority making a strong opposition, and at about two o'clock A. M. the decree for a temporary receiver was granted, and Mr. Clark appointed. The seven directors who were present at the meeting were Messrs. Clark, Higginson, Metcalf, French, Robinson, Kingsbury and Nickerson. The appointment of a receiver was made on the petition of Thomas Brassey, member of Parliament of England, a creditor, and with the consent of the officers of the road.

Mr. Clark explained the matter as follows: "The sum of $330,000 interest on the first mortgage bonds was due Jan 1, and the directors made arrangements to have the coupons cashed at the National Bank of Commerce. * * The appointment of a receiver was the only thing that could be done to prevent the road from being dismembered and its business disturbed and embarrassed, and it gives the shareholders an opportunity to pay the floating debt. I have perfect confidence in the property, and I believe it can pay all its debts and be of value to its stockholders besides. If the property were allowed to be idle, or if its business were interfered with, its fixed charges of $1,250,000 and its floating debt would soon absorb the entire value of the stock. If allowed to drift along by default, the principal, as well as the interest, of the ten-million-dollar mortgage would soon be due, with but little prospect of the second bondholders, the creditors of the floating debt, or the stockholders, getting anything out of it. Such a course would show a want of capacity in me, and would be virtually a wrecking of the property."

In the United States Court in Boston a suit by the second mortgage bondholders of the road, asked for the appointment of a receiver of all the property in Massachusetts, the proceeding being taken for the purpose of ratifying the appointment by Judge Shipman in Hartford. Judge Nelson declined to take any final action until further evidence should be submitted to Judge Shipman, whose action was not final

Most of the coupons on the first mortgage bonds were cashed January 1 at the Bank of Commerce. These are purchased by a syndicate of directors who have raised the money required for this payment.

Mr. Clark, on his return to New York, said: "There will be a meeting of the full board of directors next Monday, at which I shall submit a report stating the situation as it appeared to me on the afternoon of December 31, and which led me, after a conference with one or two others, to exercise the power conferred upon me to call an immediate meeting of the board. The whole subject will be submitted to the board. My expectation is that the board will agree that the stockholders shall have full knowledge and opportunity to pay the debts, including the interest on the mortgages, at any time during the full period provided by the mortgage, with the distinct understanding that, if they fail so to do, they will eventually lose their rights in the property."

From the latest information regarding the New York & New England receivership, it appears very much as if the appointment was the best thing for the company. The following is significant on the subject, from the Boston *Transcript*: "It has been ascertained that before the appointment of a receiver the Boston & Albany Railroad Company had protested its balances due from the former company, and that the transfer steamer W. T. Hart had been attached. The company is preparing a statement of its floating debt at the time of the appointment of the receiver, and will mail this, together with a defense of its action, to all the stockholders. The floating debt, together with interest and claims due to February next is $2,000,000."

**New York Mutual Telegraph Company.**—A dividend of one per cent upon the capital stock of this company has been declared, payable on the 15th day of January, 1884, to stockholders of record on January 12. Holders of the stock and stock trust certificates of the Mutual Union Telegraph Company must convert the same into the stock of the New York Mutual Telegraph Company at the office of the Central Trust Company to participate in this dividend.

**New York West Shore & Buffalo.**—The formal opening of the Western Division of the West Shore Road, between Syracuse and Buffalo, was successfully accomplished January 1. The first train to arrive in Syracuse came from Rochester,

**Northern Central.**—The comparative statement of gross earnings and expenses for November and for the eleven months ending November 30, is as follows:

| | November. | | 11 mos ended Nov. 30. | |
|---|---|---|---|---|
| | 1883. | 1882. | 1883. | 1882. |
| Gross earnings | $536,094 | $526,685 | $5,678,979 | $5,310,172 |
| Operating expenses | $276,039 | $317,251 | $3,051,852 | $3,041,160 |
| Extraordinary expenses | 94,348 | 61,203 | 389,981 | 339,847 |
| Total expenses | $370,387 | $378,455 | $3,441,833 | $3,381,007 |
| Net earnings | $165,706 | $148,230 | $2,237,145 | $1,929,164 |

**Ohio Central.**—This company defaulted in the payment of the interest on its first mortgage bonds January 1.

**Oregon Improvement Co.**—A statement just issued shows the earnings of the Oregon Improvement Company, owning and operating the Pacific Coast Steamship Company, the Pacific Coast Railway Company, the Columbia & Puget Sound Railway Company and the Seattle Coal & Transportation Company for the fiscal year ending Nov. 30, 1883, as follows: December 1, 1882, to October 31, 1883, gross $3,705,109, net, $1,194,124; November, 1883, gross $384,247, net, $152,738; total, gross, $4,089,356, net, $1,346,862; total 1882, gross $3,361,277, net, $1,095,664; November, 1882, gross, $340,058, net $90,554.

**Oregon & Trans-Continental Co.**—The committee appointed to investigate the affairs of this company have made the report given below. The report is very brief and it is palpable that the committee did not intend to give any details. Much more of practical information concerning the Oregon & Trans-Continental Company will be found in the annual report published in the Chronicle of July 21, page 74, and in the comments upon this company and its allies in the Chronicle of Sept. 29, p. 332. The committee's report is as follows:

*To the Executive Committee of the Board of Directors of the Oregon & Trans-Continental Company.*

A committee appointed by the Executive Committee of the Oregon & Trans-Continental Company to examine the assets and liabilities of the company and report thereon, do respectfully represent to your committee that in response to a suggestion, in which they heartily concurred, Mr. R. G. Ralston was by them requested to join the committee and take part in the investigation. The committee was organized by the appointment of Mr. E. P. Fabbri as Chairman and Secretary, and at the earliest moment proceeded to an investigation of the company's affairs. The matter of the investigation being of an intricate character and requiring many meetings, much time has necessarily been taken by the committee in arriving at the substance of their report. Inasmuch as the business and affairs of the company had been largely under the control and management of President Villard, his absence, in consequence of severe illness, during the examination, has greatly interfered with the committee's labors and has prevented their making a report as satisfactory in detail as they would have desired. The committee would report that the assets of the company, as shown by the banks and from the certificates of the parties holding securities or collaterals on loans, as well as the actual count of such securities as are in the possession of the company, are as follows:

ASSETS.

| | *Shares.* |
|---|---|
| Oregon Railway & Navigation Co | 152 027 |
| Northern Pacific Railway Co (pfd) | 153,700 |
| Northern Pacific Railway Co (com.) | 147,934 |
| Wisconsin Central RR. stock | 18,714 |
| Milwaukee & Lake Winnebago RR. (pfd.) | 2,775 |
| Milwaukee & Lake Winnebago (com.) | 2,260 |
| Oregon & California Railway stock (pfd.) | 150 |
| Oregon & California Railway stock (com.) | 400 |
| Oregon Iron & Steel Company | 1,500 |
| Oregon & California Railway Company's second mortgage bonds | $2,000,000 00 |
| Lands earned and other real estate, as per ledger | 236,363 53 |
| Oregon Improvement Company | 514,128 53 |
| Puget Sound RR. under construction and not bonded | 421,022 42 |
| Northern Pacific Railroad Co. (balance of account) | 1,210,206 66 |
| Cash | 195,927 52 |

And the liabilities of the company, from the best sources at the committee's hands, are shown to be:

| | |
|---|---|
| Bills payable | $10,562,500 00 |
| Credited vouchers as reported by Treasurer | 396,732 33 |
| Oregon Railway & Navigation Company | 48,895 41 |

The committee are informed that the bonds yet to be received from land lines will meet the requirements for construction. Your committee have deemed it proper to state the assets at their face or share value, not considering it within their province or desire to affix market values, which are constantly liable to fluctuation. On closing the report the committee desire to express their appreciation of the readiness on the part of the officers and employees of the company to facilitate as much as lay in their power the work assigned to the committee.

E. P. FABBRI,
WM. ENDICOTT, JR.,
R. G. RALSTON.

New York, Dec. 31, 1883.

**Pennsylvania RR.–Philadelphia & Erie.**—The Philadelphia *North American* says: "The committee of directors to whom the Philadelphia & Erie Railroad Co.'s management referred the negotiations for extinguishing the floating debt held by the Pennsylvania Railroad, have made considerable progress toward a settlement. It has been an open secret for some weeks that additional stock would be issued therefor in some shape, but the Pennsylvania was not expected to take new stock at par for the whole $1,831,564 (the amount at the date of the last annual report), while the market price was only about 17. A compromise has been agreed upon by which the Pennsylvania agrees to take $700,000 of the amount in Philadelphia & Erie stock at par, or 14,000 shares. It is regarded as probable that the remaining $1,131,564 will be paid by the issue of additional bonds under the Philadelphia & Erie consolidated mortgage, which is for $20,000,000, and under which $8,680,000 sixes and $5,263,000 fives have already been issued, leaving $6,067,000 still available. If $1,900,000 additional bonds be issued to the Pennsylvania at 5 per cent under this mortgage, the Philadelphia & Erie's fixed charges will be increased only $95,000 a year, and the surplus over fixed charges last year was $97,699, with net receipts of only $1,415,465, while the net earnings for this year are estimated at $1,500,000. The 8 per cent per annum due the $2,400,000 special or preferred stock, however, has not been paid since 1880, when five years' dividends, or $960,000, were paid in common stock. Three years' dividends, or $20,000, are now due."

**Postal Telegraph Company.**—The newly-elected directors of the Postal Telegraph & Cable Company are John W. Mackey, of Nevada; Henry Cummins, H. L. Horton, Henry Rosener, George S. Coe, William K. Soutter, George S. Hart and David B. Davidson, of New York City; George W. Cass, Pittsburg, Pa.; Alanson W. Beard, Boston; Ferdinand W. Peck and E. L. Gillette, Chicago, and Hector de Castro, Paris, France. At their meeting yesterday the organization of the new company was perfected by the election of John W. Mackey, President; George S. Coe, Vice-President; Henry Cummins, Second Vice-President and General Manager; H. L. Horton, Treasurer; George W. Williamson, Secretary, and William H. Fairbank, Superintendent of Construction. The company has completed its pole lines to Washington by way of Philadelphia and Baltimore, from Chicago to St. Louis, from Buffalo to Pittsburg, through the oil regions, and from Fostoria to Toledo. Wires on these lines are now being strung, and they will be opened for business about the middle of next February.

**St. Louis & San Francisco.**—On January 1 the St. Louis & San Francisco Railway began using its own track between St. Louis and Pacific, 34 miles west, and hereafter will use its own terminal facilities in the city. Heretofore the company has used the Missouri Pacific's tracks to Pacific. The new road was constructed and the ground for yards and a freight-house acquired at a cost of about $3,000,000.

**Southern Kansas.**—The earnings and expenses for November, and for the eleven months, in 1882 and 1883, have been as follows:

| | —November.— | | —Jan. to Nov., 11 mos.— | |
|---|---|---|---|---|
| | 1883. | 1882. | 1883. | 1882. |
| Miles of road operated | 398 | 398 | 398 | 393 |
| Gross earnings | $195,511 | $152,834 | $1,585,170 | $1,208,152 |
| Operating expenses (exclusive of taxes) | 72,604 | 62,093 | 714,737 | 555,937 |
| Net earnings | $122,907 | $90,740 | $870,432 | $652,215 |

**Trunk Line Pools.**—The New York *Times* of Tuesday, January 1, said: "A meeting of the Executive Committee of the trunk lines was held yesterday at Commissioner Fink's office, and after a protracted session was adjourned until Friday. Mr. Fink declined to make the proceedings public, but from other sources it was learned that very important action affecting the entire pool was taken. The Delaware Lackawanna & Western RR. since the announcement of its entrance to the pool has been steadily increasing its business, as it is claimed, by cutting rates, especially in west-bound freights, and has steadily refused to have its percentage in the pool fixed at the figures proposed or recommended by Commissioner Fink. It has refused to have the matter submitted to arbitration, and in a general way has acted with the same independence that previously characterized it. This has led to a vast amount of friction on the part of the other roads, as was shown at the meeting yesterday. The committee formally requested the Western roads with which its lines connect to cut off the Lackawanna from through freight facilities, in accordance with the agreement entered into by the lines a couple of months ago, and to forward an immediate answer as to their decision in the matter. If no answer is received by Thursday, Commissioner Fink is to call a meeting of the lines represented in the Joint Executive Committee to devise measures to meet the difficulty. Pending this meeting there may possibly be a reduction in rates to meet the cuts which are openly charged to the Lackawanna, but which have also, without doubt, been practiced by some of the roads in the pool.

"It is furthermore understood that the West Shore has been allotted 12 per cent in west-bound business, which is largely in excess of what had been anticipated. The percentage will be taken pro rata from the other roads, and if it appears that the road cannot carry the amount of business awarded it, a call for a reduction will be made. The reason given for the high award is that the other roads require its aid in the fight which the pool will probably be called upon to openly wage with the Lackawanna, which has definitively refused to come into the pool and arbitrate percentages. The developments of the next few days in regard to the questions now under discussion in the pool will probably have a very marked influence in its future."

—The trunk line arbitrators have rendered their award on the appeals taken from the recommendations of Commissioner Fink of percentages in the east and west-bound pools. The decision modifies Mr. Fink's figures, but the exact changes made are yet kept secret. The decision governs the east-bound pool from March 1, 1882, and the west-bound pool from July 1, 1882. No settlement of past balances, however, has yet been arranged. The dissatisfaction of the trunk lines with the award of Charles Francis Adams, Jr., Hugh Riddle and John C. Gault, the chosen arbitrators, is shown by the immediate demand of the Erie and the New York Central railroads for a revision of percentages. Under the pooling contract, any road may demand a revision of percentages when the conditions governing it have changed by the securing of new connections, better facilities, &c. The Erie and the Central claim that new conditions governing their ability to do business have arisen since July 1, 1883, by the opening in the one case of the Chicago & Atlantic, and in the other of the Nickel Plate Railroad. The west-bound percentage of the West Shore is understood to be 10, not 12, per cent.

**Union Pacific.**—The earnings and expenses of the Union Pacific Railway and auxiliary roads for the month of November were as follows:

| | 1882. | 1883. | Increase. |
|---|---|---|---|
| Earnings | $2,711,916 | $2,731,722 | $19,805 |
| Expenses | 1,690,861 | 1,708,884 | 18,023 |
| Saplus | 1,021,055 | $1,022,838 | 1,782 |

—The firm of Barker & Tinker has been dissolved by the retirement of Mr. Fordyce D Barker, and a new firm been organized under the name of Tinker & Weston. Mr. Tinker is now the member of the New York Stock Exchange, and the firm starts under most favorable auspices.

—At a meeting of the Board of Directors of the Pennsylvania Railroad Company, held June 13th, 1883, a resolution was adopted that the Board of Directors approve of and accept the Guarantee Company of North America as a sufficient surety in the bond of any officer or employe of the company who shall procure it as his surety, and instead of requiring two or more sureties as heretofore, they will accept the said Guarantee Company as the sole surety on a bond.

—Messrs. Drexel, Morgan & Co., with the associate firms in Philadelphia and Paris, have admitted to partnership Mr. Geo. S. Bowdoin, heretofore of the firm of Morton, Bliss & Co., and Mr. Charles H. Coster, heretofore with Messrs. Fabbri & Chauncey. Mr. Charles H. Godfrey retires, owing to ill health.

—Attention is called to the card of Messrs. H Dewing & Son, bankers and brokers. This firm, which is well and favorably known in Wall Street, is composed of Messrs H. Dewing, Clark Dewing and F. T. Bontecou, the latter member entering Jan. 1. This house buys and sells stocks and bonds on commission, and receives accounts and allows interest on balances.

# The Commercial Times.

## COMMERCIAL EPITOME.

Friday Night, Jan. 4, 1884.

The new year opens with the weather wintry, and railway transportation still to some extent obstructed by snow storms. The usual balancing of accounts seems to have been attended with no specially unsatisfactory results, as there is a much more cheerful tone pervading financial and mercantile circles, and the early future of trade is regarded as promising fairly. The changes in firms have been unusually numerous, and many have retired from business altogether. There is increasing probability that important reductions in taxation will be made at the present session of Congress, and business thus relieved of some of its burdens.

The following is a statement of the stocks of leading articles of domestic and foreign merchandise at dates given :

| | 1884. Jan. 2. | 1883. Dec. 1. | 1883. Jan. 2. |
|---|---|---|---|

The speculation in lard has been quite moderate here, but the movement in Chicago has more than compensated. Early in the week a strong and higher market was noticed, but latterly, notwithstanding the strong and higher corn market, prices have been weakened by free realizing sales. In pork little or nothing has been done, and prices rule weak. To-day opened steady, became irregular, and closed quiet; Western, on the spot, 9 15c.; refined for the Continent, 9·35c.; South America, 9 65c.; February sold at 9·18@9·22c.; March, 9 29@9 31c.; May, 9·47@9·55c.; closing January 9 10@9·12c, February 9·20@9 21c., March 9·28@9·30c., April 9·35@9·38c. and May 9·45@9·48c. Mess pork dull at $14 75@$15. Bacon quoted at 8c. for long clear. Beef hams quiet at $23 75@$24. Beef dull; city extra India mess, $24 50@$25. Tallow quiet at 7½@7⅝c. for prime, and sterine dull; prime, 9½@9⅝c.; oleomargarine, 8⅞@9c. Butter has been firm, and choice creameries are now 41@42c. Cheese, under export calls, has been advanced to 10@13½c. for fair to choice State factory, and 10½@12c. for Ohio.

Rio coffee has been fairly active on speculation at some advance, owing to the smallness of the receipts at Rio de Janeiro; fair on the spot closed steady at 12¼c; options closed from 5 to 10 points higher than the figures of a week ago; mild has been moderately active and steady. Tea has been moderately active and generally steady, though at one time black was depressed. Rice has sold moderately at steady prices. Spices have been nearly neglected. Foreign fruits have been quiet but steady. Molasses has been steady, and latterly New Orleans has sold more freely. Raw sugar has been moderately active at a decline to 6c for fair refining; refined has been quiet and weak, closing at 8⅝c. for crushed, 8⅛@8¼c. for powdered, 7 13-16@7⅞c. for granulated and 7 5-16@7½c. for standard "A."

In Kentucky tobacco no sales of importance have been made, but lugs remain steady at 7@8c. and leaf 8½@11½c. Seed leaf has been equally dull, but late figures are sustained. Sales 675 cases, including 200 cases crop 1882, Pennsylvania, 10@16c.; 100 cases crop 1881, Pennsylvania, 8@11c.; 75 cases crop 1882, New England, 11@20c.; 100 cases crop 1882, Wisconsin Havana, 13@20c., and 200 cases sundries, 3½@20c; also 500 bales Havana, 85c.@$1 15, and 150 bales Sumatra, $1 25@$1 40.

There has been only a small trade in naval stores, but common to good strained rosins remain at $1 50@$1 55; spirits turpentine closed firmer at 35c in yard. Refined petroleum has been materially advanced, and yet no sales have been reported; the larger refiners refuse to sell; to-day 9½c. bid for 70 Abel test, and one or two re-sales were obtainable at that price. Crude oil certificates have been firm, but to-day broke on a realizing movement, opening at $1 15 and closing at $1 14⅛. American pig iron remains quiet, but is steady at $20 50@$22 for No 1, $19@$20 for No. 2 and $17 50@$18 50 for forge. Steel rails have sold to the extent of 38,000 tons for this year's delivery at the mills on the basis of $35. Ingot copper sold at 15c. for Lake. Straits tin has been advanced to 19c.

It has been a very dull week in ocean freight room. Berth rates have declined, and those for charter tonnage are little more than nominal. To-day grain was taken to Liverpool by steam 2d.; flour, 12s. 6d. per ton; bacon and cheese, 20s.; cotton, 13-64d.; grain to London by steam quoted 3d; flour, 12s 6d.; bacon, 25s.; cheese, 30s.; grain to Glasgow by steam, 2½d.

## COTTON.

Friday, P. M., January 4, 1884.

The Movement of the Crop, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Jan. 4) the total receipts have reached 140,612 bales, against 201,686 bales last week, 247,733 bales the previous week and 281,163 bales three weeks since; making the total receipts since the 1st of September, 1883, 3,556,962 bales, against 3,686,459 bales for the same period of 1882-83, showing a decrease since September 1, 1883, of 129,497 bales.

| Receipts at— | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. | Total. |

The speculation in cotton for future delivery at this market has been somewhat less active for the week under review, but prices show a further and important advance, in which Liverpool and the Southern markets have shared. The improvement is due to the demand to cover contracts, and some buying for the advance, caused by the reduced movement of the crop. The receipts at the ports, as well as at the principal interior towns of the South, have been very small. There was an advance last Saturday, but the close was barely steady at about the lowest figures of the day, under sales to realize in view of the closing of the Cotton Exchange till the following Wednesday. The re-opening of the market, after the New Year's holidays, was with a very buoyant tone, and prices advanced 12@14 points, but there was some weakness at the close, and the opening of Thursday was somewhat uncertain in tone. A movement in January contracts, by which the wide difference between them and the later deliveries was reduced a few points, caused a re-action toward better prices, and a final closing at an irregular advance. To-day the opening was at a further improvement of 3@4 points, but there was less activity, the buying for a rise having evidently received a check, and the strength of values was due mainly to the absence of sellers. The close, however, was at a further advance, and, as compared with last Friday, prices were 20@25 points dearer for this crop and 13 for the next. Cotton on the spot has had but a limited sale, and the small dealings have been mainly with home spinners. Recent failures have impaired the credits of many small buyers, and this has had some effect in keeping transactions within narrow limits. But in sympathy with the speculation in futures quotations were advanced ⅛c. on Wednesday. To-day there was a further advance of 1-16c., middling uplands closing at $10^{5}_{8}$c.

The total sales for forward delivery for the week are 425,100 bales. For immediate delivery the total sales foot up this week 1,181 bales, including — for export, 681 for consumption, 500 for speculation and —— in transit. Of the above, —— bales were to arrive. The following are the official quotations for each day of the past week.

The Visible Supply of Cotton to-night, as made up by cable and telegraph, is as follows. The Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Jan. 4), we add the item of exports from the United States, including in it the exports of Friday only.

☞ The imports into Continental ports this week have been 41,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 251,506 bales as compared with the same date of 1882, an *increase* of 341,976 bales as compared with the corresponding date of 1881 and an *increase* of 709,195 bales as compared with 1880.

At the Interior Towns the movement—that is the receipts for the week and since Sept. 1, the shipments for the week, and the stocks to-night, and the same items for the corresponding period of 1881-82—is set out in detail in the following statement:

| Towns. | Movement to January 4, 1884. Receipts. This week. | Receipts. Since Sept. 1, '83. | Shipments. This week. | Stock Jan. 4. | Movement to January 5, 1883. Receipts. This week. | Receipts. Since Sept. 1, '82. | Shipments. This week. | Stock Jan. 5. |

| Total, old towns. | 50,758 | 1,597,598 | 61,531 | 370,801 | 74,263 | 1,742,278 | 63,833 | 343,010 |
| Total, new towns | 18,735 | 566,939 | 22,298 | 37,173 | 28,234 | 665,510 | 34,922 | 40,657 |
| Total, all ..... | 69,493 | 2,164,537 | 83,829 | 407,974 | 102,547 | 2,407,788 | 98,755 | 383,647 |

The above totals show that the old interior stocks have *decreased* during the week 10,773 bales, and are to-night 27,791 bales *more* than at the same period last year. The receipts at the same towns have been 23,505 bales *less* than the same week last year, and since September 1 the receipts at all the towns are 243,251 bales *less* than for the same time in 1882-83.

Quotations for Middling Cotton at Other Markets.—In the table below we give the closing quotations of middling cotton at Southern and other principal cotton markets for each day of the past week.

Receipts from the Plantations.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports.

Receipts from Plantations.

| Week ending— | Receipts at the Ports. '81-'82. | '82-'83. | '83-'84. | St'k at Interior Towns. '81-'82. | '82-'83. | '83-'84. | Rec'pts from Plant'ns '81-'82. | '82-'83. | '83-'84. |
|---|---|---|---|---|---|---|---|---|---|
| Oct. 19 .... | 192,531 | 242,329 | 257,276 | 228,785 | 125,039 | 202,970 | 234,755 | 271,693 | 295,331 |
| " 26 .... | 210,537 | 241,788 | 252,845 | 251,532 | 139,317 | 236,986 | 233,334 | 256,006 | 286,861 |
| Nov. 2. .... | 225,285 | 256,623 | 241,921 | 290,140 | 175,092 | 276,734 | 243,893 | 292,498 | 281,669 |

| " 14 .... | 241,578 | 262,015 | 281,168 | 445,536 | 299,528 | 410 246 | 271,513 | 270,167 | 304,932 |
| " 21.. ... | 206,855 | 258,170 | 247,733 | 457,024 | 336,903 | 423,577 | 218,343 | 295,635 | 261,064 |
| " 28 .. ... | 200,624 | 251,923 | 201,686 | 466,586 | 379,855 | 422,310 | 210,186 | 294,785 | 200,419 |
| Jan. 4 ..... | 152,429 | 224,997 | 140,612 | 453,656 | 383 647 | 407,874 | 139 502 | 228,789 | 126,276 |

The above statement shows—1. That the total receipts from the plantations since September 1, 1883, were 3,915,780 bales; in 1882-83 were 4,053,621 bales; in 1881-82 were 3,793,776 bales.

2.—That, although the receipts at the out-ports the past week were 140,612 bales, the actual movement from plantations was only 126,276 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the same week were 228,789 bales and for 1882 they were 139,502 bales.

Amount of Cotton in Sight January 4.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to January 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight.

| | 1883-84. | 1882-83. | 1881-82. | 1880-81. |
|---|---|---|---|---|
| Receipts at the ports to Jan. 4. | 3,556,962 | 3,686,459 | 3,385,542 | 3,564,834 |
| Interior stocks on Jan. 4 in excess of September 1..... | 358,818 | 367,162 | 408,234 | 298,826 |
| Tot. receipts from plantat'ns | 3,915,780 | 4,053 621 | 3,793,776 | 3,863,660 |
| Net overland to January 1.... | 382,415 | 413,082 | 323,510 | 316,763 |
| Southern consumpt'n to Jan. 1 | 123,000 | 130,000 | 100,000 | 85,000 |
| Total in sight January 4.. .. | 4,421,195 | 4,596,703 | 4,217,286 | 4,265,423 |

It will be seen by the above that the decrease in amount in sight to-night, as compared with last year, is 175,508 bales, and that the increase as compared with 1881-82 is 203,909 bales, and with 1880-81 is 155,772 bales.

Weather Reports by Telegraph.—The temperature has been quite low at the South during the week and in many sections there has been snow and ice.

*Galveston, Texas.*—We have had showers on two days of the week, the rainfall reaching three hundredths of an inch. We have had killing frost on three nights of the week. Average thermometer 50, highest 73 and lowest 27. Rainfall during December three inches and sixteen hundredths, and for the year 1883 forty-two inches and nine hundredths.

*Indianola, Texas.*—It has been showery on two days of the week, the rainfall reaching two hundredths of an inch. We have had killing frost on three nights of the week. The thermometer has ranged from 25 to 71, averaging 48. The rainfall reached during December one inch and sixty-nine hundredths, and for the year 1883 32·51 inches.

*Palestine, Texas.*—We have had one drizzle during the week, with a rainfall of one hundredth of an inch. We have had killing frost on four nights. The thermometer has averaged 41, ranging from 14 to 67. December rainfall two inches and fifty-one hundredths, and during the year 1883 the rainfall reached 42·24 inches.

*New Orleans, Louisiana.*—It has rained on three days of the week, the rainfall reaching one inch and seventy-two hundredths. The thermometer has averaged 52.

*Shreveport, Louisiana.*—The weather was cloudy with light rains during the early part of the week, followed by cold and generally clear weather. The rainfall reached seventy-three hundredths of an inch. The thermometer has ranged from 15 to 67.

*Vicksburg, Mississippi.*—The weather has been cloudy during the week, with rain on three days. The thermometer has averaged 31, the highest being 64 and the lowest 20. Rainfall during the month of December nine inches and forty-seven hundredths.

*Meridian, Mississippi.*—It has rained on five days of the week. The weather has been unusually cold, with light snow on Friday last. Receipts nominal. About ninety per cent of the crop has been marketed.

*Columbus, Mississippi.*—It has rained on three days of the week, the rainfall reaching one inch and thirty-six hundredths. December rainfall four inches and twelve hundredths.

*Little Rock, Arkansas.*—We have had but two clear days during the week. There has been rain on two days and very cold weather on three. The rainfall reached one inch and thirty-seven hundredths. The thermometer has ranged from 12 to 54, averaging 33. It has rained on twelve days during December and the rainfall reached four inches and six hundredths. The thermometer ranged from 26 to 72, and averaged 44.

*Pine Bluff, Arkansas.*—It has rained on two days of the week, the rainfall reaching one inch and twenty hundredths. The thermometer has averaged 34, the highest being 59 and the lowest 10. Rainfall for December three inches and thirty-four hundredths.

*Fort Smith, Arkansas.*—It has rained on one day of the week, the rainfall reaching twenty hundredths of an inch. Average thermometer 33, highest 55 and lowest 6. Last week we had rain on two days, the rainfall reaching twenty hundredths of an inch. Average thermometer 40, highest 64 and lowest 20.

*Helena, Arkansas.*—We have had rain on three days, and the remainder of the week has been cloudy. The rainfall reached one inch and thirteen hundredths. The thermometer has averaged 39, ranging from 14 to 52.

*Monticello, Arkansas.*—Telegram not received.

*Memphis, Tennessee.*—We have had snow and sleet on one day and rain on four days of the week, the rainfall reaching one inch and twenty-eight hundredths. The thermometer has averaged 37, ranging from 11 to 59·5. We had rain on eighteen days during December and the rainfall reached four inches and sixty-eight hundredths. The thermometer averaged 46 and ranged from 22 to 72.

*Nashville, Tennessee.*—It has rained on three days of the week, the rainfall reaching one inch and thirty-three hundredths. The thermometer has ranged from 18 to 59, averaging 40.

*Mobile, Alabama.*—During the early part of the week, it rained severely on one day and was showery on two days, but the latter portion of the week has been clear and pleasant. The rainfall reached one inch and eleven hundredths. The thermometer has averaged 48, the highest being 67 and the lowest 24. December rainfall three inches and eleven hundredths.

*Montgomery, Alabama.*—It rained on three days during the early part of the week, but the latter portion has been clear and pleasant but very cold. The rainfall reached sixty-nine hundredths of an inch. Ice formed in every part of the State during the week. Average thermometer 45, highest 68 and lowest 20. During the month of December the rainfall reached four inches and twenty-three hundredths.

*Selma, Alabama.*—We have had rain on four days of the week, the rainfall reaching one inch and twenty-six hundredths. Ice formed in this vicinity on three nights of the week. The thermometer has ranged from 19 to 59, averaging 49.

*Madison, Florida.*—Telegram not received.

*Macon, Georgia.*—It has rained on two days of the week. The thermometer has averaged 50, the highest being 73 and the lowest 21. December rainfall one inch and ninety-eight hundredths.

*Columbus, Georgia.*—We have had rain on two days of the week, the rainfall reaching one inch and eighty hundredths. Average thermometer 44, highest 65 and lowest 24.

*Savannah, Georgia.*—We have had rain on three days of the week, on two of which light, and the remainder of the week has been pleasant. The rainfall reached twenty-eight hundredths of an inch. The thermometer has averaged 52, ranging from 26 to 70.

*Augusta, Georgia.*—During the early part of the week there were general rains on three days, and the remainder of the week has been clear and cold. The rainfall reached seventy-six hundredths of an inch. In consequence of the holidays the receipts this week have been small. The thermometer has ranged from 25 to 70, averaging 49. During the month of December the rainfall reached two inches and fifty-nine hundredths.

*Atlanta, Georgia.*—Telegram not received.

*Charleston, South Carolina.*—It has rained on three days of the week, the rainfall reaching ninety-six hundredths of an inch. Average thermometer 51, highest 71 and lowest 26.

*Columbia, South Carolina.*—Telegram not received.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock January 3, 1884, and January 4, 1883.

| | | Jan. 3, '84. | | Jan. 4, '83. | |
|---|---|---|---|---|---|
| | | Feet. | Inch. | Feet | Inch. |
| New Orleans | Below high-water mark | 8 | 6 | 11 | 10 |
| Memphis | Above low-water mark | 26 | 1 | 11 | 4 |
| Nashville | Above low-water mark | 16 | 5 | 4 | 8 |
| Shreveport | Above low-water mark | 12 | 11 | 15 | 3 |
| Vicksburg | Above low-water mark | 29 | 1 | 14 | 7 |

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

INDIA COTTON MOVEMENT FROM ALL PORTS.—We have re-arranged our India service so as to make our reports more detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to January 3.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

| Year | Shipments this week. | | | Shipments since Jan. 1. | | | Receipts. | |
|---|---|---|---|---|---|---|---|---|
| | Great Brit'n. | Continent. | Total. | Great Britain | Continent. | Total. | This Week. | Since Jan. 1. |
| 1884 | 7,000 | 16,000 | 23,000 | 7,000 | 16,000 | 23,000 | 30,000 | 30,000 |
| 1883 | 6,000 | 2,000 | 8,000 | 6,000 | 2,000 | 8,000 | 27,000 | 27,000 |
| 1882 | 7,000 | 10,000 | 17,000 | 7,000 | 10,000 | 17,000 | 34,000 | 34,000 |
| 1881 | 5,000 | 7,000 | 12,000 | 5,000 | 7,000 | 12,000 | 16,000 | 16,000 |

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 3,000 bales, and an *increase* in shipments of 15,000 bales, and the shipments since January 1 show an *increase* of 15,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of January, for two years has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

| | Shipments for the week. | | | Shipments since January 1. | | |
|---|---|---|---|---|---|---|
| | Great Britain. | Continent. | Total. | Great Britain. | Continent. | Total. |
| Calcutta— | | | | | | |
| 1884 | 2,000 | ..... | 2,000 | 2,000 | ..... | 2,000 |
| 1883 | 5,000 | ..... | 5,000 | 5,000 | ..... | 5,000 |
| Madras— | | | | | | |
| 1884 | 500 | ..... | 500 | 500 | ..... | 500 |
| 1883 | ..... | ..... | ..... | ..... | ..... | ..... |
| All others— | | | | | | |
| 1884 | ..... | ..... | ..... | ..... | ..... | ..... |
| 1883 | 1,000 | ..... | 1,000 | 1,000 | ..... | 1,000 |
| Total all— | | | | | | |
| 1884 | 2,500 | ..... | 2,500 | 2,500 | ..... | 2,500 |
| 1883 | 6,000 | ..... | 6,000 | 6,000 | ..... | 6,000 |

The above totals for the week show that the movement from the ports other than Bombay is 3,500 bales *less* than same week last year. For the whole of India, therefore, the total shipments since January 1, 1884, and for the corresponding periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

| Shipments to all Europe from— | 1884. | | 1883. | | 1882. | |
|---|---|---|---|---|---|---|
| | This week. | Since Jan. 1. | This week. | Since Jan. 1. | This week. | Since Jan. 1. |
| Bombay | 23,000 | 23,000 | 8,000 | 8,000 | 17,000 | 17,000 |
| All other ports | 2,500 | 2,500 | 6,000 | 6,000 | 8,800 | 8,800 |
| Total | 25,500 | 25,500 | 14,000 | 14,000 | 25,800 | 25,800 |

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

| Alexandria, Egypt, January 2. | 1883-84. | | 1882-83. | | 1881-82. | |
|---|---|---|---|---|---|---|
| Receipts (cantars*)— | | | | | | |
| This week | 140,000 | | 140,000 | | 130,000 | |
| Since Sept. 1 | 2,052,000 | | 1,626,000 | | 2,117,350 | |
| | This week. | Since Sept. 1. | This week. | Since Sept. 1. | This week. | Since Sept. 1. |
| Exports (bales)— | | | | | | |
| To Liverpool | 13,000 | 142,000 | 9,000 | 125,000 | 17,000 | 131,000 |
| To Continent | 8,000 | 62,000 | 4,000 | 32,000 | 6,297 | 65,710 |
| Total Europe | 21,000 | 204,000 | 13,000 | 157,000 | 23,297 | 196,710 |

* A cantar is 98 lbs.

This statement shows that the receipts for the week ending Jan. 2 were 140,000 cantars and the shipments to all Europe were 21,000 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that the market is firm, with good demand at a slight advance in prices. We give the prices of to-day below, and leave previous weeks' prices for comparison.

East India Crop.—Messrs. Wallace & Co.'s Cotton Reports dated Bombay, November 30, furnishes the following: "Prospects continue unchanged. No further damage to the Oomrawuttee crop is reported, but dealers in this growth are still backward in selling. Samples are now coming in of Oomrawuttee and Hingenghat showing dark, leafy and stained cotton, but the quality of both is expected to improve very soon. Both the Dhollerah and Broach crops promise well, and, subject to favorable weather, good yields may be looked for this coming season."

Overland Movement to January 1.—In our editorial column will be found our overland movement brought down to the 1st of January.

Comparative Port Receipts and Daily Crop Movement.—A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1, 1883, has been as follows.

| Monthly Receipts. | Year Beginning September 1. | | | | | |
|---|---|---|---|---|---|---|
| | 1883 | 1882. | 1881. | 1880. | 1879. | 1878 |
| Sept'mb'r | 313,812 | 326,656 | 429,777 | 458,478 | 333,643 | 288,848 |
| October.. | 1,046,092 | 980,584 | 853,195 | 968,318 | 888,492 | 689,264 |
| Novemb'r | 1,030,380 | 1,024,697 | 974,043 | 1,006,501 | 942,272 | 779,237 |
| Decemb'r | 1,05 ,653 | 1,112,536 | 996,807 | 1,020,802 | 956,464 | 893,664 |
| Totalyear | 3,479,937 | 3,514,473 | 3,253,822 | 3,454,099 | 3,120,871 | 2,651,013 |
| Perc'tage of tot. port receipts Dec. 31.. | 58·38 | | 68·93 | 58 80 | 62·39 | 59·60 |

This statement shows that up to Dec. 31 the receipts at the ports this year were 34,536 bales less than in 1882 and 226,115 bales more than at the same time in 1881. By adding to the above totals to Dec. 31 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

| Percentage of total port rec'pts Jan. 4. | 60·68 | | 70·44 | 59·75 | 63·93 | 61·47 |

This statement shows that the receipts since Sept. 1 up to to-night are now 95,602 bales less than they were to the same day of the month in 1883 and 232,056 bales more than they were to the same day of the month in 1882. We add to the table the percentages of total port receipts which had been received to January 4 in each of the years named.

Jute Butts, Bagging, &c.—The market for bagging has not shown any change since our last report, and the demand is of a jobbing character. Sellers are firm, however, and nothing is to be had below quoted rates, which are 9¼c. for 1½ lb., 9¾c. for 1¾ lb, 10½c. for 2 lb. and 11¼c. for standard grades. Butts are steady though the demand is light, and only small lots are being taken. The transactions are about 1,000 bales, various grades, at 2¼@2⅝c. to arrive, and 2⅜@2¾c. on the spot, and these are the figures at the close. The stock on hand is 47,500 bales, and afloat 104,424 bales, making a total visible supply of 151,924 bales, as against 310,806 bales this time last year.

The Following are the Gross Receipts of Cotton at New York, Boston, Philadelphia and Baltimore for the past week, and since September 1, 1883:

Shipping News.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 134,473 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the Chronicle last Friday. With regard to New York, we include the manifests of all vessels cleared up to Thursday night of this week:

| | Total bales |
|---|---|
| New York—To Liverpool, per steamers Abyssinia, 2,922....City of Berlin, 1,071...City of Montreal, 2,547....Helvetia 1,149...Pavonia, 3,093 | 10,762 |
| To Hull, per steamer Otranto, 66 | 66 |
| To Havre, per steamer St. Laurent, 884 | 884 |
| To Bremen, per steamer General Werder, 500 | 500 |
| To Hamburg, per steamers Polynesia, 680....Wieland, 300. | 980 |
| To Rotterdam, per steamer Maasdam, 450 | 450 |
| To Antwerp, per steamer Pennland 1,150 | 1,150 |
| New Orleans—To Liverpool, per steamers Blue Jacket, 5,400....Eduardo, 4,000....Good Hope, 3,500....Gracia, 2,500 Rostormel, 6,000 | 22,000 |
| To Havre, per steamers Dupuy de Lome, 3,839....Nantes, 7,031....per ships Gustav A lo f, 4,165 .Lydia Skofield, 3,903....per barks Lady Russell, 2,852....Lincoln, 2,793....Sesti Dubrovacki, 1,957 | 26 540 |
| To Rouen, per steamer Anjer Head, 1,000 | 1,000 |
| To Bremen, per steamer Huntingdon, 5,253 | 5,253 |
| To Antwerp, per steamer Dupuy de Lome, 1,351 | 1.351 |
| To Barcelona, per bark Anacleta, 400 | 400 |

| Norfolk .... | 11,049 | ..... | ..... | ..... | ..... | ..... | ..... | 11,049 |
| Baltimore.. | ..... | ..... | ..... | 2,336 | 1,100 | ..... | ..... | 3.436 |
| Boston..... | 3,695 | ..... | ..... | ..... | ..... | ..... | ..... | 3.695 |
| Philadelp'a | 2,300 | ..... | ..... | ..... | 1,000 | ..... | ..... | 3.300 |
| Total | 78,593 | 66 | 28,424 | 19,826 | 5,051 | 400 | 1,253 | 134,473 |

Included in the above totals are, from Galveston to Christiana, 860 bales.

Below we add the clearances this week of vessels carrying cotton from United States ports, bringing our data down to the latest mail dates:

Galveston—For Liverpool—Dec. 29—Bark Latona, 1,818....Dec. 31—Ship Ceylon, 3,000.

New Orleans—For Liverpool—Dec. 28—Steamer Remembrance, 4,502....Dec. 29—Steamer Alvah, 4,865....Dec. 31—Steamer Archimedes 2,639.

For Havre—Dec. 23—Ship Charles, 5,238.....Dec. 29—Ship Scotia, 3,847; barks Bertha 3,954; Unita Parentia, 1,802....Dec. 31—Steamer Alexander Bixio, 4,200....Jan. 2—Bark Roma, 3,501.

For Bremen—Dec. 29—Steamer Ixia, 5,400.

For Barcelona—Dec. 31—Steamer Jose Baro, 2,228.

MOBILE—For Liverpool—Dec. 29—Bark Jedmuest Dubrovacki, 2,474.
SAVANNAH—For Liverpool—Dec. 29—Ship Vanduara, 5,138....Dec. 31—Steamer Harrogate, 6,089.
For Havre—Dec. 29—Bark Frida, 1,300.
CHARLESTON—For Liverpool—Dec. 29—Bark Vale, 1,331.
WILMINGTON—For Liverpool—Dec. 29—Bark Maury, 1,887....Dec. 31—Bark Eragon, 1,628....Jan. 2—Bark Hanna, 2,318.
For Amsterdam—Dec. 28—Brig Hermann Fredrich, 1,125.
NORFOLK—For Liverpool—Dec. 29—Steamer Tunstall, 3,235....Jan. 1—Steamer Nedged, 8,020....Jan. 2—Bark Hay Green, 1,893.
WEST POINT—For Liverpool—Dec. 28—Bark Johann Ludwig, 2,850.
BOSTON—For Liverpool—Dec. 28—Steamer Istrian, 782....Dec. 29—Steamer Missouri, 2,853.
BALTIMORE—For Liverpool—Dec. 28—Steamers Hibernian, 2,050; Lake Nepigon, 1,635.

**Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.:**

CELTIC, steamer (Br.), Glendell, from New York for Liverpool, was spoken Dec. 22d in lat. 41, lon. 64, under sail, with main shaft broken, by steamer Gellert (Ger.), which arrived at Plymouth Dec. 30th from New York. The captain of the latter vessel was unable to take the Celtic in tow, owing to bad weather, but he offered to take off her passengers and mails; the offer was declined.

QUEEN, steamer (Br.), before reported ashore at Nargen, was full of water on Dec. 10. On the 15th a snow storm prevented work and salvage boats returned to Reval. A dispatch received at London, 14th, from Neptun Salvage Company, dated Reval 13th, stated that 1,900 bales of cotton had been saved.

CLARA S., steamboat, of the Pool line, struck a snag in Tchula Lake, near Yazoo City, A. M. of Dec. 28, and sank in five minutes, with a cargo of 1,000 bales of cotton and 500 sacks of seed. No loss of life is reported.

**Cotton freights the past week have been as follows:**

LIVERPOOL.—By cable from Liverpool, we have the following statement of the week's sales, stocks, &c., at that port. We add previous weeks for comparison.

| | Dec. 14 | Dec. 21 | Dec. 28 | Jan. 4 |
|---|---|---|---|---|
| Sales of the week.....bales. | 52,000 | 51,000 | 36,000 | 71,000 |
| Of which exporters took .... | 2,200 | 4,800 | 2,000 | 4,200 |
| Of which speculators took.. | 1,450 | 1,070 | 540 | 1,624 |
| Sales American ..... | 38,500 | 38,000 | 28,000 | 50,000 |
| Actual export..... | 8,000 | 8,700 | 7,000 | 4,300 |
| Forwarded..... | 15,500 | 15,000 | 8,900 | 16,500 |
| Total stock—Estimated..... | 533,000 | 573,000 | 641,000 | 679,000 |
| Of which American—Estim'd | 324,000 | 358,000 | 415,000 | 443,000 |
| Total import of the week..... | 105,000 | 109,000 | 117,000 | 129,000 |
| Of which American..... | 76,000 | 82,000 | 97,000 | 87,000 |
| Amount afloat..... | 325,000 | 315,000 | 353,000 | 354,000 |
| Of which American..... | 273,000 | 265,000 | 283,000 | 279,000 |

The tone of the Liverpool market for spots and futures each day of the week ending Jan. 4, and the daily closing prices of spot cotton, have been as follows.

| Spot. | Saturday | Monday. | Tuesday. | Wednes. | Thursd'y | Friday |
|---|---|---|---|---|---|---|
| Market, 12:30 P.M. | Firm. | Holiday | Holiday | Good demand freely met | Firm. | Firm. |
| Mid Upl'ds | $5\frac{7}{8}$ | | | $5\frac{7}{8}$ | $5\frac{15}{16}$ | $5\frac{15}{16}$ |
| Mid. Orl'ns | $6\frac{1}{16}$ | | | $6\frac{1}{16}$ | $6\frac{1}{8}$ | $6\frac{1}{8}$ |
| Sales..... | 15,000 | | | 15,000 | 15,000 | 15,000 |
| Spec. & exp. | 1,000 | | | 1,000 | 1,000 | 2,000 |
| *Futures.* | | | | | | |
| Market, 12:30 P.M. | Quiet. | | | Steady. | Quiet. | Steady. |
| Market, 5 P. M. | Easy. | | | Firm. | Firm. | Steady. |

The opening, highest, lowest and closing prices of futures at Liverpool for each day of the week are given below. These prices are on the basis of Uplands, Low Middling clause, unless otherwise stated.

☞ *The prices are given in pence and 64ths, thus:* 5 62 *means* 5 62-64*d.*, *and* 6 03 *means* 6 3-64*d.*

## BREADSTUFFS.

FRIDAY, P. M., Jan. 4, 1884.

Flour has been quiet and at times weak, without showing any marked change in price. The demand, both for export and home consumption, has been so light that the bulk of the liberal receipts have been stored. The lower grades, suitable for export, have been the best sustained, the supply of these, especially No. 2 and superfine, being the least burdensome, while some decline in the rates for ocean freight room has been a slight encouragement to exporters. To-day the market was firmer, some grades being quoted higher than a week ago. The demand was better both for the local and the foreign trade, though the transactions showed no marked increase. Southern flour, in fact, was dull and not very steady.

Wheat has been quiet for export, notwithstanding the cheapness of ocean freight room, the foreign markets still being in an unfavorable state. There has been some trade with exporters who have had engagements to meet in British or Continental markets, but the aggregate transactions have been light, while the home trade has also been quite moderate. The speculation has been only fairly active, and prices have declined. The quantity afloat for Europe is 520,000 bushels less than a week ago, but the supply in Liverpool on the 1st instant was 7,000,000 bushels, against 4,993,000 at the same date in 1883, while the visible supply in this country shows a slight increase. Some days ago prices here became firmer under the influence of manipulations at Chicago, but to-day the continued dulness of the foreign trade caused renewed weakness, and prices declined ¼ to ½c, No. 2 red selling at $1 13⅝@$1 13¾ in elevator, and No. 3 at $1 02½@$1 02¾, though No. 1 brought $1 19. Spring wheat was quiet, and to a great extent nominal, though $1 20 was reported bid for No. 1 hard Duluth. White was dull and unsettled. No. 2 red for future delivery sold at $1 10¼@$1 11 for January, $1 12⅛@$1 13 for February, $1 14⅛@$1 14⅞ for March and $1 18⅛@$1 18¾ for May. The closing prices to-day were $1 09⅞ for January, $1 11¾ for February, $1 13¾ for March and $1 17¾ for May. These prices are 1@1½c. below those of a week ago.

Indian corn has been quiet as a rule for export, though on Thursday exporters, encouraged by the low rates current for ocean tonnage took 125,000 bushels Prices were at one time weak, but latterly, owing to a decrease in the receipts both here and at the West, they have taken an upward turn. The speculation, however, has not gone beyond moderate limits, partly owing to the fact that there have been two holidays during the week. To-day prices advanced ½ to 1¼c., owing to small arrivals here and at Chicago, the receipts, at New York being only 30,265 bushels. Heavy snowstorms at the West in the forepart of the week seem now to be interfering with the marketing of the crop; the thermometer at a few points there to-day was 40 degrees below zero. There is very little Western white or yellow corn here, and Southern corn is also in limited supply; the only white corn from the latter section now here is damp. No. 2 mixed sold to-day at 66c. in store, 65¾@66⅜c. for January, 66⅝@67⅛c. for February, 67⅝@67¾c. for March and 68⅝@69c. for May. The closing prices were 66¼c. for January, 66⅞c. for February, 67⅝c. for March and 68⅞c. for May. These prices are 1@1½c. higher than those of a week ago

Rye has sold moderately at prices showing no marked change. Barley has been quiet and nearly nominal most of the time, though yesterday 50,000 bushels of common Canada for feeding were sold for export to London. Oats have been moderately active at some advance in prices owing to a decrease in the receipts. The closing prices of No. 2 mixed were 40½c. for January, 41½c. for February, 42½c. for March and 43⅜c. for May.

The following are closing quotations:

| Duluth ..... | ..... | 4,000 | ..... | ..... | ..... | ..... |
| Tot. wk. '83 | 150,651 | 1,258,504 | 2,147,791 | 634,321 | 322,875 | 124,234 |
| Same wk. '82 | 260,371 | 1,500,638 | 2,540,236 | 1,759,340 | 533,803 | 99,047 |
| Same wk. '81 | 127,185 | 653,894 | 870,343 | 539,048 | 410,733 | 52,124 |
| Since Aug. 1— | | | | | | |
| 1883..... | 4,430,837 | 50,565,810 | 51,998,005 | 31,903,319 | 11,490,316 | 5,186,534 |
| 1882..... | 4,567,496 | 50,817,119 | 33,415,551 | 25,301,065 | 8,634,228 | 2,401,070 |
| 1881..... | 3,712,984 | 25,558,475 | 59,902,393 | 16,315,533 | 7,832,432 | 2,716,519 |

The comparative shipments of flour and grain from the same ports from Dec. 24, 1883, to Dec. 29, 1883, inclusive, for four years, show as follows:

| | 1883. | 1882. | 1881. | 1880. |
|---|---|---|---|---|
| Flour.....bbls. | 179,442 | 263,164 | 109,558 | 185,781 |
| Wheat.....bush. | 294,934 | 395,350 | 236,541 | 379,360 |
| Corn..... | 952,293 | 1,299,193 | 744,795 | 614,954 |
| Oats..... | 315,474 | 560,291 | 385,030 | 417,391 |
| Barley ..... | 117,351 | 223,998 | 212,938 | 178,016 |
| Rye ..... | 24,231 | 41,996 | 50,232 | 58,730 |
| Total grain .... | 1,704,283 | 2,520,828 | 1,629,536 | 1,648,451 |

The exports from the several seaboard ports for week ending Dec. 29, 1883, are shown in the annexed statement:

| *Exports from—* | *Flour.* | *Wheat.* | *Corn.* | *Oats.* | *Rye.* | *Peas.* |
|---|---|---|---|---|---|---|
| | *Bbls.* | *Bush.* | *Bush.* | *Bush.* | *Bush.* | *Bush.* |
| New York | 62,965 | 166,933 | 219,655 | 425 | 26 011 | 8,444 |
| Boston.. | 33,309 | 24,000 | 67,478 | ..... | ..... | ..... |
| Portland. | 2,500 | ..... | 52,663 | ..... | ..... | 31,557 |
| Montreal. | ..... | ..... | .... . | ..... | ..... | .... . |
| Philadel.. | ..... | ..... | 1,030 | ..... | ..... | ..... |
| Baltim're | 918 | 151,289 | 17,500 | ..... | ..... | ..... |
| N.Orl'ns | 830 | 9,585 | 94,816 | 13 | ..... | ..... |
| Total w'k. | 100,522 | 351,877 | 453,141 | 438 | 26,041 | 40,001 |
| S'me time 1882.. | 244,358 | 1,236,099 | 575,591 | 2,174 | 61,569 | 62,355 |

The destination of these exports is as below. We add the corresponding period of last year for comparison:

| *Exports for week to—* | *Flour.* | | *Wheat.* | | *Corn.* | |
|---|---|---|---|---|---|---|
| | 1883. *Week, Dec. 29.* | 1882. *Week, Dec. 30.* | 1883. *Week, Dec. 29.* | 1882. *Week, Dec. 30.* | 1883. *Week, Dec. 29.* | 1882. *Week, Dec. 30.* |

## THE DRY GOODS TRADE.

FRIDAY, P. M., Jan. 4, 1884.

Operations in dry goods during the early part of the week were exceedingly light, both Monday and Tuesday having been practically observed as holidays in commission circles. Since then there has been a fair influx of package buyers from the South and Southwest, and their presence has imparted a little more animation to the market. Most of the lately-arrived buyers have, however, bought sparingly as yet, their purchases having been mainly restricted to such goods as are imperatively required for the renewal of assortments. Spring and summer fabrics have met with some attention from local and out-of-town jobbers, and there are indications of a more active business in this connection shortly, but thus far transactions have been moderate in the aggregate. The movement on account of back orders was rather more active, fair deliveries of cotton and woolen goods, shirting prints, white goods, hosiery, &c., having been made by manufacturers' agents.

DOMESTIC COTTON GOODS.—The exports of domestics for the week were 4,754 packages, including 2,190 to China, 1,614 to Great Britain, 429 to Chili, 201 to U. S. of Colombia, 159 to Brazil, 131 to Hayti, &c. The demand at first hands was light and irregular, and the jobbing trade moderate. Some fair sales of colored cottons, as denims, stripes, checks, &c., were effected by agents by means of slight concessions in price, but brown sheetings were mostly quiet, and bleached goods have not displayed much animation, in spite of the low figures at which many makes are being offered. Cottonades were more sought after, but buyers are taking hold lightly. White goods were in fair request and an improved business was done in Marseilles and crochet quilts. Print cloths ruled quiet at 3 7-16c. for 64x64s and 3-16c. for 56x60s respectively, at which figures the market closed steady. Prints were a little more active, fair sales of shirtings and light fancies having been made to buyers for remote sections of the country. Prices of light prints have not been definitely determined upon, but Eddystone and Simpson's prints have been opened at 6c., being ½c. below last season's figures. Ginghams were quiet in this market, but some fair orders for dress styles, chambrays, seersuckers and staples were placed with salesmen on the road.

DOMESTIC WOOLEN GOODS have as a rule been very quiet in the hands of both agents and jobbers, and the main features of the market are unchanged. Clothing woolens were lightly dealt in by the manufacturing trade, aside from worsted coatings and satinets, in which a moderate business was reported in some quarters. Cloakings were generally slow, and there was a good deal of irregularity in the demand for Jersey cloths. In flannels, blankets and shawls, there was no movement of importance, but some fair orders were placed for Brussels, tapestry and ingrain carpets—for early delivery. Worsted and all-wool dress goods continued in fair request, with most relative activity in spring cashmeres, buntings and staple worsteds.

Wool hosiery and knit underwear were slow of sale, and prices are low and unsatisfactory to manufacturers.

FOREIGN DRY GOODS.—Apart from certain makes of white goods and Hamburg embroideries adapted to the wants of the manufacturing trade, imported goods have been quiet in first hands and sluggish with jobbers. New importations of spring and summer goods are arriving by every steamer, but assortments will be incomplete for a fortnight to come, and no material improvement in the demand for foreign fabrics is looked for until buyers have made their purchases of domestic goods.

### Importations of Dry Goods.

The importations of dry goods at this port for the week ending Jan. 3, 1884, and since January 1, and the same facts for the corresponding periods of 1883, are as follows:

| | ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1884, AND THE SAME TIME IN 1883. | | | | | | | |

## Publications.

**THE GREATEST LIVING** Authors, such as Prof. Max Muller, Jas. A. Froude, Prof. Huxley, Right Hon. W. E. Gladstone, R. A. Proctor, Edward A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, Professor Goldwin Smith, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, Geo. MacDonald, Mrs. Oliphant, Jean Ingelow, Thos. Hardy, Francis Galton, W. W. Story, Matthew Arnold, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

LITTELL'S LIVING AGE.

During the forty years of its publication THE LIVING AGE has met with continuous commendation and success.
A *Weekly Magazine*, it gives more than
**THREE AND A QUARTER THOUSAND**
double-column octavo pages of reading matter yearly. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Serial and Short Stories, Sketches of Travel and Discovery, Poetry, Scientific, Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.
It is therefore invaluable to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—indispensable because it embraces the productions of
**THE ABLEST LIVING WRITERS**
in all branches of Literature, Science, Politics and Art.
"We know of no equal to THE LIVING AGE for variety of information, depth of interest, and purity of tone. Its pages are sufficient to keep any reader abreast with the best printed thoughts of the best of our contemporary writers. It is the great eclectic of the world."—*Episcopal Register, Philadelphia.*
"It flourishes in even more than youthful vigor. It has become indispensable."—*New York Observer.*
"Its readers are supplied with the best literature of the day. * * * "There is nothing noteworthy in science, art, literature, biography, philosophy, or religion, that cannot be found in it * * * It gives in accessible form the best thought of the age."—*The Churchman, New York.*
"It becomes more and more necessary as the field of periodical literature broadens."—*Zion's Herald, Boston.*
"No other periodical gives so diversified a view of current literature, not by abridgments, but by publishing entire the best essays, criticisms, discussions, short stories, and serial romances of the day. * * * It is for readers of limited leisure or purse the most convenient and available means of possessing the useives of the very best results of current criticism, philosophy, science, and literature."—*Presbyterian Banner, Pittsburg.*
"Through its pages alone it is possible to be as well informed in current literature as by the perusal of a long list of monthlies.'—*Phila. Enquirer.*
"Whatever there is of interest in the literary and scientific world is spread before its readers."—*Boston Journal.*
"No reader who makes himself familiar with its contents can lack the means of a sound literary culture."—*New York Tribune.*
"It furnishes a complete compilation of an indispensable literature."—*Chicago Evening Journal.*
"Remarkably cheap for the quality and amount of reading furnished."—*Montreal Gazette.*
"It is by odds the best periodical in the world."—*Morning Star, Wilmington, N. C.*
Published WEEKLY at $8 00 a year, *free of postage*, or,
For $10 50 THE LIVING AGE and any one of the American $4 Monthlies (or *Harper's Weekly* or *Bazar*) will be sent for a year, postpaid; or for $9 50 THE LIVING AGE and the *St. Nicholas*, or *Lippincott's Monthly*. Address,
**LITTELL & CO., Boston.**

### *THE FINANCIAL SITUATION.*

In trade circles, the week has not developed any new feature. Failures since the 1st of January have as yet been less frequent than the prevailing fears had estimated them, and business, though quiet, is making fair progress. Still, there are evidences throughout the entire country of impeded activities and sharp economies, indicating a smaller volume of traffic in the months to come. There is as yet no diminution in the visible supply of wheat, and no indications of an enlarged foreign demand; but the arrivals of breadstuffs at Western markets have fallen off, some claiming that it is a sign of exhaustion, while others insist that it is simply a result of the heavy snowstorms. In the meantime, our exports continue small and foreign exchange is marked up.

With such an outlook commercially, it is not surprising that Congress is attracting unusual attention, and in the absence of any real progress towards legislation, even rumors and hints as to the opinions of committeemen are read with no little solicitude. This, though perhaps unreasonable, is natural, for never can we remember when, in the opinion of conservative classes, so much depended upon the action of Congress as now. As is only too evident, all business is under a cloud, and yet our taxes are unnecessarily oppressive, the basis of our currency is threatened by the continued coinage of silver, and our bank currency is contracting under the sure process of an accumulating surplus. Even leaving out the question of taxation, no one of our readers needs to be told that uncertainty as to the future volume or value of our currency interferes with a free recovery in business. We do not mean that in a country like ours such a condition is certain to prevent recovery, for even a very sick man of great recuperative power may get well while violating the laws of health. But as contraction or depreciation unsettles values, a fear of either obviously obstructs a healthy reaction. Congress cannot too closely study the situation or too quickly provide relief.

So far as Wall Street is concerned, there appears to have been this week a disposition on the part of the operators for a rise, to cut loose from all these uncertain and unfavorable surroundings, both commercial and financial, and put up prices. There is one feature of decided strength to that market which is more and more obvious as the weeks progress. That is to say, experience has put the bears into a very nervous, timid state, and as the burnt child dreads the fire, so they seem to live in constant fear of a "twist." As a matter of fact they have not made much money for several months, except perhaps by the fall of the Villard stocks. Their views of the market have undergone no change, but it is their nerves that are affected, so that they rush to cover almost as fast as fresh lines are put out. To be sure, there is now all the time one fact standing against them, to wit, an oversold market with the stocks in the hands of strong holders. Conscious of this and of their bitter experience, every little demonstration on the part of the bulls puts the whole craft in a flutter.

One of these movements has been in progress the past week. Its operation and results are wholly outside of the greater influences which are affecting all business. The special facts of the week have tended rather to the disadvantage of prices. Among these, the rumors and facts connected with the pooling arrangements have been most disquieting. Eastern and Western associations seem now to be alike unsettled. There is a chance, of course, if not a probability, that the disagreements will be patched up, for while the managers of the roads are such large holders of stocks of their respective companies, anything impairing the value of the properties will, if possible, be most carefully avoided. In this direction is the report that at the meeting in this city of the Trunk line pool on Thursday, the rates which earlier in the week were reduced by the

Commissioner to the lowest cut figure were restored again. The disciplining of the Lackawanna by cutting off its Western connections next Monday is a severe measure, and it remains to be seen what will be the result. Should it succeed, it would afford important evidence of the strength of the pool, and the trunk line disagreements would then soon be settled. That there is a prospect of such an ending is believed by many, since otherwise it is thought the stocks of the roads would have indicated a rupture, for the managers would know it and could not conceal it. Still, all that is of doubtful significance, and, besides, it will soon be known by the event whether the differences are capable of harmonious adjustment.

Another indication which has been unfavorably interpreted is the falling off in earnings shown by many of the returns now coming to hand. It should be remembered, however, that the stock market has already discounted very liberally the largest possibility of unfavorable developments in the future, and as to any continued decrease perhaps it would be well to make some allowance also for a reduction in expenses under the lower cost of materials, &c. In addition to our monthly review in another column, we have reports from the West for the first week in January, 1884, from the Chicago & Northwestern, the Chicago Milwaukee & St. Paul, the St. Paul & Omaha, and the Chicago & Alton, all of which show lower totals than a year ago. One reason for the falling off is that extremely cold weather retarded shipments, but this remark loses some of its force when we recall that the previous year was distinguished in much the same way, and that some of the roads here mentioned had a decrease then, to which the present decrease is additional. Some traffic, however, was undoubtedly delayed, and to that extent this is an encouraging feature for the future, when the existing embargo shall have been removed.

Whatever may be the outcome of the present year, however, there is no denying the fact that reports covering the past year's business continue very encouraging. The latest received is that of the Philadelphia & Reading to November 30. And this makes a wonderfully good exhibit. Remembering that it is less than four years since the property was thrown into the hands of receivers, and that scarcely eight months have elapsed since the receivership was ended, the results disclosed must be an agreeable surprise to even the closest friends of the enterprise. We have all of us been a little inclined to make some allowance for Mr. Gowen's buoyant temperament in dealing with that gentleman's hopeful estimates of the future, but facts surely speak for themselves. The exhibit before us tells us that while in 1882 the operations of the combined companies (railroad and coal) resulted in a surplus of $882,941 above all charges and expenses, in 1883 this surplus was raised to $2,157,233, a gain of $1,274,292. In other words, the surplus is sufficiently large to pay, should the directors see fit, a dividend of 7 per cent upon the preferred stock (of small amount) and of 6 per cent upon the ordinary stock and yet leave a small balance ($57,634). Of the 1¼ million increase in surplus, $633,482 represents profit derived from the operation of the Central of New Jersey from June 1 to November 30 (a half year), and the remainder profit made in the ordinary way. For three out of the six months during which the Central of New Jersey was worked, the Reading did not have to meet any dividends on the stock of the lessor company, otherwise the profit from the lease would have been only about one-half what it is. And as to the favorable result on all the lines, this is due entirely of course to the exceptionally heavy output of coal and the maintenance of the price o the same, without which circumstances the present showing would have been impossible. In view of this fact, and of the present less promising outlook for general business, the suggestion is pertinent whether, after all, it would not be more prudent to await further developments before making any distribution to stockholders.

The decline in New York West Shore & Buffalo bonds has been another leading feature of the week. The most reasonable explanation is that the cost of the road largely exceeded the estimates and the North River Construction Company became so embarrassed as to be unable to make further advances. They attempted to realize upon their holding of bonds and stock which they had received from time to time, and as there was no market for anything except the bonds—the stock not being listed at the Exchange—these were pressed for sale. At the same time the supply became excessive by reason of forced sales by individuals who were embarrassed by operations in other properties, notably the Villards, and also by the sale of $14,750,000 new bonds in anticipation of their being listed at the Stock Exchange. The decline was aided on Thursday by reports that the accounts between the Construction Company and the railroad were being settled preparatory to a severance of the relations between the two companies, and that when this was done a new mortgage would be arranged so as to provide funds for the completion and equipment of the road. Undoubtedly many of the statements regarding this property are exaggerations for the purpose of unsettling confidence and producing an unfavorable effect on the market. The report with regard to the issue of a second mortgage has already been denied.

In the properties with which Mr. Villard has been chiefly identified there have been some developments deserving of mention. At the Northern Pacific meeting a statement was presented showing that the company had earned net $2,211,293 during the last six months of 1883, and that, according to estimate, it would earn $3,127,000 more during the first six months of 1884, making $5,338,293 for the fiscal year ended June 30 next, while the charges for interest, &c., would be only $3,882,341, so that as a result there would remain a balance close on to a million and a half dollars. That, of course, is a good exhibit. But as Mr. Oakes, the Vice-President, bases his estimate for the second half year on gross earnings of $7,050,000, against only $6,638,983 for the first half, it may be a little too favorable. Of course the road was not open its entire length during the whole of the period from July to December, but then the second half year comprises the severest of the winter months, and has always produced less favorable results than the first half. For instance, in the late fiscal year the company earned $4,324,398 gross during the first six months, and only $3,531,061 during the second six months, a decrease of nearly $800,000. We also observe that while actual expenses from June to December 1883 are reported as having been $4,427,690, for the six months of 1884 to June 30 Mr. Oakes estimates they will be only $3,923,000, or $500,000 less, and this on a business assumed to be $400,000 greater. Mr. Oakes doubtless has sound reasons for making a reduction (probably the policy of retrenchment put in force, gives us one of those reasons), but without an explanation of some kind the change is open to misconception. An undoubtedly satisfactory feature in the statement is that while $3,882,341 are required for interest, &c., during the full year, the company has already earned $2,211,293 net during the six months which have elapsed.

Another event of the week has been the placing of a loan for $8,000,000 by the Oregon & Trans Continental Company to provide for that company's floating indebtedness. The loan is secured by a deposit with the Farmers' Loan & Trust Company of 90,000 shares of Oregon Navigation stock and 90,000 shares each of the common and preferred stocks of the Northern Pacific. It is reported that the 8 millions borrowed is divided into 18 blocks of $437,500 each, secured by a deposit of 5,000 shares of each of the stocks already mentioned, and that the holders of these blocks have the privilege of paying themselves during July, August and September next, by taking one-half the stock pledged, the shares on this basis being put in at par for the Oregon Navigation stock, 50 for Northern Pacific preferred, and 25 for Northern Pacific common. If this is true, the question presents itself, what would be the position of the Oregon Trans-Continental should the holders of the trust certificates avail themselves of the privilege offered. Of course, the company would be relieved of 8 millions debt, but it would hold 45,000 shares less of each of the stocks in trust than it now holds. In other words, instead of 152,027 shares of Oregon Navigation stock, it would have only 107,027 shares (some 13,000 shares less than enough to give absolute control of that organization), and instead of 301,634 shares of Northern Pacific common and preferred stocks it would hold only 211,634 shares. In connection with the Villard properties, we would also note the determination of the Oregon Navigation Company to place a new mortgage on its property for $14,280,000, six millions to be used to retire the existing debt, and $1,200,000 to be set aside for the 8 per cent scrip outstanding, leaving about 7 millions to be used for other purposes. The placing of this mortgage is significant as marking a change in the company's policy of supplying its needs for new construction, etc. Heretofore all the money required has been raised on new issues of stock offered to stockholders at par, the capital having been increased from 6 millions to 24 millions in this way, while the bonds were kept unchanged at 6 millions. The large premium commanded by the stock offered an inducement to stockholders to subscribe for the new capital, but now that the premium has substantially vanished, that mode is impracticable, and hence resort is made to an additional issue of bonds.

Foreign exchange continued strong until yesterday, when there were larger offerings and a reduction in rates. The demand has been partly speculative, bankers buying long sterling intending to hold it until it becomes short, thus realizing about 3 per cent per annum for their money, and taking the risk of a decline in rates within sixty days. There is also a good inquiry for bills to remit for West India accounts due in London, and a somewhat urgent demand for bills with which to cover speculative sales made sixty days ago when the indications pointed to a more liberal movement of cotton and breadstuffs. The supply is very light, the cotton shipments showing a large falling off and the export of grain being checked by speculation. Bankers regard a further advance as possible but not probable. It is difficult to see how speculators can much longer carry the load of grain which they have in store, especially when the price is steadily declining and the staple deteriorating, the latter fact being shown by the posting this week at the Produce Exchange of over 500,000 bushels of wheat which had been partially destroyed by weevil and rotting. The following shows relative prices of leading securities in London and New York at the opening each day.

* Expressed in their New York equivalent.
† Reading on basis of $50, par value.

Money on call has not risen above 2½ per cent, and the majority of the loans have been at 1½ and 2, with 1 as the lowest. The disbursements by the Treasury continue liberal and the domestic exchanges at Western points are in favor of this centre, so that the banks are accumulating reserve. It is now reported that the Secretary of the Treasury will issue a call for $10,000,000 bonds to mature about March 15. The following statement, made up from returns collected by us, exhibits the week's receipts and shipments of currency and gold by the New York banks.

| Week Ending Jan. 11, 1884. | Received by N.Y. Banks. | Shipped by N.Y. Banks. | Net Interior Movement. |
|---|---|---|---|
| Currency..... | $2,027,000 | *$1,096,000 | Gain. $931,000 |
| Gold..... | 45,000 | 30,000 | Gain. 15,000 |
| Total gold and legal tenders..... | $2,072,000 | $1,126,000 | Gain. $946,000 |

* $270,000 of this was transferred in the shape of silver certificates by a deposit of gold in the Sub-Treasury.

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement, the banks have gained $2,700,000 through the operations of the Sub-Treasury. Adding that item therefore to the above, we have the following, which should indicate the total gain to the New York Clearing House banks of gold and currency for the week covered by the bank statement to be issued to-day.

| Week Ending Jan. 11, 1884. | Into Banks. | Out of Banks | Net Change in Bank Holdings. |
|---|---|---|---|
| Banks' Interior Movement, as above | $2,072,000 | $1,126,000 | Gain. $946,000 |
| Sub-Treasury operations, net ..... | 2,700,000 | ..... | Gain. 2,700,000 |
| Total gold and legal tenders.... | $4,772,000 | $1,126,000 | Gain. $3,646,000 |

The Bank of England report shows a gain of £45,000 bullion for the week. This represents £256,000 received from the interior and £211,000 exported. The Bank of France lost 3,450,000 francs gold and 4,650,000 francs silver, and the Bank of Germany since our last shows a decrease of 3,240,000 marks. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

| | Jan. 11, 1884. | | Jan. 12, 1883. | |

*HOW MANY TRADE DOLLARS ARE THERE?*

A question seems still to be troubling some minds as to the advisability of redeeming at par and recoining trade dollars. This proposition has been lifted into respectability by Secretary Folger advocating it in his last report to Congress. Of course the speculators, who mainly hold them, will soon press their case at Washington, if they are not already doing it, and it is possible that it may receive a favorable hearing. But before committing one's self to that side of the question, there seems to be a very important point which any prudent representative, whatever be his views as to silver, will seek light upon. We refer to the quantity or number of these dollars that are still outstanding and now waiting for redemption.

We are led to this inquiry because the estimates lately put out by Government officials find no confirmation whatever in Government statistics. Mr. Folger states, "it is "believed," that our people now hold no more than "five to eight millions" of these dollars; and of the portion which still remains abroad he adds, "the presumption is," for reasons which he gives, "that an embarrassing amount will not come upon "us." The fair inference, perhaps, from these suggestions would be that in the Secretary's opinion a little over eight millions is the extreme limit of the provision which will be required, if any provision is made to redeem at par. At all events, whether or not the Secretary meant to be so understood, that figure is the outside total which is generally favored by Government officials and others who advocate the policy of redemption and re-coinage. In fact, this week it has been stated in the Herald by one of its Washington correspondents, that Representative Bland had just had an interview with Mr. Burchard, Director of the Mint, and the latter expressed it as his opinion that there were only five or six millions of these coin out. We do not know whether Mr. Burchard is accurately reported in that statement, but we have good reason for believing that his opinion does not differ very materially from that given.

One needs to be very careful in accepting these opinions, since this is a point upon which any legislator would obviously prefer to err in over-estimating rather than under-estimating. In the first place we are trembling even now under a load of silver dollars; would it not therefore be a bold man who would jump into this process of re-coinage without first obtaining pretty accurate knowledge of the extreme dimensions of the job? Or if it is determined to redeem them simply—how reckless and inexcusable it would be in Congress to act before it was made perfectly clear what was the outside limit of the appropriation needed. The draft on the Treasury in excess of official expectations which the pension law amendment is causing, forcibly suggests to any committee the importance of being doubly cautious in accepting such estimates when they involve an appropriation. Our mints have coined $35,959,360 of these dollars. Is it five, eight or twenty millions that are now waiting to be redeemed —that is the question first to be settled; and if the latter amount, the proposition is obviously a much graver problem, than if only the small sum of five or six millions, as Mr. Burchard is reported to have said, so remains.

Coming, then, to an analysis of the evidence bearing upon the question, we find in the first place that Mr. Folger bases his calulation on the supposition that "five-sixths of the coinage" went abroad in the beginning and that but little came back. Here are two statements which, if the Secretary has been rightly informed, ought to be susceptible of proof; and if they are not susceptible of proof we cannot but reject them in this discussion. It is, as we have seen, too serious a question in its possible results, to allow one to accept any estimate except the broadest. Possibly the authority for those figures is a former official who is so clever as to be able to tell the number of trade dollars each wily Chinaman has taken in his pocket when he has revisited his home. Be that as it may, turning to the Government import and export figures of coin, there seems not only nothing of fact to support either statement, but a contradiction of them. Until the fiscal year of 1877–8 there was no attempt made in the Government returns to distinguish between foreign and American coin. Up to the close of the previous year, June 30, 1877, the mint had turned out $24,581,350 of the trade dollars; the first were in 1874 when the amount was $3,588,900, in 1875 it was $5,697,500, in 1876 it was $6,132,050, and in 1877 it was $9,162,900. With then a trade dollar coinage of a little over 24½ millions from 1874 to 1877 inclusive, the silver coin imports and exports for the same period were as follows.

| *Silver coin, fiscal years 1874 to 1877.* | *Imported.* | *Exported.* | *Excess of Exports.* |
|---|---|---|---|
| New York | $11,823,230 | $15,206,183 | $3,383,253 |
| San Francisco | 14,017,997 | 29,072,911 | 15,054,914 |
| Other ports | 4,8 4,440 | 1,453,940 | −3,410,500 |
| Total, 1874-'77 | $30,705,667 | $45,733,334 | $15,027,667 |

Here is a summary which plainly indicates that up to June 30, 1877, the statistical reports afford no justification for the statements that the trade dollars had all been exported and none returned; for it shows a net export of only 15 millions, against a trade dollar coinage of 24½ millions. Of course these figures include the movement of subsidiary silver, and to that extent (small in amount we should judge) not capable of being analyzed. But if we assume that all foreign coin which came in went out again, which presumptively is a fair assumption, especially since the trade dollar a part of the time was worth more here than even its bullion value, and decidedly so in 1877, when $9,162,900 were coined, and therefore would be retained if either was—on that assumption we say, which seems to us to be fair, the stock of trade dollars in the country on June 30, 1877, would be somewhere about (even allowing 2½ millions for return of subsidiary silver and foreign coin melted) 7 million dollars. Thus up to that date (1877) there is not only no evidence in these trade figures to support the Secretary's statements, but a presumption of their inaccuracy.

Besides we are not left to mere presumption on this point, since we have in corroboration some positive evidence. In the Mint report for the year ending June 30, 1877, the Director states (on page 13) "that the trade dol-"lar has of late entered to some extent into domestic cir-"culation, and this for the reason that from time to time "since United States notes have appreciated nearly to par "with gold, holders of silver bullion have been able to "have the same manufactured into these coins and ex-"change them at par for United States notes with a small "profit." Mr. Secretary Sherman in his report dated December 3 (page XX.) of the same year (1877) is much more explicit, for he asserts that in October it had become so "apparent that *there was no* "*further export demand for trade dollars*, but that "deposits of silver bullion were made, and such "dollars were demanded of the Mint for circu-"lation in the United States," that he temporarily suspended the coining of them, as the mints were then fully occupied on the subsidiary silver which at the time was being issued and substituted for the fractional currency. Here, then, we have two officers of the Government very plainly asserting that in 1877, when we made the large

coinage of $9,162,900, the export demand had substantially stopped, and the dollar was being used here as currency. Furthermore, if we will bear in mind that not only was there at this time a decided profit in bringing these coins home from the East, and setting them afloat here as currency, but that this condition was also clearly foreseen before it was realized, it will be admitted that the imports of silver coin during 1877 (when the total imports reached the large aggregate of $9,797,616) must have included quite an amount of trade dollars.

This was the condition at the close of the year 1877. But too much profit was to be realized at that date in this coinage operation to let it quietly sleep, so our clever silver kings in the fiscal year 1878 again induced the Government to coin trade dollars, and it was continued until the total number for that year reached $11,378,010. The excuse for this resumption was an increased demand "on the Pacific coast for Chinese new year settlements." But subsequently it "transpired" (so the Government report reads) "that trade dollars manufactured under this author-"ization were not all shipped to China, but the larger "portion were transported to the Mississippi Valley as "well as to the Eastern States, and there placed in circula-"tion," and hence the coinage was again suspended. The amount not exported must, of course, be added to our home stock of trade dollars as it stood in 1877.

Turning now to the figures for silver coin imports and exports during the years subsequent to 1877, we find still other evidence that the total to be redeemed has been greatly under-estimated. In considering this foreign movement we should not overlook the decline in the value of silver bullion which had then taken place, for it caused our dollars to be received with less favor in the East as well as increased the profit on their import and circulation here. These forces could not help resulting in their being sought for and sent to the United States as rapidly as they could be collected. In confirmation, we give the following statement of the shipments and receipts of silver coin made up from the Bureau of Statistics reports during the years 1878 to 1883 inclusive.

UNITED STATES IMPORTS AND EXPORTS OF SILVER COIN.

* Excess of exports.

The above shows that for the period covered by this table the movement resulted in a net import of $14,907,735. And here we wish to remark that so far as the imports of silver coin are concerned no reliance whatever can be placed upon the division above made between American and foreign. This is not in the least the fault of the officials in charge, but is a necessary result of the circumstances themselves. In the first place the consignee has no interest whatever in being particular about describing the different kinds of coin sent, and furthermore in this case it was to the advantage of both the consignor and consignee to keep the extent of the trade dollar movement concealed. Had the country known how rapidly they were being imported, they might not have been absorbed into the circulation so freely, or the Government might have made a more active opposition to their use.

That all of these trade dollars that could be gathered up were imported, is further evident from the circumstance that Mexican dollars began to arrive in such considerable quantities that the Government even issued a circular pointing out in plain terms that they could not be used in the United States, and that in no sense were they a legal tender. This circular discredited the coin, and put an immediate check upon the effort to get them into circulation, so they passed out of the country again. In referring to this movement, the Director of the Mint in his report for 1878 stated that "*after trade dollars could no longer be procured* "to be placed in domestic circulation, money dealers and "speculators imported Mexican silver dollars to a large "extent and placed them in circulation," &c. This statement only represents the prevailing opinion of that period as to the inducement existing to pick up the trade dollar for shipment here, and the effect it had in sending them to the United States. The presumption must be that the above *net* total of $14,907,735 is almost wholly made up of American coin, since, with silver bullion at say 51d. per ounce (near which it ruled during all the period covered by the last exhibit), none other would be worth keeping or melting here.

We have thus suggested some of the leading points which will help one to make up a fairer estimate than now prevails of the number of trade dollars in existence here and awaiting the action of Congress. First, we have the amount coined in 1877 and 1878 ($20,540,910), which the Director of the Mint and the Secretary of the Treasury in those years stated was largely kept at home for circulation—a necessary conclusion, from the facts (1) that much of the time it was very profitable to do so, and (2) from the first month of those two years that condition of profit was seen to be rapidly approaching by the gradual appreciation of our paper currency. Next we have the imports so marked a feature, especially for the years 1878 to 1881 inclusive, drawn here first by the prospective, and after that by the assured, large return the consignors secured for their venture. And finally we have the knowledge of almost every individual as to the very important part in our circulation these trade dollars held previous to the time they were discredited, for they were everywhere present, and in most places extremely abundant. Altogether, then, it seems a moderate estimate to say that 20 millions of those dollars are still in existence, the most of which are to-day held by speculators who are already pressing their claims upon Congress.

## *RAILROAD EARNINGS IN DECEMBER, AND FROM JANUARY 1 TO DECEMBER 31.*

The December statement of earnings is not so satisfactory as have been the returns for other recent months. The figures continue above those of a year ago, but in

amount and ratio the gain recorded is quite moderate. What makes the smaller gain particularly noticeable is that the comparison is with a month in 1882 itself noted in the same way—that is to say, December, 1882, did not show a very large amount of increase. The gain then was only a trifle over 6 per cent, and this year is but 4 per cent. If, however, neither 1883 nor 1882 has shown much increase, in 1881 the gain was very heavy, and it is gratifying to note that the improvement since then has been continuous at least.

The influences operating upon railroad receipts have been general rather than special. Chief among these must be mentioned the existing depression in business, which has become an unfavorable feature even in the West, the section until recently less affected than any other in this respect. As a result we again note a decrease in passenger earnings in the case of a few isolated roads (the only ones reporting) and have no doubt that in many instances also there has been a diminution in the volume of general and miscellaneous freight. As far as the grain movement is concerned, the receipts at the Western towns show that while in some of the cereals there has been a falling off, the aggregate of all was much the same as in 1882, though of course individual roads may have been favorably or unfavorably affected, according as they carry chiefly this cereal or that. In cotton there has been on the whole a smaller volume than in December, 1882, but here, too, the result is not alike in all sections, and some of the ports even exhibit an increase. We have seen it stated that cold weather was quite a drawback this year in some parts of the West and Northwest with the railroads, but that remark applies, we think, more particularly to the early days of January (rather than the closing days of December), as there have been no direct complaints from the roads reporting to us for December. In the following table, giving earnings and mileage of each road, the effect of the various influences at work can be studied.

* Three weeks only of December in each year.
† For 28 days only of December each year.

Northwestern roads are not this time noted for their gains. Neither were they in 1882. The Chicago & Northwestern loses $20,000, after having lost $29,000 a year ago. The loss for the fourth week of the month is reported to have been $151,700, but that is due to the fact that the actual receipts last December (1882) exceeded the estimated by $108,000, and the company has apparently added the whole of this amount to the figures for the last week. On the ordinary basis the loss would have been only about $43,000. Still, it remains true of this road, as well as almost all others in the same section, that the last week this year was the least favorable of the month. In some instances, as in the case of the Burlington Cedar Rapids & Northern and the St. Paul & Omaha roads, where our table shows an increase for the month, this is only because of gains made in the early weeks, the last week recording a falling off. The Milwaukee & St. Paul exhibited an increase all through the month, but in the last week the increase was hardly more than nominal in amount. The St. Paul's gain ($186,000) for the month, however, is in addition to a gain of $110,000 in 1882, while the Northwest last year lost $29,000, as already stated, and the Omaha road lost as much as $68,000, which latter, it will be seen, was more than made good this year. The influence of the grain movement upon the earnings of these roads may be seen from the following table of the receipts of flour and grain at the leading lake and river ports of the West for the four weeks ended December 29. It will be noticed that Chicago and Milwaukee both had very large receipts of wheat, which must have been a favorable feature with all the Northwestern roads, while both points exhibit a falling off in the item of corn, which, however, was not of equal importance to all roads, and not unlikely affected the lines further south—say Rock Island and Burlington & Quincy—more than any others.

RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDED DECEMBER 29.

Roads like the Indiana Bloomington & Western, the Lake Erie & Western, the Ohio Southern, the Cincinnati Washington & Baltimore, the Cleveland Akron & Columbus, and the St. Louis & Cairo, which lie in the district afflicted with poor crops, all exhibit a falling off in earnings. The lines running north from the Ohio River —either to Chicago or in that direction—exhibit an increase in one or two instances. Thus the Peoria Decatur & Evansville gains $12,856, or about $3,000 more than it lost in December, 1882, and the Chicago & Eastern Illinois gains $831, which, however, possesses little significance in view of the loss of $12,000 the previous December. The figures of the Evansville & Terre Haute are nearly alike in 1882 and 1883, but in the year first mentioned there was a decrease of about $3,000. It is, however, the Illinois Central on its main line (among this class of roads) that makes relatively the least favorable showing. We find here a decrease of $52,864, in addition to a similar decrease of $10,000 on that division in December, 1882, and this despite the fact that the road carried 10,902 bales of cotton north from Cairo in 1883, against only 5,495 bales in 1882, and but 887 bales in December, 1881.

The roads running southwest from Chicago and St. Louis (except where affected by the diminished yield of cotton in Texas) make probably a better showing than any others in our list, and these same roads had heavy gains a year ago, so that their present increase is all the more noteworthy. The Chicago & Alton (running to St. Louis and Kansas City) had an increase of no less than $54,000 in December, 1882, and this year retains it all and adds $31,000 more to the amount. The St. Louis & San Francisco showed a gain of $52,000, and now further improves upon this to the extent of $81,000. The Wabash records over $186,000 increase for the month, but had only a small increase in December, 1882. Its gain this year is larger than that of any other road in our list except the Northern Pacific. The Central Branch of the Union Pacific (operated by the Missouri Pacific) records an augmentation of $33,500, in addition to the augmentation of $34,500 a year ago. On the Missouri Pacific, as now reported, we have a decrease of $21,000, but as this includes the result on the Iron Mountain road, we cannot tell how much of the decrease occurred on the Missouri Pacific proper. The combined roads gained over $206,000 in December, 1882, so that their present exhibit (in view of the diminished amount of cotton traffic offering to the Iron Mountain road) is not unsatisfactory. On the Missouri Kansas & Texas (including the International & Gt. Northern) there is a loss of $39,000, but this is on a gain of nearly $250,000 on the combined roads in 1882. In this case we know that the loss in 1883 is on the lines of the International & Great Northern road, and is due to the smaller yield of cotton in Texas. The Texas & Pacific in the same State however makes a moderate improvement, which is the more significant that its earnings in December, 1882, recorded nearly $240,000 increase. The Gulf Colorado & Santa Fe, which is not in the Gould system, has a loss, we understand, but a year ago gained $101,000. In Arkansas we have the return of the Little Rock & Fort Smith, and this shows a loss of over $18,000, or more than 20 per cent. Last year the road had a gain of about $21,000. To show the part played by the cotton movement in affecting the earnings of these as well as other Southern roads, we give below the following table of the receipts of the staple during the month this year and last, premising the figures with the remark that though the aggregate receipts are smaller than in 1882, they are 100,000 bales greater than in 1881.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN DEC., 1883 AND 1882.

| | 1883. | 1882. | Difference. |

| Total..... | 978,055 | 1,021,889 | Dec.... 43,834 |

The falling off at Galveston here noted reflects the diminished yield of cotton in Texas. It will be observed that at the Atlantic ports, too, there is a heavy falling off —in the case of Charleston larger even than at Galveston. This affords evidence of how very short the cotton crop is in South Carolina this year. The effect of this contraction in the principal item of freight upon the business of some of the roads in that State, is shown in the case of the South Carolina Railroad, which reported earnings of only $124,820 in November, 1883, against $151,681 in November, 1882—the December figures not yet having come to hand. At New Orleans there was a very heavy increase in the receipts of cotton in December, but the water route (Mississippi River and its tributaries) supplied the greater part of this. On the Southern line of the Illinois Central, indeed, there is quite a falling off, that road having brought only 81,036 bales of cotton to New Orleans in Dec., 1883, against 102,096 bales in Dec., 1882. This explains that road's falling off in earnings. To what extent the smaller cotton movement on this line is chargeable to the competition of new roads, we do not know, but it is a remarkable fact that the New Orleans & Northeastern, which has only just been opened for business, carried no less than 32,014 bales to the Crescent City in December. This road brings a large section of Mississippi into more direct connection with New Orleans, and should therefore be of great benefit to that city. Mobile, like New Orleans, had larger cotton receipts in December, 1883, than in December, 1882, but the gain is almost entirely on the Mobile & Montgomery division of the Louisville & Nashville, and not on the Mobile & Ohio, which delivered about 500 bales less at that port than in the previous year, and whose earnings for the month record a falling off of about $16,000.

With the exceptions mentioned, Southern roads in general make very good exhibits. The Louisville & Nashville has only a small increase, but the East Tennessee and the Norfolk & Western both record decided improvement over a year ago, notwithstanding a smaller cotton traffic in their district, as reflected in the diminished receipts of the staple at Norfolk. The same remark also applies to the Chesapeake & Ohio, with its allied road the Elizabethtown Lexington & Big Sandy. The Richmond & Danville has a moderate gain, which falls considerably short of covering the loss of a year ago. Of the two Florida roads in our table, one shows quite a gain and the other a small loss.

On the east and west trunk lines there is reason to believe the showing is not altogether favorable to the present year. These lines, unlike those in other sections of the country, had an exceptionally heavy business during the closing months of 1882, and the conditions having been less encouraging during the same months of 1883, it is only natural that earnings should reflect the change. In reviewing the statement of the Lake Shore, two weeks ago, we showed that that road had been sustaining diminished receipts of late, and our table above makes it clear that the Grand Trunk of Canada has been affected in the same way, as

during the four weeks of December this year it has lost no less than $144,000, this being the only one of the trunk lines east from Chicago from which we get weekly returns.

Among roads in other sections of the country it will be noticed that the Michigan lines are not faring as well as heretofore, all of them recording a decrease in December. The Denver & Rio Grande has quite a large gain for the month, and it is clear that under the tripartite arrangement recently concluded in the West the position of this road has assumed greater importance than before. The Oregon & Navigation Company has this time a very handsome gain in gross, which also extends to the net. In the East the Long Island shows a small decrease, and the Eastern of Massachusetts still keeps steadily mounting upward.

With December we have the calendar year complete, and our table below comprises the full twelve months in both 1883 and 1882. Though the past year has not been favorable to the development of general business, the depression in our industrial interests having steadily gained force to the end, and though the distrust engendered by the uncertainty as to the future has discouraged any but the most ordinary ventures, railroad earnings continued to make noteworthy improvement on preceding years. Indeed, if we had railroad receipts as the only basis for forming an opinion of the year's business, we should be forced to conclude that 1883 had been a very profitable period to all classes of our people. But as it is notorious that quite the reverse is true of the year's results, the increasing business of the railroads can only be explained on the theory that the volume of trade has been fully kept up, and that only profits have been unsatisfactory. And this is in fact the feature that has characterized and distinguished 1883. The downward movement in prices which has been in progress since 1881 not having been preceded by a financial revulsion, like that of 1873, has led merchants and manufacturers to look for momentary signs of a sharp reaction and recovery, and inclined them not to contract operations to the extent they otherwise would have done. At the same time, under this general disposition to regard the existing depression in business as merely temporary and soon to give way to a more satisfactory state of things, the longed-for upward reaction in prices has been deferred, since production was not being restricted in a corresponding ratio to the enforced restriction in consumption, and thus the margin of profit grew steadily less, and business became in truth decidedly unsatisfactory. Of course, the only remedy is in establishing a proper equilibrium, and as the year drew to its close there were signs that the remedy was being applied, with the result of a curtailment in the volume of business, which in some cases unfavorably affected railroad receipts. The same circumstances also caused a falling off in the passenger movement of some roads during the late months of the year.

As relates to the volume of agricultural produce, the railroads had, as a rule, a large tonnage pretty nearly the whole year through. The crop of wheat in the States of Ohio, Indiana and Illinois, was very short, while in 1882 it had been quite large, so it happens that on the railroads traversing this territory earnings have heavily fallen off since the harvest, and nearly all the lines that show a decrease for the year in the table below are in that district. There was also a reduction in the yield of corn in certain districts, but this had comparatively little effect upon railroad earnings, since only a small amount of the new crop usually comes forward before the 1st of January, up to which time we draw our supplies from the crop of the year previous. On the great east and west trunk lines the first six months of the year made an exceptionally favorable exhibit, since the comparison was with a period of low rates and small crops in the year preceding, but in the last half the comparison was with one of the best half-year periods these roads ever had, and diminished receipts on many of them in 1883 consequently followed. Northwestern roads were adversely affected by bad weather early in the year and recorded a decrease, but this was more than recovered in the succeeding months, and after that, up to December, they made very heavy gains indeed, so that in point of improvement on the year preceding they lead all other roads in our list. Southern and Southwestern roads make excellent exhibits, having been favorably influenced by the large yield of cotton in 1882, and the diminished yield of 1883 not having exerted much of an adverse effect till just as the year was closing, and only partially then. The year, it should be said, was not marred by any railroad wars of magnitude. There were local disturbances in almost all sections of the country, but in no case did they reach the dignity of a "war." With these remarks we give the following table.

GROSS EARNINGS FROM JANUARY 1 TO DECEMBER 31.

* Three weeks only of December in each year.
‡ 28 days only in December each year.
§ Includes St. Louis Iron Mountain & Southern in both years.
‖ Includes International & Great Northern in both years.
*a* Including pool earnings.

Our table of net earnings now covers November and the eleven months of the year to November 30. As heretofore, the statement is on the whole very satisfactory. The Chicago Burlington & Quincy and the Atchison Topeka & Santa Fe are conspicuous for their large gains, but Southern roads, too, deserve mention for the improvement they record. The Pennsylvania, Northern Central and Philadelphia & Reading likewise do well. The Union Pacific

made a small gain in November, which leaves its loss for the year the same as it was a month ago. Without particularizing further, we give the figures below in full in our usual form.

GROSS AND NET EARNINGS TO LATEST DATES.

## *ENGLAND AND EGYPT.*

At last the uncertainty which has attached to the Egyptian difficulty has been removed. We now know what the British Government intends to do. The apparent indecision of Mr. Gladstone and his colleagues was undoubtedly producing a bad effect; and a little longer delay might have led to fresh disaster in the Nile Valley. Wisely enough, we think, they have decided against sending any expedition to the Soudan, while they are resolved that no harm shall be allowed to befall Lower Egypt from El Mahdi, or from any other source. England, it appears, is not unwilling that Turkey should undertake the conquest of the Eastern Soudan, provided she does so at her own expense; but Egypt is no longer to be allowed to waste her resources and her energies in fruitless efforts in the Upper Country.

The immediate result has been a change of government in Egypt. Cheriff Pasha has retired, and a new ministry, with Nubar Pasha at its head, has been fully organized. Thus the administration is placed in perfect accord with the policy of England. Nubar Pasha has long since been convinced that the Soudan was a millstone about the neck of Egypt, and that it was a real hindrance to her progress. With the change of ministry quiet has been restored. The Khedive has, by accepting the situation, shown himself to be a man of much sounder sense than some recent sensasational reports would have had us believe. Whatever may be his private feelings, he knows he is in England's hands; and he very wisely bows to her authority, preferring to regard his own interests and the interests of England as identical. The recruiting of black troops has been discontinued, and arrangements are being made for the withdrawal of Egyptian troops from the Soudan region.

Mr. Gladstone deserves credit for the coolness he has shown at this very critical juncture. What with the excitement in England itself, the bitter attacks of the opposition press, the ill-concealed intrigues of French adventurers and politicians, and the hostile and offensive attacks of certain French journals, most men in his position would have been tempted into another warlike demonstration in Egypt, and would have alike gratified personal ambition and national vanity by draining the public purse. All this must be said out of justice to his consistency of character and to his integrity of purpose. A man less under the influence of noble convictions, who cared less for truth and right in the abstract, and who had less regard for the impartial judgment of history, would have seized the opportunity to reconstruct England's relations to Egypt, to rectify what was imperfect in the existing arrangement, and to connect his name with the final settlement of a question for which, after all, no matter how long delayed, there is but one solution.

At the same time while all this is true, and while Mr. Gladstone does well enough in doing his best to present a contrast to those statesmen who have gone before him, and an example to those statesmen who may come after him, it seems to us in this case that he is resisting the inevitable. It is England's interest to have absolute control of the Delta of the Nile. It has been her interest—her growing interest—ever since she became a power in the Indian Peninsula. Latterly, what was merely desirable and needful has become an absolute necessity. England must have Egypt. All the world knows it and admits it. Mr. Gladstone himself knows and admits it. But the foreign policy he has adopted has been allowed from the first to stand in the way of England's necessity. It stood in the way of his undertaking the war against Arabi Pasha. It stood in the way and marred a settlement which England needed, and which all the world expected, after the rebellion was subdued. It stands in the way now, and prevents him from taking advantage of this new opportunity, and of making an end of the whole difficulty—by annexation, or in some other way, assuming the direct management of the country. Is not Mr. Gladstone in all this a victim to his own policy? He has certain convictions of right and wrong; he has said and done certain things; and to be consistent with himself he fights against the inevitable, and even against his own better knowledge. His course of policy towards Egypt has been acquiesced in by the English people, partly because they honor the man and partly because they know that nothing can prevent Egypt from finally falling into their hands. They are patient, and in their confidence as to final events they almost seem ir different.

It is reasonable enough to conclude that the attitude of firmness at last assumed by England will deter the Mahdi from making any hostile demonstrations north of the first cataract. The presumption is that the English force in

Egypt proper will be considerably strengthened; and if the prophet should venture to make an appearance in the Lower Country, we can have no doubt as to the result. England is now pledged to the protection of the Khedive and all his interests; and it is doubtful if El Mahdi will be foolish or daring enough to allow himself to come into contact with such a power. One good result will follow from the assurance which England has given. The mercantile interests of the country, which have been languishing because of the uncertainty and insecurity which prevailed, will revive; and confidence having been restored, and money and enterprise having again been let loose, Egypt will enter upon a new lease of prosperity. It is noteworthy that both Arabi Pasha and the new Prime Minister, Nubar Pasha, are of the same opinion as to the value of the Soudan; Egypt, in their judgment, will be a gainer without it. "Chinese Gordon" is of the opinion that while Egypt should abandon Darfur and Kordofan, she should retain possession of Eastern Soudan, for the reason that disaffection might cross into Arabia, and thus give birth to general trouble. With a powerful fleet in the Red Sea, and with Suakim strongly garrisoned, danger from this source is not to be greatly feared.

With the opening of Parliament the Ministerial policy in Egypt will come up for consideration. It will no doubt be bitterly attacked. But inasmuch as no new expenses of any great amount will be incurred, and as no British interests have been sacrificed or seriously imperilled, the Government will be sustained. It is all the more likely to be sustained that it will have become patent to every one, that although Egypt has not yet been made a portion of the British Empire, it is fast nearing that point.

## *FAILURES IN* 1883, 1882, 1881, 1880, 1879 *AND* 1878.

Below we give in full the table of mercantile failures from 1878 to 1883 inclusive, as prepared by the Mercantile Agency of R. G. Dun & Co. This was intended for insertion last week, but the crowded state of our columns prevented its appearance. Still we make room for it to-day, as it will be needed for future reference.

[From our own correspondent.]

LONDON, Saturday, Dec. 29, 1883.

This has been quite a broken week, and nothing has transpired in any department to call for special remark. The more prominent feature seems to be that the money market is closing with a very easy appearance, and that there are, in consequence, strong indications of low rates of discount early in the new year. The applications at the Bank of England have not, up to the present time, been in any way pressing. There is, indeed, no sign of pressure as the end of the year is approached, borrowers having already made considerable preparations. During the last two or three days the demand for discount accommodation has been falling away. The quietness of business generally is restricting still more the supply of mercantile paper, and, although there is a moderate export inquiry for gold, it is difficult to see how a decline in the open market rates of discount is to be avoided early in the new year.

The reserve of the Bank of England is now 39·83 per cent, against 43·09 per cent last week and 36 per cent last year. The principal features in this week's return are an increase of £1,449,319 in "other securities" and a diminution of £663,536 in the total reserve, due chiefly to a falling off of £531,871 in the supply of bullion. The total of "other securities" is, however, £3,000,000 below that of last year, it being £21,763,507 against £24,796,176 in 1882. The supply of bullion amounts to £21,566,273, against £20,395,245, and the reserve to £12,325,738, against £10,452,056 last year.

The following are the quotations for money and the interest allowed by the discount houses to-day and same day of the previous five weeks:

| London | Bank rate. | Open market rates. Bank Bills. Three Months | Four Months | Six Months | Trade Bills. Three Months | Four Months | Six Months | Interest allowed for deposits by Joint Stock Banks. | Disc't H'ses At Call. | 7 to 14 Days. |

| Eng. wheat, av. price | 39s. 2d. | 41s. 6d. | 44s. 4d. | 42s. 8d |
| Mid. Upland cotton | 5¾d. | 5 7/8d. | 6¾d. | 6¾d. |
| No. 40 mule twist | 9⅝d. | 10d. | 10⅜d. | 10⅜d. |
| Clearing-House ret'n. | 69,847,000 | 73,523,000 | 85,666,000 | 70,368,000 |

The Bank rate of discount and open market rates at the chief Continental cities now and for the previous three weeks have been as follows:

| Rates of Interest at | Dec. 27. Bank Rate. | Dec. 27. Open Market | Dec. 20. Bank Rate. | Dec. 20. Open Market | Dec. 13. Bank Rate. | Dec. 13. Open Market | Dec. 6. Bank Rate. | Dec. 6. Open Market |
|---|---|---|---|---|---|---|---|---|
| Paris | 3 | 2⅞ | 3 | 2⅝ | 3 | 2½ | 3 | 2⅝ |
| Berlin | 4 | 3½ | 4 | 3½ | 4 | 3½ | 4 | 3 |
| Frankfort | — | 3½ | — | 3⅜ | — | 3⅜ | — | 3⅜ |
| Hamburg | — | 3⅜ | — | 3⅜ | — | 3⅜ | — | 3 |
| Amsterdam | 3½ | 3½ | 3½ | 3¼ | 3½ | 3¼ | 3½ | 3¼ |
| Brussels | 3½ | 3¼ | 3½ | 3¼ | 3½ | 3¼ | 3½ | 3¼ |
| Madrid | 5 | 5 | 5 | 5 | 5 | 5 | 5 | 5 |
| Vienna | 4 | 4 | 4 | 4 | 4 | 4 | 4 | 4 |
| St. Petersburg | 6 | 6¼ | 6 | 6¼ | 6 | 6¼ | 6 | 6¼ |

In reference to the state of the bullion market during the past week Messrs. Pixley & Abell remark:

Gold—Further demands for South America and Lisbon have caused the withdrawals of £363,000, sovereigns, from the Bank of England. We have no arrivals to report. The P. & O. steamer has taken £1,200 to Alexandria.

Silver—In consequence of the holidays, shipments to India had to be made on Monday, 24th inst., instead of the 26th, and 50 15-16d. per oz. was paid for bars that could be sent away by that opportunity. There are steamers now due from the River Plate, Chili and the West Indies, with a considerable amount. There are no arrivals to report. The P. & O. steamer has taken £49,700 to Bombay.

Mexican Dollars—49 15-16d. per oz. has been paid for shipment next week, but we quote the price to-day at 49⅞d. per oz.

The quotations for bullion are reported as below:

| | Price of Gold. Dec. 27. s. | d. | Dec. 20. s. | d. | | Price of Silver. Dec. 27. d. | Dec. 20. d. |
|---|---|---|---|---|---|---|---|
| Bar gold, fine....oz. | 77 | 9 | 77 | 9 | Bar silver, fine..oz. | 50 15-16 | 50⅞ |
| Bar gold, contain'g 20 dwts. silver..oz. | 77 | 10½ | 77 | 10½ | Barsilver, containing 5 grs. gold..oz. | 51 5-16 | 51⅛ |

| Ger. gold coin...oz. | ..... | | ..... | | | | |

The failure is announced at Antwerp of the banking firm of Messrs. Ghislain, Cahn, Painvin & Drion. The liabilities are stated to be 10,000,000 francs, and the assets 4,000,000 francs.

An issue is announced of £1,500,000 in 75,000 shares of £20 each at par by the Nizam's Guaranteed State Railways Company, limited, being part of £2,000,000 authorized to be raised for the undertaking. Interest at the rate of 5 per cent per annum is guaranteed for 20 years by the Nizam's Government. The company is formed for the purpose of acquiring and working the existing Nizam's State Railway from Wadi, on the Great Indian Peninsula Railway, to Hyderabad and Secunderabad, now in the possession of and worked by her Majesty's Indian Government; and for the purpose of constructing and working new lines of railway, the first section from Hyderabad to the southern frontier of the Hyderabad State, at a point near Bizwada, and the second section from Warangul to the northern frontier of the State, at a point near Chanda. It is arranged that the company are to receive from the Government of India and take over and work for 99 years the existing line from Wadi to Hyderabad and Secunderabad, and to construct, maintain and work for 99 years a line on the gauge of 5ft. 6in., from Hyderabad to Warangul, and thence to the southern frontier, near Bizwada, as well as a line from Warangul to the northern frontier near Chanda.

The wheat trade during the week has been at a complete standstill. The enormous visible supply in the United States the ample, if not excessive, stocks here, and the liberal tity of produce afloat, are quite sufficient to keep the trade depressed, and any immediate improvement is still very doubtful. The weather if very unseasonable—very mild and foggy.

The following quantities of wheat, flour and India corn, are estmated to be afloat:

| | At present. | Last week. | Last year. | 1881. |
|---|---|---|---|---|
| Wheat.....qrs. | 1,924,000 | 1,915,000 | 2,195,000 | 2,823,000 |
| Flour | 240 000 | 255,000 | 217,000 | 118,000 |
| Indian corn | 318,000 | 263,000 | 103,000 | 215,000 |

The extent of the sales of home-grown wheat, barley and oats in the leading markets of England and Wales during the first seventeen weeks of the season, together with the average prices realized, is shown in the following statement:

| SALES. | 1883. | 1882. | 1881. | 1880. |
|---|---|---|---|---|
| Wheat.....qrs. | 1,145,412 | 841,665 | 806,691 | 728,104 |
| Barley | 1,679,335 | 1,083,999 | 846,475 | 950,510 |
| Oats | 203,870 | 82,523 | 103,495 | 71,264 |

The following are the average prices for the season (per qr):

| | 1883. s. d. | 1882. s. d. | 1881. s. d. | 1880. s. d. |
|---|---|---|---|---|
| Wheat | 40 7 | 41 4 | 47 6 | 41 6 |
| Barley | 33 2 | 34 8 | 34 1 | 34 0 |
| Oats | 19 11 | 20 10 | 20 11 | 21 7 |

Converting qrs. of wheat into cwts., the totals for the whole kingdom are estimated as follows:

| | 1883. | 1882. | 1881. | 1880. |
|---|---|---|---|---|
| Wheat*.....cwt. | 16,545,000 | 14,675,600 | 13,982,700 | 12,620,000 |

*This aggregate is arrived at by multiplying the sales in the 187 markets above by 3⅓, and that result is reduced to cwt. by multiplying it by 4½. This proportion between the 187 markets and the totals for the kingdom is adopted by the London grain trade and is accepted by it as producing a result approximately correct.

The following statement shows the extent of the imports of cereal produce into the United Kingdom during the first seventeen weeks of the season, the average price of English wheat, the visible supply of wheat in the United States, and the estimated supplies of wheat and flour afloat, compared with previous seasons:

IMPORTS.

| | 1883. | 1882. | 1881. | 1880. |
|---|---|---|---|---|
| Wheat.....cwt. | 20,899,495 | 23,872,097 | 20,878,532 | 21,455,171 |
| Barley..... | 7,908,106 | 6,641,348 | 5,075,343 | 5,783,965 |

LONDON, Saturday, December 22, 1883.

As is usual at this period of the year there has been no great activity in any branch of business, but, on the whole, a steady tone has prevailed. General business has been undoubtedly quiet, and there has been some inactivity in the discount market. Outside, the quotations have scarcely varied, and the Bank rate of three per cent has not yet been reached. That may possibly be the case next week; but the movement is likely to be of a very temporary character, as the supply of floating capital is still large. The two colonial loans which have been tendered for by the public during the week have proved to be successful, the amounts required having been more than adequately covered. There were at one period some doubts as to their success, as the colonial governments have been piling up debt rather freely of late years. The present loans are understood to have been very well placed with the public, and it may therefore be regarded as a fact that colonial borrowings are not looked upon by investors as exorbitant. The scrip of the new loans has risen in value on the Stock Exchange to a slight premium, and is being dealt in to a fair extent.

The Bank of England return is less favorable, the proportion of reserve to liabilities having declined to 43⅛ per cent. Compared with last year, however, the position is more satisfactory, notwithstanding that some rather important quantities of gold have been taken out of the establishment for exportation. Over £300,000 in gold coin has been withdrawn for exportation to South America, Egypt and Lisbon, and the falling off in the note circulation is very trifling. About £122,000 in gold coin has been returned from the provinces, and the total reserve shows an increase of only £5,000. The next two or three returns will naturally exhibit changes peculiar to the season of the year, and probably the Bank's position will be scrutinized early in the new year, before fresh mercantile or financial operations are indulged in by the community.

Annexed is a statement showing the present position of the Bank of England, the Bank rate of discount, the average quotation for English wheat, the price of consols, the price of middling upland cotton, No. 40 mule twist, fair 2d quality, and the Bankers' Clearing House return, compared with the three previous years:

The Treasury balance at the Bank of England now reaches the prominent total of £8,420,000, which is larger than in any previous recent year. A large amount of imperial tax is due on January 1, and the annual financial statement is being looked forward to with more than usual interest. A reduction in the income tax would be regarded with great favor, as it is a heavy burden on the public.

Tenders were opened on Tuesday at the London & Westminster Bank for £4,837,500 Cape 5 per cents, and the applications amounted to £6,500,000. Tenders at £98 1s. received in full, and those at £98 0s. 6d. about 25 per cent. The minimum price fixed was 98.

The loan for New South Wales was for £3,000,000, and was a very complete success, the applications reaching a total of £7,593,100. Tenders at £100 13s. received in full, and those at £100 12s. 6d. 96 per cent. The minimum price was par.

The money market has been comparatively quiet, and the rate for short loans is not more than 3 per cent. Time bills have been in some demand for the Continent, and, consequently, the market has lost a little of its firmness.

The wheat trade is in a very inactive condition, and the only business doing is to supply actual wants. Stocks are large, and importations fully equal to our wants. There is no material change in prices.

The Board of Trade returns for November and the eleven months ended November 30, have been issued. They do not show any distinct change in the position of our trade; but there is an increase of about £1,600,000 in the value of our importations for the month, and of £25,200,000 for the year. This is evidently an indication of the great wealth of the country, more especially as there is a large increase in raw materials, such as wool, jute and hemp. There is, however, a large falling off in the imports of cotton. As far as our export trade in British and Irish produce and manufactures is concerned, there is a small falling off, both for the month and year but our re-exports have, in many cases, been large, especially of wool. The exports of railroad iron to India and Australia have been considerable, a fact which is partly due to the recent colonial loans. The following are the leading particulars of imports and exports:

IMPORTS.

| | 1881. | 1882. | 1883. |
|---|---|---|---|
| | £ | £ | £ |
| Imports in November..... | 34,269,784 | 34,901,910 | 36,526,437 |
| Imports in 11 months..... | 362,278,030 | 376,431,902 | 391,615,801 |
| EXPORTS. | | | |
| Exports in November..... | 20,713,164 | 20,292,948 | 20,551,698 |
| Exports in 11 months..... | 213,773,957 | 223,305,665 | 220,858,642 |

The following figures relate to the eleven months ended November 30:

CHANGES IN LEGAL TENDERS AND NATIONAL BANK NOTES TO Jan. 1.—The Comptroller of the Currency has furnished us the following, showing the amounts of national bank notes outstanding Dec. 1, together with the amounts outstanding Jan. 1, and the increase or decrease during the month; also the changes in legal tenders held for the redemption of bank notes up to Jan. 1:

| | | |
|---|---|---|
| *National Bank Notes—* | | |
| Amount outstanding Dec. 1, 1883..... | | $350,175,977 |
| Amount issued during Dec..... | $1,177,010 | |
| Amount retired during Dec ..... | 1,600,053 — | 423,043 |
| Amount outstanding Jan. 1, 1884*..... | | $349,752,934 |
| *Legal Tender Notes—* | | |
| Amount on deposit to redeem national bank notes Dec. 1, 1883 ..... | | $36,152,101 |
| Amount deposited during Dec..... | $4,796,396 | |
| Amount issued & b'nk notes retired in Dec. | 1,647,653 — | 3,148,743 |
| Amount on deposit to redeem national bank notes Jan. 1, 1884 ..... | | $39,300,844 |

* Circulation of national gold banks, not included above, $729,894.

According to the above the amount of legal tenders on deposit Jan. 1 with the Treasurer of the United States to redeem national bank notes was $39,300,844. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

| Deposits by— | Sept. 1. | Oct. 1. | Nov. 1. | Dec. 1. | Jan. 1. |
|---|---|---|---|---|---|
| | $ | $ | $ | $ | $ |
| Insolvent bks | 942,024 | 870,651 | 850,131 | 838,927 | 701,103 |

| Reduc'g und'r act of 1874. | 20,980,857 | 22,374,087 | 21,685,538 | 22,236,913 | 25,352,998 |
| Total ..... | 35,973,256 | 36,821,501 | 35,756,308 | 36,152,101 | 39,300,844 |

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show an increase in dry goods and a decrease in general merchandise. The total imports were $8,061,980, against $7,413,394 the preceding week and $10,354,526 two weeks previous. The exports for the week ended Jan. 8 amounted to $6,413,607, against $5,432,515 last week and $8,241,372 two weeks previous. The following are the imports at New York for the week ending (for dry goods) Jan. 3 and for the week ending (for general merchandise) Jan. 4; also totals since the beginning of first week in January:

FOREIGN IMPORTS AT NEW YORK.

| For Week. | 1881. | 1882. | 1883. | 1884 |
|---|---|---|---|---|

| Total 1882..... | 225,239 | 225,239 | 14,708 | 14,708 |

Of the above imports for the week in 1884, $3,735 were American gold coin and $4,700 American silver coin. Of the exports during the same time $28,106 were American gold coin.

—The Ætna of Hartford, the largest of our fire insurance companies, has just issued its sixty-fourth annual statement, which will be found in the advertising columns of the CHRONICLE. The company's growth in financial strength keeps pace with its years; its assets at the close of 1883 being $9,192,643, and the net surplus $3,269,457, both of these items showing a gain over the figures as given one year ago; and this is made notwithstanding the fact that the year 1883 was notoriously one of heavy losses to the insurance companies.

Auction Sales.—The following, seldom or never sold at the Stock Exchange, were sold at auction this week by Messrs. Adrian H. Muller & Son.

NEW YORK, FRIDAY, JANUARY 11—5 P. M.

**The Money Market and Financial Situation.**—In financial affairs the most prominent event of the week has been the break in the price of New York West Shore & Buffalo 5 per cent bonds from 66⅞ last Friday, the 4th, to 57½ on Thursday, the 10th, though recovering to 60¼ on Friday afternoon, the 11th. The transactions in them during the week have been enormous, aggregating not less than $11,000,000, of which about $3,000,000 was on Thursday, the 10th, and about $4,500,000 on Friday. The occasion of the rush to sell was in the facts that on Thursday the West Shore Company listed on the Stock Exchange the remaining $14,750,000 of the total issue of $50,000,000 bonds, and that at the meeting of the stockholders on Wednesday no provision was made for the payment of the deficiency of from $5,000,000 to $7,000,000 in the cost of the road over the amount actually raised.

The plethora of unemployed money in this market becomes more apparent now that it is increased by the interest and dividend disbursements incident to the beginnning of the year. Just at present it is also being increased by the fact that the interior exchanges have this week been more decidedly in favor of New York. These features, together with the reported probability of a call for the redemption of $10,000,000 more of United States bonds on March 15th, have given us a superabundance of money not only in the immediate present, but also prospectively for some time to come.

A few weeks or so ago there were some indications of a growing confidence in railway mortgages, and a prospect that a great deal of the capital held out of employment would find investment in that channel. But the recent developments in connection with the Oregon & Trans-Continental Company and the New York & New England, together with the apprehension that the unexplained condition of the West Shore and North River Construction companies, might eventually result in a default of interest on the West Shore bonds, have made a temporary slight renewal of the feeling of distrust, and the owners of capital have again fallen back upon loans on collaterals for the use of their money. The result is the lowest rates of interest ever known at this season of the year. Throughout the week the rate for call loans on stock collaterals has scarcely been above 2 per cent, and at times has been down to 1½ and even 1 per cent. Time loans on the best stock collaterals can be had for 60 days or four months at 4 and 4½ per cent. The rates for mercantile discounts are also lower, being from 4 to 5 per cent for first-class double name paper for 60 days and four months, and from 5 to 6 per cent for the best single name paper for the same periods.

The last weekly statement of the New York banks reflected the above-mentioned conditions of the market by an increase of $9,157,200 of deposits and an increase of $1,463,000 in the surplus reserve, the total excess over the required 25 per cent being now $8,211,950, against $4,636,225 at this time last year.

The Bank of England weekly statement showed a gain of £45,000 in specie. At the same time, the reserve of the Bank was increased from 34⅛ per cent to 36½ per cent. The Bank rate of discount remains unchanged at 3 per cent. The Bank of France weekly statement showed a loss of 3,450,000 francs in gold and 4,650,000 francs in silver. The Bank of Germany shows a gain of 3,240,000 francs in specie.

The following table shows the changes from the previous week and a comparison with the two preceding years:

| | 1884. Jan. 5. | Differences fr'm previous week. | 1883. Jan. 6. | 1882 Jan. 7. |
|---|---|---|---|---|
| Loans and dis. | $331,355,000 | Inc $3,819,300 | $317,419,200 | $319,110,400 |
| Specie | 62,877,600 | Inc. 2,408,900 | 60,152,800 | 61,514,000 |
| Circulation | 14,706,700 | Dec. 750,100 | 17,537,600 | 20,200,0 0 |
| Net deposits | 329,950 200 | Inc. 9,157,200 | 302,881,100 | 299 500,400 |
| Legal tenders | 27,822.50 | Inc. 1,343,400 | 20,204.700 | 16 6 8 8 0 |
| Legal reserve | $82,487,550 | Inc $2,289.300 | $75.720,275 | $74,875,100 |
| Reserve held | 90.693,500 | Inc 3,752,300 | 80,357,500 | 78.192 800 |
| Surplus | $8,211,950 | Inc $1,463,000 | $4.636,225 | $3,317,700 |

**Exchange.**—The New York market for sterling has been unsettled by a spasmodic demand for bankers' bills for the settlement of balances and by the scarcity of commercial bills against exports of grain and provisions, which have shown a notable decrease in the last few weeks. A week ago the posted rates were 4 83 and 4 86. During the week they were advanced to 4 84½ and 4 87, but on Friday, the 11th, were 4 84 and 4 86½. The rates for actual business on Friday were as follows, viz.: Sixty days, 4 83@4 83½; demand, 4 85¾@4 86; cables, 4 86¼@4 86¾. Commercial bills, 4 81½@4 82½.

**United States Bonds.**—Government bonds have been stronger again during the past week, and the 4s are to-day ⅛@¼ higher than on last Friday.

The closing prices at the N. Y. Board have been as follows:

| | Interest Periods. | Jan. 5. | Jan. 7. | Jan. 8. | Jan. 9. | Jan. 10. | Jan. 11. |

* Includes $2,000,000 gold certificates put into cash.
† Includes $518,000 gold certificates taken out of cash.
‡ Includes $2,000,000 gold certificates put into cash.

**State and Railroad Bonds.**—The general market for railroad bonds was strong during the first half of the week, and the general tendency was toward increased activity and higher prices. On Wednesday, however, the movement to sell West Shore 5 per cents, which had been increasing, grew into unusually large proportions, and the rapid decline in their prices affected the rest of the bond market to a slight extent. Nevertheless, the majority of the leading issues show slight fractional gains, though the amount of business in the last two days has been of small volume. The following shows the range of fluctuations for the week since the opening prices of Saturday, the 5th inst., viz; N. Y. West Shore & Buffalo 5s at 65¼@57½@60⅛@60¼; Kansas & Texas gen. mort. 6s at 82@81½@84½@83@84@83; Atlant. & Pac. firsts at 93½@92½@93½@93; Central Pacific firsts at 111⅛@112@111¾; Canada Southern firsts at 95⅛@96¼@96; Burlington & Quincy debenture 5s at 93½@93¼@93⅝; International coupon 6s at 82@84@83½; Kansas & Texas consols at 108⅝@110⅛@109¾; Texas & Pacific Rio Grande Division firsts at 73½@75@73¾@74¾; Northern Pacific firsts at 102⅜@102¼@102⅞@102⅜@102⅝@102½; New York Susquehanna & Western firsts at 79¾@79½@80½@79¼@80; New Orleans & Pacific firsts at 85@84½@86⅛; Chesapeake & Ohio currency 6s at 48¼@48⅜@47½@50@47½@48½; Erie 2d consols at 92@93¼@91¾; Oregon & Trans-Continental firsts at 78@77; Wabash general mortgage 6s at 69@67; Virginia Midland incomes at 65@64½@65; Chicago & Northwestern debenture 5s at 93⅜@93⅛@93¾@93¼@93½; and Chicago St. Louis & Pittsburg firsts at 85@88.

State bond continue extremely dull. Sales during the week include Tennessee 6s at 37½@37¾; North Carolina 6s, special tax, at 8½; Missouri 6s of 1886 at 104; do. 6s of 1888 at 106; North Carolina 6s issued to Chatham RR. at 2½, and Virginia 6s, deferred, at 9½.

**Railroad and Miscellaneous Stocks.**—The features of the week which have affected the stock market have been—first, the unsatisfactory condition of affairs in the various pools, but especially that in the Trunk Line pool in connection with the attempt to coerce the Lackawanna by the order of the Trunk Line committee, cutting off its connections west of Buffalo after next Monday; second, the diminished earnings of the roads in the Northwest in the first week of January, and, third, the break in West Shore bonds. At the beginning of the week there was a good prospect that the disposition to make use of the increasing amounts of idle money would result in an advance in the quotations of stocks, and the prices of Michigan Central, Union Pacific and Missouri Pacific were made the leaders of what appeared to be a movement for a general advance. This, however, was checked on Thursday by the continued break in West Shore bonds and the various rumors in circulation about the West Shore and North River Construction companies. The result was that in the next two days, though there was no general decline, the market was very dull. Nevertheless the majority of stocks show at least fractional gains over last week, while Union Pacific, Michigan Central, Central Pacific and Jersey Central show important advances. Ontario & Western was adversely affected by its connection with the West Shore, and declined 2¾ per cent.

# RAILROAD INTELLIGENCE.

The INVESTORS' SUPPLEMENT *contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the* CHRONICLE. *Single copies are sold at $1 per copy.*

## ANNUAL REPORTS.

### New York New Haven & Hartford Railroad.

(*For the year ending Sept.* 30, 1883.)

The report of this company is just issued. The President remarks that "the percentage of increase in miles run is somewhat greater than in passengers or tons carried. This is owing to the fact that we are adding to the facilities afforded our patrons faster than they are adding to our business. This fact also explains why the gross receipts are less in proportion than the increase either of miles run or of passengers and tons carried, and why the proportionate increase in expenses is materially larger than it is in the gross receipts. The mileage and gross receipts of the Air Line Division (as well as of the Shore Line Division), for this year, are included in the statement. This needs to be taken into account in making these comparisons with the corresponding items in the report for the year ending Sept. 30, 1882, as we were not running the Air Line at that time. The Air Line has not been, for the past year, a source of profit to our company. Considerable money has been expended in getting it into good repair; several hundred tons of new steel rails have been laid, and in some other respects the expenses have been extraordinary. It is reasonably believed that the coming year will show better results." * * *

"Of the five million dollars your Board was authorized, in May last, to borrow on the credit of the company, two millions have been already borrowed, and four per cent bonds for that amount, with twenty years to run from June 1, 1883, and secured by a mortgage on your main line, have been issued therefore. These bonds were so disposed of as to yield a premium of $47,971." * * * "A part of the two millions borrowed, to-wit, about five hundred and twelve thousand dollars, have been used to pay off a balance of the indebtedness of this company incurred by the purchase of the securities of the Hartford & Conn. Valley Railroad Company. About $300,000 have been applied in payment for new passenger cars, new engines, new bridges, &c., charged in this report to construction and equipment. About $350,000 have been used in paying for additional lands at Harlem River, New Haven, Wallingford and elsewhere. About $60,000 have been expended for additional rights of way, &c., in carrying forward the improvements of the road suggested in the report of last year. The balance is still on hand, to be expended in the further prosecution of said improvements, and is included in the Treasurer's cash balance as reported for the year. These improvements have not progressed as rapidly as was anticipated, for the reason that the acquisition of the necessary additional lands has been, unavoidably on our part, attended with a good deal of delay. It is hoped, however, that before the close of the year 1884 we shall have some additional track laid and in service.

"The item of damages paid during the current year is larger than usual, for the reason that this company has paid one-third of the damages growing out of the accident in the Tunnel near Eighty-eighth Street, New York City. The employes, through whose omission of duty it is claimed this accident occurred, were, it is also claimed, joint employes of the three railroads using the tracks through the tunnel. We assumed this proportion of these damages provisionally, in order to expedite the settlement of the claims, though we are not without hope that we may yet be relieved from this payment, or at least some part of it."

Comparative statistics for two years, compiled in the usual form for the CHRONICLE, are as follows, including all leased lines:

ROAD AND EQUIPMENT.

| | 1881-82. | 1882-83. |
|---|---|---|
| Miles owned | 141 | 141 |
| Miles leased and controlled | 62 | 116 |
| Total operated | 203 | 257 |
| Locomotives | 105 | *122 |
| Passenger, mail and express cars | 310 | *375 |
| Freight cars | 2,153 | *2,417 |

* Including leased cars.

## GENERAL INVESTMENT NEWS.

**Brooklyn Elevated (Bruff) Road.**—A meeting of the bondholders of the Brooklyn Elevated Railway was held in the St. Nicholas Hotel, at which Mr. Hugo Rothschild presided. The meeting was called to see if the sum of $400,000 could not be raised among the bondholders to build the road from Fulton ferry to Bedford Avenue. After much discussion over financial plans presented, Mr. Uhlman moved that a committee of five be appointed to report a scheme of reorganization at a meeting to be called next Wednesday. The motion to appoint the committee was carried, and Mr. Rothschild, Fred Uhlman, Leon Mandel, Abram J. Hardenbergh and Leonard Lewisohn were appointed as such committee.

**Canadian Pacific.**—An official circular issued by the President, Mr. George Stephen, contains the following:

"During the year 1883 the company built 6 3 miles of railway, consisting of 553 miles of main line and 140 miles of branch lines. On the western division 377 miles of rails have been laid, completing the track to the summit of the Rocky Mountain Pass—960 miles west of Winnipeg—leaving a gap of less than three hundred miles to complete the connection with the Pacific Ocean, and there is every reason to expect that this connection will be completed within the next two years. On the opening of navigation next season the company will have its own steel steamships, built this year on the Clyde expressly for the lake traffic, ready to run between Lake Huron and Thunder Bay on Lake Superior. A new through line of its own will thus be opened, carrying freight and passengers from Montreal to all points in the newly-opened country for a continuous distance of 1,400 miles west of Port Arthur. On the section of the line north of Lake Superior 167 miles of track have been laid during this year, and within the next few weeks 54 miles more will be added, making a total on that section of 221 miles, leaving 430 miles yet to be built in order to complete the through all-rail connection between Montreal and the Northwest provinces. There are at the present time over 9,000 men at work upon this section, which it is fully expected will be completed and ready for operation before the close of the year 1885. * * * * The surveys of the gap between the completed portions of the eastern and the western divisions have been completed, as well as the surveys across the Rocky and Selkirk mountains. The work has in both cases been found much easier than was anticipated, and the directors feel now that they may safely state that the entire line will be completed within the original estimates of cost.

"It has been ascertained that the cost of finishing the line will not exceed twenty-seven million dollars, barely the amount of the cash subsidy and land grant bonds unsold and remaining in the hands of the Government.

| | |
|---|---|
| The gross earnings for 1883 (estimating December) were | $5,420,913 |
| This includes for the transportation of construction materials and supplies | 1,274,000 |
| The actual revenue from ordinary traffic was therefore in 1883 | 4,146,913 |
| As against in 1882 | 2,449,824 |
| Increase in 1883 | $1,697,089 |

"The net earnings for the 9 months ending November 30th have been $889,811.

Considering the adverse circumstances under which this result has been obtained, and in view of the extraordinary development and rapid settlement of the Northwest during the past year, and of the fact that on the opening of navigation, the company will have, as already stated, a through line of its own from Montreal to the summit of the Rocky Mountains, a still greater increase in the earnings of the coming year may fairly be looked for."

**Chicago Pekin & Southwestern.**—A press dispatch from Chicago, Ill., Jan. 5, said: "In the foreclosure case of the Farmers' Loan & Trust Company, against the Chicago Pekin & Southwestern Railroad, Judge Drummond to-day entered an order directing the master in chancery to make a deed of conveyance of the defendant road to the new corporation, the Chicago St. Louis & Western Railroad. The road was sold under the foreclosure of the second mortgage, two years ago, to F. E. Hinckley, for about $900,000. He never took out a deed, and now, having assigned his interests to the above corporation, the deed is made to it direct."

**Cincinnati Washington & Baltimore.**—The following statement of the net earnings of this road for the fiscal year ending June 30, 1883, has not previously been published. The old company reported for six months, and the present company after January 1, 1883.

MARIETTA & CINCINNATI RR.—RECEIVER'S REPORT—SIX MONTHS.

| | |
|---|---|
| Earnings July 1 to December 31, 1882 | $1,101,119 |
| Operating expenses | 872,115 |
| Net earnings | $229,003 |
| Rents paid | 118,987 |
| Net income | $110,016 |

CINCINNATI WASHINGTON & BALTIMORE.—SIX MONTHS.

| | |
|---|---|
| Gross earnings ending June 30, 1883 | $919,837 |
| Operating expenses | 741,034 |
| Net earnings | $178,803 |
| Rents paid | 31,473 |
| Net income | $147,330 |
| Total net income year ending June 30, 1883 | $257,346 |

**Danville Olney & Ohio River.**—The subscribers to the Corbin plan of reorganization for the Danville Olney & Ohio River Railroad Company met in Boston Jan. 9, and formally adopted the plan presented. This plan provides for a foreclosure, sale and purchase in the interest of the first mortgage bond and certificate holders. The new company will issue 75 per cent of income bonds for the present mortgage bonds and 25 per cent in stock, and also stock at par for all accrued interest. The amount of income bonds will, therefore, be $651,750. It is provided that the issue of stock shall not exceed $1,500,000. New first mortgage 30-year 6 per cent bonds will be issued, not exceeding $500,000, for the purpose of paying off all existing claims and putting the road into good condition.

**Eastern Shore Md.**—The Pennsylvania Railroad Company has purchased the Eastern Shore Railroad at a price approximating $450,000. The Eastern Shore road runs from Delmar, Del., to Crisfield, Md., a distance of 38 miles.

**Iron and Steel Production in 1883.**—Secretary Swank of the American Iron & Steel Association, estimates last year's production of pig-iron at 4,623,323 tons. The consumption of pig-iron has been about 4,948,323 tons. The year was commenced with 383.655 gross tons of domestic pig-iron unsold. There were imported during the year 325,000 gross tons, all of which has gone into consumption. Adding the estimated production of 4,623,323 gross tons to the estimated importation, and taking no account of the balanced stock at the baginning ind end of the year, the total, 4,948,323—the year's consumption—is found to be the result. The production of steel rails in 1883 has fallen off below that of 1882. There were also made, probably, 100,000 tons less iron rails than in 1882. The total rail tonnage of 1882 was 1,507,887 gross tons, of which 203,495 tons were iron rails and 1,304,392 tons steel rails. The total rail production for 1883 has been probably 1,300,000 gross tons, of which 1,200,000 tons were steel rails. Our imports of steel rails for 1883 have been about 100,000 gross tons, as against 200,000 tons in 1882. In round numbers our consumption of rails in 1883 has been 300,000 tons less than in 1882.

**Lehigh Valley.**—Stockholders are notified that they will be entitled to subscribe for additional stock at par in the proportion of one share for every five shares standing to their credit at the closing of the books on January 8, payable in five installments of ten dollars each, the first payment to be made between the 16th day of January and the 15th day of February, 1884, after which date no subscriptions will be received. The subsequent installments will be due and payable during the months of April, July and October, 1884, and January, 1885, but they may be anticipated at any installment period. The object of this increase of capital, which amounts in all to $5,526,639, is to pay for important construction that has taken place, to complete other work that is in progress, and to provide better terminal facilities in Buffalo, as well as to reimburse the company for about $1,300,000 of consolidated mortgage sterling bonds that have been paid off.

**Memphis City Debt.**—The Funding Board, which has been engaged in the settlement of the debt of the old city of Memphis, publish a report showing that of the estimated debt of $5,500,000 they have funded $3,500,000, of which $350,000 were judgments. The time for funding expires on January 31. Recently a number of the largest creditors came in under the provisions of the Funding Act, of whom two were plaintiffs in test cases, which were appealed to the United States Supreme Court, and the funding by these parties dismisses their suits and forces others who do not fund prior to January 31 to seven years' litigation to reach the same position before the courts now abandoned by these parties. Two payments of interest on the new bonds have already been made, and provision for future interest has been made by the State Legislature,

**Mexican Central.**—The directors of the Mexican Central Railroad Company have called the last 10 per cent upon the No. 4 subscription, payable January 15, at which time the first two bonds upon the No. 4 blocks will be delivered. At the same time the bond premium promised subscribers will be delivered. The No. 4 subscription was for $7,600,000 in bonds. The Boston *Herald* says: "Friends of the property figure the net earnings for 1883 on 861 miles of road at $1,000,000, and place the subsidy for the year at $1,100,000. The estimated net earnings on 1,215 miles in 1884 are $1,500,000, and the subsidy the same as this year, making the total net revenue $2,600,000. The bonds issued are $29,000,000, and will be increased to $37,500,000 by July. Reckoning the interest from January, the total first charges would be practically the same as the net revenue above; in other words, the company is expected to pay its way in 1884 by the aid of the subsidy.

**New Orleans & Pacific.**—In the U. S. Senate, Jan. 10, the following preamble and resolution was agreed to.

*Whereas*, It is claimed by the New Orleans & Pacific Railroad Company that, inasmuch as the Attorney-General has decided in favor of said company as to lands demanded by them, and the Secretary of the Interior has felt constrained to act upon and accept said opinion, and said company also claim that Congress has no further control or authority over said lands or the demands of said company; therefore

*Resolved*, That the Secretary of the Interior be requested to suspend action in issuing certificates or patents for said lands to said corporation until Congress at this session shall determine the questions involved in the claim of said corporation.

**New York & New England.**—A meeting of the directors of the New York & New England Railroad was held at the company's office in Boston on January 7, and twelve members were present. Mr. C. P. Clark, receiver, presented his resignation as president, and Mr. Eustace C. Fitz was chosen in his stead.

The following resolutions were unanimously adopted:

*Resolved*, That in view of existing facts, it is the unanimous opinion of the board that immediate application be made to the legislatures of the States of Massachusetts, Connecticut and Rhode Island for leave to issue the present unissued second mortgage bonds of the company for other purpose for which the company may legally incur a debt; and that to enable the said application to be made, and while the same is pending, the purpose of paying the floating debt of the company, and for any and arrangements are in progress for negotiating said bonds, it is desirable that the existing receivership be continued in force.

*Resolved*, That in the opinion of this board it may be reasonably expected that the proposed measures be taken and the credit of the corporation re-established and the receivership terminated within four months from this date.

It was also voted that Messrs. Fitz, Higginson, French, Metcalf and Kingsbury be a committee of the board to present and urge the needful measures before the legislatures of the several States.

It was also voted that in the opinion of the board the welfare of the property demanded the immediate completion of the double track to Willimantic, and measures to insure its completion early in the spring should be taken.

It was also the opinion of the board that the floating debt should be paid at once through the receivership, if the consent of the court can be obtained, and pending legislative consent to the use of the second mortgage bonds for the purpose. It is said that arrangements are in progress which will result in the money being forthcoming.

—The Boston *Transcript* gave the following item: "The report that the New York & New England Railroad Company is indebted to Messrs. Gould and Vanderbilt for money advanced, is false. Neither of them carried a dollar of the company's floating indebtedness. Mr. Gould bought his first stock in the New York & New England Railroad at 65. He then had control of the Hartford & Harlem charter, had the money to build that line into New York all subscribed, and intended thereby to connect the New York & New England with his elevated railroad system in New York for terminal grounds. Hard times forced the abandonment of the Hartford & Harlem subscriptions, and when N. Y. & N. E. stock declined to 20, Mr. Gould sent Mr. Connor to Boston, and while Mr. Connor's paper in Boston was attacking New York & New England, Connor was buying for Mr. Gould to average. Upon the recent boom to 37, Mr. Gould sold out entirely, and then resigned from the directory. When asked a few days ago to advance, with others, money for the purchase of the January coupons, he declined, said the effort to raise any money for the company was useless, and advised a receivership for the protection of the property. Meanwhile the Hartford & Harlem charter has come into the hands of the Boston parties now managing the New York & New England, and there are those who believe, possibly without any reason, that it has some relation to Mr. Clark's coming from the New Haven road to the New York & New England. Some of the New York Elevated Railroad people remain in the New York & New England directory, and assisted in the raising of the $330,000 to buy the January coupons. It is now proposed to go to the legislatures and ask permission to use the second mortgage bonds to pay off the floating debt of the company. Consent from the present holders of the second mortgage must also be obtained."

**New York Stock Exchange.**—The Governors of the Stock Exchange have added to the list of securities to be dealt in at the Board the following:

GULF COLORADO & SANTA FE RAILROAD.—An additional $384,000 first mortgage bonds, issued upon thirty-two additional miles of completed road.

NEW YORK WEST SHORE & BUFFALO RAILWAY.—An additional $14,750,000 of first mortgage 5 per cent gold bonds due July 1, 1931. This addition completes the full issue of $50,000,000 of bonds, which are absolutely a first lien on the company's main line of roadway from Weehawken to Buffalo and its branches, upon which upwards of $55,000,000 already has been expended. The line is double-tracked, except about 78 miles, on its whole main line. This company leases jointly with the New York Ontario & Western, the terminal property at Weehawken, upon which there is a lien of $12,000,000.

CHICAGO MILWAUKEE & ST. PAUL RAILWAY.—An additional $1,300,000 of first mortgage 5 per cent bonds on Wisconsin & Minnesota division, at $20,000 per mile.

ST PAUL MINNEAPOLIS & MANITOBA RAILWAY.—An additional $1,402,000 of consolidated 6 per cent bonds, due July 1, 1933.

OREGON & TRANS-CONTINENTAL COMPANY.—An additional $2,000,000 first mortgage trust bonds, due November 1, 1922. The additional issue is secured by deposit with the Farmers'

Loan & Trust Company of bonds at the rate of $20,000 per mile of the following railroad companies:

| | Miles. | |
|---|---|---|
| Northern Pacific Fergus & Black Hills RR. Co | 2·1 | $42,000 |
| Little Cross & Co.'s RR Co | 0·1 | 2,000 |
| Jamestown & Northern RR Co. | 34·6 | 692,000 |
| Fargo & Southwestern RR. Co | 32·55 | 651,000 |
| Rocky Mountain RR. Co of Montana | 30·65 | 613,000 |
| Total additional mileage | 100·00 | $2,000,000 |

TEXAS & NEW ORLEANS RAILROAD.—First mortgage 7 per cent bonds, due August 1, 1905, $1,620,000; first mortgage Sabine Division, 6 per cent bonds, due September 1, 1912, $2,475,000; and when the rules relative to engraved certificates are complied with the capital stock of $5,000,000 in shares of $100 each.

**New York West Shore & Buffalo—North River Construction Co.**—The following directors of the North River Construction Company were elected at the annual meeting January 8: Edward F. Winslow, Conrad N. Jordan, Michael P. Grace, Geo. W. Nevers, Charles Bard, Howard Mansfield, Walter Katte, Charles Freeman Smith and Thomas W. Lillie. The three last-named are new members of the board, taking the places of William Adams, E. D. Adams and George S. Jones. The vote at the meeting was not a large one, but it was unanimous in favor of the new ticket.

The officers of the West Shore Railroad said to a *Tribune* reporter that they had not yet arranged the conditions of a new mortgage, which probably would soon be placed on the property.

—Directors were elected by the shareholders of the N. Y. West Shore & Buffalo Railroad Company as follows: Horace Porter, Geo. M. Pullman, H. Victor Newcomb, John J. McCook, Charles F. Woerishoffer, Frederick Billings, Edward D. Adams, John W. Ellis, Theodore Houston, Henry K. McHarg, Elmer L. Corthell of New York, Peter B. McLennan of Syracuse, John B. Kerr of Newburg. The retiring members of the old board were Henry Villard, Charles Lanier, Charles Paine and R. T. Wilson.

**Northern Pacific.**—At the meeting of directors on Jan. 4 the resignation of Mr. Villard as president was accepted, but, not his resignation as a director of the company; and a special committee was appointed, consisting of Messrs. Morgan, Billings, Cheney, Belmont, Harris and Bullitt, to consider what action should be taken by the board on the retirement of Mr. Villard, and in relation to the selection of a successor.

The Finance Committee reported that the amount of money still remaining from the proceeds of the $18,000,000 second mortgage bonds and other cash assets, specifically applicable to the liquidation of the indebtedness embraced in the circular to the preferred stockholders dated Oct. 17 last, amounts to $5,171,991, while the obligations against the same, together with the balance of amount required for construction and equipment amounts to $4,015,834, showing a surplus of $1,156,157. In addition to this the company has on hand in cash the special fund applicable to the payment of interest on its general first mortgage bonds, due on the 1st of July next, amounting to $1,200,000.

A report was made by Vice-President Oakes, a synopsis of which is as follows:

I beg to submit the result of my recent tour of inspection over the main line and branches. My inspection of the road was made entirely by daylight, consuming in all nearly three weeks' time. With the exception of the 100 miles of road last completed west of Helena, the roadbed and track were found in first-class order. The 100 miles referred to will require to be ballasted with gravel to put it in proper condition for economical operation. This can be done with an expenditure of $80,000, which I have made provision for in the estimate of operating expenses herewith furnished.

The equipment, both motive power and rolling stock, is also in first-class order, with the exception of some of the older engines and passenger and freight cars. The estimated cost of putting these in order is as follows: Locomotives, $177,911; passenger cars, $109,908; freight cars, $133,455; total, $421,274. These amounts are also included in my estimate of expenses commencing with the 1st of March, although in the event of traffic proving lighter than anticipated, a small expenditure will answer. I should say one-half or even one-third of this sum would keep our equipment in sufficiently good order to meet the requirements of the traffic for the next six months.

The earnings and expenses of the main line and branches from June 30 to December 31, 1883, inclusive (December being estimated), are as follows:

| | | |
|---|---|---|
| Gross earnings | $6,638,983 | |
| Operating expenses, including rentals and taxes, improvements and betterments to Oct. 31, 1883 | 4,427,690 | |
| | | $2,211,293 |

The estimated earnings and expenses for balance of the fiscal year, are as follows:

| | | |
|---|---|---|
| Gross earnings | $7,050,000 | |
| Operating expenses, including rentals and taxes, improvements and betterments being included in operating expenses | 3,923,000 | 3,127,000 |
| | | 5,338,293 |
| Interest charges for entire fiscal year, as per following estimate | | 3,882,341 |
| Surplus | | $1,455,952 |

ESTIMATED INTEREST CHARGES FOR FISCAL YEAR, ENDING JUNE 30, 1884.

| | | |
|---|---|---|
| General First Mortgage bonds outstanding Dec. 31, 1883 | $38,928,000 | |
| Interest for same for year ending June 30, 1883 | | 2,335,680 |
| Pend d'Oreille Division bonds outstanding Dec. 31, 1883 | 3,315,000 | |
| Interest for year ending June 30, 1884 | | 198,780 |
| Missouri Div. bonds out. Dec. 31, 1883 | 2,358,100 | |
| Interest for year ending June 30, 1884 | | 141,301 |
| Second Mortgage bonds outstanding Dec. 31, 1883 | 14,356,500 | |
| Interest 7 months, say to June 30, 1884 | | 502,477 |
| Add for estimates on General First Mortgage bonds to be issued on new road, ready for acceptance, say six months, on | 1,000,000 | 30,000 |
| Add for estimates on Second Mortgage bonds, to be issued, say six months, on | 3,000,000 | 90,000 |
| Dividend Certificates, 1 year's interest on | 4,640,521 | 278,449 |
| Rentals due N. P. Central Co., say 12 month's interest on $4,000,000. Nor. Pac. proportion, 40 per cent | 1,800,000 | 72,000 |
| General Interest Charges—Ledger Accounts | | 244,254 |
| | | $5,382,341 |

"At a former meeting of the Board of Directors you were advised as to the arrangement entered into with the Trans-Continental Association, which embraces all lines engaged in overland transportation, by which Portland, Oregon and San Francisco were made common points, this company receiving a proportion of the San Francisco business in exchange for a proportion of the Portland business. This plan was more or less experimental, in order to determine what share of the San Francisco business this company could properly claim in the prospective pool. The plan not working satisfactorily, it was decided that a natural division of territory would be more equitable to all concerned."

—The Northern Pacific land sales for six months ending Dec. 31 were as follows.

| | Acres. | Amount. | Town Lots. | Total Amt. |
|---|---|---|---|---|
| July 1 to Dec. 31, 1883 | 281,198 | $1,207,326 | $66,638 | $1,273,964 |
| " " " 1882 | 354,097 | 1,313,650 | 98,053 | 1,411,703 |
| Total decrease, 1883 | 72,899 | $106,324 | $31,415 | $137,739 |

**Ohio Central.**—At Toledo, O., Jan 7, in the United States Circuit Court, Judge Welker presiding, John E Martin was appointed receiver of the main line of the Ohio Central Railroad Company to Corning. Mr. Martin was already receiver of the River Division of the road from Corning to Charleston, Va.

**Oregon Railway & Navigation Company.**—The directors of this company have voted to reduce the annual dividend for 1884 from 10 to 8 per cent. The first quarterly dividend of 2 per cent has been officially declared, and will be paid February 1. The books will close January 15 and reopen February 2. The Oregon Railway & Navigation Company is about to issue 5 per cent mortgage bonds to the extent of $20,000 a mile on both finished and contemplated road. The entire issue will amount to about $14,280,000; the completed road being now 569 miles, and the proposed extensions 145 miles, making 714 miles. The funds raised by the new loan will be applied as follows: $6,000,000 of the company's first mortgage bonds and $1,200,000 of its outstanding scrip will be taken up; the Baker City line, which connects the main line with the Union Pacific junction, will be completed, and $3,000,000 of the Oregon & Trans-Continental Company's bonds issued on the Palouse Branch will be replaced. When this shall have been done, the Palouse branch will become the property of the Railway & Navigation Company. The Oregon & Trans-Continental Company's proposed collateral trust bond will thus be reduced from about $13,000,000 to $10,000,000.

**Oregon & Trans-Continental.**—The new management, to provide for the settlement of the floating debt of the company, has announced a loan of $8,000,000 for one year on the pledge of 91,500 shares of Northern Pacific preferred, 91,500 shares of Northern Pacific common and 91,500 shares of Oregon Railway & Navigation Co. stocks. The securities are to be deposited with the Farmers' Loan & Trust Company, which will issue its trust receipts to those agreeing to take the loan. It is understood that of the whole amount, $2,500,000, has been taken in Boston, $2,000,000 in Philadelphia and $3,500,000 in this city. No stock bonus will be given, but at the end of the year a cash commission of 5 per cent will be allowed. It is reported that the Oregon Navigation stock was put in at a valuation of $50 a share, the Northern Pacific preferred stock at $30 a share, and the Northern Pacific common stock at $10 a share. The syndicate which is to advance the money has the privilege of buying 45,250 shares of each of the stocks named at 25 for Northern Pacific common, 50 for the preferred and 100 for Oregon Navigation, the proceeds to be applied in liquidation of the loan. It must, however, buy all three of the stocks named at the prices stated. Treasurer White said that the privilege was limited to the period between July 1 and Nov. 1 of this year.

The remarkable advantages given by this option for operations in the several stocks were commented upon among brokers.

**Philadelphia & Reading.**—The gross receipts from the P. & R. railroads, canals, steam colliers and coal barges in November were $2,486,095 and the net receipts $1,410,021. The gross receipts of the Philadelphia & Reading Coal & Iron Co. in November were $1,756,584 and net $393,204. The total receipts of both companies together (not including Central of New Jersey, leased) for each month of the fiscal years ending in 1882 and 1883, and the totals for each year, have been as follows:

| | Gross Receipts. | | Net Receipts. | |
|---|---|---|---|---|
| | 1882-83. | 1881-82. | 1882-83. | 1881-82. |
| December, 1882 | $2,865,201 | $3,231,677 | $843,783 | $937,542 |
| January, 1883 | 2,559,994 | 2,451,466 | 664,877 | 646,913 |
| February | 2,377,181 | 2,169,005 | 630,080 | 438,656 |
| March | 2,829,724 | 2,587,720 | 702,501 | 655,449 |
| April | 2,919,617 | 2,699,706 | 817,428 | 708,304 |
| May | 3,091,929 | 2,878,009 | 655,290 | 780,574 |
| June | 3,346,787 | 3,017,983 | 785,914 | 844,176 |
| July | 3,386,000 | 3,443,790 | 1,005,823 | 1,108,307 |
| August | 4,147,802 | 3,591,201 | 1,361,154 | 1,171,299 |
| September | 4,024,120 | 3,488,331 | 1,222,416 | 1,098,830 |
| October | 4,234,780 | 3,821,730 | 1,445,795 | 1,271,500 |
| November | 4,342,680 | 3,914,541 | 1,803,225 | 1,407,685 |
| Total year | $40,045,614 | $37,300,159 | $11,938,586 | $11,059,238 |

The above statement does not include the Central Railroad of New Jersey, leased and operated by the Philadelphia & Reading since June 1, 1883, and the exhibit for that company is as follows:

CENTRAL RAILROAD OF NEW JERSEY.

| 1883. | Gross receipts. | Net receipts. | Rental. | Profit to lessee. |
|---|---|---|---|---|
| June | $1,012,634 | $451,549 | $424,936 | $26,613 |
| July | 1,032,840 | 498,526 | 418,173 | 80,351 |
| August | 1,256,335 | 691,124 | 452,043 | 239,081 |
| September | 1,170,291 | 620,738 | *528,651 | 92,087 |
| October | 1,150,248 | 605,465 | 534,322 | 71,143 |
| November | 1,168,821 | 663,460 | 539,053 | 124,407 |
| Total 6 mos. | $6,791,169 | $3,530,660 | *$2,897,178 | $633,482 |

* In September and following months the rental includes the monthly proportion of 6 per cent annual dividends payable on Central of New Jersey stock.

The following brief summary of the traffic and mining operations for the years ending November 30, 1882 and 1883, including the Central of New Jersey from June 1, 1883, is given in the company's statement:

| | 1881-82. | 1882-83. |
|---|---|---|
| Tons of coal carried on railroad | 8,429,825 | 11,449,373 |
| Tons of merchandise carried on railroad | 7,490,382 | 8,416,787 |
| Passengers carried on railroad | 12,027,470 | 18,195,264 |
| Tons of coal carried by steam colliers | 574,931 | 531,403 |
| Tons of coal mined by Coal & Iron Co. | 4,111,830 | 4,582,667 |
| Tons of coal mined by tenants | 1,512,959 | 1,491,464 |
| Total mined from lands owned and controlled by Coal & Iron Co., and from leaseh'd estates. | 5,624,789 | 6,074,131 |
| And the following income account: | | |
| Total profit Railroad Co | $9,859,064 | $14,547,479 |
| Total profit Coal & Iron Co. | 1,200,173 | 921,772 |
| Total profit both companies | $11,059,238 | $15,469,251 |
| From this must be deducted for the RR. Co.— | | |
| Debit balance renewal fund | $348,454 | $27,499 |

| 6 per cent on common stock equals | | 1,990,972 |
| Total | | $2,099,598 |
| Balance applicable to int. on deferred income bonds | | $57,634 |

* Includes full interest on entire amount of convertible loan, part of which has been funded.

—The Philadelphia *North American* in commenting Jan. 5 upon the above statement of Philadelphia & Reading said: "The surplus of $2,157,233 above fixed charges is enough to pay 7 per cent on the preferred stock and 6 per cent on the common stock, and leave $57,634 applicable to the deferred bonds. Mr. Gowen, however, proposes to pay 21 per cent accumulated dividends on the preferred stock, amounting to $325,878, which will leave $1,831,335, or about 5·4 per cent on the common stock. The clause in the income mortgage prohibiting dividends till the outstanding principal thereof is redeemed will be met, it is said, by means of the proposed 5 per cent collateral trust loan. It is now currently reported that the amount of the collateral trust loan will be $10,000,000, and that it will be secured by nearly $15,000,000 assets, among which will be a large block of Jersey Central, including the 50,000 shares pledged last summer at about 70, to take up which will require $3,500,000 of the proceeds. The remaining $6,500,000 will cover the entire amount of income sevens issued, including the $4,000,000 pledged to secure adjustment scrip and the $2,454,000 in the hands of investors, a total of $6,454,000. It seems probable that the adjustment scrip may be redeemed directly under this arrangement. The main thing, however, is that it removes the obstacle to the payment of a dividend. It was reported yesterday that the $10,000,000 loan had been negotiated, and it was generally thought that even if this rumor was untrue, it could be negotiated at any time, considering the character and amount of the security likely to be put in the trust." * * *

"The report that the company has $2,500,000 in the Manufacturers' National Bank, and the fact that in its $13,312,017 fixed charges given above are included the interest on the convertibles (although the last two and the next three coupons on about $7,000,000 of these have been funded) show that the company is in an excellent financial condition."

**St. Joseph & Western.**—Omaha advices state that suit has been brought in the United States Court by the General Attorney of the Union Pacific Railway to secure the foreclosure of a first mortgage of $500,000 on the St. Joseph & Western road and for the appointment of a receiver. This mortgage is against that portion of the road lying between Hastings and Grand Island in this State, formerly known as the St. Joseph & Denver City Railway, and which, it is understood, was not included in the action resulting in the appointment of Receiver Smyth a few weeks ago, that official having control only of the Kansas Division. The reason assigned by the Union Pacific interest in their petition is that the company is not doing a paying business, and that the property is not sufficient to pay the bonds. At Omaha, Neb., Jan. 8, Judge Dunby of the United States Court appointed William B. Smyth, of Keokuk, receiver of the Hastings & Grand Island Railroad.

—A dispatch from Keokuk, Iowa, says that Judge McCrary, on January 8, released the road from the receiver's charge, as the matter at controversy between the stockholders had been settled satisfactorily to the parties interested.

**St. Louis Vandalia & Terre Haute.**—The annual meeting of this company was held at Greenville, Ill., Jan. 8. The gross earnings for the year are $1,700,954; the expenses, $1,306,067; the net earnings, $394,887. The rental from the lessees is $510,286; from which deduct the interest on the bonds, $314,930, and the amount paid for taxes, &c., $42,981, which leaves a surplus for the year of $152,375. The expense account includes $115,634 for betterments.

**Southern Pacific Land Grant.**—A special meeting of the House Committee on Public Lands was held Jan. 10, that the members might hear the arguments of the attorneys of the Southern Pacific Railroad Company on the question of forfeiting the Texas Pacific territorial land grant now claimed by the Southern Pacific Company as assignees. John T. Harris appeared for the company, and asked for an extension of time, and the time for hearing the attorneys was postponed until Monday next.

**Trunk Line Pool—Iowa Pool—&c.**—There is unusual commotion among the railroad companies east and west over the adjustment of rates, and great irregularity seems to prevail. The situation is not calculated to inspire confidence. At the meeting of the Joint Executive Committee at Mr. Fink's office in New York, on Jan. 10, the result of a long discussion of the situation between the managers was an order to restore east-bound freight rates to the basis from which they were lowered a week ago, viz.: From Chicago to New York, 35 cents per 100 pounds on provisions, 30 cents on grain, 40 cents on bulkmeats, and 35 cents on live hogs. The reduction had been 10 cents from these figures. The restored rates are to go into effect on next Monday, but it is a part of the order that if the cutting continues the Commissioner shall order another immediate reduction.

—The New York Central Railroad reduced its local east-bound freight rates about 25 per cent. Similar reductions have been made by the West Shore & Buffalo road.

—At Cleveland, Ohio, the granting in the Common Pleas Court of a perpetual injunction against the Lake Shore & Michigan Southern road, preventing the defendants making a discrimination in freights in favor of the Standard Oil Company, has created unusual interest among oil men, and good lawyers claim that the State Supreme Court will affirm the decision.

—Commissioner Fink has issued his order cutting of the Del. Lack. & Western Railroad from its connections west of Buffalo. Officers of the Lackawanna, however, appear not to be disturbed by the order of Commissioner Fink. A friend of the company said to a *Tribune* reporter the management did not anticipate any trouble in doing its through business. "I do not think," he remarked, "that the Western railroads will obey the Commissioner's orders. When it comes right down to the point they will not refuse the business that we may be abie to offer them. Perhaps I would better not mention names, but some of the Western lines with which the Lackawanna has been doing business lately are not earning enough to pay their fixed charges and they are not refusing business, and in my opinion they are not likely to reject anything that is offered to them. I am impressed with the idea that there is a law on the statute book which forbids railroads from refusing to exchange business with connecting lines."

—In the Iowa pool nothing further has occurred and probably will not before the meeting in Chicago on January 17, when the Chicago Burlington & Quincy will give an answer as to its determination. A dispatch from Chicago, Ill., says the statement to the effect that the Burlington road had agreed to close the contract on the 17th instant to pool the competitive business, is denied by the Burlington road in Chicago. The company has been committed to no announced policy. The Burlington officials thus far have only listened to propositions, with the exception that they have positively refused to join the new western alliance or to sign the twenty-five years' compact.

—At Chicago, January 10, the meeting of the Trans-Continental Association was of unusual interest and all the indications were that it would speedily be broken up. The resolution offered by the Union Pacific, extending the territory to Chicago, and admitting the Rock Island, Burlington, Alton, St. Paul, Wabash, Missouri Pacific and St. Louis & San Francisco roads to the association failed to pass. The Union Pacific called attention to the fact that it had given notice of withdrawal November 8, and it would therefore leave the association February 6. The Commissioner stated that he has received a dispatch from the General Manager of the Texas & Pacific, dated December 13, giving notice of withdrawal.

**Union Pacific—Oregon Short Line.**—The Oregon Short Line has been completed to Ontario, Or., 497 miles west of Granger, Wy., and 30 miles west of Caldwell, recently the operating terminus. Forty miles of track remain to be laid before the line is finished. If the weather is at all favorable to the work the line will be completed in a few weeks, and the Short Line will have reached its western terminus, Huntington, Or. A telegraph line is being constructed as fast as the track is laid. Work on the Beatrice branch of the Union Pacific is being rapidly pushed forward, and the line will probably be finished in a few weeks. This will give Omaha two lines to Beatrice, both by the way of Lincoln. It also makes another to St. Joseph by way of Marysville, Kan., and furnishes another outlet through Nebraska to Kansas City. The Union Pacific line to Fullerton, which was opened several days ago, will be extended early in the spring to Cedar Rapids, Neb., about 20 miles northwest.—*Boston Journal.*

**Virginia Bonds.**—A press dispatch says the decision of the Supreme Court in the case of Smith vs. Greenhow is considered very favorable to Virginia bond and coupon holders. As any taxpayer can appeal to the U. S. Circuit Court (Judge Bond), which court has already decided it only necessary to tender coupons, and if refused, the taxpayer having performed his whole duty, his property will be protected by the court.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, Jan. 11, 1884.

There has been this week a recurrence of violent storms Railway trains West and North have been detained by deep snow, and with a return of milder weather as the week closes serious floods are threatened in the Ohio Valley. Some important failures have occurred, yet it is very generally agreed that the new year opens promisingly for general business. An unexpected improvement is reported from nearly all directions. Large disbursements for interest this month undoubtedly had a favorable influence, but much is also due to low prices of staples and reduced expense accounts. The severe winter is a promise of an early spring and a good growing season.

The speculation here in provisions has been quite moderate during all the week, but the market has been sustained until to-day by the strength of the Western advices. In Chicago there have been heavy purchases for a rise, which to-day were realized upon; this occasioned a break there and exerted a similar influence here. Lard futures declined 10 points here and closed weak; January, 9·16@9·18c.; February, 9·18@9·20c.; March, 9·27@9·29c.; April, 9·37@9·39c.; May, 9·43@9·46c; Western prime on the spot closed at 9 20c.; refined to the Continent, 9·45c.; South America, 9·75c. Mess pork continued dull and irregular at $14 50@$15 on the spot. Beef continued quiet at $24@$26 for city extra India mess. Beef hams steady at $23 50@$24 for Western. Tallow sells fairly at 7⅝@7¾c. for prime. Stearine remains about steady at 9½@9⅝c. for prime and 8¾c. for oleomargarine. Butter has latterly had a better sale, and the best Elgin creameries are held at 41@42c. Cheese remains firm, and State September makes are quoted at 13¼@13½c.; October, 12¾@13¼c.

Rio coffee has been fairly active and firmer, closing quiet at 12½@12⅝; options have been less active, but closed firm at 10·90c. for January, 11·05c. for February, 11·25c. for March, 11·35c. for April and 11·40c. for May; mild grades have been firm and fairly active. Tea has been active on speculation at firm prices; the trading has been mainly in Japan tea. Spices have been firmer; pepper has advanced and the jobbing trade has increased. Rice has been steady, with moderate sales. Foreign dried fruits have been moderetely active and steady, with some reduction in the supply. Molasses has been steady but rather quiet. Raw sugar has sold slowly at declining prices; the supplies are larger both in this country and in Europe than last year; to-day the market was quiet but steady on the spot at 5¾c. for fair refining Cuba, and there was a larger business for future delivery at 6·07½c. for fair for June and 6·12½c. for July; refined has latterly advanced somewhat; to-day crushed closed firm at 8½@8⅝c., powdered at 8⅛@8¼c., granulated at 7⅞c. and standard "A" at 7 7-16@7½c.

In Kentucky tobacco there has been but a slight increase in business, but holders steadily maintain late prices; lugs 7@8c.; leaf, 8½@11½c. Sales for the week 166 hhds., of which 56 were for export. A slight improvement in the trade in seedleaf can also be mentioned, aggregating 1,150 cases, including 300 cases crop 1882, State Havana, 23@26c.; 100 cases crop 1882, Pennsylvania, 11@13c.; 150 cases crop 1881, do., 9@12c.; 200 cases crop 1882, Wisconsin Havana, 15@17c.; 300 cases crop 1882, New England, 11@20c., and 100 cases crop 1881, do., 9@18c.; also 400 bales Havana 85c.@$1 15.

At one time during the week rosins received more attention from shippers and 3,000 bbls. strained and good strained were sold at $1 52½; to-day the range is $1 50@$1 55. Spirits turpentine has become weak, and from a selling price of 36c. in yard it is now difficult to obtain 35½c. Refined petroleum has been quiet, and shippers are less free with their bids of 9½c for 70 test, though that price is still quoted. Crude certificates have been depressed by the free flowing of the new McKinney well, and to-day sales were made at $1 11⅜, though the closing figures were $1 11¼@$1 11⅞. Ingot copper is steady at 14⅞@15c. for Lake American pig iron is steady and a better trade is shortly anticipated; No. 1, $20 50@$21. Steel rails, though less active, are firm at $35 at the mills.

In ocean freight room the interest of the week has been centred in the charter of four steamships to load refined petroleum to the United Kingdom and one with coal tar pitch from Philadelphia to Genoa. Berth room has been overlooked, but to-day improved to 3¾d. for grain to Liverpool by steam; flour, 11s. 3d.@12s. 6d.; bacon, 20s.; cheese, 25s; cotton, 13-64@7-32d.; grain to London by steam quoted 4d.; do. to Glasgow by steam 2½d.; do. to Antwerp by steam 3d.; do. to Amsterdam and Rotterdam by steam 9c.; crude petroleum to Dunkirk, 3s. 3d.; refined do. to London or Antwerp (by vessels chartered prior to arrival) 3s 4½d.

## COTTON.

FRIDAY, P. M., January 11, 1884.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Jan. 11) the total receipts have reached 90,245 bales, against 140,612 bales last week, 201,686 bales the previous week and 247,733 bales three weeks since; making the total receipts since the 1st of September, 1883, 3,647,207 bales, against 3,861,841 bales for the same period of 1882-83, showing a decrease since September 1, 1883, of 214,634 bales.

Dulness and depression have been the leading features of the speculation in cotton for future delivery at this market for the week under review, with not a little playing at cross purposes. The movement of the crop has continued to be very small, not only at the ports, but at the interior towns of the South. Late telegrams and letters from the various sections of the cotton-growing region, however, speak of very bad roads, the effect of severe frosts, followed by heavy rains, and this is believed in some measure to account for the small movement. Exports have been well kept up, effecting a considerable reduction of stocks. The foreign markets, though variable, have not declined, and most Southern markets have tended upward. Yet prices here have been weak under an absence of demand. There is no "short interest" to lend a fictitious strength to values. Leading operators for the rise have ceased to give the artificial support to the market which they felt it necessary to extend to it during the large crop movement which was in progress throughout December. Saturday declined 5@6 points. On Monday, with a considerable improvement in Liverpool, there was a further decline with us. Renewed buoyancy on Tuesday carried back prices to about the closing figures of Friday; but on Wednesday and Thursday fresh declines took place. To-day the market was dull and values unsettled, closing without much change for the day, with January 2 points dearer than last Friday; but otherwise 4@6 points lower on the week for this crop, and 8@10 for the next. Cotton on the spot has been quiet all the week. The limited demand has been mainly for home consumption. Stocks at this market show a slight increase, but no difficulty is experienced in carrying them. To-day the market was quiet and unchanged, middling uplands closing at $10\frac{5}{8}$c.

The total sales for forward delivery for the week are 400,300 bales. For immediate delivery the total sales foot up this week 1,609 bales, including 75 for export, 1,534 for consumption, —— for speculation and —— in transit. Of the above, —— bales were to arrive. The following are the official quotations for each day of the past week.

MARKET AND SALES.

The total sales and future deliveries each day during the week are indicated in the following statement. For the convenience of the reader we also add a column which shows at a glance how the market closed on same days.

| | SPOT MARKET CLOSED. | SALES OF SPOT AND TRANSIT. | | | | | FUTURES. | |
|---|---|---|---|---|---|---|---|---|
| | | Ex-port. | Con-sump. | Spec-ul'n | Tran-sit. | Total. | Sales. | Deliveries. |
| Sat. | Firm | 12 | 217 | .... | .... | 229 | 84,000 | 900 |
| Mon. | Firm | .... | 247 | .... | .... | 247 | 55,900 | 100 |
| Tues. | Firm | .... | 340 | .... | .... | 340 | 71,900 | 400 |
| Wed. | steady | .... | 249 | .... | .... | 249 | 70,100 | 400 |
| Thurs | steady | 63 | 289 | .... | .... | 352 | 69,900 | 900 |
| Fri. | steady | .... | 192 | .... | .... | 192 | 48,500 | 400 |
| Total | | 75 | 1,534 | .... | .... | 1,609 | 400,300 | 3,100 |

The daily deliveries given above are actually delivered the day previous to that on which they are reported.

THE SALES AND PRICES OF FUTURES are shown by the following comprehensive table. In the statement will be found the daily market, the prices of sales for each month each day, and the closing bids, in addition to the daily and total sales.

DAILY PRICES AND SALES OF FUTURES FOR EACH MONTH.

* Includes sales in September, 1883, for September, 76,200; September-October, for October, 338,600; September-November, for November, 399,800; September-December, for December, 861,500.

☞ We have included in the above table, and shall continue each week to give, the average price of futures each day for each month. It will be found under each day following the abbreviation "Aver." The average for each month for the week is also given at bottom of table.

Transferable Orders—Saturday, 10·65c; Monday, 10·70c.; Tuesday, 10·75c.; Wednesday, 10·75c; Thursday, 10·70c.; Friday, 10·70c.

Short Notices for January.—Monday, 10·67c.; Tuesday, 10·68@10·69c.

The following exchanges have been made during the week:

·15 pd. to exch. 500 Mar. for April.
·32 pd. to exch. 900 Feb. for April.
·13 pd. to exch. 500 May for June.
·29 pd. to exch. 700 Jan. for Mar.
·29 pd. to exch. 100 Mar. for May.
·42 pd. to exch. 800 Jan. for April.
·15 pd. to exch. 2,000 Mar. for Apr.
·31 pd. to exch. 100 Feb. for April.
·15 pd. to exch. 100 Mar. for April
·16 pd. to exch. 200 Feb. for Mar.
·10 pd. to exch. 100 Jan. for Feb.
·14 pd. to exch. 100 Mar. for April.
·32 pd. to exch. 200 Feb. for April.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. The Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Jan. 11), we add the item of exports from the United States, including in it the exports of Friday only.

☞ The imports into Continental ports this week have been 61,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 197,854 bales as compared with the same date of 1882, an *increase* of 299,152 bales as compared with the corresponding date of 1881 and an *increase* of 690,099 bales as compared with 1880.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since Sept. 1, the shipments for the week, and the stocks to-night, and the same items for the corresponding period of 1882-83—is set out in detail in the following statement

| Towns. | Movement to January 11, 1884. Receipts. This week. | Receipts. Since Sept. 1, '83 | Shipm'ts this week. | Stock Jan. 11. | Movement to January 12, 1883. Receipts. This week. | Receipts. Since Sept. 1, '82. | Shipm'ts this week. | Stock Jan. 12. |

* This year's figures estimated.

The above totals show that the old interior stocks have *decreased* during the week 14,256 bales, and are to-night 16,876 bales *more* than at the same period last year. The receipts at the same towns have been 46,923 bales *less* than the same week last year, and since September 1 the receipts at all the towns are 305,776 bales *less* than for the same time in 1882-83.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—In the table below we give the closing quotations of middling cotton at Southern and other principal cotton markets for each day of the past week.

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports.

RECEIPTS FROM PLANTATIONS.

| Week ending— | Receipts at the Ports. '83-'82. | '82-'83. | '83-'84. | St'k at Interior Towns. '81-'82. | '82-'83. | '83-'84. | Rec'pts from Plant'ns '81-'82. | '82-'83. | '83-'84. |
|---|---|---|---|---|---|---|---|---|---|
| Oct. 26..... | 210,567 | 241,738 | 252,845 | 251,532 | 139,317 | 236,986 | 233,331 | 258 0.6 | 286,861 |
| Nov. 2. .... | 225,285 | 256,623 | 241,921 | 290,140 | 175,092 | 278,731 | 243,893 | 292,598 | 281,669 |

| " 21.. ... | 206,855 | 258,170 | 247,73 | 457,02 | 336,09 | 423,577 | 218,843 | 295,635 | 281,084 |
| " 28..... | 200,624 | 251,923 | 261,686 | 469,586 | 379,85 | 422,310 | 210,18 | 294,785 | 200,419 |
| Jan. 4 ..... | 152,429 | 224,397 | 140,612 | 453,650 | 3 3 617 | 407,971 | 139 502 | 228,789 | 126,276 |
| " 11 ... | 114,868 | 175,382 | 90 245 | 435,050 | 380,218 | 389,898 | 96,259 | 171,983 | 72,169 |

The above statement shows—1. That the total receipts from the plantations since September 1, 1883, were 3,987,949 bales; in 1882-83 were 4,225,604 bales; in 1881-82 were 3,890,035 bales.

2.—That, although the receipts at the out-ports the past week were 90,245 bales, the actual movement from plantations was only 72,169 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the same week were 171,983 bales and for 1882 they were 96,259 bales.

AMOUNT OF COTTON IN SIGHT JANUARY 11.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to January 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight.

| | 1883-84. | 1882-83. | 1881-82. | 1880-81. |
|---|---|---|---|---|
| Receipts at the ports to Jan. 11 | 3,647,207 | 3,861.841 | 3,500,416 | 3,694,438 |
| Interior stocks on Jan. 11 in excess of September 1..... | 340,742 | 363,763 | 389,625 | 270,712 |
| Tot. receipts from plantat'ns | 3,987,949 | 4,225 604 | 3,890,0 5 | 3,965,150 |
| Net overland to January 1.... | 382,415 | 413,082 | 323,510 | 316,763 |
| Southern consumpt'n to Jan. 1 | 123,000 | 130,000 | 100,000 | 85,000 |
| Total in sight January 11 ... | 4,493,364 | 4,768,686 | 4,313,545 | 4,366,913 |

It will be seen by the above that the decrease in amount in sight to-night, as compared with last year, is 275,322 bales, and that the increase as compared with 1881-82 is 179,819 bales, and with 1880-81 is 126,451 bales.

WEATHER REPORTS BY TELEGRAPH.—The weather has been unusually severe at the South during the week. In some districts the temperature has been lower than for a number of years past, and snow and ice have been the rule. In Arkansas and Tennessee the fall of snow was particularly heavy.

*Galveston, Texas.*—It has rained on four days of the week, the rainfall reaching sixty-nine hundredths of an inch. We have had killing frost on five nights, and ice formed on four, during the week. The thermometer has ranged from 22 to 65, averaging 44.

*Indianola, Texas.*—We have had rain on three days of the week. There have been five killing frosts, and ice formed on four nights. The rainfall reached two hundredths of an inch.

*Palestine, Texas.*—It has rained on two days of the week, the rainfall reaching five hundredths of an inch. We have had six killing frosts, and ice formed on four nights of the week. The thermometer has averaged 34, the highest being 61 and the lowest 7.

*New Orleans, Louisiana.*—It has rained on four days of the week, the rainfall reaching ninety-four hundredths of an inch. The thermometer has averaged 42.

*Shreveport, Louisiana.*—Unusually cold weather prevailed during the week. Two inches of sleet and snow fell on the morning of the seventh. The temperature has been consider-

ably higher the latter part of the week, with heavy rain on the night of the 10th. The rainfall, including melted snow and sleet, reach one inch and ten hundredths. The thermometer has ranged from 10 to 64

*Vicksburg, Mississippi.*—It h s rained on three days and the remainder of the week has been cloudy. The rainfall reached one inch and three hundredths. The weather has been too cold. Ice formed in this vicinity on three nights of the week. Average thermometer 24, highest 65 and lowest 10.

*Meridian, Mississippi.*—The snow storm this week was of wide extent and here was two inches deep. The weather has been colder than for many years past, the thermometer falling to 8 above. To-day the weather is warmer and it is raining.

*Columbus, Mississippi.*—It has rained on one day of the week, the rainfall reaching one inch and twenty-five hundredths. Two inches of snow fell at this point during the week; the snow-storm extended over a wide surface.

*Little Rock, Arkansas.*—Telegram not received.

*Pine Bluff, Arkansas.*—Telegram not received.

*Fort Smith, Arkansas.*—We have had no rain during the week, but on the sixth snow fell to the depth of four inches. The thermometer has averaged 16, ranging from 4 below to 42.

*Helena, Arkansas.*—We have had six inches of snow during the week. It has rained constantly on two days. The thermometer has averaged 28, the highest being 50 and the lowest 4. Rainfall, including melted snow, two inches and seventy-seven hundredths.

*Monticello, Arkansas.*—It has rained on three days of the week, and snow fell to the depth of five inches. Average thermometer 21, highest 50 and lowest 3. Last week we had rain on three days. The thermometer ranged from 18 to 60. Ice formed in this section during the week.

*Memphis, Tennessee.*—It has rained on four days of the week, the rainfall reaching one inch and thirty-eight hundredths. We have had the lowest temperature this week of which there is any official record. Snow fell to the depth of nearly ten inches during the week. The thermometer has ranged from 2 below to 49, averaging 20.

*Nashville, Tennessee.*—We have had rain on one day of the week, the rainfall reaching forty-nine hundredths of an inch. Snow fell here to the depth of seven inches. The thermometer has averaged 18, ranging from 10 below to 51.

*Mobile, Alabama.*—It has rained severely on one day, and has been showery on four days of the week. The rainfall reached two inches and seventy-eight hundredths. The thermometer has averaged 26, the highest being 58 and the lowest 13.

*Montgomery, Alabama.*—It has rained on five days of the week, the rainfall reaching one inch and eighteen hundredths. The weather has been too cold. On the 4th, 9th and 10th ice formed in the whole of the State. We have had snow during he week. Average thermometer 30, highest 52, lowest 8.

*Selma, Alabama.*—There has been rain on three days of the week, with a rainfall of one inch and ninety-five hundredths. The causes of the small receipts this week are the bad roads and the extremely cold weather. The thermometer has ranged from 7 to 46, averaging 25

*Madison, Florida.*—Telegram not received.

*Macon, Georgia.*—It has rained on two days of the week. We have had ice, snow and sleet during the week. The thermometer has averaged 30, the highest being 55 and the lowest 10.

*Columbus, Georgia.*—We have had severe weather all the week. The rainfall reached one inch and forty-two hundredths. Average thermometer 30, highest 48 and lowest 12

*Savannah, Georgia.*—It has rained on four days of the week, and the remainder of the week has been cloudy and cold. The rainfall reached two inches and forty-five hundredths. The thermometer has ranged from 18 to 56, averaging 37.

*Augusta, Georgia.*—The early part of the week was clear but unusually cold, with sleet on Monday night; the last three days we have had general rains and the weather has moderated considerably. The rainfall reached one inch and sixty-nine hundredths. The thermometer has averaged 32, ranging from 14 to 53.

*Atlanta, Georgia.*—It has rained on two days of the week, the rainfall reaching seventy-five hundredths of an inch. We have had snow. The thermometer has averaged 24, the highest being 48 and the lowest 1.

*Charleston, South Carolina.*—We have had rain on three days of the week, the rainfall reaching four inches and thirteen hundredths. Average thermometer 36, highest 60, lowest 13.

*Columbia, South Carolina.*—It has rained on one day of the week. Snow fell here during the week, and ice formed on six nights. The thermometer has ranged from 10 to 60, averaging 34.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock January 10, 1884, and January 11, 1883.

|---|---|---|---|---|---|
| | | Feet. | Inch. | Feet. | Inch |
| New Orleans | Below high-water mark | 4 | 10 | 10 | 7 |
| Memphis | Above low-water mark. | 24 | 4 | 8 | 3 |
| Nashville | Above low-water mark. | 9 | 4 | 13 | 0 |
| Shreveport | Above low-water mark. | 11 | 3 | 14 | 10 |
| Vicksburg | Above low-water mark. | 39 | 4 | 17 | 6 |

New Orleans reported below high-water mark of 1871 until Sept 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

India Cotton Movement from all Ports.—We have re-arranged our India service so as to make our reports more detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to January 10.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

| Year | Shipments this week. | | | Shipments since Jan. 1. | | | Receipts. | |
|---|---|---|---|---|---|---|---|---|
| | Great Brit'n. | Continent. | Total. | Great Britain | Continent. | Total. | This Week. | Since Jan. 1. |
| 1884 | 11,000 | 8,000 | 19,000 | 18,000 | 24,000 | 42,000 | 47,000 | 77,000 |
| 1883 | 7,000 | 11,000 | 18,000 | 13,000 | 13,000 | 26,000 | 29,000 | 56,000 |
| 1882 | 23,000 | 6,000 | 29,000 | 30,000 | 16,000 | 46,000 | 28,000 | 62,000 |
| 1881 | 1,000 | ..... | 1,000 | 6,000 | 7,000 | 13,000 | 23,000 | 39,000 |

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 18,000 bales, and an *increase* in shipments of 1,000 bales, and the shipments since January 1 show an *increase* of 16,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of January, for two years has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

| | Shipments for the week. | | | Shipments since January 1. | | |
|---|---|---|---|---|---|---|
| | Great Britain. | Continent. | Total. | Great Britain. | Continent. | Total. |
| Calcutta— | | | | | | |
| 1884..... | 1,000 | ..... | 1,000 | 3,000 | ..... | 3,000 |
| 1883..... | 3,500 | ..... | 3,500 | 8,500 | ..... | 8,500 |
| Madras— | | | | | | |
| 1884..... | 500 | ..... | 500 | 1,000 | ..... | 1,000 |
| 1883..... | 1,000 | ..... | 1,000 | 1,000 | ..... | 1,000 |
| All others— | | | | | | |
| 1884..... | 800 | ..... | 800 | 800 | ..... | 800 |
| 1883..... | ..... | ..... | ..... | 1,000 | ..... | 1,000 |
| Total all— | | | | | | |
| 1884..... | 2,300 | ..... | 2,300 | 4,800 | ..... | 4,800 |
| 1883..... | 4,500 | ..... | 4,500 | 10,500 | ..... | 10,500 |

The above totals for the week show that the movement from the ports other than Bombay is 2,200 bales *less* than same week last year. For the whole of India, therefore, the total shipments since January 1, 1884, and for the corresponding periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

| Shipments to all Europe from— | 1884. | | 1883. | | 1882. | |
|---|---|---|---|---|---|---|
| | This week. | Since Jan. 1. | This week. | Since Jan. 1. | This week. | Since Jan. 1. |
| Bombay ..... | 19,000 | 42,000 | 18,000 | 26,000 | 29,000 | 46,000 |
| All other ports. | 2,300 | 4,800 | 4,500 | 10,500 | 4,000 | 12,800 |
| Total ..... | 21,300 | 46,800 | 22,500 | 36,500 | 33,000 | 58,800 |

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

Alexandria Receipts and Shipments.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

| Alexandria, Egypt, January 9. | 1883-84. | | 1882-83. | | 1881-82 | |
|---|---|---|---|---|---|---|
| Receipts (cantars*)— | | | | | | |
| This week.... | | 90,000 | | 100,000 | | 110,000 |
| Since Sept. 1 | | 2,142,000 | | 1,726,000 | | 2,227,550 |
| | This week. | Since Sept. 1. | This week. | Since Sept. 1. | This week. | Since Sept. 1. |
| Exports (bales)— | | | | | | |
| To Liverpool..... | 12,000 | 154,000 | 13,000 | 138,000 | 10,000 | 141,000 |
| To Continent ..... | 6,000 | 68,000 | 9,000 | 41,000 | 11,319 | 77,029 |
| Total Europe..... | 18,000 | 222,000 | 22,000 | 179,000 | 21,319 | 218,029 |

* A cantar is 98 lbs.

This statement shows that the receipts for the week ending Jan. 9 were 90,000 cantars and the shipments to all Europe were 18,000 bales.

Manchester Market.—Our report received from Manchester to-night states that the market is active, but not dearer. We give the prices of to-day below, and leave previous weeks' prices for comparison.

| | 1883-4. | | | | | 1882-3. | | | | |

THE SOUTH CAROLINA ACT AGAINST "FUTURE SALES."—In the CHRONICLE of Dec. 15 we stated that the South Carolina Senate has passed a bill declaring unlawful contracts for the sale of articles for future delivery. We give the act in full below:

An Act to declare unlawful contracts for the sale of articles for future delivery made under certain circumstances and to provide the remedy in such cases:

SECTION 1. That every contract, bargain or agreement, whether verbal or in writing, for the sale or transfer at any future time of a certificate, bond or other evidence of debt due from the United States or from an individual State, or of stock or a share or interest in the stock, or of the bonds of any bank, city, village or incorporation of any kind whatsoever incorporated under any law of the United States or of any individual State, or for the sale or transfer at any future time of any cotton, grain, meats, or any other animal, mineral or vegetable product of any and every kind, shall be void unless the party contracting, bargaining, or agreeing to sell or transfer the same is at the time of making such contract, bargain or agreement the owner or assignee thereof, or is at the time authorized by the owner or assignee thereof or his duly authorized agent to make and enter into such contract, bargain or agreement for the sale or transfer of such certificate, bond or other evidence of debt, cotton, grain, meats, or animal, mineral or vegetable product so contracted for, or unless it is the *bona fide* intention of both the parties to the said contract, bargain or agreement at the time of making the same, that the said certificate, bond or other evidence of debt, cotton, grain, meats, or other animal, mineral or vegetable product so agreed to be sold or transferred shall be actually delivered in kind by the party contracting to sell and deliver the same, and shall be actually received in kind by the party contracting to receive the same at the period in the future mentioned and specified in the said contract, bargain or agreement for the transfer and delivery of the same.

SEC. 2. In any and all actions brought in any court to enforce such contracts, bargains or agreements, or to collect any note or other evidence of indebtedness, or any claim or demand whatever founded upon any such contract, bargain or agreement, the burden of proof shall be upon the plaintiff to establish that at the time of making such contract, bargain or agreement the party making the same was the owner or assignee of the certificate, bond or other evidence of debt, cotton, grain, meat, or other animal, mineral or vegetable product so agreed to be sold and transferred, or was at the time authorized by the owner or assignee thereof, or his duly authorized agent, to make and enter into such contract, bargain or agreement, or that at the time of making such contract, bargain or agreement it was the *bona fide* intention of both parties thereto that said certificate, bond, or other evidence of debt, cotton, grain, meats, or other animal, mineral or vegetable product so agreed to be sold and transferred, should be actually delivered and received in kind by the said parties at the future period mentioned therein.

SEC. 3. Any person or persons so contracting, bargaining or agreeing for the sale or transfer of any of the aforesaid commodities, in violation of the provisions of this act, who shall pay over to any one or more person or persons any sum or sums of money for and on account of a loss sustained by reason of such contracts, bargains or agreement, shall be at liberty, within three months next ensuing after such payment, to sue and recover the amount so lost and paid, or any part thereof, from the person or persons to whom he or they shall have paid the same, with costs of suit, by action to be prosecuted in any court of competent jurisdiction, and the oath of the loser that he has actually paid over the money to the party against whom the action is brought shall be regarded as *prima facie*, establishing the case against such party; and any person who shall act as agent or middle man in the making or execution of any such contract, or who shall accept or receive and forward any moneys, drafts or bills of exchange in furtherance thereof, shall be held liable in an action by the party to recover the amount or value of the money so received, or the value of the draft or bill of exchange so accepted or forwarded.

SEC. 4. Any person or persons who, by virtue of the provisions herein contained, shall or may be liable to be sued for the said moneys so paid to him or them, shall be obliged and compelable to answer upon oath such order or orders as shall be made against him or them for discovering the sum and sums of money so paid to him or them as aforesaid.

SEC. 5. All notes, bills, bonds, judgments, or other securities or conveyances whatever, given, granted or entered into, or executed by any person or persons whatsoever, where the whole or any part of the consideration of such conveyances or securities shall be for any money lost by reason of any contract entered into in violation of the provisions of this act, shall be utterly void, frustrate and of no effect to all intents and purposes whatever.

—The attention of cotton manufacturers is invited to the card, on the last page of the CHRONICLE, of Messrs. Payne, Viley & Co., cotton commission merchants, at Louisville, Ky. This firm has been in business for a number of years, receiving cotton from the South on consignment, and they have just now determined to change in a measure the character of their business by giving special attention to the requirements of Northern manufacturers. For this purpose they will have on hand or under their control at Louisville and other Southern points, from which they will ship direct, a supply of all grades of cotton adapted for spinners' wants, and immediately on the receipt of orders can ship to any point indicated. The firm has secured the services of Mr. H. V. Sanders, late of Cincinnati, who will give special attention to this Department. They will do nothing in futures and do not seek consignments of cotton from producers, but will specially consult the wants of spinners and endeavor to fill orders to their entire satisfaction. The house is well known in Louisville and has for its New York correspondents the United States National Bank and Messrs. Latham, Alexander & Co.

JUTE BUTTS, BAGGING, &c.—The market has been rather quiet since our last, no inquiry being reported beyond jobbing orders and these are light at the moment. Prices are unchanged, dealers not being willing to accept less than quoted figures for the parcels moving, and the prices at the close are 9¼c. for 1¾ lbs., 9¾c. for 1¾ lbs., 10⅜@10½c. for 2 lbs. and 11¼c. for standard grades. Butts are not active, only a few jobbing transactions being reported. The feeling is rather firm, however, and sellers are quoting 2 5-16@2⅜c. for paper grades and 2 9-16@2¾c. for bagging quality.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.—A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1, 1883, has been as follows.

| Monthly Receipts. | Year Beginning September 1. | | | | | |
|---|---|---|---|---|---|---|
| | 1883 | 1882. | 1881. | 1880. | 1879. | 1878. |
| Sept'mb'r | 313,812 | 326,656 | 429,777 | 458,478 | 333,643 | 288,848 |
| October.. | 1,046,092 | 989,584 | 853,195 | 968,318 | 888,492 | 689,264 |
| Novemb'r | 1,030,380 | 1,094,607 | 974,043 | 1,006,501 | 942,272 | 779,237 |
| Decemb'r | 1,05 ,653 | 1,112,536 | 996,807 | 1,020,802 | 956,464 | 893,664 |
| Totalyear | 3,479,937 | 3,514,473 | 3,253,822 | 3,454,099 | 3,120 871 | 2,651 013 |
| P rc'tage of tot. port receipts Dec. 31.. | 58 38 | 68 93 | 58 80 | 62·30 | | 59·60 |

This statement shows that up to Dec. 31 the receipts at the ports this year were 34,536 bales less than in 1882 and 226,115 bales more than at the same time in 1881. By adding to the above totals to Dec. 31 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

| | 1883-84. | 1882-83. | 1881-82. | 1880-81. | 1879-80. | 1878-79. |
|---|---|---|---|---|---|---|
| Tot. Dec. 31 | 3,479,937 | 3,514,473 | 3,253,822 | 3,454,099 | 3,120,871 | 2,651,013 |
| Jan. 1.... | 19,952 | 49,366 | 8. | 20.294 | 15,776 | 9,614 |
| " 2.... | 18,208 | 35,488 | 28.830 | 8. | 30,208 | 22,227 |

| " 4.... | 19,977 | 29,181 | 17.926 | 11,808 | 8. | 14,949 |
| " 5.... | 14 490 | 33.895 | 23,405 | 13,307 | 23,548 | 8. |
| " 6.... | 8. | 34.713 | 37.231 | 16,773 | 22,906 | 33,248 |
| " 7.... | 20,021 | 8. | 17.951 | 25,039 | 19,929 | 14,528 |
| " 8.... | 9,986 | 39.653 | 8. | 17,286 | 17,551 | 14,394 |
| " 9.... | 16,885 | 19,749 | 21,640 | 8. | 34,762 | 20,046 |
| " 10 .. | 14,734 | 26,949 | 16 318 | 26,850 | 20,411 | 23,926 |
| " 11 .. | 14,129 | 25,776 | 15,187 | 18,066 | 8. | 13,778 |
| Total ... | 3,647,207 | 3,833,299 | 3,456,668 | 3,627,066 | 3,336,752 | 2,854,160 |
| Percentage of total port rec'pts Jan. 11. | 63·68 | 73·23 | 61·75 | 66·71 | | 61·18 |

This statement shows that the receipts since Sept. 1 up to to-night are now 186,092 bales less than they were to the same day of the month in 1883 and 190,539 bales more than they were to the same day of the month in 1882. We add to the table the percentages of total port receipts which had been received to January 11 in each of the years named.

THE FOLLOWING ARE THE GROSS RECEIPTS OF COTTON at New York, Boston, Philadelphia and Baltimore for the past week, and since September 1, 1883:

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 145,093 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Thursday night of this week:

| | Total bales |
|---|---|
| NEW YORK—To Liverpool, per steamers Britannic, 1,345 ... Gallia, 1,298....Holbein, 1,293....Lake Manitoba, 3,208 ....Lake Winnepeg, 3,413....Republic, 1,304....Wyoming, 1,084 | 12,945 |
| To Hull, per steamer Marengo, 1,062 | 1,062 |
| To Havre, per steamer Amerique 1,544 | 1,544 |
| To Bremen, per steamer Habsburg, 199 | 199 |
| To Hamburg, per steamer Rugia, 750 | 750 |
| To Amsterdam, per steamer Edam, 2,092 | 2,092 |

Included in the above totals are, from New York to Genoa, 123 bales, and from Galveston to Vera Cruz, 504 bales.

Below we add the clearances this week of vessels carrying cotton from United States ports, bringing our data down to the latest mail dates:

GALVESTON—For Liverpool—Jan. 4—Bark Barracouta, 1,928....Jan. 5—Barks Njord, 1,473; Jennie Sweeney, 2,127.
For Havre—Jan. 5—Bark Speranza, 1,664. .Jan. 7—Bark Madonna, 1,472.
NEW ORLEANS—For Liverpool—Jan. 4—Steamer Clare, 5,100; ship Nettie Murphy, 4,460; bark Josip, 1,864....Jan. 5—Steamers Enrique, 4,600; Hector, 4,400; Statesman, 3,428....Jan. 7—Steamer Castello, 6,666....Jan. 8—Steamer Victoria, 5,833....Jan. 9—Steamer Gaugers, 5,750.
For Havre—Jan. 8—Bark John Watt, 3,750.
For Bremen—Jan. 7—Steamer Azalea, 4,800.
For Barcelona—Jan. 4—Bark Souvenir, 1,500....Jan. 9—Steamer Cristobal Colon, 1,098.
For Malaga—Jan. 7—Steamer Pontiac, 3 508.
For Vera Cruz—Jan. 5—Steamer City of Mexico, 687.
MOBILE—For Liverpool—Jan. 9—Bark Juno, 3,125.
SAVANNAH—For Havre—Jan 8—Bark Ibis, 1,600.
For Barcelona—Jan. 8—Bark Mary K. Campbell, 1,700.
For Genoa—Jan. 7—Bark Viator, 1,450.
CHARLESTON—For Havre—Jan. 9—Bark Elverhof, 1,330.
For Barcelona—Jan. 4—Brig Intrepidad, 800
WILMINGTON—For Liverpool—Jan. 5—Bark Sivah, 1,101....Jan. 7—Steamer Woodside, 5,020.
NORFOLK—For Liverpool—Jan. 8—Bark Strathtay, 3,859....Jan. 9—Steamer Kingdom, 6,140.
For Sebastopol—Jan. 5—Steamer Colombo, 5,420.
NEWPORT NEWS—For Liverpool—Jan. 4—Bark Annie Burrill, ——.
BOSTON—For Liverpool—Jan. 4—Steamers Bavarian, 2,631; Samaria, 947....Jan. 8—Steamer Kansas, ——.
BALTIMORE—For Liverpool—Jan. 7—Steamer Caspian, 1,400.
PHILADELPHIA—For Liverpool—Jan. 4—Steamer British Princess, 2,221 ....Jan. 8—Steamer Illinois, 1,200.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.:

BRITANNIC, steamer (Br.), at New York, loading for Liverpool. About 150 bales cotton in the fore hold of the steamship Britannic (Br.), loading at her wharf foot of West Tenth Street, North River, New York, was discovered to be on fire at 11 A. M. January 5. In less than one hour and a half the fire was subdued, and the freeing of the compartment from water and discharge of all the cargo therein contained was at once begun, and by 1 A. M. on the 5th all was got out, the compartment filled with additional bales of cotton and at 10 A. M. the vessel was ready for sea, leaving at 10:30, and was out clean of the bar, Sandy Hook, at 12:24 P. M.

QUEEN, steamer (Br.),—2,293 bales cotton had been salved up to December 22 from the steamer Queen (Br.), from Charleston via Newport News for Liverpool, previously reported ashore on the Island of Nargen. From the 22d to the 26th but 66 bales had been salved, the weather preventing salvors from working.

Cotton freights the past week have been as follows:

## BREADSTUFFS.

FRIDAY, P. M., Jan. 11, 1884

Flour has sold very slowly, and, the supply being large, prices have declined. The supply abroad, moreover, is quite liberal, and this is the chief reason for the dulness of the export trade. Hungary is now an active competitor with the United States for the trade of England, and it is stated that the production of English mills has increased. To-day the market here was dull and still depressed.

Wheat has met with only a light demand for export as a rule, though on one or two days the trade showed some signs of improvement. There is too much wheat in the foreign markets, however, and not even the present low rates for ocean freight-room are sufficient to stimulate the foreign buying. The speculation has likewise been confined to moderate limits as a rule and prices have declined. The most noteworthy occurrence of the week was the "posting" of 505,000 bushels of No. 2 red wheat in two days, which is something almost unprecedented. The wheat was pronounced by the inspector-in-chief to be warm and weevily. Some of it has been held in Brooklyn warehouses since the fall of 1882. The postings were on the 7th and 8th instants; since then only 12,500 bushels have been degraded, somewhat to the relief of the trade. It is claimed, however, that a much larger quantity will have to take a lower grade than that now assigned to it before many months. The effect of the degrading has been to weaken prices, though the large supplies, both here and in Europe, have also contributed to the depression. To-day there was a moderate business at a decline of ½c. to 1¼c. Towards the close, however, the speculative trading became more active and the total transactions involved 8,184,000 bushels, making the largest day's business during the week. The closing quotations for No. 2 red were $1 12¾ in elevator, $1 06⅞ for January, $1 09 for February, $1 11¼ for March, $1 13⅛ for April, $1 15⅛ for May and $1 15¼ for June. These prices are 2½c. to 3c. below those of a week ago. The winter wheat is now protected by a heavy covering of snow and this fact, in conjunction with the large supply in the different marts of the world, tends to depress prices.

Indian corn has been dull and declining. The weather has latterly been bad for drying the crop, and much of it arriving has been poor. These facts have had their natural influence, although it is also claimed that January "shorts" in Chicago have been depressing prices in order to cover to better advantage The visible supply in this country has increased somewhat. The most unfavorable feature of the market at present, however, is the slowness of the foreign trade. To-day the market was quiet and ½ to 1½c. lower. The closing prices for No. 2 mixed were 66c. delivered, 63¾c. for January, 64⅜c. for February, 65¼c. for March and 66⅞c. for May.

Rye and barley have met with a moderate demand at about steady prices, though the market closed quiet and somewhat depressed. Oats have also been only moderately active and have declined slightly. To-day No. 2 mixed sold at 40¼c. for January, 40⅞@41¼c. for February and 43¼@43⅜c. for May.

The following are closing quotations:

## THE DRY GOODS TRADE.

FRIDAY, P. M., Jan. 11, 1884.

Business was rather more active in commission circles the past week, owing to the presence of a considerable force of package buyers from the South and Southwest, but the demand was very irregular. The most staple cotton goods were in somewhat better demand by local and out-of-town jobbers, and a few large sales were made to exporters, but domestic woolens were very quiet. Spring fabrics, as prints, ginghams, lawns, piques, worsted dress goods, quilts, white goods, hosiery, &c., have been more sought after by intending buyers, and a fair distribution was made in this connection, though purchases were checked to some extent by the exceptionally cold weather that prevailed in wide sections of the country. The general jobbing trade continued light and unimportant, as usual between seasons, but a pretty good package trade in domestic cottons, prints, hosiery, &c., was done by a few leading houses that cater for the wants of small jobbers and large retailers. Values are without material change, but there is a somewhat better feeling in the trade, and there is a growing belief on the part of distributers that bottom prices for most fabrics have at length been reached, which is probably the case.

Domestic Cotton Goods.—The exports of cotton goods for the week were 2,699 packages, including 675 to Great Britain, 567 to Africa, 442 to United States of Colombia, 378 to China, 143 to Uruguay, 124 to Hayti, 117 to Argentine Republic, etc. As above noted, the demand for cotton goods was a trifle better, though irregular. Bleached goods ruled quiet, but some large transactions in brown sheetings were reported—exporters having been attracted by the prevailing low price.—and wide sheetings, denims, ducks, and other colored cottons, were in fair request, while there was a freer movement in quilts and white goods. Prices have not materially changed save in the case of wide sheetings and tickings upon certain makes of which slight concessions were made by agents in order to meet the market. Print cloths were in moderate demand and steady at last quotations, and there was an improved business in fancy prints, the best standard makes of which have been opened at the low price of 6c. per yard. Ginghams have been more active, and some business was reported in cotton dress goods, while a fair distribution of cotton hosiery was made by agents.

Domestic Woolen Goods.—The demand for clothing woolens was light and unsatisfactory, very few buyers having thus far appeared in the market. Deliveries on account of back orders were continued on a moderate scale, and the best makes of cassimeres, worsted coatings, &c., are held with considerable firmness. Overcoatings and heavy satinets have met with some attention, but actual business was only moderate. Jersey cloths were in light request, as were ladies' cloths and cloakings, and Kentucky jeans ruled quiet. For flannels, blankets, shawls and skirts there was a light re-assorting demand, and a fair business was done in carpets by agents and jobbers. Worsted dress goods were in better request, and there was a fair movement in cotton-warp and all-wool cashmeres, staple and fancy worsteds, buntings, &c., on account of early orders.

Foreign Dry Goods continued quiet in first hands, the demand having been almost wholly confined to a few specialties, as British dress goods, white goods and Hamburg embroideries, in which moderate transactions were reported.

### Importations of Dry Goods.

The importations of dry goods at this port for the week ending Jan. 10, 1884, and since January 1, and the same facts for the corresponding periods of 1883, are as follows:

| | ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1884 AND 1883 | | | | | | | | | | | |

## Publications.

THE GREATEST LIVING Authors, such as Prof. Max Muller, Jas. A. Froude, Prof. Huxley, Right Hon. W. E. Gladstone, R. A. Proctor, Edward A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, Professor Goldwin Smith, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, Geo. MacDonald, Mrs. Oliphant, Jean Ingelow, Thos. Hardy, Francis Galton, W. W. Story, Matthew Arnold, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

## LITTELL'S LIVING AGE.

During the forty years of its publication THE LIVING AGE has met with continuous commendation and success.

A *Weekly Magazine*, it gives more than

THREE AND A QUARTER THOUSAND

double-column octavo pages of reading matter yearly. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Serial and Short Stories, Sketches of Travel and Discovery, Poetry, Scientific, Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

It is therefore invaluable to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—indispensable because it embraces the productions of

THE ABLEST LIVING WRITERS

in all branches of Literature, Science, Politics and Art.

"We know of no equal to THE LIVING AGE for variety of information, depth of interest, and purity of tone. Its pages are sufficient to keep any reader abreast with the best printed thoughts of the best of our contemporary writers. It is the great eclectic of the world."—*Episcopal Register, Philadelphia.*

"It flourishes in even more than youthful vigor. It has become indispensable."—*New York Observer.*

"Its readers are supplied with the best literature of the day. * * * There is nothing noteworthy in science, art, literature, biography, philosophy, or religion, that cannot be found in it. * * * It gives in accessible form the best thought of the age."—*The Churchman, New York.*

"It becomes more and more necessary as the field of periodical literature broadens."—*Zion's Herald, Boston.*

"No other periodical gives so diversified a view of current literature, not by abridgments, but by publishing entire the best essays, criticisms, discussions, short stories, and serial romances of the day. * * * It is for readers of limited leisure or purse the most convenient and available means of possessing themselves of the very best results of current criticism, philosophy, science, and literature."—*Presbyterian Banner, Pittsburg.*

"Through its pages alone it is possible to be as well informed in current literature as by the perusal of a long list of monthlies.'—*Phila. Enquirer.*

"Whatever there is of interest in the literary and scientific world is spread before its readers."—*Boston Journal.*

"No reader who makes himself familiar with its contents can lack the means of a sound literary culture."—*New York Tribune.*

"It furnishes a complete compilation of an indispensable literature."—*Chicago Evening Journal*

"Remarkably cheap for the quality and amount of reading furnished."—*Montreal Gazette.*

"It is by odds the best periodical in the world."—*Morning Star, Wilmington, N. C.*

Published WEEKLY at $8 00 a year, *free of postage*, or,

For $10 50 THE LIVING AGE and any one of the American $4 Monthlies (or *Harper's Weekly* or *Bazar*) will be sent for a year, postpaid; or for $9 50 THE LIVING AGE and the *St. Nicholas*, or *Lippincott's Monthly*. Address,

LITTELL & CO., Boston.

## Interest, Dividends, &c.

THE CANADIAN PACIFIC RAILWAY COMPANY.

MONTREAL, Jan. 11, 1884.

THE HALF-YEARLY DIVIDEND UPON THE CAPITAL STOCK OF THIS COMPANY, at the rate of three per cent per annum, secured under agreement with the Government of the Dominion of Canada, and a half-yearly supplementary interest dividend at the rate of two per cent per annum, declared by this company, together forming A HALF-YEARLY DIVIDEND ON THE SAID STOCK AT THE RATE OF FIVE PER CENT PER ANNUM, will be paid on MONDAY, Feb. 18, 1884, to stockholders of record on that date.

Warrants for this dividend, payable at the agency of the Bank of Montreal, 59 Wall Street, New York, will be delivered on and after Feb. 18, 1884, at the office of the company's agents,

MESSRS. J. KENNEDY TOD & CO., NO. 63 WILLIAM ST., NEW YORK,

to stockholders who are registered as resident in the United States and Canada.

All other warrants will be delivered on the same date at the office of Messrs. Morton, Rose & Co., London.

The transfer books will be closed at 3 o'clock P. M. on SATURDAY, Jan. 26, and will be reopened at 10 o'clock A. M. on SATURDAY, Feb. 23.

(Signed) C. DRINKWATER, Secretary.

THE LAKE SHORE & MICHIGAN SOUTHERN RAILWAY CO.,
TREASURER'S OFFICE,
GRAND CENTRAL DEPOT,
NEW YORK, Dec. 26, 1883.

The Board of Directors of this Company have this day declared a QUARTERLY DIVIDEND of TWO PER CENT upon its capital stock, payable on FRIDAY, the FIRST DAY OF FEBRUARY NEXT, at this office.

The transfer books will be closed at 3 o'clock P. M. on MONDAY, the 31st inst., and will be reopened on the morning of Tuesday, the 5th day of February next. E. D. WORCESTER, Treasurer.

THE ST. PAUL MINNEAPOLIS & MANITOBA RAILWAY COMPANY, No. 63 WILLIAM STREET,

NEW YORK, January 8, 1884.

The usual Quarterly Dividend of TWO PER CENT has this day been declared on the capital stock of this company, payable at this office on and after February 1, 1884, to stockholders of record on that date.

The stock transfer books will be closed at 3 o'clock P. M. on Saturday, Jan. 19, and will re-open at 10 o'clock A. M. on Monday, Feb. 4.

JOHN S. KENNEDY, Vice-President.

OFFICE OF PULLMAN'S PALACE CAR COMPANY, CHICAGO, ILL., Jan. 18, 1884.

DIVIDEND NO. 68.

The usual QUARTERLY DIVIDEND of TWO (2) PER CENT on the capital stock of this company has been declared, payable Feb. 15 to stockholders of record at the close of business Feb. 1, 1884.

Transfer books will close Feb. 1 and re-open Feb. 16, 1884. A. S. WEINSHEIMER, Secretary.

OFFICE OF THE HOMESTAKE MINING COMPANY (MILLS BUILDING), NO. 15 BROAD STREET, NEW YORK, January 15, 1884.

DIVIDEND NO. 65.

The regular Monthly Dividend—Twenty Cents per share—has been declared for December, payable at the office of the transfer agents, Lounsbery & Haggin, Mills Building, 15 Broad Street, on the 25th inst.

Transfer books close on the 19th inst.

LOUNSBERY & HAGGIN, Transfer Agents.

THE NATIONAL BANK OF THE REPUBLIC, NEW YORK, Jan. 8, 1884.

At a meeting of the Stockholders of this Bank, held this day, the following gentlemen were elected directors for the ensuing year:

| | |
|---|---|
| George B. Carhart, | Oliver S. Carter, |
| John J. Crane, | James B. Johnston, |
| Wm. H. Guion, | D. H. McAlpin, |

### *THE FINANCIAL SITUATION.*

Our markets have nearly all of them been very much disturbed during the past week. The influences at work were so various as to affect many separate interests. Not crops, pools, earnings, railroads and construction companies alone, but produce markets also have been the source of no little solicitude. Altogether, with the rumors afloat as to the stability of unnamed banking houses, Wall Street on Wednesday appeared to be on the verge of a panic. The next day, the weaker holders having been sold out, a better feeling prevailed, and yesterday, the improved condition made further progress, mainly under the influence of the amicable settlement of the trunk line pooling arrangements.

As to breadstuffs the anxiety is not likely to be removed until the extent of the losses which are inevitable is more apparent. Prices of wheat at Chicago have now declined to below 90 cents without any improvement in the condition, and until values reach a point at which Europe will take part of our surplus there seems no prospect of relief. With a stock of 35 million bushels in sight here, of 16 millions in stock in Great Britain, of 19 millions afloat for Europe, of 40 millions reported awaiting shipment in Russian ports, and with the Australian crop now ready and promising a surplus of about 1½ million quarters, and then the Indian crop immediately to follow, with our own not far off and a surplus larger than a year ago of the old crop still in farmers' hands, there seems little hope for our wheat speculators until prices reach a figure at which consumers in some part of the world will lift off their load. At present, considering our large supply, a mere trifle is going to Europe. The following figures, made up from the statement of exports just issued by Mr. Nimmo, of the Bureau of Statistics, will illustrate this truth.

EXPORTS OF BREADSTUFFS FOR DECEMBER AND FOR SIX MONTHS

| Corn & meal. | 1,896,919 | 16,065,956 | 1,782,590 | 4,484,584 | 1,679,112 | 21,743,568 |
| Rye | 299,384 | 2,255,139 | 111,290 | 600,206 | 15,861 | 364,720 |
| Oats | 14,165 | 137,176 | 8,605 | 92,309 | 11,941 | 178,483 |
| Barley | 18,391 | 155,699 | 8,967 | 183,137 | 11,737 | 108,723 |
| Total value.. | 12,941,693 | 87,543,245 | 17,087,790 | 117,822,556 | 13,806,400 | 112,143,915 |

Here we have reported—with a visible supply 13½ million bushels larger than a year ago and 17½ millions larger than two years ago, and with farmers' holdings, as we show in a succeeding article, in excess of either year—a total export of only 9½ million bushels in December, against 12¾ millions in 1882 and 10½ millions in 1881. Obviously the present situation of wheat is not a reassuring one.

The earliest adverse circumstance, and perhaps the most demoralizing, with which Wall Street has had to contend this week, was the difficulty culminating in placing the North River Construction Company in the hands of a receiver. This was foreshadowed in our columns last week, but with the attending dissensions and the rumors which followed of the probable appointment of receivers of the West Shore, of the Ontario & Western and other companies, the results have been very disastrous to a large number of the holders of West Shore securities. Truth is, the task the Construction Company set itself to do was a formidable one, being nothing less than the building of an entirely new trunk line through a populous district where the cost of the right of way alone was an item of no mean proportions. The managers seemed to realize the work before them and its needs, having apparently secured ample means, a powerful financial backing, and a large and increasing local support. As a result, the road is now about completed and is physically in first-class condition. And yet by a strange combination of circumstances just as the road is opened its entire length, the pro-

jectors are overwhelmed with financial burdens and are forced to succumb. It would be difficult to fix the responsibility for this. Perhaps, indeed, there is little blame attaching to any one, for if there were not such a general feeling of distrust the enterprise could no doubt have raised for the future the money it needed, even as it had in the past. Moralizing will do little good now. The road has been built, and is in many respects a splendid piece of property. It may have been built at an inopportune time, not only as regards money, but as regards business. But that does not alter the fact that the road is in existence and that it is in excellent position for commanding traffic and must be accepted in the future as no less a factor in the problem the trunk lines have to work out, than is the Lackawanna or in truth any of the older roads.

It is not surprising that a fall of over 32 per cent in N. Y. West Shore & Buffalo bonds, 25⅝ of which decline has occurred since early in December, should have an unsettling effect, particularly since within the past week or more the fall has been accompanied by reports that wealthy holders who had bought the bonds for investment had sold out, and furthermore that an additional supply had come from parties whose losses in other enterprises compelled them to sacrifice these securities. It was also claimed that the shrinkage in the Villards and the West Shores had seriously crippled large numbers of capitalists, whose operations in the market have within a few years been very heavy, and that some banking houses and possibly banks had seriously suffered. So far as can be ascertained, however, these latter rumors have slight foundation. Banking houses carrying the West Shores on margin have suffered very little loss, because a failure on the part of their customers to respond to the demand for more margin was followed by the sale of the securities. The same may be said with respect to the Villards. There are, however, brokerage firms who have been doing a larger business than their means or prudence warrant, not only in stocks but in grain and other staples, and some of these have doubtless become involved by the fall in stocks and wheat, and this is probably the foundation for the disquieting rumors which have been current for the past few days.

Another and prominent cause of distrust has been the controversy between the old trunk lines and the Lackawanna, which on Wednesday appeared to have settled down into a prolonged fight. This disagreement has been a threatening feature for weeks. The order cutting off the Western connections of the Lackawanna at Buffalo was not put in force until Wednesday, because until then it could not be made effective, and the fact of the postponement gave color to a report that negotiations for an amicable settlement were progressing favorably. On Wednesday afternoon and Thursday morning, when it was ascertained that the order of the Commissioner had actually been executed, a heavy break in these properties carried prices to about the lowest figures recorded in several years, New York Central falling on Thursday to the lowest price since 1878. But towards the close of Thursday it was reported that Mr. Sloan had consented to submit the differences in dispute to arbitration, and this fact was the chief cause for the sharp reaction which occurred the latter part of that day. The truth is, the settlement which has thus been perfected has a very reassuring aspect, since on its face it shows not only a determination of the combination to maintain the pooling arrangement intact, but also the ability and power of Commissioner Fink to enforce its obligations.

Still another unfavorable circumstance has been the railroad earnings, which for the first week in January almost uniformly showed a decrease. This was interpreted as indicating a permanent decline in the revenue of all the roads. Accepting that conclusion, the public argued that so long as there was an open rupture threatening nearly every railroad pool, such a loss of tonnage had a two-fold meaning—it not only meant less tonnage to be divided, but less inducement to keep the peace, for it is always the bone with little meat on it that makes the fiercest fight. In another column we give some reasons for believing that as far as any falling off on account of diminished crops of cereals is concerned, there is very little ground for anticipating it. On the other hand, the extent to which the unfavorable state of trade may affect railroad earnings, is an element of uncertainty which cannot well be measured. In this latter view, the decrease shown for the first week of January would have possessed greater significance, had it not been that it was difficult to tell whether it was not wholly the result of the extremely cold weather which prevailed. The returns now coming in for the second week of January would seem to show that this was the cause in many cases, for the St. Paul, the Northwest, and the Omaha, all of which we reported as exhibiting a decrease, now have an increase. This is certainly a satisfactory feature.

Of returns for the year just closed, we have this week the Erie statement for the month of October. The exhibit is very favorable, and had a good effect upon the market, but what a commentary it is upon the facility with which information is furnished, when the results for the first month of the company's new fiscal year may not be known till ten weeks after the close of the month, and then at that late day become an influence upon stock speculation, while the results for the intervening period still remain a matter of doubt. There is reason for believing that the showing for October—the figures for the month exhibit an increase of over $200,000 in net on 1882 after allowing in full for the expenses of the New York Pennsylvania & Ohio—may not be indicative of the progress made during November and December, which makes the delay in getting out the monthly statements particularly aggravating. We should now have at least the November figures. Our table of net earnings last week contained the November exhibit of the Chicago Burlington & Quincy and of Union Pacific, and that of the Pennsylvania was published two weeks previously. Why can not the Erie do as well as these companies?

A particularly favorable statement of earnings made public this week, is that of the Atchison Topeka & Santa Fe for the late calendar year (December figures being estimated). It shows a net revenue (including in this the Southern Kansas system) of $8,347,574, out of which the company paid $3,224,575 for interest, sinking funds, and other charges, leaving a balance of $5,122,999, equivalent to about 9 per cent on the $56,913,200 stock outstanding. Six per cent dividends were paid, calling for $3,414,562, half a million in addition was transferred to renewal fund, $250,000 was used for the fire insurance fund, and $200,000 was allowed for depreciation in the value of materials on hand—after all which there still remains $758,437, and this has been carried to the credit of income account. In these figures no account is taken of the land sales, which reached $1,155,633 for the year, the actual cash collected being even larger than this—viz: $1,364,811. It should be said that the company's prospects for coming months are very good, since a large proportion of its mileage lies in Kansas, and that State raised this season an

enormous corn crop, as our table on a succeeding page will show.

Another encouraging fact in connection with railroad earnings is the declaration by the Illinois Central not only of its ordinary half-yearly dividend of 4 per cent, but also an extra dividend of 2 per cent. The extra dividend was entirely unexpected, but is accepted as an evidence of the company's prosperity. The management, however, have not issued a statement of the income on which this extra dividend is based, and in default of this and of certain known facts, the step taken does not altogether commend itself. The Illinois Central has hitherto been a model of conservative management. May it not be going a trifle too fast now? With the beginning of 1883 it assumed in full the obligations of its Southern leased line, guaranteeing 4 per cent on the 10 millions stock of that line, then made a 17 per cent distribution of this stock to its own stockholders (based on the holdings of the same in its treasury), raised the dividends from 7 per cent per annum to 8 per cent, and now concludes to make a further cash dividend of 2 per cent in addition—and this at a time of general business depression and financial uncertainty. We have had as yet nothing except the monthly statements of gross earnings, and these show that on the Illinois and Iowa lines the company lost during 1883 about $177,000, as compared with 1882. Now in this latter year, according to the company's pamphlet report, the surplus income was only $155,875, with dividends at the rate of no more than 7 per cent. That would not have been a very favorable statement, except that the surplus was arrived at after charging 1¼ million dollars to new construction account in Illinois. In 1883 it was calculated that only half a million would be needed for this purpose, which would increase the surplus remaining from $155,000 to, say, $900,000. But raising the dividends from 7 to 10 per cent would add to the charge on that account no less than $870,000. So even if no reduction in net has taken place on the lines in Iowa and Illinois (under the reduction in gross), the year's surplus would be about all consumed by the larger dividends paid. Coming to the Southern line, we find that here the gross earnings have gained $511,457 on 1882. We have no data as to the operating expenses either for 1883 or for any previous year, but Mr. Clarke, the general manager, in turning the property over to the Illinois Central, estimated that the road could be operated for about 60 per cent of earnings. Accepting that figure, the $4,359,993 gross for 1883 would yield $1,743,997 net. At 70 per cent they would yield only $1,307,997 net. The charge for interest and dividends is $1,232,460, leaving in the one case a balance of $500,000 and in the other a balance of about $75,000, one just as likely to be correct as the other. Southern roads are notoriously costly to operate, and in view of that fact, and the further fact that whatever margin of profit remained after the 10 per cent dividends, must have come very largely, if not exclusively, from the Southern line, and bearing in mind also that it has never been possible to obtain any information whatever as to the expenses of this division, does it not seem as if the management owed it to themselves, none the less than to the stockholders, to publish the figures on which their action is based.

Foreign exchange has been active and strong this week. The reason is that the supply of cotton bills is light, as is usual early in the year, and there are very few drafts made against either grain or provisions. The demand noticed last week to cover speculative sales for long bills to hold until they become short, and to remit on West India account, continues, and from the character of the inquiry it is inferred that bankers are remitting the proceeds of securities sold here on European account, the decline in our market and the disquieting events since the beginning of the year having tended to discourage foreign holders of American stocks and railroad bonds. No attempt is made by bankers to forecast the market for the future. If the present exceptional demand should soon be satisfied, and if by reason of a sharp and more or less permanent decline in grain this staple should be placed within the reach of exporters, the advance in sterling would be arrested, but there will have to be a very free movement of exportable products to cause more than a gradual decline. The following shows relative prices of leading bonds and stocks in London and New York at the opening each day.

Money continues abnormally cheap, and this is not surprising when the fact is considered that the banks now hold a larger amount of cash and deposits than has ever been recorded at this season of the year. As the domestic exchanges favor this centre, the movement this way will probably continue large for the present at least. The following statement, made up from returns collected by us, exhibits the week's receipts and shipments of currency and gold by the New York banks.

| Week Ending Jan. 18, 1884. | Received by N.Y. Banks. | Shipped by N.Y. Banks. | Net Interior Movement. |
|---|---|---|---|
| Currency..... | $2,942,000 | *$250,000 | Gain $2,692,000 |
| Gold..... | 30,000 | ..... | Gain. 30,000 |
| Total gold and legal tenders..... | $2,942,000 | $250,000 | Gain.$2,692,000 |

* $20,000 of this was transferred in the shape of silver certificates by a deposit of gold in the Sub-Treasury.

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement, the banks have gained $1,100,000 through the operations of the Sub-Treasury. Adding that item therefore to the above, we have the following, which should indicate the total gain to the New York Clearing House banks of gold and currency for the week covered by the bank statement to be issued to-day.

| Week Ending Jan. 18, 1884. | Into Banks. | Out of Banks | Net Change in Bank Holdings. |
|---|---|---|---|
| Banks' Interior Movement, as above | $2,942,000 | $250,000 | Gain..$2,692,000 |
| Sub-Treasury operations, net ..... | 1,100,000 | ..... | Gain 1,100,000 |
| Total gold and legal tenders..... | $4,042,000 | $250,000 | Gain. $3,792,000 |

The Bank of England reports a gain of £18,000 bullion for the week. This represents £267,000 received from the interior and £249,000 exported. The Bank of France shows a loss of 1,025,000 francs gold and 400,000 francs silver. The Bank of Germany has gained 14,200,000 marks since the last return. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

| | Jan. 17, 1884. | | Jan. 18, 1883. | |
|---|---|---|---|---|
| | Gold. | Silver. | Gold. | Silver. |
| | £ | £ | £ | £ |
| Bank of England | 21,500,273 | ..... | 21,254,288 | ..... |

## *RAILROAD TRAFFIC AND SHORT CROPS.*

Among the influences affecting Wall Street values the past week is the falling off in railroad earnings, which in so many directions has been apparent. Loss of traffic in the early months of the current year was generally anticipated, but the prevailing idea seemed to be that in the decline in prices during the latter part of 1883, it had been largely discounted. This supposition would perhaps have proved true had not late disclosures of a disquieting nature added to the sensitive condition of the market. At all events, as the reports of earnings are now coming in and further aiding in unsettling values, it will be of advantage to recall some facts which have a bearing upon the general subject.

Without expressing an opinion as to the actual traffic the roads will secure during the next six months—a very complex problem in the present depressed condition of all our industries—one thing seems assured, and that is, so far as the reported smaller tonnage compared with a year ago is due to a restricted crop movement in the West, it is mainly temporary. We base this statement on the detailed estimate of the crops issued recently by the Agricultural Bureau. Those whose purpose it is to exaggerate the feature of a loss in earnings, are constantly enlarging upon the two patent facts, that we raised less wheat and had a larger percentage of frosted corn in 1883 than in the previous year, leaving out of view all reference to the other crops of that section, or to the larger surplus of every description with which last year started, or the smaller amount which has up to this date reached the consumer. With the question presented in that partial way, a conclusion very unfavorable to the future crop movement is easily reached. But the figures of the Agricultural Department now made public, compel one to take a little broader view of the situation.

The first point these figures suggest is the surplus with which the new year started, and that recalls the lack of surplus at the beginning of the previous year, owing to the very small crops of every description which were raised in 1881. No estimate of the yield made in the fall of 1881 was as small as the result proved, the shortage extending to all articles of food and being so extreme as even to force a large import of vegetables from Europe. Under such circumstances, consumption reduced our reserves of grain to the very lowest point. In 1882 the yield of food products was quite the reverse, that is very abundant almost everywhere, South as well as North, and in every department. As a consequence, although the early consumption of wheat was necessarily large, yet the export movement being small for such a prolific year, and the South not making its usual demand on the North, our surplus of that year's grain left over the first of July, 1883, was generally estimated to reach from fifty to seventy-five million bushels, and by some even more.

Now with these facts in mind we are prepared to understand the Agricultural Department's figures recently issued and their bearing on railroad traffic. First, we give the returns for the crops of wheat and corn for the three years referred to. We have arranged them so as to bring the yield of the West and Northwest together in one total, as it is the production of that section mainly that is reflected in our traffic reports.

PRODUCTION OF CORN AND WHEAT IN THE UNITED STATES.

| Section of Country | Corn (bush.) | | | Wheat (bush.) | | |
|---|---|---|---|---|---|---|
| | 1881. | 1882. | 1883. | 1881. | 1882. | 1883. |

| Gr'd tot. | 1,194,916,000 | 1,617,025,100 | 1,551,066,895 | 380,280,090 | 504,185,470 | 420,154,500 |

With regard to corn the foregoing shows that there is in the aggregate no shortage whatever in the section referred to, and since, as stated, the surplus had been reduced to a mere nominal amount when the crop of 1882 was harvested, and was large when the crop of 1883 was secured, the amount for the railroads to market during the crop year of 1883–4 must be considerably in excess of the amount so marketed during 1882–3. Of course we are aware of the claim that an important portion of the product of 1883 has been injured by frost and rain and is unmerchantable. But how far that claim will be sustained is doubtful. Mr. Dodge, the statistician, says very properly that "no crop is ever free from immaturity and imperfection." At all events, the corn is raised and the question of condition is only one of degree, which, whatever may be the result, cannot affect traffic reports, except in a limited section, until next summer; and even then if the portion injured be fit for no other use, it will make either whiskey or pork and in that way enter into railroad tonnage.

As to wheat, the total crop for 1883 appears to be 420 millions, against 504 millions in 1882. But, as already stated, it is supposed that about 50 millions of the last crop (taking the smallest estimate) was not marketed until after the beginning of the current crop year; hence deducting that surplus from the 504 millions and adding it to the 420 millions, we find that the amount the railroads have to move in 1883-4 compared with what they actually did move in 1882 3 must be estimated on a crop and surplus of 454 millions in 1882-3 and of 470 millions in 1883-4. So that as far as railroad traffic is concerned the crop of wheat ready to be marketed at the beginning of this crop year was really larger than the amount which was actually marketed last year. Furthermore, if we may judge from the receipts at the eight Western towns covered by our weekly reports, the quantity the producers have shipped up to the first of January of this season (including flour and wheat) is a little less than it was up to the same date last year, leav-

ing a larger supply still in farmers hands than there was at the same time a year ago, while the stock in sight on that day at the same towns which must be moved to market, is also very much larger. Certainly these facts afford a very promising, rather than a discouraging, outlook for breadstuffs tonnage.

But this is not all. These figures cover only corn and wheat. We have raised large grain crops of every description this year. Had we the full returns the exhibit which could be made up would be even more favorable. But adding only oats to corn and wheat, and giving the year's production of each, we obtain the following aggregate results in bushels.

| | Oats (bush.) | Corn (bush.) | Wheat (bush.) | Totals (bush.) |
|---|---|---|---|---|
| Crop of 1878. ... | 413,578,500 | 1,388,218,750 | 420,122,400 | 2,221,919,710 |
| Crop of 1879..... | 363,761,320 | 1,754,861,595 | 459,479,505 | 2,578,102,360 |
| Crop of 1880..... | 417,885,380 | 1,717,434,543 | 498,549,868 | 2,633,869,791 |
| Crop of 1881. ... | 416,481,000 | 1,194,916,000 | 380,280,090 | 1,991,677,090 |
| Crop of 1882. .. | 475,935,700 | 1,617,025,100 | 504,185,470 | 2,596,866,270 |
| Crop of 1883..... | 571,233,400 | 1,551,066,895 | 420,154,500 | 2,542,454,795 |

This statement shows a total production which is only a trifle smaller than that of the previous year.

We have brought these facts together, simply as an antidote to the exaggerations which are being circulated as to the effect of short crops on this year's railroad tonnage. It of course by no means follows from the facts presented that there is to be no decline in earnings in any section; we have frequently indicated a contrary opinion, but by ascribing it to the correct cause, its locality, extent and duration can be better determined. For instance, in the South the cotton crop is nearly a million bales short of the last one, while the receipts for the two seasons up to January 1 showed but little difference; hence the whole shortage must be disclosed during the next four months, and the cotton carriers must suffer. Then, again, prices of produce are low, and as a rule all business is quiet and unprofitable; these are facts which cannot but leave a mark on tonnage and passenger traffic. For these and other reasons which will occur to the reader the extent of railroad earnings for the next six months is a question of some uncertainty.

## *OUR STATE RAILROAD COMMISSION.*

The submission this week by the State Railroad Commissioners of their first annual report to the Legislature makes pertinent a retrospect of the work of the Commission during the brief term of its existence. There can be no doubt that the Board has done better than was expected of it. Being the outgrowth of a strong public sentiment (whether real or manufactured, is of little consequence) against the railroads, there was reason to fear that the Board might be more zealous to serve and advance the interest that gave it life, than to make disinterested and impartial investigations of the vexed questions in dispute. That it has on the whole given to either side but little ground for complaint, is therefore a most encouraging feature.

We do not mean by this that the course of the Commissioners entirely meets approval. Nor that they have not made mistakes, which indeed were inevitable in any event. But considering the difficulties that have beset them, their acts have in general been remarkably judicious, for they have done some really creditable work and rendered efficient aid to both the railroads and their patrons. The pressure brought to bear by the interest antagonistic to the railroads can not but have been very great. They were the creature of that interest, and, besides, in the general decline in stock values that has been in progress, and the collapse of many promising new undertakings, the feeling of animosity against corporations of this class has deepened, and the clamor for all sorts of restrictive, prohibitive, and condemnatory measures greatly increased. While it can not exactly be said that the Commission has turned a deaf ear to these demands, its action has been in the main wise and conservative, and indicative of a disposition to treat every question as having at least two sides.

We have never contended that a State Railroad Commission is altogether undesirable. On the contrary, we have maintained that if conceived in a proper spirit the creation of such a board might be of great public benefit. With its functions chiefly advisory, and administered in a spirit of fairness and justice, there could be no doubt that a commission might do much good. That there are abuses that need correcting, and evils that need to be redressed, has been only too patent. But no restrictive or prohibitive legislative enactment yet devised, has accomplished their removal. On the other hand, the handing over of the entire system of railroads to a few officials, possessed of despotic powers, could only tend to aggravate matters. Given a board, however, acting as a sort of mediator between conflicting interests—possessed of course of ample powers to make examinations and investigations—impartially criticising and reviewing testimony and evidence, and anxious only to arrive at a correct conclusion, be that in favor of one side or another—with such a board, sustained by public opinion, railroad managers would be sure to heed its suggestions and adopt its recommendations. The wisdom of a policy of this kind had been illustrated, with excellent results, in at least one other State, and New York's year of experience under it must now be added as further confirming its correctness.

The first evidence our Commissioners gave of being entitled to confidence occurred early last spring, in connection with the veto of the Five-Cent Fare Bill by Governor Cleveland, which the Legislature subsequently referred to the Commissioners. The Commissioners reported unanimously against the expediency of the action proposed, and the most pronounced member of the Board did no more than recommend an extension of the commission hours, showing at once the unreasonableness of the demand for such a reduction of fares, and the disposition of the Board not to accept popular clamor unsupported by reason and facts as a fair basis of action. Another instance also evidencing the willingness of managers to accede to the Commissioners' requests occurred later in the year when in deference to the Commissioners' recommendations, and against its own inclinations, the New York Central decided to reduce rates for freight and passengers on its New York & Harlem division, even though not compelled to do so by law and while such reduction entailed a large loss in earnings. The road did this simply because the managers wanted to make concessions to public opinion, which evidently was supporting the Commissioners' recommendations.

The usefulness of the Board in another way is amply demonstrated in the efforts which its members have made to secure more frequent and more detailed information about railroad affairs, the Board recognizing that one of the crying evils of the day in connection with railroad management relates to the official secrecy which is so widely and so persistently practiced. It will be remembered that in August last the Board passed a resolution requiring railroad corporations in the State to make quarterly reports of their operations hereafter (in addition to the annual statements required by law), and that this aroused considerable opposition on the part of railroad managers at the time. The first report was to cover the quarter ended September 30, but as no returns for that

period have been made, we presume that the Commissioners must have agreed to accept the report for the full fiscal year ended with that date as answering the same purpose, and not have insisted upon a separate statement for the single quarter. In the ordinary course of events, the return for the quarter ended December 31 will be due about the middle of February, and it is to be hoped that the Board will see to it that the railroads fully comply with the requirements in this respect.

But while the Commissioners in passing the resolution have undoubtedly taken a step in the right direction, it may well be questioned whether they have gone quite far enough. We will indicate two particulars in which improvement would seem to suggest itself. In the first place, the report required makes no provision for comparison with the preceding year, and the necessary data for that year is not to be found in the annual reports, the only returns heretofore made by the companies. It is easy to see that without such comparison the figures for the present year alone might be nearly useless, and in some cases positively misleading, for it is conceivable that in any given three months' period a railroad might net one-quarter or three-quarters of its profits for the whole year, or possibly make no profit at all. The figures for such period, standing alone, and made without explanation, would furnish the public a very imperfect guide indeed of the state of business. The Board should certainly require comparisons on the important items of earnings and expenses.

Then another suggestion we would make is that while quarterly statements are good enough in their way, they are hardly as frequent in some of their items as the necessities of the situation would seem to call for. Take the present time in illustration. There is at the moment not a little anxiety to know the course of traffic on the railroads during the next few months, owing to the continued depression in all branches of trade and industry, and also because of the introduction of several new competing lines. It is admitted that the value of railroad properties will be largely influenced by the outcome of these months. Now the large class of small investors have at least as much right to early information as directors and officers. But under the arrangement of quarterly reports they will know nothing of the results on their properties for, say, January, February and March, until the middle of next May, when the direction may have had ample time to employ their fore-knowledge by unloading on the public. The remedy is clear enough. Let us have monthly instead of quarterly reports on such items as earnings and expenses, first estimated and issued within ten days after the close of the month, and then with next month's estimate the actual figures for the previous month could be published.

Of course, the Commissioners' recommendations and suggestions have not all been adopted by the railroads. But even where they have not been, their investigations have brought to view many new facts and much valuable information, and thrown considerable light upon questions previously little understood. In some instances, indeed, the railroads were not in a position to comply with the request made. For example, the Board recommended the abolition of the elevator charge of one cent per bushel on grain at the port of New York, but the railroads did not see their way clear to this, contending that the abolition of the charge would be of no practical benefit to merchants and at the same time would imperil the pooling arrangement with the roads to other cities, under which a uniform and undeviating tariff is sought to be obtained. The Commissioners seem to recognize the difficulties inherent in any attempt to deal with questions involving matters outside the State as well as within it, for in their report they justly remark that "in the inter-State or through-freight aspect "of the question (of rates) it may be said that little power, "resident within the State, can be exercised in its deter. "mination." In the matter of the re classification of dry goods too, which the Board recommended, the efforts of the Commissioners have as yet borne little direct fruit, but that is a very complicated issue, and one in which the railroads have at least as much at stake as the trades affected, and would seem to be interested in making any needed change at the earliest moment practicable.

Altogether, then, the Commissioners have done much to justify their existence. Of course, the continued usefulness of the Board will depend upon the spirit in which the work begun is carried on in the future.

## *LORD LORNE ON CONFEDERATION.*

Since his return to England the late Governor-General of Canada has been giving his countrymen the benefit of his observation and experience as a colonial ruler. Among other places, his lordship has visited Glasgow, Birmingham and London, and in each has had much to say about Canada, and about colonial rule generally. It is quite evident that Lord Lorne has made good use of his time, while in Canada, in making himself familiar with the land and its characteristics, and with the people, their tendencies and their wants; and the impartial judge is bound to admit that the conclusions at which he has arrived are in the main sound, and that the advice which he tenders, if faithfully followed, will conduce alike to the welfare of the mother country, and to that of her colonial children.

Of the different addresses the first place must be given to that which was recently delivered at the Colonial Institute, a body which gives special attention to colonial questions, and whose object it is to promote in every way the growing interests of the Greater Britain. In this address, while confining himself mainly to the Dominion of Canada and Australia, he has in his mind's eye the entire possessions of the British Crown; and it is very evident that he feels the responsibility which rests on the statesmen of his own generation, in connection with the preservation of bonds of union between the crown and its various outlying possessions and dependencies. Lord Lorne's connection with Canada has enabled him fully to understand the value of American territory, and to appreciate the enormity of the blunder which was made a hundred years ago, when the work of many generations was undone, and the strongest and most hopeful of Britain's colonial children were lost to the mother country forever. The loss then sustained has been indirectly recovered. Huge colonial possessions have since been built up. Canada can boast of her five millions; and Australia will soon be able to speak proudly of her four millions. The growing strength of these great colonies —their increasing numbers and their vast territorial wealth—is year by year affecting in some way their relations with the mother country. The old questions are coming up again—and they will come up more and more —how to preserve parental authority and how to avoid giving offense. It is the opinion of the new school of statesmen and political philosophers that the colonies and dependencies may be preserved in perpetual connection with the mother country; that just as England at one time grew into Great Britain by the union with Scotland, so Great Britain is growing into Greater Britain by planting and building up colonies and by extending her boundaries beyond the seas, and that all colonial policy must be shaped with these ends in view. These views have

found no such exponent and advocate as Professor Seeley, and his "Expansion of England" may well be regarded as the text-book of the new school. Lord Lorne has proved himself a skilful and able disciple; and not only is he convinced that the colonial policy of Great Britain must be made subservient to certain definite ends, but he has well defined notions as to what that policy should be in itself.

Lord Lorne's first principle is that in the matter of legislation touching domestic questions the colonies should be let alone. He lays special stress on the tariff. Much as the children may love the parent they are so sensitive on all questions of economy that the parent must not interfere even if the discrimination should be injurious. As a rule, colonies will be guided by what seems their own interest. The Dominion of Canada with all its boasted affection for the mother country protects its own industries. In Australia, New South Wales follows out the free-trade policy; but Victoria is protectionist. They are each guided by the principle of self-interest. For the Imperial Government to interfere in this matter would be, in the judgment of Lord Lorne, suicidal policy. Protection and free-trade, whatever the effect on the mother country, must be left to the colonists themselves. The men who would "preserve "the integrity of the empire, on the old plan of dictation "from the central hive," are characterized as "the Lord "Norths of our day." The next point to which Lord Lorne gives insistence is that the colonists should never be allowed to think that their interests are neglected. They should be taught to feel that they are as much the object of care on the part of the Imperial Government in Montreal or Melbourne as in London. The appointment of a High Commissioner on the part of Canada, to reside in London, is pronounced by far the most important event in recent colonial history. It secures intelligent consideration for all questions in any way affecting Canada; and it is suggested that if such an official had existed in times gone by, such bungling as is visible to-day in the boundary line of Maine, and such unwise concessions as were made on the Pacific Slope, would not have been possible.

Lord Lorne looks with hopeful eye to the project of confederation. He sees no reason why the "same treaty "with a foreign power should not include various provisions "for the various parts of the Empire." Queen Elizabeth was Queen of England, France and Virginia. Why should not Victoria be Queen of Great Britain and Ireland, Canada, Australia, India and the rest? But confederation must be confined "by no central and unwieldy "Parliament," representing widely scattered lands and vastly divergent interests, but by "a Council of Envoys, "who, by working together for each part, may consummate "treaties and enforce agreements." No country like Canada would be content with representation in the British Parliament. It would not submit to have its representatives outvoted. And if the olonies were united in one body, the same would be true of Australia. In the great scheme of Imperial confederation, Lord Lorne's hope of unity lies wholly in this "Council of Envoys."

His lordship is not particular to explain whether this Council, in which all the parts of the Imperial confederation would be represented, would be above and independent of, or only auxiliary to, the Imperial Parliament. Because Sir Alexander Galt has been useful in an advisory capacity, he seems to have come to the conclusian, somewhat hastily and without having given attention to details, that a body of such men would be equally useful on a larger scale. The day is far distant when the British Parliament will abnegate its functions in favor of any Council of Envoys, and it is doubtful how far the mere privilege of tendering advice would be satisfactory to colonies which, in a hundred years, will be more densely peopled than the mother country.

There can be no doubt that there is something inviting in the experiment of building up a great colonial empire. Such an empire might add to the glory of Great Britain; at least it would give a few more titles to the Crown. But with no power to interfere with the tariff in the colonies, with every separate colony pursuing its own policy in the matter of trade, it is difficult to see how confederations could prove any substantial gain to the commerce of the mother country.

[From our own correspondent.]

LONDON, Saturday, Jan. 5, 1884.

As is usual during the earlier days of the year the money market is in a very unsettled condition, but the tendency has been strongly in favor of lower rates. Short loans have been in very little demand, and are now procurable about 2 per cent, while the rate of discount for three months' bills has declined to 2⅜ per cent. Such a movement was regarded as certain, and there is every reason for believing that the money market will relapse into a condition of depressing ease, such as in fact to indicate that the position of mercantile affairs and of enterprise generally is most unsatisfactory. The re-payments of loans to the Bank of England have, it is understood, been important during the last few days, and as it is generally recognized that the applications at that establishment for temporary help previously to the close of the year had been below the average, there is naturally an expectation that as soon as the dividends on the public funds have been distributed, the supply of floating money will be more than usually large. It is true, indeed, that a considerable amount of imperial taxation is now being paid, but money is not at present much wanted for general purposes, and it is difficult to see how any improvement can immediately arise.

Money is dearer on the Continent than it is in this country, but this has been the case for several weeks past without very materially affecting our gold supplies, and there is no reason why much influence should be produced now. As far as France is concerned, matters are so bad in that country that the holders of stocks have, for some time past, been selling freely on the London market; but there has been no visible sign that the purchases on our part have caused a strain in any direction. The exchanges are adverse to us, but not to an extent necessitating any important transmission of gold to Paris. The New York exchange is still high, and there is no expectation of gold shipments from this country. The Bank of England being in a strong position, the future should be looked forward to with confidence; but unfortunately this is not the case. On the contrary, though there are no feelings of alarm, the more general impression is that business for some time to come will be conducted with the same caution which has been a peculiarity for months past.

The proportion of reserve to liabilities at the Bank of England is now 34⅛ per cent, but at this period last year it was barely 30

per cent. These low proportions are due to the period of the year, as there are obviously special distributions of money in progress. The supply of gold held by the Bank of England is now £21,437,365, against £20,353,791; while the reserve of notes and coin is £11,570,695, against £9,684,091 last year.

The following are the quotations for money and the interest allowed by the discount houses to-day and same day of the previous five weeks:

| London | Bank rate. | Open market rates. Bank Bills. Three Months | Four Months | Six Months | Trade Bills. Three Months | Four Months | Six Months | Interest allowed for deposits by Joint Stock Banks. | Disc't H'ses At Call. | 7 to 14 Days. |

In reference to the state of the bullion market during the past week, Messrs. Pixley & Abell remark:

Gold.—The gold sent into the Bank since our last, amounting to £38,000 consists almost entirely of sovereigns, there having been a demand for the Continent and India sufficiently strong to absorb the balance of the arrivals. Sovereigns to the value of £115,000 have been withdrawn for transmission to Egypt and South America. The "Nile" brought £15,000 from the West Indies, the "Neva" £11,710 from the Brazils, the "Lafayette" £59,000 from Central America, and the "Chimborazo" £13,500 from Australia; total, £129,210. The "Trent" has taken £60,000 to the Brazils, the "Deccan" £10,000 to Bombay, and the "Sutlej" £25,000 to Alexandria.

Silver.—The following arrivals have come to hand since our circular of the 27th ult.: From Chili, £40,000; River Plate £35,000; West Indies, £52,600; New York, £15,000; River Plate, £32,000; total, £210,600. The greater part of the above arrived in time for shipment this week to the East, and 51d. per oz. standard was obtained, showing a slight rise of 1-16d. per oz. The market is now quiet, and the quotation for this day is 50 7/8d. per oz. standard. The P. & O. steamers have taken £130,600 to Bombay.

Mexican Dollars.—The arrivals have been large; they comprise £160,000 from the West Indies and £20,000 from New York. The bulk of the first amount had been sold for arrival, and 49 7/8d. per oz. was obtained for the balance. The P. & O. steamer has taken £152,300 to China and the Straits.

The quotations for bullion are reported as below:

| | Price of Gold. Jan. 3. s. | d. | Dec. 27. s. | d. | | Price of Silver. Jan. 3. d. | Dec. 27. d. |

Tenders were received at the Bank of England on Wednesday for £1,516,000 Treasury bills. The whole of the amount was allotted at three months, tenders at £99 8s. 3d. receiving about 90 per cent, and above that figure in full. The average discount rate was £2 4s. 9d. per cent per annum.

The Oude & Rohland Railway Company, limited, announce that they are prepared to receive tenders for debenture bonds of the undertaking to the amount of £500,000, bearing interest at the rate of 3½ per cent per annum, the principal and interest being guaranteed by the Secretary of State for India in Council. The minimum price at which tenders will be received has not been disclosed.

The directors of the Bank of England invite tenders on behalf of the Government of New Zealand for £1,000,000 four per cent stock at a minimum price of 98½, with interest accruing from November 1 last, making the net price of subscription £97 5s. 6d. per cent.

Messrs. Blake Brothers & Co. announce that they are prepared to receive subscriptions to an issue of £1,300,000 first mortgage 5 per cent gold bonds of the Chicago Milwaukee & St. Paul Railway Company (Wisconsin & Minnesota division), at the price of 95½ per cent or £191 per bond of £1,000. The bonds are redeemable on July 1, 1921.

The National Bank of New Zealand, limited, announce that they are empowered to negotiate the sale of £100,000 in debentures, being part of city of Auckland 5 per cent loan of £200,000. The minimum price at which tenders will be accepted is £101 per £100 bond.

The nominal capital of the companies brought before the public last year was confined to £35,301,500, against £84,591,047 in the previous year, showing a decrease of £49,289,547. The capital offered was £25,626,330, against £52,112,560, and the total deposits were £6,542,152, against £14,194,629 in 1882.

The failure is announced of Mr. Alexander Brogden, M. P., iron works and colliery proprietor, for £723,530; and also of Mr. Henry Brogden, for £720,645. The suspension is also announced of Samuel King Church, colliery proprietor, trading as Church, Milsted & Co., with liabilities estimated at £97,000. At Liverpool, Mr. Charles Inman has failed for £60,000; and at Bradford, Mr. John Faint Easby, speculator in house and land property, for £100,000.

The revenue returns just issued are fairly satisfactory. There is an increase for the past nine months of £1,031,066, of which £320,000 is due to income and property tax, £153,000 to customs' duties, £190,000 to excise, £30,000 to stamps, £41,000 to house duty, £150,000 to the Post Office, and £40,000 to the telegraph service. For the past quarter the increase is £425,026.

During the past year no less than 720 steamers, with a total of 1,102,801 tons, were added to the mercantile fleet in the United Kingdom alone, and if to this be added 674 steamers of 982,961 tons, built in 1882, and 630 steamers, of 925,000 tons, built in 1881, we obtain the respectable total of 2,024 steamers and 3,010,762 tons in three years. Although small in comparison, yet the number of ships constructed on the Continent, especially in France, Sweden and Germany, form also a not inconsiderable fleet. Notwithstanding the dull state of the freight market, the price of new ships has, until lately, been fairly well maintained; but now they are being offered freely, and several ready boats can be bought at prices which, in spite of the existing depression, should be well worth attention. Second-hand ships are also cheaper, and of them there is a good selection. The greater number of builders are now getting slack, and seek orders; but the prices asked are still too high to offer any temptation to speculators.

The wheat trade is still in a most dull and inanimate state, and the statistical position is a very unfavorable one to holders and producers. A visible supply of 35,500,000 bushels in the United States, a stock of foreign wheat and flour in granery in this country of 3,000,000 quarters, and a supply afloat to the United Kingdom of rather more than 2,000,000 quarters, are quite sufficient to produce caution and stagnation; but the crops of the Southern Hemisphere will be soon reaching this country, and the trade expect from Australia this season about 1,500,000 quarters. The Australian crop is unusually early, and samples were expected by the mail delivered this week, but I believe they have not arrived. When millers calculate how large is the present available supply, and record the fact that from Australia the harvest will proceed to India, Egypt and the extreme south of Europe at dates not very distant, it is evident that they can have but one policy, viz., to buy from hand-to-mouth. Besides which, the re-opening of the navigation of Russian ports will let loose a large quantity of produce which Russian merchants must dispose of almost at any price. The stock of wheat at Odessa is estimated at 5,000,000 cwt., being the largest quantity which has at any time accumulated in the port.

Annexed is a return showing the extent of the imports of cereal produce into the United Kingdom during the first eighteen weeks of the season, the average price of home-grown wheat, the visible supply of wheat in the United States, and the quantity of wheat and flour estimated to be afloat, compared with previous seasons:

IMPORTS.

| | 1883. | 1882. | 1881. | 1880. |
|---|---|---|---|---|

| Supply of wheat and flour afloat to U. K. qrs..... | 2,164,000 | 2,412,000 | 2,941,000 | ..... |

The extent of the sales of home-grown wheat, barley and oats in the leading markets of England and Wales during the first eighteen weeks of the season, together with the average prices realized, is shown in the following statement:

SALES.

| | 1883. | 1882. | 1881. | 1880. |
|---|---|---|---|---|
| Wheat.....qrs. | 1,202,231 | 885,175 | 838,918 | 755,214 |
| Barley..... | 1,781,799 | 1,151,918 | 964,281 | 999,852 |
| Oats..... | 217,337 | 88,861 | 109,417 | 74,614 |

The following are the average prices for the season (per qr):

| | 1883. | 1882. | 1881. | 1880. |
|---|---|---|---|---|
| | s. d. | s. d. | s. d. | s. d. |
| Wheat..... | 40 6 | 41 4 | 47 4 | 42 7 |
| Barley..... | 33 0 | 34 7 | 34 0 | 33 10 |
| Oats..... | 19 4 | 20 10 | 20 10 | 21 7 |

Converting quarters of wheat into hundred weights, the totals for the whole kingdom are estimated as follows:

| | 1883. | 1882. | 1881. | 1880. |
|---|---|---|---|---|
| Wheat*.....cwt. | 17,365,560 | 15,430,000 | 14,541,300 | 13,090,500 |

*This aggregate is arrived at by multiplying the sales in the 187 markets above by 31/2, and that result is reduced to cwt. by multiplying it by 4/5. This proportion between the 187 markets and the totals for the kingdom is adopted by the London grain trade and is accepted by it as producing a result approximately correct.

The following are the quantities of wheat, flour and India corn estimated to be afloat to the United Kingdom:

| | At present. | Last week. | Last year. | 1882. |
|---|---|---|---|---|
| Wheat.....qrs. | 1,858,000 | 1,924,000 | 2,123,000 | 2,771,000 |
| Flour..... | 236,000 | 240,000 | 209,000 | 114,000 |
| Indian corn..... | 268,000 | 318,000 | 118,000 | 234,000 |

The weather is very mild, the temperature in London being 52 deg. Fah. There has been much fog throughout the country during the last fortnight; but, as far as agriculture is concerned, the accounts are favorable, the autumn having been propitious.

### English Market Reports—Per Cable.

## Commercial and Miscellaneous News

NATIONAL BANKS.—The following national banks have lately been organized:

3,091—The Wellington National Bank, Kans. Capital, $50,000. James A. Maggard, President; F. P. Neal, Cashier.

3,092—The Williamstown National Bank, Mass. Capital, $50,000. Frederic Lake, President. Charles H. Mosher, Cashier.

3,093—The First National Bank of La Grange, Ga. Capital, $50,000. Lewis J. Bender, President. J. G. Trust, Cashier.

3,094—The First National Bank of Bonham, Texas. Capital, $60,000. W. A. Nunnelee, President. A. B. Scarborough Cashier.

3,095—The Ishpeming National Bank, Mich. Capital, $50,000. Charles H. Hall, President. Ingbert N. Oie, Cashier.

3,096—The Grafton National Bank, Dak. Capital, $50,000. Frederic R. Fulton, Vice President; De Witt C. Moore, Cashier.

3,097—The First National Bank of Billings, Mon. Ty. Capital, $50,000. William R. Stebbins, President. H. H. Mond, Cashier.

3,098—The Manufacturers' National Bank of Minneapolis, Minn. Capital, $300,000. J. W. Johnson, President. J. H. Ray, Cashier.

3,099—The City National Bank of Hastings, Neb. Capital, $50,000. Lyman H. Tower, President. Joseph S. Allison, Cashier.

3,100—The First National Bank of Wabasha, Minn. Capital, $50,000. Lucas Hubn, President. Bruce Forer, Cashier.

3,101—The Citizens' National Bank of Grand Island, Neb. Capital, $60,000. Andrew A. Koenig, President. D. H. Viehls, Cashier.

3,102—The Calumet National Bank of South Chicago, Ill. Capital, $50,000. Horace P. Taylor, President; Clark P. Wilder, Cashier.

3,103—The Exchange National Bank of Louisiana, Mo. Capital, $50,000. Marcus Dreyfus, President; Richard J. Hawkins, Cashier.

3,104—The Farmers' National Bank of Kittanning, Pa. Capital, $100,000. John A. Colwell, President. Geo. W. Doverspike, Cashier.

3,105—The First National Bank of Waverly, Iowa. Capital, $100,000. J. H. Bowman, President; H. S. Burr, Cashier.

3,106—The First National Bank of Huntington, W.Va. Capital, $50,000. J. L. Caldwell, President. M. C. Dimmick, Cashier.

3,107—The First National Bank of Tullahoma, Tenn. Capital, $50,000. Little D. Hickerson, President; Smith J. Walling, Jr., Cashier.

CORRECTION.—No. 3,087 The First National Bank of Brookings instead of the First National Bank of Brooklings.

In the First National Bank of Texarkana, Texas; J. H. Draughon, Vice-President instead of J. H. Laughon.

The City National Bank of La Salle, Ills. Voluntary liquidation Jan. 8, 1884.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show an increase in both dry goods and general merchandise. The total imports were $9,296,951 against $8,061,980 the preceding week and $7,413,394 two weeks previous. The exports for the week ended Jan. 15 amounted to $6,474,595, against $6,413,607 last week and $5,432,515 two weeks previous. The following are the imports at New York for the week ending (for dry goods) Jan. 10 and for the week ending (for general merchandise) Jan. 11; also totals since the beginning of first week in January:

FOREIGN IMPORTS AT NEW YORK.

| For Week. | 1881. | 1882. | 1883. | 1884. |
|---|---|---|---|---|
| Dry goods ..... | $3,314,827 | $3,667,890 | $3,047,170 | $2,814,798 |
| Gen'l mer'dise.. | 6,119,197 | 6,935,930 | 5,707,954 | 6,482,153 |
| Total..... | $9,434,024 | $10,603,820 | $8,755,124 | $9,296,951 |
| Since Jan. 1. | | | | |
| Dry goods ..... | $5,056,870 | $5,756,925 | $5,393,316 | $5,481,342 |
| Gen'l mer'dise.. | 11,180,660 | 12,707,633 | 11,562,772 | 11,877,589 |
| Total 2 weeks.. | $16,237,530 | $18,464,558 | $16,956,088 | $17,358,931 |

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Jan. 15, 1884, and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1881. | 1882. | 1883. | 1884. |
|---|---|---|---|---|
| For the week... | $6,430,266 | $6,151,636 | $7,007,203 | $6,474,595 |
| Prev. reported. | 6,772,531 | 5,940,134 | 7,349,921 | 6,413,607 |
| Total 2 weeks.. | $13,252,797 | $12,091,770 | $14,357,124 | $12,888,202 |

The following table shows the exports and imports of specie at the port of New York for the week ending Jan. 12, and since Jan. 1, 1884, and for the corresponding periods in 1883 and 1882.

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

| Gold. | Exports. | | Imports. | |
|---|---|---|---|---|

| Total 1882..... | 107,800 | 333,039 | 56,217 | 70,925 |

Of the above imports for the week in 1884, $6,560 were American gold coin and $604 American silver coin. Of the exports during the same time $1,500 were American gold coin.

ONE HUNDRED AND TWENTY-FIFTH CALL FOR U. S. BONDS.—The Secretary of the Treasury gives notice that the bonds below designated will be paid at the Treasury of the United States on the 15th day of March, 1884, and that the interest on said bonds will cease on that day, viz.:

Three per cent bonds issued under the Act of Congress approved July 12, 1882, and numbered as follows:

$50 Orig. No. 504 to Orig. No. 846, both inclusive.
$100 Orig. No. 4,893 to Orig. No. 5,446, both inclusive; and Orig. No. 9,465 to Orig. No. 9,469, both inclusive.

$500—Orig. No. 2,140 to Orig. No. 2,353, both inclusive.
$1,000—Orig. No. 15,615 to Orig. No. 16,450, both inclusive; and Orig. No. 22,666 to Orig. No. 22,675, both inclusive.
$10,000—Orig. No. 23,821 to Orig. No. 24,725, both inclusive.
Total..... $10,000,000.

The bonds described above are either bonds of the "original" issue which have but one serial number (duplicated at each end) or "substitute" bonds, which may be distinguished by the double set of numbers (also duplicated at each end of the bond) which are marked plainly "original numbers" and "substitute numbers." All of the bonds of this loan will be called by the original numbers only.

**Ohio Central.**—At Parkersburg, West Va., Jan. 15, Judge Jackson heard an application to extend the jurisdiction of Receiver Sharp of the Ohio Central Railroad, to Corning, Ohio. The motion was opposed by Mr. Swayne for the Central Trust Company. Judge Jackson reviewed the history of the questions involved, and withheld final action for a few days, at Mr. Swayne's request, until he could file an additional brief. He stated, however, that it was due for him to intimate the views that had controlled him in the appointment of Mr. Sharp as Receiver. He was strongly inclined to the opinion that the court in this circuit had prior jurisdiction in this cause over the court in the Sixth Circuit. [There is a conflict of authority between this Judge and the Judge of the Ohio Circuit as to who technically acquired jurisdiction first. Mr. Martin has been appointed Receiver by the court in Ohio and Thos. R. Sharp by the court in West Va.]

**Pittsburg City Bonds.**—A press dispatch from Pittsburg, Pa., January 17, said that attorneys representing prominent citizens and taxpayers of Pittsburg had served a notice on Mayor Lyon that an application would be made on the 26th inst. to restrain the city and its officers from issuing bonds for $4,600,000, under the provisions of an arrangement entered into between the sub-committee of the Finance Committee of Pittsburg and a syndicate composed of Henry Wheelen of Philadelphia and John D. Scully and Wilson McCandless of Pittsburg, which, it is claimed, is illegal and null and void. Bonds to the amount of $1,400,000 have already been issued.

**Pittsburg & Lake Erie.**—At Pittsburg, Jan. 14, the annual meeting of the stockholders of the Pittsburg & Lake Erie road took place. The most important business before the meeting was the proposed lease of the Pittsburg McKeesport & Youghiogheny Railroad. A dispatch to the Philadelphia *Press* says: "A plan for this lease was submitted. Its salient points are that the bonds of the road are to be guaranteed and 6 per cent annual interest guaranteed on its stock, subject under certain provisos to an increase. The lease is for ninety-nine years. It was accepted by the stockholders. The road extends the Lake Erie's tracks to the coke regions, a distance of fifty-nine miles. It was completed a few months ago, and cost $5,500,000. The President of the Pitts. & L. E. road reports net earnings for 1883 of $407,150, and the financial condition of the road as follows: Total mortgage, including capital stock, $2,193,053; total scrip debt, $615,000; balance due on equipments, $50,014; temporary loan, $290,419. The assets are, construction, $3,910,756, equipments $1,116,318, right of way $485,356, real estate $365,590, and cash on hand $46,892. The undivided surplus is $750,517. A 10 per cent scrip dividend was recommended. The officers elected are: President, John Newell; directors, David Hostettler, Jacob Henrici, James J. Bennett, Herbert Dupuy, M. W. Watson, Ralph Bagaley, A. E. W. Painter, James M. Schoonmaker, John Reeves, J. H. Reeves and D. Leet Wilson.

**St. Joseph & Western.**—The board of directors of the St. Joseph & Western Railroad Company was recently reorganized as follows: Sidney Dillon, Frederick L. Ames, Elisha Atkins, F. Gordon Dexter, Ezra H. Baker, Oliver W. Mink, James G. Harris, Henry McFarland, Francis W. Williams, James C. Parrish, William Strauss, Elias C. Benedict and Winslow Judson. The five last named are new men and represent the minority interests in the management of the road, the receivership of the property being terminated by order of Judge McCrary, by consent of all parties. In the new board the following are the executive committee: Sidney Dillon, Elisha Atkins, F. L. Ames, Elias C. Benedict and William Strauss. Messrs. Benedict and Strauss represent the minority interests. The foreclosure suit is not terminated by this arrangement.

**Texas & St. Louis.**—This narrow-gauge road of nearly 725 miles extends from the Mississippi opposite Cairo southwestward to Gatesville, near the centre of Texas. The Central Trust Company of New York, as Trustee, filed in the United States Circuit Court its bills for the foreclosure of mortgages on the two divisions of this road—the Missouri & Arkansas division and the Texas division. The bills allege a default of six months in the payment of interest, and pray for the sale of the road, subject to the rights of the bondholders, who have not been refunded on the former issues. W. R. Woodward was appointed receiver.

Col. James W. Paramore, President of the Texas & St. Louis Railroad, said of the proceedings that they were friendly, and that Mr. Woodward was his General Manager of the road. That the present step appeared necessary in order to carry out the readjustment and to protect the 92 per cent of stockholders who have paid their assessment of 7½ per cent. The 8 per cent of stockholders are partially Eastern and partially Western men. Some of them are interested in the Gould roads and are anxious to stir up trouble.

**Trunk Line Pool.**—The effort to cut off Delaware Lackawanna & Western from rail connections west of Buffalo has been made. Under the direction of Commissioner Fink the four trunk lines west from Buffalo published a large advertisement giving notice to shippers that the Delaware Lackawanna & Western had no authority to issue through bills of lading. At Buffalo the Lackawanna tendered the Nickel Plate eight car-loads of freight, and it was refused by the latter road, when an injunction was issued enjoining the road from refusing the freight. On Thursday, however, the Delaware Lackawanna & Western agreed to accept arbitration by three arbitrators on the question of its percentage in the trunk line pool, the percentage which they ask being understood to be 15 per cent, while 11 per cent only was offered by the pool.

—Messrs. Harper & Brothers have just published a little book by Mr. Wm. Blaikie, entitled "The Bodies of Our Children." Mr Blaikie is also author of the volume "How to Get Strong and How to Stay So," a book published by the Messrs. Harper a few years ago which has had a large sale in this country and abroad. These books, as the names indicate, are devoted to the subject of bodily exercise, and the one just now issued is intended as a text book for use in schools, where physical exercise, Mr. Blaikie most reasonably urges, should become a regular part of the educational course. It is hardly possible to speak too forcibly of the importance of some regular methods of physical training for boys and girls in this country, and Mr. Blaikie's book furnishes a simple guide for developing all parts of the body by exercising different sets of muscles, according to the methods therein indicated. Already the sales of the book are very promising.

—The Manhattan Life Insurance Company's thirty-fourth annual report will be found in the advertising columns of the Chronicle. It presents a clear statement of the business of the company for the year just closed. In the face of the depression in mercantile affairs the net assets of the Manhattan increased over $250,000 last year, and its surplus as regards policy holders now exceeds two and a quarter millions. Since the organization of the Manhattan, in 1850, twelve million dollars have been paid to policy holders and nearly ten millions more in returned premiums, dividends, etc.

—The yearly statement of the Liverpool & London & Globe Insurance Company, published in another column, is a handsome exhibit of the business of this large and conservative company. A special feature is the important difference between the income and expenditure items. The surplus shows the large amount of $2,576,511, which is irrespective of the vast resources of the home office.

—Mr. Joseph G. Martin of 10 State Street, Boston, has issued his annual publication entitled "Stock Fluctuations." This is a standard publication in Boston, and gives all information regarding the fluctuations of prices in that market, and the particulars of capital, dividends, rates of interest, dates of payment and other details pertaining to the local stocks, as well as the railroad stocks and bonds commonly sold there.

—The Canadian Pacific Railway has declared its semi-annual dividend at the rate of 5 per cent per annum, and warrants for the same will be delivered on and after Feb 18, at the office of Messrs. J. Kennedy Tod & Co., 63 William Street, New York, or Messrs. Morton, Rose & Co., London.

—The Homestake Gold Mining Company has declared its sixty-fifth dividend ($25,000) for the month of December, payable at office of the transfer agents, Lounsbery & Haggin, Mills Building, on the 25th inst.

**Auction Sales.**—The following, seldom or never sold at the Stock Exchange, were sold at auction this week by Messrs. Adrian H. Muller & Son.

NEW YORK, FRIDAY, JANUARY 18—5 P. M.

**The Money Market and Financial Situation.**—The most prominent incidents of the week have been the appointment of a receiver for the North River Construction Company, which was organized to build the New York West Shore & Buffalo Railroad, and the application for a receiver for the New York Ontario & Western Railroad Company, which has been one of the principal promoters of the West Shore enterprise. The New York Ontario & Western assessed its stockholders and raised a "construction fund" of $10,000,000. It also raised $5,000,000 more by the sale to its stockholders, at 50 cents on the dollar, of $10,000,000 of West Shore bonds, which it had accepted, together with $2,350,000 of West Shore stock, as pay for building 77 miles of the West Shore road from Middletown to Weehawken. This entire $15,000,000 and more apparently went to the construction of the 77 miles of road, the title to which the Ontario & Western turned over to the West Shore and then took a lease of the line for 99 years.

Besides those above mentioned there have been rumors of applications to be made for other corporations whose stocks have been largely dealt in on the Stock Exchange in the last year. There have also been a number of failures of grain speculators both in New York and at the West as the result of the decrease in exports and decline in prices of grain in the last month.

The effect of the foregoing features has been to demoralize and depress the markets for both stocks and bonds, and a good many of both kinds of securities have touched lower prices in the last week than ever before.

It seemed scarcely probable a week ago that the plethora of idle money in the market would be greater and rates of interest lower than then. But such has been the case this week. The amount of unemployed capital concentrated in New York has been increased, not only by the distrust created by the events of the last two weeks as above mentioned, but also by the fact that the interior exchanges have recently been more in favor of New York. The movement of products, and particularly of grain from producers' hands to the primary markets at the West, has apparently culminated for the time being, and the money needed for that purpose has flowed back to the Western city merchants and from them to the jobbers in the Eastern cities. This has made collections in the interior more satisfactory, and cleared off a vast amount of mercantile indebtedness.

Nevertheless, there is as yet no sign of any disposition on the part of capital to take hold of securities representing new enterprises. On the contrary, the experience of the week has made capitalists and investors in such undertakings inclined to let go of their holdings of this class and turn them over to the speculating fraternity.

The result of all the influences mentioned is seen in the increase of money in the loan market and the lower rates of interest ruling. Call loans on stock collaterals have ranged about 2 per cent, but have frequently in the week been down to 1½ per cent per annum. Time loans on the same collaterals are to be had for 60 days or 4 months at 4 and 4½ per cent. Mercantile discounts also have been easier, and there has been a reduction of nearly ⅛ of 1 per cent in the rates, which are now 4 and 4½ for the best double-name paper for 60 days and 4 months, and 5 and 5½ for first-class single names.

The Bank of England statement for the week showed a gain of £18,000. The percentage of reserve was increased during the week to 40⅜ from 36½ last week. The Bank of France reported a loss of 1,025,000 francs in gold and 400,000 francs in silver during the week, but the Bank of Germany gained 14,200,000 marks during the same time.

The following table shows the changes from the previous week and a comparison with the two preceding years:

| | 1884. Jan. 12. | Differences fr'm previous week. | 1883. Jan. 13. | 1882. Jan. 14. |
|---|---|---|---|---|
| Loans and dis. | $329,897,200 | Dec $1,457,800 | $317,891,200 | $319,554,000 |
| Specie | 68,070,200 | Inc. 5,193,200 | 62,477,800 | 66,529,200 |
| Circulation | 14,958,300 | Dec. 48,100 | 17,526,700 | 20,158,000 |
| Net deposits | 338,253,700 | Inc. 8,303,500 | 307,920,000 | 307,10 ,600 |
| Legal tenders | 30,644,800 | Inc. 2,822,300 | 22,372,900 | 17,574,300 |
| Legal reserve | $84,563,925 | Inc $2,076,375 | $76,980,000 | $76,850,650 |
| Reserve held | 98,715,000 | Inc. 8,015,500 | 84,850,700 | 84,104,000 |
| Surplus | $14,151,075 | Inc. $5,939,125 | $7,870,700 | $7,253,350 |

**Exchange.**—The market for sterling has been very much unsettled during the week, partly by the fluctuating demands for bankers' bills incident to the annual settlements, but more particularly by the scarcity of commercial bills, resulting from the diminished exports of breadstuffs and provisions in the last month. The net result of these features is that the posted rates for sterling are 1½ cents on the £ higher than a week ago, the rates on the afternoon of Friday, the 18th, being 4 85½ and 4 88, and the rates for actual business as follows, viz.: Sixty days, 4 84½@4 84⅝; demand, 4 87@4 87⅛; cables, 4 87⅛@4 87⅜; commercial bills selling at 4 83@4 83½, against 4 81½@4 82 a week ago.

Continental bills have also advanced, though not quite so much as sterling.

**United States Bonds.**—Undiminished strength and advancing prices still continue the features of the government bond market. The threes rule nominally unchanged at par, but the 4s are fully half a point higher than last Friday.

The closing prices at the N. Y. Board have been as follows:

| | Interest Periods. | Jan. 12 | Jan. 14 | Jan. 15. | Jan. 16. | Jan. 17. | Jan. 18. |
|---|---|---|---|---|---|---|---|
| 4½s, 1891 | reg. Q.-Mar. | 114¼ | 114¼ | *114¼ | *114¼ | 114⅜ | *114⅜ |

* Includes $2,798,000 gold certificates put into cash.

**State and Railroad Bonds.**—The general market for railroad bonds has been affected by the same depressing influences as the stock market, and early in the week followed much the same general course, declining almost continuously from Monday morning until Thursday, but, unlike the stock market, the bond market has not in the last two days exhibited any such decided upward recovery. Confidence in this line of investments has apparently been considerably unsettled by the developments in connection with the West Shore bonds, in which the transactions have been enormous during the last week, aggregating no less than $30,000,000. The range of prices for the most active issues has been as follows, viz.: New York West Shore & Buffalo 5s ranged at 60¾@49⅞@54¾@53⅝; Canada Southern firsts at 96@95¾@95⅞; Denver & Rio Grande consols at 88¼@87; East Tennessee 5s at 72@70@71½; Louisville & Nashville general mortgage 6s at 94@93½; Erie second consols at 92½@87½@90¼@89⅞; Northern Pacific firsts at 102½@100½@101¾@101⅜; New York Chicago & St. Louis firsts at 101⅝@100½@101; Oregon & Trans-Continental firsts at 75@70@72½; St. Louis Iron Mountain & Southern 5s at 73@70⅞@71; Texas & Pacific land grant incomes at 44⅞@40½@43@41; do. Rio Grande Division firsts at 74½@71¼@72¾; Chesapeake & Ohio currency 6s at 48½@46@47; Oregon Railway & Navigation firsts at 105¼@104@105; Richmond & Danville debentures at 61@60; Denver & Rio Grande Western firsts at 71½@70; Atlantic & Pacific incomes at 21@20.

There was a moderate activity in State issues during the week. Louisiana consols sold at 75@75⅛, Tennessee compromise at 42½, do. 6s old at 37½, do. 6s new at 37½, Virginia 6s deferred at 9½, North Carolina 4s at 83 and Missouri 6s of 1886 at 104¾.

**Railroad and Miscellaneous Stocks.**—The stock market was depressed during the greater portion of the past week by the developments of financial unsoundness in various corporations above referred to, and by the still unsettled troubles in the various railroad pools. It was found that the report of an amicable arrangement for a pool on the Utah business by the Union Pacific, the Denver and the Burlington was at least premature and that there had been no progress in the settlement of the other quarrels of the Burlington with the Union Pacific and its allies; also that the Lackawanna was likely to come to an open rupture with the roads in the trunk line pool. These various features caused an almost continuous decline in stocks until Thursday, when a turn for the better was made by the announcement that the Lackawanna had agreed to submit all differences to arbitration. The Oregon stocks of the Northern Pacific group, however, have declined more than any others, and from causes special to themselves rather than from the general causes above cited. Mr. Gould's specialties also have been persistently hammered by the bears, and next to the Oregon stocks have declined the most. Pullman Palace Car, too, has been largely sold. Illinois Central has advanced under the declaration of an extra dividend of two per cent, and closes 2½ per cent higher at 136.

## NEW YORK STOCK EXCHANGE PRICES FOR WEEK ENDING JAN. 18, AND SINCE JAN. 1, 1884.

# RAILROAD INTELLIGENCE.

*The INVESTORS' SUPPLEMENT contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the* CHRONICLE. *Single copies are sold at $1 per copy.*

## ANNUAL REPORTS.

### Philadelphia & Reading Railroad.

*(For the year ending Nov. 30, 1883.)*

The annual meeting of stockholders was held in Philadelphia on Monday, Jan. 14. Resolutions were adopted approving and ratifying the action of the board of managers in leasing the Central Railroad of New Jersey and in making other important contracts. Resolutions highly complimentary to Mr. Gowen were also introduced, and a long petition of stockholders requesting him to retain the presidency; but Mr. Gowen positively declined a re-election. The following are the officers elected: President, Geo. DeB. Keim; Managers, J. B. Lippincott, Henry Lewis, L. V. Williamson, Edward C. Knight, Joseph B. Altemus and Loring A. Robertson; Treasurer, William A. Church; Secretary, Albert Foster. Mr. Gowen on the question of a dividend, spoke as follows:

"I wish to say that I have received proxies to the number of between 385,000 and 400,000 shares. A very large number of those who sent me these proxies have requested me to vote for a dividend; others have been sent under the terms of my circular; there are still many large proxies sent with directions to vote against a dividend; other large proxies ask me to vote as I think best for the company. I would say that those who oppose a dividend do so because they feel that the company should not pay dividends until all the large debts are paid. In the second place the report of the managers, which has been read, furnishes a method by which these debts can be paid as easily as a $5 loan can be raised upon leaving a $10 bill as collateral. I am anxious that before a vote is passed upon this matter all the stockholders shall have a chance to consider it."

Mr. Gowen offered the following resolution, which was adopted:

"Resolved, That for the purpose of enabling the shareholders to read and examine the report of the board of managers before voting upon the question of the payment of a dividend, that when this meeting adjourns after the election it shall adjourn until Monday, Jan. 28, at 12 o'clock noon, for the purpose of having a stock vote upon the resolution recommending the payment of dividends upon the stock of the company."

After the vote had been taken on the resolution, Mr. Gowen presented the resolution which will be voted on at the meeting two weeks hence, which was as follows:

"Resolved, That it is the opinion of the stockholders that after the successful issue of the collateral trust loan referred to in the report of the managers just read, and the realization of the proceeds thereof by the managers for the purpose of retiring the outstanding income mortgage bonds and paying the floating debt of the company, and paying the balance of the purchase money due upon 50,000 shares of the Central Railroad Company of New Jersey stocks, a dividend of twenty-one per cent, representing the arrears due, be made upon the preferred stock of the company, and a dividend of three per cent upon the common stock of the company."

EARNINGS AND EXPENSES.

The following statement of income and expenses includes the Central of New Jersey from June 1 to Nov. 30—six months—and a separate statement of the amount of its receipts and charges is given just below:

| | *Gross Earnings.* | *Net Earnings.* | *Rentals of Used Roads & Canals.* | *Interest.* | *Profit.* |

* Loss.

The percentage of working expenses to gross earnings for both companies for the year ending Nov. 30, 1883, was 67 2-10; year ending November 30, 1882, 71 5-10.

CENTRAL RAILROAD OF NEW JERSEY.

For the purpose of comparison of the results of the past with those of the previous year the managers append the following table, showing the results of the operations of the Central Railroad of New Jersey for the six months of the past year, which are included in the above statement for 1883:

| | *June 1 to Nov. 30.* |
|---|---|
| Gross earnings | $6,791,170 |
| Working expenses | 3,260,309 |
| Net earnings | $3,530,661 |
| Rental | 2,897,178 |
| Profit | $633,482 |

LEASED LINES.

The operations of the leased lines of railway have been generally satisfactory, and the following table shows the increased earnings over those of the previous year of the lines named:

| | |
|---|---|
| Catawissa Railroad Company | $2,179 |
| Philadelphia Germantown & Norristown Railroad Company | 73,073 |
| North Pennsylvania Railroad Company | 117,541 |
| Delaware & Bound Brook Railroad Company | 31,816 |

The express department shows a profit for the year of $173,175, against $138,114 for the previous year.

The steam colliers show a profit of $179,845, against $271,547 for the previous year.

The statement of tonnage of coal mined and transported and the traffic statistics were published in the CHRONICLE of January 12, page 62.

LEASES AND CONTRACTS.

The following extract from the report relates to the several leases and important contracts made during the year:

The Jersey Shore Pine Creek & Buffalo Railway, referred to in the last annual report, was completed and opened for traffic during the summer of last year.

The Shamokin Sunbury & Lewisburg Railroad was opened for business on July 1 last, and for the first five months earned over and above all expenses about one-half of the interest upon its first mortgage bonds—a gratifying result for the opening months. It is not doubted that with the increasing Western traffic thrown upon the line it will soon earn a full interest upon its cost. The line has been constructed in a most substantial and durable manner, and, though laid as a single line, has double track, bridge masonry and culverts throughout. Its entire cost has been ..... $2,489,108

For this the company has received the entire capital stock ..... $1,000,000
First mortgage 5 per cent bonds ..... 1,000,000
2,000,000

Leaving a balance of ..... $489,108

For this balance second mortgage bonds will be taken. The line is being operated under lease to the Philadelphia & Reading Railroad Company, which provides for the payment of an annual rent equal to the interest upon its obligations and 6 per cent upon its stock. Of the first mortgage bonds of $1,000,000 the company has sold $787,000, which realized $738,380 in cash. The construction of the Jersey Shore RR. Pine Creek & Buffalo RR. and of the Shamokin Sunbury & Lewisburg RR. has opened communication between the lines of the New York Central & Hudson River Railroad Company and those of this company. A very large traffic is expected to be developed by these lines, and the future of the Philadelphia & Reading Railroad Company cannot but be greatly benefitted and improved by a close and friendly alliance with such an important company as the New York Central & Hudson River Railroad Company.

The South Pennsylvania Railroad, connecting Harrisburg and Pittsburg, and referred to in the last annual report, has completed its organization, located and revised its line, and made very satisfactory financial arrangements for the money required for construction. The tunnels and the masonry for the bridge over the Susquehanna River are under contract. Some seventy miles, embracing the heavy work, are to be placed under contract during the present winter, and the remainder will be contracted for in the coming spring. It is expected that the entire line will be in operation within two years.

Another very important railroad connection has been provided for since the date of the last annual report. The Beech Creek Clearfield & Southwestern Railroad Company has located and is rapidly constructing a line of railway from a point near Jersey Shore, upon the Jersey Shore Pine Creek & Buffalo Railroad, to the Clearfield bituminous coal region of Pennsylvania. Large bodies of valuable bituminous coal lands have been secured in the interests of this line, and a very large traffic is expected from the coal operators of the Clearfield region, which already produces an annual output of 3,000,000 tons. The new line is expected to be opened for business during the coming spring, and its entire tonnage to Philadelphia and New York and all points south and east will be thrown upon the lines of the Philadelphia & Reading Railroad Company under a contract for nine hundred years, which provides for a pro-rate of joint charges between the several connecting lines.

The Baltimore & Ohio Railroad Company has located and is constructing in the name of an auxiliary company an important line of railway from Baltimore to Philadelphia, which, when completed, it is expected will connect with the lines of the Philadelphia & Reading Railroad Company, and throw over the latter to New York a very large traffic from Baltimore, Washington, the South and Southwest. To form a connection between the railway systems of the company on the north and those on the south of the city of Philadelphia, two lines of railway have been located, known as the Schuylkill River East Side Railroad Company and the Schuylkill River West Side Railroad Company, all the stock of each of which companies is held by the Philadelphia & Reading Railroad Company. When constructed these lines will serve to connect all the lines of the company running north, east and west with those running south from Philadelphia, and afford access to the large traffic expected from the lines of the Baltimore & Ohio Railroad Company and its many connections.

During the year the company has acquired control by a lease for nine hundred and ninety-nine years of all the railroads and property of the Central Railroad Company of New Jersey at a rental of six per cent upon the capital stock of the lessor company, beginning to run three months after the commencement of the lease, thus reducing the rent for the first year to four and one-half per cent. Annexed to this report will be found copies of the lease, and of a supplemental agreement made between this company and the Lehigh Coal & Navigation Company, whose line of railroad was leased to the Central Railroad Company of New Jersey. The operations of this leased line for the first six months have resulted in a net profit to the company over and above the rental of $633,482, but this cannot be taken as a fair estimate of the immediate future; first, because the company operated the line for the first three months without paying any rental upon the shares, and, second, because the six months ending November 30 are the most profitable of the year, and the succeeding winter months cannot be expected to show earnings sufficient to pay the monthly rental.

No doubt is entertained, however, of the ability of the company to earn upon the leased line in each year an profit sufficient to pay the rental; and the possession of the property, affording an outlet with abundant terminals at New York harbor, and the consequent control of its large coal traffic is of vast importance to the future of the company. At the instigation of parties acting in the interest of the Pennsylvania Railroad Company, Mr. William B. Dinsmore, President of the Adams Express Company, who is a stockholder of the Central Railroad Company of

New Jersey, and as such voted in favor of the lease, has been induced to file a bill in equity to set the lease aside. No danger whatever is apprehended from this attempt, as the legal right to make the lease is undoubted.

On the 11th day of April last the company leased for a term of nine hundred and ninety-nine years from May 1 last the railroad of the Schuylkill & Lehigh Railroad Company at a rental of 4½ per cent upon its first mortgage bonds and 6 per cent upon its capital stock. All of the capital stock belongs to the Philadelphia & Reading Railroad Company. Upon the first mortgage bondholders consenting to reduce the interest on their bonds to 4½ per cent, the lease was made, the Philadelphia & Reading Railroad Company agreeing to accept second mortgage bonds for $400,000 of the first mortgage bonds previously held by them, so as to reduce the amount of the first mortgage to $600,000. The line of railroad extends from High's farm, below Reading, through the latter city to a point of connection with the Lehigh Valley Railroad near Slatington, Pa., a distance of forty-four miles.

During the year the construction shops of the company at Reading, including the locomotive and car shops and foundry, have been transferred to and placed under the management of the Coal & Iron Company.

The large increase of indebtedness by the Coal & Iron Company to the railroad company, as shown by the balance sheet is due:

First, To the conversion and funding of the bonded indebtedness of the former into the first and second series 5 per cent consolidated mortgage bonds of the latter.

Second, To the charge against the former of the value of materials and supplies connected with the shops and transferred by the latter.

Third, To the amount expended by the former for the purchase of coal lands and collieries, the payments of valuations of colliery property to tenants upon the termination of their leases, and to the construction of locomotives and rolling stock.

Fourth, To the amount of receivers' certificates and floating debt of the former company paid off by the latter.

* * * * * * * * * * * * *

An arrangement has already been entered into by all the anthracite companies for a suspension of mining during thirty-nine days in the months of January, February and March. As the winter is the proper time to suspend work, and as the thirty-nine days of idleness already provided for, in addition to the nine days of idleness in December, 1883, should be sufficient to avoid surplus production prior to the end of the present fiscal year, the prospect of a very remunerative business for eight months full work during the coming, as against but four months of full work during the past, year, is a very fair one. The profits for December, January, February and March of the present fiscal year, due to the greater length of suspensions, should be less than those of the same months of last year; but any loss so incurred should be much more than made up by the increased earnings of April, May, June and July.

The car trust of $2,000,000, bearing interest at six per cent, referred to in the last report, was created, the certificates sold for 98½ per cent cash, and the proceeds applied to the payment of the receivers' certificates of both companies.

Under the circular of June 27, 1883, there has been funded into convertible adjustment scrip $2,209,940 of scrip and coupons; funded into five per cent consolidated bonds, 1st series, $2,379,292; funded into five per cent consols, 2d series, $1,689,587.

In addition to the old obligations so funded into the new, the managers have bought for the company the following overdue obligations, viz.: Deferred coupon dollar scrip, &c., $824,035; general mortgage and Perkiomen sterling scrip, $652,050; income mortgage bonds, $240,000; total, $1,716,085.

FLOATING DEBT AND COLLATERAL TRUST LOAN.

In addition to the earnings of the Company, all the money required for the purchase of the above securities, for the completion of the Shamokin Sunbury & Lewisburg Railroad, $1,751,000, for the purchase of additional coal lands and collieries, and for the construction of engines and cars by the Coal & Iron Company, about $1,200,000, for payment on account of purchase of Central Railroad Company of New Jersey stock hereafter referred to, say $510,000, and for other capital accounts, has been supplied by increasing the floating debt of the company, the managers believing that so long as money could readily be obtained at not over six per cent, with the abundant collaterals they had at their disposal, it was better to make temporary loans at six per cent interest than to sell at the then market prices the balance of the convertible adjustment scrip, or the unissued income mortgage bonds, or any other funded obligations, the sale of which would involve the payment of a higher rate of interest for any great length of time.

The entire floating debt of the Railroad Company is as of January 10, $6,754,391; in addition to this there is due by the company $3,460,311 balance of the purchase of 50,000 shares of the Central Railroad Company of New Jersey, bought at an average price of $78 04 per share. As the stock of the Central Railroad of New Jersey is now a guaranteed six per cent stock and represents to that extent an obligation of the company, the purchase of 50,000 shares at this price was considered highly advantageous.

The floating debt of the Coal & Iron Company being much less than the value of the coal and quick cash assets on hand applicable to its payment requires no attention.

Of the issue of income mortgage bonds, which by the terms of the mortgage must be redeemed out of the earnings of the company before any dividend can be made, there are still outstanding $2,141,000. The difference between this sum and the amount of $2,454,000, as shown in the balance sheet, $313,000, represents the amount already bought by the company. The managers deem it advisable that the floating debt of the railroad company, the balance due upon the purchase of the 50,000 shares of the Central Railroad Company of New Jersey, and the outstanding income bonds, should be paid as soon as possible, and, to provide the means of doing so, they recommend the creation of a collateral trust loan of $12,000,000, in 50-year coupon or registered bonds, bearing interest at 5 per cent per annum, and secured by the deposit of the following stocks and bonds:

Stocks—Central RR. of New Jersey, $5,000,000; East Pennsylvania RR. Co., $1,136,350; Shamokin Sunbury & Lewisburg RR. Co., $1,000,000; Mine Hill & Schuylkill Haven RR. Co., $352,150; East Mahanoy RR. Co., $249,000; Junction RR., $56,20; Mill Creek & Mine Hill Nav. & RR. Co., $48,175; Mount Carbon & Port Carbon RR. Co., $38,800; Schuylkill Valley Nav. & RR. Co., $62,300; Tidewater Pipe Co., special certificates, $373,000; do. do. trustees' certificates of voting stock, $235,500.

Bonds—P. & R. RR. Co. income mortgage (to be stamped with release of sinking fund clause and of obligation to pay out of earnings), $5,000,000; Preston Coal & Improvement Co. first mortgage, $1,090,000; Reading & Columbia RR. Co., $1,000,000; Tremont Coal Co. 1st mortgage, $900,000; Central New Jersey convertible debentures, $600,000; Shamokin Sunbury & Lewisburg RR. Co., 1st mortgage, $213,000; do. 2d mortgage, $189,000; Tidewater Pipe Co. mortgage, $257,000; Main Vein Coal & Iron Co. 1st mortgage, $223,000; Locust Dale Coal Co. 1st mortgage, $156,000; Perkiomen RR. Co. 1st mortgage, $135,000; do. freight, $50,000; Philadelphia Reading & Pottsville Tel. Co., $200,000; total, $18,934,475.

As the value of these securities is over 50 per cent above the principal, and the annual income earned by them much more than double the annual interest upon the bonds to be secured by their deposit, it is believed the proposed loan can be readily sold at a fair price. By the purchase of the fifty thousand shares of Central Railroad Company of New Jersey stock and by the issue of the proposed loan the fixed charges of the company will be reduced as shown below, assuming the loan to be sold at par.

There will be saved:

| | |
|---|---|
| Interest at 6½ per cent upon say $6,400,000 floating debt | $416,000 |
| Interest at 7 per cent upon $2,141,000 income bonds | 149,870 |
| Revenue received from 50,000 shares Central Railroad Company of New Jersey | 300,000 |
| | $865,870 |
| Deduct interest on proposed loan, 5 per cent on $12,000,000 | 600,000 |
| Balance showing reduction of fixed charges to the company equal to 77 100 per cent on capital stock | $265,870 |

Interest at 6½ per cent upon the floating debt is believed to be a fair estimate, considering the rate of bank discount and brokers' commissions which necessarily must be paid upon a portion of the debt.

In addition to the proceeds of the proposed loan the company has on hand nearly $3,000,000 in value at the issue price of the unsold deferred income bonds. As something has been earned towards the interest upon these bonds during the past year, and as any increased earnings in the future must cause a rapid appreciation in their market value, there should be little difficulty at the proper time in realizing, as it may be required by the future wants of the company, an amount equal to the original issue price of 30 per cent upon the whole of the unissued deferred income bonds, provided it may not be considered either safer to hold them for a much higher price or to avoid their issue altogether.

DIVIDENDS.

The question of present and future dividends upon the stock of the company will be of interest to the stockholders. For the last three years a dividend of 7 per cent upon the preferred stock has been earned, and as such dividend when earned is of the nature of a debt and cumulative, the managers see no reason why the arrears should not be paid. With reference to dividends upon the common stock the case is different. The income account of the company, after crediting the net earnings of the year 1883, will only be in credit to the amount of $510,190 39, due to the fact that the losses for the years preceding 1881 are still charged to that account, which now stands thus:

| | | |
|---|---|---|
| *Credit.* | | |
| Profits of 1881 | $183,256 | |
| Profits of 1882 | 832,941 | |
| Profits of 1883 | | |
| | $2,157,233 | $3,223,430 |
| *Debit.* | | |
| Losses prior to 1881 | | 2,613,240 |
| Credit balance | | $610,190 |

The debit of $2,613,240 41, representing the losses of years prior to 1881, could, if the shareholders so ordered, be charged to capital against the very much larger amounts of income that from time to time in previous years have been expended for capital accounts without any charge whatever to the latter. If this is done there remain but two obstacles to a dividend upon the common stock: First, the necessity of paying the outstanding income bonds with the net earnings, and, second, the existence of the floating debt, which, so long as it exists, would seem to require the adoption of the conservative policy of husbanding all the resources of the company. As both of these difficulties would be surmounted by the sale of the proposed new collateral trust loan, and as its effect will be to reduce the fixed charges of the company, without increasing the amount of its obligations, the managers submit to the shareholders the decision of the question whether a dividend shall or shall not be declared in case the proposed loan is sold and the proceeds realized by the company.

## Atchison Topeka & Santa Fe Railroad.

(*For the year ending Dec.* 31, 1883.)

It will be some time yet before the annual report of this company is issued. The directors have issued a preliminary statement of the income account for 1883, the figures for the month of December being partly estimated. The statements below include the Southern Kansas Railway:

INCOME ACCOUNT FOR 1883.

| | | |
|---|---|---|
| Gross earnings | | $15,867,669 |
| Operating expenses and taxes | | 7,650,810 |
| Net earnings | | $8,216,858 |
| To these net earnings we have the following additions: | | |
| Track rentals | $25,000 | |
| Interest account | 105,715 | 130,715 |
| Total net revenue | | $8,347,574 |
| Against this total net revenue we have the following charges: | | |
| Interest on bonds of the Atchison & Southern Kansas systems | $2,524,470 | |
| Bonds purchased for sinking funds of the two systems | 232,603 | |
| Dividends at 6 per cent on Atchison stock | 3,414,562 | |
| Discount on $1,500,000 bonds sold in January, 1883 | 37,500 | |
| Amounts paid and due to other roads on foreign pool earnings accounts | 430,000 | 6,639,137 |
| Balance for the year | | $1,708,436 |
| Which will be used: | | |
| For approximate reduction of the values of materials on hand to current prices | $200,000 | |
| In the establishment of a fire insurance fund | 250,000 | |
| To the credit of renewal account | 500,000 | 950,000 |
| Balance to the credit of income account | | $758,436 |

The operations of the Sonora System for the year have not been satisfactory. An epidemic fever raged during six months of the year, seriously affecting all business interests. The expenses of the year were in excess of earnings in the sum of about $80,000. $183,000 in Mexican currency has been collected during the year on account of subsidy. The interest for the outstanding bonds on the New Mexico and Arizona Railroad is included in the interest charges of the Atchison Co. The interest on the Sonora outstanding bonds having been guaranteed by the Atchison Co. has been advanced by the latter, amounting to $310,240.

LAND STATEMENT.

| | | |
|---|---|---|
| During the year 322,221 acres were sold for | | $1,155,683 |
| The total amount of cash collected was | | 1,364,810 |
| This was used as follows: | | |
| In payment of land taxes and expenses of Land Department | $283,934 | |
| Interest on land grant bonds | 202,335 | |
| In purchase of land income bonds, redeemed and canceled | 269,416 | |
| In purchase of land grant bonds, redeemed and canceled | 242,116 | 996,832 |
| Credit balance to trust account | | $367,977 |

NOTE.—$169,053 balance in hands of Land Income Trustees from 1882 was also used in purchase of land income bonds during this year. All land income bonds are now redeemed and canceled.

BOND ACCOUNT.

The funded debt of the company has been increased during the year in the sum of $1,500,000 of Atchison Topeka & Santa Fe Sinking Fund Secured bonds, which were sold in January, 1883, to meet the immediate requirements of the company arising from advances made for the completion of the New Mexico & Arizona Railroad, and the loan made to the Atlantic & Pacific Railroad.

On the other hand, the funded debt of the company has been reduced by the purchase and cancellation of $890,500 bonds during the year.

During the year the sum of $1,688,258 was spent in improvement of the various roads and charged to construction.

During the year new lines to form branch systems of the main line were determined upon and construction begun as follows: In the State of Kansas, 140 miles; in New Mexico, 45 miles; total, 185 miles.

At the close of the year two of these new systems had been completed with mileage 95 miles. The remainder are under way, and will be completed during the first half of 1884. The amount spent during 1883 for the construction of new roads was approximately $1,350,000. A large portion of this amount was realized by the conversion of surplus materials into money.

## GENERAL INVESTMENT NEWS.

**Buffalo New York & Philadelphia.**—At the annual meeting in Philadelphia the annual report was read showing total earnings for the year ending September 30 of $2,703,128, expenses $1,387,189 and net earnings $1,315,939, being an increase of $11,730 as compared with the previous year. The report says the gross receipts for the year would have been $500,000 greater if the company had possessed adequate rolling stock, sidings and terminals. The resignation of J. W. Jones as President of the company was formally accepted, and G. Clinton Gardner was elected to succeed him. The following is the ticket as elected: President, G. Clinton Gardner; directors, G. Clinton Gardner, C. H. Clark, E. A. Rollins, B. K. Jamison, J. W. Jones, Isaac N Seligman, E. F. Winslow, A. N. Martin, C. H. Allen, Bryce Gray, E. L. Owen, B. C. Rumsey, P. P. Pratt.

**Cleveland & Pittsburg.**—The following is the annual statement of this company for the year ending Nov. 30.

| RECEIPTS. | | |
|---|---|---|
| Rental, interest, sinking fund, &c. | $1,242,606 | |
| Interest on cash balances | 1,053 | |
| Total | | $1,243,659 |
| DISBURSEMENTS. | | |
| Mortgage interest | $247,720 | |
| Dividends | 786,902 | |
| Sinking funds contributions | 97,321 | |
| Maintenance of organization | 10,111 | |
| | | 1,242,955 |
| Balance | | $703 |

The operations of the sinking funds for the year have retired $140,000 consolidated sinking fund bonds costing $178,223, and $34,000 construction and equipment bonds at par.

**Connotton Valley.**—Rumors of a pending receivership have been circulated and denied by the company. The Boston *Herald* says: "The company has had some trouble with subcontractors, who hold disputed claims to considerable amounts, the largest being for $90,000 and $40,000. The interest on the first mortgage bonds is in default since November, 1882, the coupons due them having been funded, or rather it was voted to fund them, and a portion of the holders accepted the offer of scrip convertible into 1st mortgage bonds. The overdue interest foots up about $290,000, but there has been no demand for it except from the holder of a few Straitsville bonds who did not participate in the reorganization scheme. The interest on the terminal and car trust bonds has been paid promptly, and the company has no outstanding obligations except the interest and disputed claims mentioned above."

**Illinois Central.**—The board of directors of the Illinois Central have voted in favor of the distribution of $1,740,000 to shareholders of record on March 1, being a dividend (regular) of 4 per cent, or $1,160,000, and an extra cash dividend of 2 per cent or $580,000.

**Iowa Pool—Utah Traffic.**—The date of the meeting of the Chicago Burlington & Quincy and the Iowa pool roads with the Union Pacific has been postponed from the 17th to the 24th instant, but meanwhile it is said that negotiations looking to a settlement will be carried on.

— At Chicago, Commissioner Daniels drafted an agreement looking to the formation of a Utah passenger pool between Salt Lake and Missouri River points to embrace the Union Pacific, the Burlington & Missouri, the Denver & Rio Grande, and the Atchison & Topeka roads. The terms of the agreement are not known. It was not approved by General Manager Clark of the Union Pacific, but the subject is yet under consideration. The agreement will probably not be consummated until the Utah freight pool difficulties have been adjusted.

**Lehigh Valley Railroad.**—In advance of the complete annual report, the following figures are reported for the year ending November 30, 1883. The coal tonnage was 6,592,646 tons, an increase of 256,505 tons over 1882. The receipts from all sources were $11,310,171, and the operating expenses $6,175,656, leaving a balance of net earnings of $5,134,515. The interest charges for the year were $2,031,674; the dividends amounted to $2,210,378; general expenses, taxes and loss on Morris Canal, $421,928, and $347,944 was charged for estimated depreciations in the value of property. The surplus for the year, after all expenses were paid, was $122,598.

—The annual meeting of the stockholders of the Pennsylvania & New York Canal & Railroad Company, which is controlled by the Lehigh Valley Railroad Company, was held in Philadelphia. The annual report showed that the total earnings for the year were $2,316,847, the operating expenses $1,355,026, and the net receipts $961,821.

**Nashville Chattanooga & St. Louis.**—The gross and net earnings in December, and the six months ending December 31, 1882 and 1883, have been as follows:

| | DECEMBER. | | | |
|---|---|---|---|---|
| | 1883. | | 1882. | |
| | *Gross earnings.* | *Net earnings.* | *Gross earnings.* | *Net earnings.* |
| Main Stem | $187,783 | $84,835 | $180,351 | $87,603 |
| Lebanon Branch | 5,092 | 3,156 | 7,469 | 6,002 |
| McMinnville Branch | 3,529 | 1,073 | 3,930 | 2,272 |
| Fayetteville Branch | 6,685 | 3,467 | 6,017 | 4,274 |
| Centrev. Br., nar. gauge | 2,920 | 508 | 2,568 | 723 |

| Interest and taxes | | 331,825 | | 324,837 |
| Balance net surplus | | $245,715 | | $203,078 |

**New York City & Northern.**—At the annual meeting of the New York City & Northern Railroad Company, the following directors were elected without opposition: R. M. Gallaway, Jose F. de Navarro, Charles F. Woerishoffer, George J. Forrest, C. K. Garrison, Lewis May, J. P. Kennedy, R. C. Livingston, H. F. Dimock, A. F. de Navarro, Charles C. Leary, M. Ward and Joseph S. Stout. The only change in the board was the election of the younger Navarro in the place of Andrew V. Stout, who has died since the preceding meeting. The receiver presented no report as to the condition of the company.

**New York Lake Erie & Western.**—The earnings and expenses for the month of October, 1882, and 1883 were as below. The earnings include in 1883 the accounts of the New York Pennsylvania & Ohio. The total working expenses of this leased line are reported, and in the gross earnings 68 per cent of its receipts, since 32 per cent is paid as rental. The figures for 1882 are for New York Lake Erie & Western only.

| *Month of October.* | 1882. | 1883. | |
|---|---|---|---|
| Gross earnings | $1,819,010 | $2,411,146 | Inc. $592,136 |
| Working expenses | 1,175,681 | 1,567,778 | Inc. 392,097 |
| Net earnings | $643,328 | $843,368 | Inc. $200,039 |

**New York Ontario & Western.**—The annual meeting of this company was held on Wednesday, Jan. 16. The result of the meeting was the re-election of the former directors, with two exceptions, by an almost unanimous vote. The exceptions were Conrad N. Jordan and Alexander Taylor, who are succeeded by William C. Gulliver, of New York, and Charles Bard, of Norwich, Conn. The vote was announced by the inspectors to be—preferred stock, 17,539 shares in favor of the regular ticket, and common stock 98,158 shares, against 14,818 shares in opposition. The full board is now as follows: Edward F. Winslow, Horace Porter, Charles F. Woerishoffer, Henry Amy, Theodore Houston, Howard Mansfield, William C. Gulliver, John L. Nisbet, William Adams, Charles J. Canda, Thomas C. Clarke, George B. Green and Charles Bard.

There was a contest at the meeting between Mr. C N. Jordan, Treasurer, who has applied for a receiver, and the President and his associates.

In the President's report the difficulties which had been encountered in opening the line were referred to briefly. The report then said "that the unfunded debt of the company, which is stated in the report to the Railroad Commissioners to be $2,311,898 on Sept. 30, 1883, has been reduced to $1,221,106, in which amount are included all sums due and claims for which the company may in any way be liable under its construction contracts. The floating debt should be funded at the earliest practicable date and a mortgage to secure bonds should be placed upon the property, with the consent of the stockholders, as required by the terms of the charter; or income bonds be issued sufficient in amount to procure the money needed."

Mr. Jordan, through his counsel J. R. dos Passos, has made two applications for receivers, one in the State Court and the other in the United States Circuit Court. Mr. Jordan avers that he is fully acquainted with the financial and business condition of the company. He is satisfied that the company is insolvent. He fears that the property of the company will be seized for the benefit of a few creditors, and to the prejudice of the stockholders and general creditors. He therefore asks for a receiver. In the complaint is contained a schedule of the floating indebtedness of the company, which includes:

| | | |
|---|---|---|
| Unpaid vouchers in the hands of the Treasurer | | $171,703 |
| Unpaid vouchers in the hands of the Auditor | | 102,823 |
| December pay-rolls in the hands of the Auditor | $101,766 | |
| Less amount advanced by Treasurer | 10,200— | 91,566 |

| | |
|---|---|
| Notes outstanding | $516,371 |
| Loans outstanding | 412,749 |
| | $1,295,277 |

besides "debts for indorsement," the amount of which is unknown. The plaintiff charges Messrs. Winslow and Porter with mismanagement. The hearing is adjourned to next week.

**Northern of California.**—The Northern Railway Company (California) has applied to the Stock Exchange to have outstanding bonds, amounting to $3,964,000, listed. These bonds represent the road completed from West Oakland to Martinez, Benicia to Suisun, and from Woodland to Tehama, aggregating about 150 miles. The bonds are dated January 1, 1877, and are due January 1, 1907, with interest at 6 per cent.

**North River Construction Company.**—The receiver appointed for the North River Con. Co. on Saturday evening, Jan. 12, is ex-Judge Ashbel Green, of Alexander & Green, attorneys for the company. The application was made to Chancellor Runyon at Trenton, New Jersey (the Construction Company having been organized under the laws of that State), the applicant being Mr. Lary, of Ward, Mackin & Co. of Newburg, N. Y. The N.Y. *Tribune's* report states that the Construction Company, under its contract for the building of the New York West Shore & Buffalo road, received $50,000,000 first mortgage 5 per cent bonds of the latter company. The proceeds of these bonds have been spent, and in addition the $10,000,000 capital of the Construction Company. Notwithstanding the expenditure of these sums, the North River Company owes the contractors an amount stated by the friends of the company to be about $4,000,000. The West Shore road was finished to Buffalo, but there are seventy-five miles of second track to be laid west of Syracuse, and also some other work to be finished. It is said that the laying of this second track is not necessary for the present; that the road is fully capable of handling more than the amount of business that is expected to be offered to it in the first two years. The contract between the two companies, however, provided for the protection of the Construction Company, even if the original estimates of the cost of the West Shore line should be exceeded. The accounts between the two companies are not yet entirely made up, but under their agreement the West Shore Company has transferred on account part of the new issue of its bonds. At the meeting of the directors of the West Shore Company on Jan. 12 an income mortgage of $25,000,000 was authorized, the bonds to bear 5 per cent interest, if earned, and to run sixty years. The partial settlement with the Construction Company was made that day by the transfer of $10,000,000 of the new income bonds. The remainder of the issue will be held in the treasury of the West Shore Company, to be used for future needs. It is understood that the Construction Company was granted an extension of time, which will enable it to carry out its contract if a satisfactory termination of the receivership can be eventually secured. The assets of the North River Company include, in addition to the $10,000,000 new income bonds, a majority of the $40,000,000 capital stock of the West Shore Company. This control amounts to over $20,000,000 stock.

General Edward F. Winslow, President of the North River Construction Co, said in reference to the receivership: "The application and appointment were made in the interests of the creditors and shareholders. In no sense were the proceedings hostile to the company, and the appointment was assented to by it. The step was taken for the purpose of invoking the protection of the courts to preserve and hold intact the assets of the company. An important part of these assets is the control of the West Shore road; we could not afford to dissipate that." The bulk of the indebtedness of the North River Company is stated to consist of notes given to contractors for work on the West Shore Railroad. Only a very small proportion of it consists of notes given for borrowed money. The amount loaned upon the terminal properties of the West Shore & Ontario Terminal Company is $5,500,000. This was divided among trust companies, other moneyed institutions and firms.

**Northern Pacific.**—At a meeting of the directors of the Northern Pacific Railroad Company Mr. Robert Harris, one of the Vice-Presidents of the Erie road, was elected President of the company to succeed Henry Villard. Mr. Harris has been a director of the company since 1879. He will resign his office in the Erie company and devote his whole attention to the Northern Pacific. Vice-President Oakes will remove to St. Paul, Minn., and will be General Manager of the company.

**Ohio & Mississippi.**—Receiver Douglass reports to the Court as follows for December:

| | 1883. | 1882. |
|---|---|---|
| Cash on hand Dec. 1 | $121,345 | $122,162 |
| Receipts from all sources | 515,824 | 681,201 |
| Total | $637,169 | $803,363 |
| Disbursements | 395,918 | 515,214 |
| Cash on hand Dec. 31 | $241,251 | $288,149 |

**Richmond & Danville.**—This company has this week issued its December statement of gross and net earnings on all the lines operated by it as follows:

| | Gross Earnings. | | Net Earnings. | |
|---|---|---|---|---|
| *December*— | 1883. | 1882. | 1883. | 1882. |
| Richmond & Danville. | $334,610 | $322,447 | $168,837 | $132,047 |

| West. No. Carolina | 33,784 | 26,944 | 12,170 | 6,416 |
| Total | $630,350 | $643,604 | $279,078 | $240,450 |

# The Commercial Times.

## COMMERCIAL EPITOME.

Friday Night, Jan. 18, 1884.

The improved prospects of business with which the new year opened have been rudely disturbed the past week by failures in the wheat trade here and at the West, and by a semi-panic in railway securities, caused in good part by the failure of the North River Construction Company. Severe weather has also been somewhat of an obstacle to business, and troubles with labor from strikes, and failures of some importance in the clothing trade are reported; the latter show that the process of liquidation is not yet completed. Nearly all leading staples have declined through the weakening of speculative confidence, and general trade is dull.

It has been an unprofitable week to those on the "long" side of provisions. Lard and pork have been visibly affected by the severe declines in wheat and corn here and at the West, and at the close to-night the feeling is one of uncertainty and weakness. Western lard sold to-day on the spot at 9·02½c.; refined to the Continent, 9·30c.; South America, 9·60c.; futures opened quite steady, but soon became irregular and the final figures were weak; January, 8·92@8·95c.; February, 8·95@8·97c.; March, 9·03@9·06c.; April, 9·12@9·15c.; May, 9·23@9·25c; June, 2·26@9·30c. Mess pork was again very dull and quoted on the spot at $14 25@$14 50. In beef little or nothing is going on, and city extra India mess is almost nominal at $24@$26. Beef hams are also slow at $23 50@$24 for Western. Bacon quite nominal at 8c. for long clear. Butter has been less active, and Elgin creamery is now 41c.; others 32@40c. Cheese has been more active and firm for export; September factory 13¼@13¾c. Tallow sells at 7⅝@7 11-16c. and prime stearine at 9½c.; oleomargarine at 8½c.

Rio coffee has been dull and weaker, fair cargoes closing at 12¼c.; the supply of Brazil here in first hands has increased to 275,928 bags; options have been less active at declining prices, closing to-day at 10·25c. for February, 10·45c. for March, 10·65c. for April and 10·75c. for May, these prices being from 70 to 80 points lower than those of a week ago; mild grades have sold fairly at easier prices. Tea has been active on speculation at higher prices; fully 25,000 half-chests of oolong have been sold on the spot, as well as considerable Japan and green, while the transactions in Japan for future delivery have also reached a large aggregate; the trouble between France and China is the basis of the speculation. Foreign fruits have been steady and moderately active. Spices have been more active and firm. Rice has sold well at steady prices. Molasses has been more active and steady. Raw sugar has been rather more steady but quiet on the spot, with fair refining at 5 13-16c.; there was a larger business to-day in sugar to arrive, however, and the sales for future delivery have latterly increased, though at weak prices; refined has been fairly active, and closed firm on the spot at 8¼c. for crushed, 8⅛@8¼c. for powdered, 7¾@7 13-16c. for granulated and 7 7-16@7½c. for standard "A."

In Kentucky tobacco the movement either for export or consumption has been limited, and a slight irregularity in prices is noticed; lugs quoted 7@8c. and leaf 8¼@11c. Sales for the week 68 hhds., part for export. Seed leaf has continued quiet and without features of interest. Sales for the week embrace 1,300 cases, including 250 cases crop 1882, Pennsylvania, 10@20c.; 150 cases crops 1881-80, do., 8@11c.; 250 cases crop 1882, Wisconsin Havana, 14@20c.; 100 cases crop 1882, New England, 12@20c.; 150 cases crop 1882, sundries, 8½@18c.; and 500 bales Havana, 82c.@$1 15; also 150 bales Sumatra, $1 25@$1 50.

The naval store market has continued quiet, but prices have been sustained by the firm advices from the South and England. Strained to good strained rosin quoted $1 50@$1 55, and spirits turpentine in yard 35c. Refined petroleum has remained at a standstill, but 9½c. is still the price for 70-abel test. Crude oil certificates were slightly improved to-day by heavy covering of the "short" interest; the lowest price was $1 07¾, the highest $1 09⅞ and the closing $1 09⅝. American pig iron has latterly been more active, and a firmer undertone is noticed; there have been estimated sales of 12,000 tons on private terms; $20 37½ now bid for No. 1. Steel rails have been sold to the extent of 10,000 tons at $34 50@$36, deliverable at the mills. Wool is still very slow.

In ocean freight-room the market has latterly been quiet and very irregular, though early in the week quite a firm tone was noticed. The movement has been small. Oil charter tonnage has had some inquiry at weak and irregular rates. To-day grain was taken to Liverpool by steam at 3d; flour, 12s. 6d. per ton; bacon, 20@25s.; cheese, 27s. 6d@30s.; cotton 13-64d.; grain to London, by steam, at 3¾d.; do. to Glasgow, by steam, quoted 3½d.; do. to Antwerp, by steam, 3½d.; do to Amsterdam and Rotterdam, 8c.; grain, by sail, to Lisbon, 11¾@12c. do. from Baltimore to Cork for orders, by steamer, 3s. per qr.; refined petroleum from Philadelphia to Levant 20c. per case.

# COTTON.

FRIDAY, P. M., January 18, 1884.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Jan. 18) the total receipts have reached 110,467 bales, against 90,245 bales last week, 140,612 bales the previous week and 201,686 bales three weeks since; making the total receipts since the 1st of September, 1883, 3,757,674 bales, against 4,012,231 bales for the same period of 1882-83, showing a decrease since September 1, 1883, of 254,557 bales.

The speculation in cotton for future delivery at this market has taken a slight downward turn during the week under review. There was an advance early on Saturday morning, but the absence of demand to any important extent soon compelled the few sellers to accept lower prices. Some revival of the crop movement seemed to be anticipated; the labor troubles in Lancashire continued, and the stocks, though undergoing reduction, were still large. The depression continued down to the close of Tuesday's business, when the active months had declined 12@15 points from the highest figures of the previous Saturday; January and the next crop were better sustained. On Wednesday the reports by cable indicated the early revival of manufacturing activity in Lancashire, through the termination of the strikes of operatives, and there was an early advance, which was soon lost, and but a slight improvement was sustained down to the close of Thursday's business. The troubles on the Stock and Produce exchanges had some effect in weakening speculative action, and the expected revival of the crop movement began to take place. To-day there was an early decline of a few points under the dull foreign advices and increased receipts at the ports, though later there was some recovery, but the close was at a decline of 4 points for January, 12 points for the remainder of this crop and 7@9 points for the next crop, as compared with last Friday. Cotton on the spot has been quiet, and the limited demand was mainly for home consumption. It was easier to buy on Tuesday, but quotations were not reduced. To-day the market was quiet and nominally unchanged at 10 11-16c. for middling uplands.

The total sales for forward delivery for the week are 475,000 bales. For immediate delivery the total sales foot up this week 2,894 bales, including 36 for export, 2,466 for consumption, 392 for speculation and —— in transit. Of the above, —— bales were to arrive. The following are the official quotations for each day of the past week.

MARKET AND SALES.

The total sales and future deliveries each day during the week are indicated in the following statement. For the convenience of the reader we also add a column which shows at a glance how the market closed on same days.

| | SPOT MARKET CLOSED. | SALES OF SPOT AND TRANSIT. | | | | FUTURES. | |
|---|---|---|---|---|---|---|---|
| | | Ex-port. | Con-sump. | Spec-ul'n | Tran-sit. | Total. | Sales. | Deliv-eries. |
| Sat | Quiet at 1/16 adv. | .... | 375 | .... | .... | 375 | 76,000 | 300 |
| Mon | Quiet | .... | 263 | .... | .... | 263 | 66,900 | 900 |
| Tues | Quiet and steady | .... | 526 | .... | .... | 526 | 81,300 | 500 |
| Wed | Dull and easier | .... | 375 | .... | .... | 375 | 112,200 | 800 |
| Thurs | Firm | .... | 610 | 392 | .... | 1,032 | 62,900 | 800 |
| Fri | Quiet | 36 | 287 | .... | .... | 323 | 81,700 | 400 |
| Total | | 36 | 2,466 | 392 | .... | 2,894 | 475,000 | 3,700 |

The daily deliveries given above are actually delivered the day previous to that on which they are reported.

THE SALES AND PRICES OF FUTURES are shown by the following comprehensive table. In the statement will be found the daily market, the prices of sales for each month each day, and the closing bids, in addition to the daily and total sales.

DAILY PRICES AND SALES OF FUTURES FOR EACH MONTH.

| Market, Prices and Sales of FUTURES. | Market, Range and Total Sales. | January. | February. | March. | April. | May. | June. | July. | August. | September. | October. | November. | December. |

·17 pd. to exch. 500 Feb. for Mar.
·04 pd. to exch. 200 Jan. for Feb.
·71 pd. to exch. 100 Feb. for July.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. The Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Jan. 18), we add the item of exports from the United States, including in it the exports of Friday only.

☞ The imports into Continental ports this week have been 84,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 140,145 bales as compared with the same date of 1883, an *increase* of 294,984 bales as compared with the corresponding date of 1882 and an *increase* of 607,718 bales as compared with 1881.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since Sept. 1, the shipments for the week, and the stocks to-night, and the same items for the corresponding period of 1882-83—is set out in detail in the following statement

| Towns. | Movement to January 18, 1884. Receipts. This week. | Receipts. Since Sept. 1, '83. | Shipm'ts This week. | Shipm'ts Since Sept. 1, '83. | Stock Jan. 18. | Movement to January 19, 1883. Receipts. This week. | Receipts. Since Sept. 1, '82. | Shipm'ts This week. | Shipm'ts Since Sept. 1, '82. | Stock Jan. 19. |

* Stock actual count.
† This year's figures estimated.

The above totals show that the old interior stocks have *decreased* during the week 28,406 bales, and are to-night 3,969

bales *less* than at the same period last year. The receipts at the same towns have been 28,732 bales *less* than the same week last year, and since September 1 the receipts at all the towns are 334,877 bales *less* than for the same time in 1882-83.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—In the table below we give the closing quotations of middling cotton at Southern and other principal cotton markets for each day of the past week.

| Week ending Jan. 18. | CLOSING QUOTATIONS FOR MIDDLING COTTON ON— | | | | | |

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports.

RECEIPTS FROM PLANTATIONS.

| Week ending— | Receipts at the Ports. | | | | St'k at Interior Towns. | | | | Rec'pts from Plant'ns. | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | '81-'82. | '82-'83. | '83 '84. | | '81-'82. | '82-'83. | '83-'84. | | '81-'82. | '82-'83. | '83-'84 | |

| " 21 | 200,855 | 258,170 | 247,783 | | 457,024 | 336,[illegible] | 423,577 | | 218,343 | 295,635 | 281,064 | |
| " 28 | 200,824 | 251,923 | 2 1,686 | | 468,586 | 379,855 | 402,810 | | 210,158 | 294,785 | 260,419 | |
| Jan. 4 | 152,420 | 224,[illegible]97 | 140,612 | | 458,656 | 3-3 647 | 407,671 | | 139,502 | 228,789 | 126,276 | |
| " 11 | 114,8[illegible] | 175,382 | 90,245 | | 435,[illegible]50 | 3[illegible]0,248 | 389,398 | | 98,2[illegible]9 | 171,983 | 72,163 | |
| " 18 | 99,850 | 150,340 | 110,467 | | 419,043 | 367,967 | 365,715 | | 83,963 | 138,109 | 81,284 | |

The above statement shows—1. That the total receipts from the plantations since September 1, 1883, were 4,069,233 bales; in 1882-83 were 4,363,713 bales; in 1881-82 were 3,974,018 bales.

2.—That, although the receipts at the out-ports the past week were 110,467 bales, the actual movement from plantations was only 81,284 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the same week were 138,109 bales and for 1882 they were 83,983 bales.

AMOUNT OF COTTON IN SIGHT JANUARY 18.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to January 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight.

| | 1883-84. | 1882-83. | 1881-82. | 1880-81. |
|---|---|---|---|---|
| Receipts at the ports to Jan. 18 | 3,757,674 | 4,012,231 | 3,600,400 | 3,839,071 |
| Interior stocks on Jan. 18 in excess of September 1 | 311,535 | 351,482 | 373,618 | 270,424 |
| Tot. receipts from plantat'ns | 4,069,233 | 4,363,713 | 3,974,018 | 4,109,495 |
| Net overland to January 1 | 382,415 | 413,082 | 323,510 | 316,763 |
| Southern consumpt'n to Jan. 1 | 123,000 | 130,000 | 100,000 | 85,000 |
| Total in sight January 18 | 4,574,648 | 4,906,795 | 4,397,528 | 4,511,258 |

It will be seen by the above that the decrease in amount in sight to-night, as compared with last year, is 332,147 bales, and that the increase as compared with 1881-82 is 177,120 bales, and with 1880-81 is 63,390 bales.

WEATHER REPORTS BY TELEGRAPH.—The temperature has improved considerably at the South. There has, however, been rain in almost all sections, but in general the rainfall has been moderate, and the roads are in better condition.

*Galveston, Texas.*—It has rained on five days of the week, the rainfall reaching three inches and six hundredths. The thermometer has averaged 51, ranging from 35 to 66.

*Indianola, Texas.*—We have had rain on four days of the week, the rainfall reaching four inches and fifty-six hundredths. The thermometer has ranged from 34 to 71, averaging 53.

*Palestine, Texas.*—It has rained on three days of the week, the rainfall reaching one inch and ninety-eight hundredths. Average thermometer 45, highest 62 and lowest 28.

*New Orleans, Louisiana.*—We have had rain on four days of the week, the rainfall reaching fifty hundredths of an inch. The thermometer has averaged 51.

*Shreveport, Louisiana.*—The weather has been generally cold and wet during the week, the rainfall reaching two inches and fifty-one hundredths. The thermometer has ranged from 27 to 63.

*Vicksburg, Mississippi.*—We are having too much rain. It has been showery on five days of the week, and the remainder of the week has been cloudy. The rainfall reached two inches and fifty-two hundredths. The tributary rivers are higher. The thermometer has ranged from 26 to 63.

*Meridian, Mississippi.*—Telegram not received.

*Columbus, Mississippi.*—It has rained on three days of the week.

*Little Rock, Arkansas.*—We have had but two clear days during the week, the remainder being cloudy, with rain on two days and slight snow on one. The rainfall reached one inch and sixty-one hundredths. Average thermometer 34, highest 55 and lowest 21. Last week was very cold, with five inches of snow on one day. The thermometer averaged 21, highest 46 and lowest 2.

*Pine Bluff, Arkansas.*—The early part of the week was clear and pleasant, but during the latter portion it has rained on three days. All the roads are very bad. The thermometer has averaged 35, the highest being 56 and the lowest 20. No rain fell during last week, but on one day about five inches of snow fell on frozen ground. A cold blustering week; unusually so. The thermometer averaged 20, highest 46, lowest 2.

*Fort Smith, Arkansas.*—Telegram not received.

*Helena, Arkansas.*—We have had rain on two days of the week, with a rainfall of two inches and five hundredths. The thermometer has ranged from 28 to 54, averaging 38.

*Monticello, Arkansas.*—Telegram not received.

*Memphis, Tennessee.*—It has rained on four days of the week, the rainfall reaching one inch and seventy-three hundredths. The thermometer has averaged 36, the highest being 56 and the lowest 26.

*Nashville, Tennessee.*—We have had rain on two days of the week, the rainfall reaching one inch and eighty-one hundredths. The remnant of the crop remaining in the country tributary to this point is small. The thermometer has averaged 34, ranging from 11 to 51.

*Mobile, Alabama.*—It has rained on four days of the week, and is raining to-day. The rainfall reached ninety hundredths of an inch. The thermometer has ranged from 28 to 67, averaging 48.

*Montgomery, Alabama.*—We have had rain on four days of the week, and the remainder of the week has been cloudy and wet. The rainfall reached one inch and sixteen hundredths. It is raining hard to-day. Average thermometer 45, highest 64, lowest 26.

*Selma, Alabama.*—It has rained on three days of the week, the rainfall reaching fifty hundredths of an inch. The thermometer has averaged 42, the highest being 62, and the lowest 25.

*Madison, Florida.*—Telegram not received.

*Macon, Georgia.*—It has rained on three days of the week. The thermometer has ranged from 29 to 63, averaging 48.

*Columbus, Georgia.*—The rainfall during the week reached ninety-five hundredths of an inch. Average thermometer 46, highest 65 and lowest 30.

*Savannah, Georgia.*—It has rained very lightly on four days of the week, the remainder being pleasant. The rainfall reached four hundredths of an inch. The thermometer has averaged 52, the highest being 68 and the lowest 38.

*Augusta, Georgia.*—The early part of the week was clear and pleasant, but it has been showery on three days during the latter portion. The rainfall reached twenty-three hundredths of an inch. Planters are marketing freely. The thermometer has averaged 49, ranging from 33 to 68.

*Atlanta, Georgia.*—It has rained on two days of the week, the rainfall reaching seventy-two hundredths of an inch. The thermometer has ranged from 24 to 58, averaging 41.

*Charleston, South Carolina.*—We have had no rain during the week. Average thermometer 52, highest 70 and lowest 39.

*Columbia, South Carolina.*—It has rained on three days of the week, the rainfall reaching eighty-one hundredths of an inch. The thermometer has averaged 51, the highest being 60 and the lowest 42.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock January 17, 1884, and January 18, 1883.

| | | *Jan. 17, '84.* | | *Jan. 18, '83.* | |
|---|---|---|---|---|---|
| | | *Feet.* | *Inch.* | *Feet.* | *Inch.* |
| New Orleans | Below high-water mark | 3 | 11 | 9 | 6 |
| Memphis | Above low-water mark | 17 | 10 | 8 | 5 |
| Nashville | Above low-water mark | 31 | 11 | 16 | 2 |
| Shreveport | Above low-water mark | 10 | 5 | 17 | 10 |
| Vicksburg | Above low-water mark | 34 | 6 | 16 | 9 |

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

INDIA COTTON MOVEMENT FROM ALL PORTS.—We have re-arranged our India service so as to make our reports more detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to January 17.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

| Year | Shipments this week. Great Brit'n. | Shipments this week. Conti-nent | Shipments this week. Total. | Shipments since Jan. 1. Great Britain | Shipments since Jan. 1. Conti-nent. | Shipments since Jan. 1. Total. | Receipts. This Week. | Receipts. Since Jan. 1 |
|---|---|---|---|---|---|---|---|---|
| 1884 | 6,000 | 7,000 | 13,000 | 24,000 | 31,000 | 55,000 | 36,000 | 113,000 |
| 1883 | 5,000 | 15,000 | 20,000 | 18,000 | 28,000 | 46,000 | 34,000 | 90,000 |
| 1882 | 19,000 | 9,000 | 28,000 | 49,000 | 25,000 | 74,000 | 41,000 | 103,000 |
| 1881 | 7,000 | 8,000 | 15,000 | 13,000 | 15,000 | 28,000 | 25 000 | 64,000 |

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 2,000 bales, and a *decrease* in shipments of 7,000 bales, and the shipments since January 1 show an *increase* of 9,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of January, for two years has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

| | Shipments for the week. Great Britain. | Shipments for the week. Conti-nent. | Shipments for the week. Total. | Shipments since January 1. Great Britain. | Shipments since January 1. Continent. | Shipments since January 1. Total. |

| 1883..... | 6,500 | 1,500 | 8,000 | 15,000 | 1,500 | 16,500 |
| Madras— | | | | | | |
| 1884..... | 1,200 | ..... | 1,200 | 2,200 | ..... | 2,200 |
| 1883..... | 1,000 | ..... | 1,000 | 2,000 | ..... | 2,000 |
| All others— | | | | | | |
| 1884..... | 600 | ..... | 600 | 1,400 | ..... | 1,400 |
| 1883..... | ..... | ..... | ..... | 1,000 | ..... | 1,000 |
| Total all— | | | | | | |
| 1884..... | 5,100 | ..... | 5.100 | 9,900 | ..... | 9,900 |
| 1883..... | 7,500 | 1,500 | 9,000 | 18,000 | 1.500 | 19,500 |

The above totals for the week show that the movement from the ports other than Bombay is 3,900 bales *less* than same week last year. For the whole of India, therefore, the total shipments since January 1, 1884, and for the corresponding periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

| Shipments to all Europe from— | 1884. This week. | 1884. Since Jan. 1. | 1883. This week. | 1883. Since Jan. 1. | 1882. This week. | 1882. Since Jan. 1 |
|---|---|---|---|---|---|---|
| Bombay ..... | 13,000 | 55,000 | 20,000 | 46,000 | 28.000 | 74,000 |
| All other ports. | 5,100 | 9,900 | 9,000 | 19,500 | 14,700 | 27,500 |
| Total ..... | 18.100 | 64,900 | 29.000 | 65,500 | 42.700 | 101,500 |

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

| Alexandria, Egypt, January 16. | 1883-84. | 1882-83. | 1881-82 |
|---|---|---|---|
| Receipts (cantars*)— | | | |
| This week.... | 100,000 | 95.000 | 100 000 |
| Since Sept. 1 | 2,242,000 | 1,821,000 | 2,327,550 |

| | This week. | Since Sept. 1. | This week. | Since Sept. 1. | This week. | Since Sept. 1 |
|---|---|---|---|---|---|---|
| Exports (bales)— | | | | | | |
| To Liverpool..... | 10,000 | 164.000 | 8,000 | 146,000 | 7,000 | 148,000 |
| To Continent ..... | 3,000 | 71,000 | 4,000 | 45,000 | 10,953 | 87.982 |
| Total Europe..... | 13.000 | 235,000 | 12,000 | 191,000 | 17,953 | 235,982 |

* A cantar is 98 lbs.

This statement shows that the receipts for the week ending Jan. 16 were 100,000 cantars and the shipments to all Europe were 13,000 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that the market is firm and slightly dearer. We give the prices of to-day below, and leave previous weeks' prices for comparison.

EAST INDIA CROP.—Messrs. Wallace & Co.'s cotton report, dated Bombay, Dec. 14, 1883, furnishes the following:

"Small parcels of new Omrawuttee and Hingenghat are now coming in, the quality of which, although poor, is better than was expected, especially the Hingenghat, and the stain which is so apparent in the sample lots will, it is expected, decrease as the cotton comes down. The Director of Agriculture in the central provinces, in writing to the Chamber of Commerce, says that rather more acreage was put under cultivation in the Nagpar district and central provinces than last year, and up to 1st October—the date up to which his report extends—the condition of the plants was satisfactory. Heavy rain, however, during the third week of October injured the young bolls, and the excessive damp delayed the maturing of the plants. The result, the director writes to say, will be stain and dark-leaf in the first pickings, but by 'invigorating the plants, it will, however, have made some return for the injury which it has caused to the young bolls, and it is probable that the later cotton pickings will be improved by it, although the first picking undoubtedly suffered greatly. But there seems reason to apprehend that the cotton crop of Wurdha and Nagpar will be decidedly below the average, whilst that of the other parts of the provinces will be rather in excess of it.' As regards Broach and Dholleras, both are reported to be progressing favorably, and subject to the weather during the next six weeks being favorable, good yields of both may be looked for."

LIVERPOOL SETTLEMENT ASSOCIATION.—With reference to the particulars we published on December 1 of a projected association in Liverpool for making fortnightly settlements of contracts for future deliveries, we can now state that the association started into life on January 1. But as the members number only 62 firms, and the Liverpool Cotton Association contains about 300 members, the invitations of the 31 original projectors for others to join them has been but very partially responded to.

The Settlement Association has issued a circular explaining how long a system of periodical settlements had been considered expedient; how all attempts to introduce it had failed, and, after giving the reasons of the objectors as well as answering them, they express the hope that its success will bring their opponents over to their side.

That settling contracts before their maturity entail some disadvantages is obvious, yet it is indeed marvellous that the security ensured by the system, and which so greatly outweighs all little inconveniences, should be entirely overlooked by the large majority. It will be interesting to watch the result of the Liverpool Settlement Association. It may be added that the New York system of depositing margins, and of constant settling of contracts, has also its disadvantages, yet it has worked so well that the individual is still to be found who, on that account, would even think of changing the law.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.—A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1, 1883, has been as follows.

| Monthly Receipts. | Year Beginning September 1. 1883 | 1882. | 1881. | 1880 | 1879. | 1878. |
|---|---|---|---|---|---|---|
| Septemb'r | 313 812 | 326,650 | 429.777 | 458.47- | 333,64 | 288,848 |
| October. | 1,046 092 | 980,581 | 853,195 | 968,31- | 888,49 | 689,264 |
| Novemb'r | 1,030,330 | 1,024,6 7 | 974,013 | 1,006,501 | 942,27- | 779,237 |
| Decemb'r | 1,05 ,653 | 1.112,536 | 996,807 | 1,020,802 | 956,464 | 893,664 |
| Total year | 3.479,937 | 3,514,473 | 3,253,822 | 3,454.0 9 | 3,120 871 | 2,651,013 |
| P re'tage of tot. port receipts Dec. 31.. | 58 38 | | 68 93 | 58 80 | 62·39 | 59·60 |

This statement shows that up to Dec. 31 the receipts at the ports this year were 34,535 bales less than in 1882 and 226,115 bales more than at the same time in 1881. By adding to the above totals to Dec. 31 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

| | 1883-84 | 1882-83. | 1881-82 | 1880-81. | 1879-80. | 1878-79. |
|---|---|---|---|---|---|---|
| Tot. Dec. 31 | 3,479,93 | 3,514,47. | 3,253,822 | 3,454,09.0 | 3,120,871 | 2,651,013 |
| Jan. 1.... | 19,95- | 49.36- | 8. | 20,2.4 | 15,776 | 9,614 |
| " 2.... | 18,208 | 35,48- | 28,830 | 8. | 30,208 | 22,227 |

| " 12.... | 15,185 | 28,54- | 12 362 | 20 086 | 22,132 | 8. |
| " 13.... | 8. | 23,75- | 31,380 | 18,509 | 21,12. | 23,732 |
| " 14.... | 18,021 | 8. | 12,290 | 28,77- | 19,046 | 22,120 |
| " 15.... | 17,404 | 31,999 | 8. | 24,347 | 19,7.0 | 15,966 |
| " 16.... | 16,082 | 19,691 | 17,601 | 8. | 26,983 | 15,902 |
| " 17.... | 15,170 | 23,706 | 13,601 | 28,087 | 35,188 | 22,115 |
| " 18.... | 23,605 | 20,346 | 15,73- | 23,97- | 8. | 20,397 |
| Total .... | 3,757,674 | 3,981,33- | 3,559,637 | 3,70-,94- | 3,481,318 | 2,974,392 |
| Percentage of total port rec'pts Jan. 18 | | 66·14 | 75·41 | 64·16 | 69·60 | 66 88 |

This statement shows that the receipts since Sept. 1 up to to-night are now 223,661 bales less than they were to the same day of the month in 1883 and 195,037 bales more than they were to the same day of the month in 1882. We add to the table the percentages of total port receipts which had been received to January 18 in each of the years named.

THE EXPORTS OF COTTON from New York this week show a decrease, as compared with last week, the total reaching 10,988 bales, against 20,256 bales last week. Below we give our usual table showing the exports of cotton from New York and their direction, for each of the last four weeks; also the total exports and direction since September 1, 1883, and in the last column the total for the same period of the previous year

| Exported to— | Week ending— Dec. 27. | Jan. 3. | Jan. 10. | Jan. 17. | Total since Sept. 1. | Same period previous year. |

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 158,290 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Thursday night of this week:

| | Total bales |
|---|---|
| NEW YORK—To Liverpool, per steamers City of Chester, 2,663 ....Herschel, 2,108....Nevada, 1,720....Scythia, 1,913... | 8,494 |
| To Hull, per steamer Gallilee, 170 | 170 |
| To Havre, per steamer Canada, 314 | 314 |
| To Bremen, per steamer Neckar, 260 | 260 |
| To Hamburg, per steamer Frisia, 600 | 600 |
| To Rotterdam, per steamer P. Caland, 800 | 800 |
| To Antwerp, per steamers P. de Coninck, 100 ...Switzerland, 250 | 350 |

| Baltimore | 3,934 | ..... | ..... | 2,258 | ..... | ..... | ..... | 6,192 |
| Boston | 6,606 | ..... | ..... | ..... | ..... | ..... | ..... | 6,606 |
| Philadelp'a | 3,421 | ..... | ..... | ..... | ..... | ..... | ..... | 3,421 |
| Total | 113,206 | 170 | 13,783 | 9,836 | 1,150 | 5,420 | 12,588 | 158,290 |

Included in the foregoing totals are, from New Orleans to Vera Cruz, 687 bales, and from Savannah to Genoa, 1,450 bales.

Below we add the clearances this week of vessels carrying cotton from United States ports, bringing our data down to the latest dates:

GALVESTON—For Liverpool—Jan. 12—Ship Dunrobin, 4,393....Jan. 15—Steamer Westergate, 1,508.
NEW ORLEANS—For Liverpool—Jan. 11—Steamer Hunaeco, 5,650 ... Jan. 12—Steamer Kepler, 3,375....Jan. 14—Steamer Venezuelan, 2,897....Jan. 15—Steamer Sapphire, 5,900 ...Jan. 16—Steamer Sculptor, 6,433.
For Havre—Jan. 12—Bark Agostino C., 3,005 ...Jan. 14—Bark Nimrod, 2,042....Jan. 15—Steamer Marseille, 1,885.
For Bremen—Jan. 15—Steamer Sacrobosco, 8,700.
For Sebastopol—Jan. 12—Steamer Elmfield 4,875.
MOBILE—For Liverpool—Jan. 15—Bark Rebus, 3,028....Jan. 17—Bark Arcadia, 2,186.
SAVANNAH—For Liverpool—Jan 12—Bark Mary Graham, 2,470....Jan. 14—Bark Romanoff, 3,782
For Amsterdam—Jan. 12—Steamer Orsino, 5,598.
For Ghent—Jan. 12—Brig Economy, 1,591.
For Barcelona—Jan. 11—Steamer Chiswick, 3,500.
CHARLESTON—For Bremen—Jan. 12—Steamer Yoruba, 4,600.
For Gottenberg—Jan. 12—Brig Albatross, 1,025.
For Barcelona—Jan. 12—Brig Virgenes, 590.
NORFOLK—For Liverpool—Jan. 12—Ship Equator, 4,180....Jan. 16—Steamers Athabaska, 7,270; Crane, 5,800.
NEWPORT NEWS—For Liverpool—Jan. 12—Steamer Nubian, ——.... Jan. 17—Steamer Otway Tower, ——.
BOSTON—For Liverpool—Jan. 9—Steamer Illyrian, 1,293....Jan. 14—Steamer Iowa, 2,462 ...Jan. 15—Steamer Venetian, 2,003.
BALTIMORE—For Liverpool—Jan. 12—Steamer Oranmore, 3,925.
PHILADELPHIA—For Liverpool—Jan. 15—Steamer British Crown, 2,235.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.:

CELTIC, steamer (Br.), from New York, Dec. 15, for Liverpool, which broke down shortly after leaving New York arrived at Liverpool Jan. 15 in tow of the steamer Britannic of the same line and was docked. With the exception of a broken shaft the Celtic is found to be perfectly sound.
QUEEN, steamer (Br.), ashore at Nargen, Russia. One hundred and seventy-nine bales cotton were saved January 2 from stranded steamer Queen.

Cotton freights the past week have been as follows:

| | Satur. | Mon. | Tues. | Wednes. | Thurs. | Fri. |
|---|---|---|---|---|---|---|

## BREADSTUFFS.

FRIDAY, P. M., Jan. 18, 1884.

Flour has in general been dull and more or less depressed owing to the decline in wheat, though this latter fact has been in a measure offset by the smallness of the receipts. Still the supply here is so large that some holders show an anxiety to realize, and there is, therefore, an unsettled and unsatisfactory market. To-day the trade was trifling at easy prices.

Wheat has at times been quite active on speculation, and there has been some increase in the export trade. Prices have declined materially however, and it is to this fact alone that the larger foreign traffic is attributable. Two failures in the trade last Saturday, together with rumors affecting the financial standing of other firms, including Wall Street houses engaged in the speculative branch of the business, have had a demoralizing effect on the market, though perhaps even a more serious element of weakness has been the posting of 500,000 bushels more of No. 2 red wheat as warm and weevilly. The inspector-in-chief here thinks that this constitutes about all the wheat here that will have to be degraded, but the fact that the foreign trade has fallen off so materially at American markets within the last week, has necessitated the storing of large quantities of this cereal, and the apprehensions as to its condition have been by no means dispelled, particularly as it is remembered that some of the wheat now in New York and Brooklyn warehouses has been held since early in the fall of 1882. Another unfavorable feature has been the exhaustion of the storage facilities at Chicago, whereby forced sales of the receipts have been necessary, at steadily declining prices. There has been a decrease of 500,000 bushels in the visible supply in this country, but, owing to the magnitude of the stock still available, this fact has had little or no influence. To-day the market was fairly active, at a decline of ½ to ¾c. The closing prices for No. 2 red for future delivery were $1 2¼ for January, $1 04 for February, $1 06⅝ for March, $1 09 for April and $1 11¾ for May, that in elevator closing at $1 07. These prices show a decline for the week of from 3½ to 5c., the greatest decline being in the earlier deliveries.

Indian corn has been dull on speculation, though fairly active at times for export. Prices, in sympathy with the decline in wheat, have been steadily falling. The market has lacked any very salient features during the week, the interest of grain dealers and speculators centering mainly in wheat. There has been a decrease of 560,000 bushels in the quantity on the way to Europe, and a slight reduction in the visible supply in this country, but the depression in other branches of the trade has outweighed these facts. To-day the market was fairly active at a decline of ½ to 1c. No. 2 mixed closed at 60¾c. for January, 61¼c. for February, 62¼c. for March and 65c. for May, showing a decline of from 2 to 3c. during the week.

Rye has sold fairly at a decline, and barley has met with a pretty good demand for export, though lower prices were found necessary to stimulate the trade. Oats have been fairly active at some decline, though they have been less depressed than other cereals. To-day the market was quiet and slightly easier. No. 2 mixed sold at 39⅜@39½c. for January, 39⅞@10⅜c. for February, 41⅛@41½c. for March, 42¼@42½c. for April and 42⅛@42⅞c. for May.

The following are closing quotations:

## THE DRY GOODS TRADE.

FRIDAY, P. M., Jan. 18, 1884

There was a freer movement in certain fabrics the past week, but the general demand has shown less improvement than might have been expected, taking into consideration the large representation of Western and Southern package buyers now in the market. Dress goods, ginghams, prints, piques, white goods, lawns, and other spring and summer fabrics, were decidedly more active, and a very fair business was done in hosiery and notions; but men's-wear woolens ruled very quiet, and the demand for domestic cottons was spasmodic and irregular. The feature of the week was a peremptory auction sale of over 3,000 cases ticks, denims and cheviots, comprising the production to date of the Whittenton and Oakland Mills. The sale was largely attended, and all the goods were readily disposed of, but at prices that entailed a severe loss upon the manufacturers. After the auction sale large transactions in colored cottons were effected by such agents as determined to meet the market in point of price, and goods of this class closed weak and unsettled. A fair package trade in domestics, prints, &c., was done by large jobbers, but the piece distribution was light and unimportant.

DOMESTIC COTTON GOODS.—The exports of domestics for the week were 2,031 packages, including 860 to Great Britain, 214 to Venezuela, 213 to U. S. of Colombia, 213 to Hayti, 156 to China, 88 to Brazil, &c. There was a fair demand for brown sheetings by jobbers and converters, and a steady business was done in wide sheetings, corset jeans, quilts and white goods; but bleached shirtings were for the most part quiet. As above noted, large sales of colored cottons, as denims, ducks, ticks, cheviots, stripes, checks, &c., were made privately and through the auction rooms, but at such low prices as should be suggestive to manufacturers that an immediate stoppage of production is not only expedient but necessary. Print cloths were more active and dearer, closing at 3½c. for 64x64 and 3 1-16c. for 56x60s. Prints were in fair demand, though buyers are operating cautiously, and there was a good business in standard dress ginghams, leading makes of which have been opened at 9c., against 10½c. last season. Cotton dress goods were more active, and there was an improved demand for cotton hosiery.

DOMESTIC WOOLEN GOODS.—Men's-wear woolens have been very quiet in first hands, selections having been almost wholly confined to small parcels of cassimeres and worsteds, needed for the renewal of broken stocks. Jersey cloths, stockinettes and ladies cloths have shown rather more animation, as have a few specialties in cloakings; but buyers are taking hold cautiously. Heavy satinets met with fair sales, and a somewhat better movement in Kentucky jeans was a feature of the week. Flannels were lightly dealt in (aside from fine white flannels for which some fair orders were placed with agents), and blankets ruled quiet. All-wool and worsted dress goods have shown considerable activity, large aggregate sales having been made by commission houses representing the most popular mills.

FOREIGN DRY GOODS have been a trifle more active, but the demand was irregular. British dress goods were in fair request, and there was rather more inquiry for Hamburg embroideries, laces and white goods; but silks continued slow of sale, and the business in fine Continental dress fabrics was limited.

### Importations of Dry Goods.

The importations of dry goods at this port for the week ending Jan. 17, 1884, and since January 1, and the same facts for the corresponding periods of 1883, are as follows:

| ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1884, AND 1883. | | |

## Trust Companies.

### *THE FINANCIAL SITUATION.*

Wall street has again absorbed attention almost to the exclusion of every other interest. Not only has the stock market been greatly unsettled, with sharp declines in special securities, but at times it has been panicky, threatening at moments to involve all share property in the increasing demoralization. This was quite a contrast with the close of last week, when it seemed as if a better era was coming. Then the trunk lines had just settled their differences, the Western pool disagreements it was thought would not lead to cutting of rates, capital was flowing into the banks in unusual amount, railroad earnings were showing better results than for the first week of the month and better than the fears of many anticipated, breadstuffs had declined in price until an export movement had set in; in a word, the markets for money, securities and merchandise wore a more assuring aspect.

Still the fact is that the recent losses through the disclosures in the late Villard properties and of the West Shore Construction Company, have been very large and widespread, forcing the sale and increasing the supply on the Street not only of those stocks, but also of very many other stocks and bonds by parties who have been weakened. Perhaps this was what led to the rumor that large holders of St. Paul had been unloading. At all events such a report accompanied the attack on that stock and the success which attended the attack made the rumor plausible enough. Then came whisperings that important failures were imminent and these quickly turned into a statement that Mr. Gould was in financial straits, and that was followed by damaging assaults upon the Gould specialties with the report added that two of them were to be put into the hands of a Receiver, and by attacks also upon other stocks which are usually unprotected because not cliqued.

At this juncture rumor has it that Mr. Gould gave a private exhibition of his securities for the purpose of affording absolute proof of his assertion that he was not in need of and was not borrowing money. One report is that the market value of his strong-box was 40 millions; another is that he took his confidant down into a private vault of marvelous capacity, containing not less than 110 millions, including Western Union, Missouri Pacific, Wabash stocks and bonds, Texas Pacific, Missouri Kansas & Texas shares and mortgages, &c., &c. A similar private view of these same securities which was given in March, 1882, was followed by a sharp rise in all the Gould properties, but the conditions of the market are so very different now that although those properties shared in the general improvement later in the week, the public has not evinced any disposition to relieve the holders of a part of their load. Still, there is not the least proof that the suggestion of Mr. Gould's financial weakness had any basis other than in the imagination of those who circulated it.

The next day the feeling was better at the opening; but an apparent effort to unload a considerable block of the Oregon & Trans-Continental securities, which was begun the previous day, was continued, the bears taking advantage of the circumstance and centring all their efforts upon the stocks of the Northern Pacific system. In fact, those securities were offered down so freely, and such large blocks were sold, that the decline had more or less of an unsettling effect upon the entire market. The question was naturally raised, from whence came this flood of Northern Pacifics poured upon the market. The extent of the transactions gave color to the report that the Oregon & Trans-Continental Company were selling their securities for the purpose of paying off a maturing loan. This was denied, and then it was suggested that some of the collaterals for the 8 million loan negotiated about a fortnight ago were being marketed by request of the bankers who furnished the funds. This also was quickly seen to be impossible according to the terms of the transaction. But the grand stroke of the bears came when they attacked the Northern Pacific 1st mort-

gages, forcing the price down from 101½ to 95½ on sales of about $1,500,000 bonds. Where these bonds came from was also a question. It is suggested that they were purchased for the purpose of throwing upon the market at this particular juncture, and that the whole movement in these securities was artificial and speculative. If so, the sales must be covered.

As to the Northern Pacific bonds, some of the current talk with regard to them which assumes a possibility of default in the payment of interest, seems to be wholly without any fact to support it. Even if this were different, such a discussion would be decidedly premature now, since the company has just paid the January interest and the next coupon does not mature till July. But the position of these bonds is really so strong a one, and they are withal hedged about by so many safeguards, that the suggestion of even a temporary hitch in the payment of interest seems out of the question. In the first place they are practically a first mortgage on the entire property of the company, including its land grant, there being less than six millions of underlying bonds which take precedence of them. In the second place, the call for interest on the entire issue of the bonds as now outstanding (including the prior lien bonds) is but $2,776,182 per annum, and only about 10 millions more of the bonds (judging by the terms of the mortgage) can be put out, and this only on the construction and completion of additional mileage, which would add about $600,000 more to the interest charge, or say $3,400,000 as a maximum. In the half year ended January 1, 1884, Mr. Oakes recently reported to the stockholders the company had earned as much as $2,211,293 net, or but $564,889 less than the $2,776,182 called for on these bonds, and this, too, in a period when the line was open its entire length only about half the time. During the present six months Mr. Oakes estimates the net earnings will be $3,127,000. Although that expectation is a sanguine one and not likely to be realized, the company will in any event earn as much gross as it did in the same six months of 1883—namely, $3,531,061—which would allow for at least a million net.

But more than that, even if it were possible for net earnings to fall short of the interest charges required on these bonds, a default in the payment of the coupons would by no means follow. The mortgage reserves to the company the right to use for this purpose the proceeds of the sales of land if earnings are insufficient, and these land sales are of growing importance. Further, when the bonds were originally sold, the syndicate selling them stipulated that from the proceeds of the sale two years' interest be set aside, so as to guard against the possibility of any default during the period of construction, and Mr. Oakes only recently stated that in addition to all its other resources the company had "on hand in cash the special fund "applicable to the payment of interest on its general first "mortgage bonds, due on the first of July next, amounting "to $1,200,000." Finally the bankers who sold the bonds lent the prestige of their name to them, and should the company become involved in financial difficulties endangering the bondholders' interests, would no doubt come to the aid of the concern with whatever cash was needed. This was well illustrated in their taking the second mortgage a short time ago to relieve the company of its embarrassments. With these facts before them, our readers can judge what basis there was for the stories with regard to the standing of these bonds.

During the week Union Pacific was one of the stocks that has been noticeably firm. In that connection the completion and publication of the report of the Government directors of the road is claimed to have done effective service. Wall Street is noted for its anomalies and surprises, but it may well be doubted whether we ever had a clearer illustration of how completely it is the victim of passing circumstances. For months the stock has been rushed down because of the heavy falling off in earnings recorded since July last, and now the Government report covering the fiscal year ended June 30—a period antedating entirely that of the recent falling off—is made the explanation of, or reason for, the recent strength. In other words, the present—only lately regarded of so much importance—is ignored, and the dead past resurrected instead. It is a fact that this Government report contains nothing but what was known before. In its main features it is devoted to the year ended last June, and though a brief statement is given of the earnings and expenses for the ten months ended October 31, even this is ancient history now, for almost a month ago we published the figures in full for the *eleven* months of 1883. Besides, why did not the directors present the last four months of the period ended with October 31 separately, most interest attaching to these four months, and the previous six months being already covered in their annual report? To supply the omission, we take from our monthly statements the gross and net earnings for each month since last June, the close of the Government year, and give in comparison the corresponding figures for the same months in 1882.

| | *Gross Earnings.* | | *Net Earnings.* | |
|---|---|---|---|---|
| | 1883. | 1882. | 1883. | 1882. |
| July | $2,567,806 | $2,205,054 | $1,215,929 | $985,005 |
| August | 2,576,446 | 2,827,904 | 1,119,978 | 1,607,409 |
| September | 2,994,076 | 3,170,[illegible] | 1,455,343 | 1,909,723 |
| October | 3,060,409 | 3,109,506 | 1,339,966 | 1,606,942 |
| November | 2,731,723 | 2,711,917 | 1,022,-39 | 1,021,056 |
| | $13,930,460 | $14,024,697 | $6,154,055 | $7,130,135 |

The champions of Government supervision and control of railroads may find somewhat of a damper thrown upon their enthusiasm when they reflect that it takes a Government official nearly seven months after the close of any period to get up his report for that period. Why, even the railroads themselves do better than that!

The Pennsylvania statement of earnings and expenses is also out this week, and covers December and the twelve months ended December 31. The figures for December, as in the case of some other of the trunk lines, show quite a diminution in gross earnings (referring now only to the lines east of Pittsburg) as compared with 1882, the movement of through traffic east this year having been comparatively light and the depression in many industries having reduced the volume of general and miscellaneous traffic. The decrease of $316,659 in gross earnings, however, is accompanied by a decrease of $315,034 in expenses—which in December, 1882, were exceptionally heavy—so that the net result is quite satisfactory, and but $1,625 below that of the preceding year. Incorporating these figures with those for the previous eleven months, the net earnings for the year 1883 prove to be $903,674 above those of 1882, during which time gross earnings rose $2,003,418, and from the following table it will be seen that both gross and net receipts are larger than ever before, the gross being now 51 millions, or 16½ millions heavier than what they were only four years ago, and the net 19⅓ millions, an improvement of fully 5 millions.

| *Lines East of Pittsburg.* | 1883. | 1882. | 1881. | 1880. | 1879. |

| Net earnings | 19,336,101 | 18,432,42[illegible] | 17,414,37[illegible] | 16,635,02[illegible] | 14,237,589 |

On the lines west of Pittsburg and Erie, the result this time is even less satisfactory than it was in the months preceding. The figures show that in December these lines fell over $300,000 short of earning their charges for interest and rentals, while in December, 1882, the deficiency was only $16,984, which compares with a deficiency of $91,670 in 1881, and a surplus of $212,490 in 1880 and $541,362 in 1879. Taking the full twelve months, there is a surplus of $803,848 in 1883, but in 1882 the surplus was $1,894,300, in 1881 it was as much as $2,648,338, in 1880 as much as $3,072,052, and even in 1879 the amount was twice that of 1883, or $1,623,640 These lines traverse a section of country which has not been favored with large crops of late years, and have had increasing competition to contend with besides. It will be observed that as compared with 1882 the falling off in surplus amounts to $1,090,452. As we have shown above that during the year the net earnings of the eastern lines increased $903,674, it would seem that the net result for 1883 on all the lines operated by the Pennsylvania Railroad, both east and west, is a loss of $186,778 from 18

Foreign exchange continues strong. The exceptional demand to cover bills and to buy long sterling to hold until it becomes short, has been satisfied, but there is a steady inquiry to remit on West India and South American account, which absorbs all the bills that are offered. Doubtless some stocks have been sold here for European account and the proceeds remitted, but bankers who have opportunities for judging do not think there has been any considerable amount of that description, and do not look for liberal sales on foreign orders. On the contrary, they have some evidence that the inclination of European capitalists is to purchase rather than to sell. Some grain bills have been offered within a few days and more are expected, especially in case of a continued decline in wheat and corn, which it is believed cannot be prevented. The following shows relative prices of leading bonds and stocks in London and New York at the opening each day.

‡ Ex-interest.

Money on call remains abundant, and mail advices report a liberal supply at interior points, amounting to an overflow at some cities, which will go towards increasing the plethora at this point. The following statement, made up from returns collected by us, exhibits the week's receipts and shipments of currency and gold by the New York banks.

| Week Ending Jan. 25, 1884. | Received by N.Y. Banks. | Shipped by N.Y. Banks. | Net Interior Movement. |
|---|---|---|---|
| Currency | $2,285,000 | $150,000 | Gain $2,135,000 |
| Gold | 15,000 | ..... | Gain. 15,000 |
| Total gold and legal tenders | $2,300,000 | $150,000 | Gain. $2,150,000 |

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement, the banks have lost $100,000 through the operations of the Sub-Treasury. Adding that item therefore to the above, we have the following, which should indicate the total gain to the New York Clearing House banks of gold and currency for the week covered by the bank statement to be issued to-day.

| Week Ending Jan. 25, 1884. | Into Banks. | Out of Banks | Net Change in Bank Holdings. |
|---|---|---|---|
| Banks' Interior Movement, as above | $2,300,000 | $150,000 | Gain. $2,150,000 |
| Sub-Treasury operations, net ..... | ..... | 100,000 | Loss. 100,000 |
| Total gold and legal tenders.... | $2,300,000 | $250,000 | Gain. $2,050,000 |

Government bonds have fractionally declined during the week in the absence of demand. The market has been influenced to some extent by the indications that the scheme to allow an issue of currency by banks to the extent of 90 per cent of the market value of the bonds will fail.

The Bank of England return shows a gain of £156,000 bullion for the week. This represents £624,000 received from the interior and £468,000 exported. The discount rates on the Continent are higher than in London, and to this fact is due the recent drain of bullion. France is making preparations for a new loan, and her requirements are at the moment somewhat urgent, balances on deposit in London being withdrawn. The Bank of France reports a gain of 4,425,000 francs gold and of 3,750,000 francs silver for the week. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

| | Jan. 24, 1884. | | Jan. 25, 1883. | |
|---|---|---|---|---|
| | Gold. | Silver. | Gold. | Silver. |
| | £ | £ | £ | £ |
| Bank of England..... | 21,656,381 | ..... | 21,807,705 | ..... |
| Bank of France..... | 38,019,672 | 39,786,432 | 38,175,689 | 43,179,426 |
| Bank of Germany..... | 7,200,250 | 21,000,750 | 7,618,000 | 22,854,000 |
| Total this week..... | 66,876,303 | 61,387,182 | 67,601,394 | 66,033,426 |
| Total previous week.... | 66,543,567 | 61,237,332 | 66,644,911 | 65,407,538 |

The Assay Office paid $95,864 through the Sub-Treasury for domestic bullion during the week, and the Assistant Treasurer received the following from the Custom House.

| Date. | Duties. | Consisting of— | | | |
|---|---|---|---|---|---|
| | | Gold. | U. S. Notes. | Gold Certif. | Silver Certificates. |
| Jan. 18... | $425,811 59 | $10,000 | $36,000 | $269,000 | $111,000 |

## *LOUISVILLE & NASHVILLE EARNINGS AND INCOME.*

To the other favorable statements of earnings and income for 1883 must now be added that of the Louisville & Nashville for the half year ended January 1, 1884. The leading features of this return are an increase of $901,407 in gross earnings and of $567,851 in net over the corresponding six months of 1882, the amount of the net being $3,239,923. In addition, the company realized $130,482 from other sources, making the total net income $3,370,405. The charge for interest and rentals in this period was $2,126,962, and $170,000 had to be paid for taxes, deducting which there remains a net profit or surplus of $1,073,443, equivalent to over 4 per cent on the 25 millions stock outstanding—an exhibit which will undoubtedly be regarded with much satisfaction by all

interested in the property, especially as in the same months of 1882 the surplus was only $351,104, or less than 1½ per cent, and in the whole of the fiscal year 1882–3 was only $722,697, or not quite three per cent.

As to the second-half of the current fiscal year, of course it is not likely that the result will be equally favorable. In the first six months the company had two circumstances in its favor, namely, the Louisville Exposition and a large cotton movement. In regard to the cotton traffic, a falling off during coming months, compared with a year ago, must be expected, since no part of this season's shortage in the yield appeared in the amount marketed up to the 1st of January; a smaller remnant of the crop than usual is therefore left for the balance of the season, and this will have to compare with January to June, 1883, when cotton receipts were heavy. Besides, it is perhaps fair to anticipate some adverse effect from the prevailing depression in business. Up to 1882–3, the first and second half of the company's fiscal year presented nearly like results. In 1882–3, however, there was considerable difference against the last six months, as the following table will show.

| Years. | First Six Mos.—July to Dec. | | Second Six Mos.—Jan. to June. | |
|---|---|---|---|---|
| | Gross. | Net. | Gross. | Net. |
| 1880-81 ... | $5,434,134 | $2,187,812 | $5,477,517 | $2,010,707 |
| 1881-82 ... | 5,866,846 | 2,241,050 | 6,120,899 | 2,317,324 |
| 1882-83 ... | 6,860,534 | 2,672,072 | 6,374,382 | 2,463,248 |
| 1883-84 ... | 7,761,941 | 3,239,923 | ..... ..... | ..... ..... |

Here we see that in the second half of its year—that is, in the period from January to June—the company earned in 1882–3 half a million less in gross and $200,000 less in net than in the first half of the year. For these reasons, the company will obviously be doing well if it earns as much the next six months as it did in the period from January to June in 1883. In support of this conclusion, we have the earnings for the weeks of January thus far elapsed, showing a loss of $31,940 for the first week, $38,840 for the second week, and $20,740 for the third week, which though perhaps not a correct indication of what subsequent weeks will show, may yet be accepted as reflecting a less satisfactory state of business and as offering proof that the course of traffic is hardly likely to continue uninterruptedly upward.

But supposing that the outcome of the present six months will be the same as that of the corresponding six months of 1883, what then will be the exhibit for the current fiscal year? In these six months of 1883 the net earnings reached, it will be observed by the table above, $2,463,248. How much should be added to this for receipts from miscellaneous sources we do not know, though we presume but little, as for the six months to January 1, 1884, $130,482 was credited on that account, against only $134,770 for the whole of the preceding fiscal year. The amount so realized was at one time much heavier, but the company a year or so ago adopted the policy of incorporating the bulk of these receipts in the monthly gross earnings, leaving comparatively little to be added at the end of the fiscal year. The gain over last year in the six months to the 1st of January is no doubt accounted for by the 2 per cent dividend paid last October on the $6,670,000 stock of the Nashville Chattanooga & St. Louis Railroad, of which, as is known, the Louisville & Nashville holds a little over one-half. Assuming therefore that the total receipts from miscellaneous sources in the current half year will be the same as in the corresponding period of 1883—say $62,000—the net income for the half year would be $2,525,000. As to the charge for interest and rentals, the amount is not likely to be materially different from what it was in the half year to January 1, 1884—namely $2,126,962—and the amount for taxes can also safely be placed at the same figure as then, $170,000. Deducting the total of these two items from the $2,525,000 net income, there would remain a surplus of about $225,000 to be added to the surplus of $1,073,443 given above for the first half of the fiscal year, making an aggregate surplus for the year 1883–4 of about $1,300,000, or a little over of 5 per cent on the stock. Should traffic fall off decidedly from the corresponding period of 1883, this amount of course would be diminished. On the other hand, should there by any possibility be an increase in traffic—and it is to be remembered that in addition to less favorable traffic conditions the company has also to meet the element of increased competition, notably through the completion and opening of the New Orleans & Northeastern road—and should this increase in traffic bring with it a corresponding gain in the net earnings, the result would to that extent be more favorable than that here arrived at.

Still, a surplus of $1,300,000—or for that matter a surplus no heavier than that already made ($1,073,443) in the first half of the fiscal year, leaving the whole of the net earnings for the current half year for interest, rentals and taxes—can not be denominated otherwise than satisfactory. How much of the surplus will remain actually available for dividends to stockholders is of course less obvious. We can only say that in the previous fiscal year, when the surplus amounted to $722,697, $397,481 was applied in payment of sinking funds and $250,065 was expended for new construction.

## *GOLD AND SILVER SUPPLY AND DISTRIBUTION.*

Increasing importance is attached to information respecting gold and silver production and distribution, and that is leading to closer investigation and more accurate results. A special impulse was given in 1876 to inquiries of this nature, when the Parliamentary Committee made its report. Since then, from year to year we have attempted to bring down to a later date the information that report contained, adding such new facts as could be procured. To-day we give the results of further investigation we have made, and think the statements below, showing the present stock and distribution of the precious metals, will be found especially useful.

The first point that attracts attention is the constant, though small, decrease in the new supply of gold which is observable in the reports from the sources of production. We have this week received the annual statement of Mr. Valentine, of Messrs. Wells, Fargo & Co., of the yield of gold and silver in the portion of the United States west of the Missouri River, which illustrates that tendency so far as the contribution of this country is concerned. His total figures since 1880 are as follows.

| Calendar Year. | Product, including amounts from British Columbia and Mexico. | Product, deducting British Columbia and Mexico. | The Net Products of the States and Territories west of the Missouri River, exclusive of British Columbia and West Coast of Mexico. | | | |
|---|---|---|---|---|---|---|
| | | | Lead. | Copper. | Silver. | Gold. |
| 1880..... | $80,167,936 | $77,232,512 | $5,712,300 | $898,600 | $38,034,055 | $32,555,047 |
| 1881.. .. | 84,504,417 | 81,198,474 | 6,361,902 | 1,105,000 | 42,987,613 | 30,653,959 |
| 1882..... | 92,411,835 | 89,207,549 | 8,068,155 | 4,455,9 7 | 48,123,0 9 | 2 ,611,318 |
| 1883..... | 9 ,313,912 | 84,039,242 | 8,163,550 | 5,683,921 | 42,975,101 | 27,816,640 |

The gross amounts for 1883 (that is the total product, including British Columbia and west coast of Mexico,) Mr. Valentine divides as below between gold, silver, &c.

| | | |
|---|---|---|
| Gold | $32^{30}/_{100}$ per cent. | $29,260,492 |
| Silver | $52^{30}/_{100}$ per cent. | 47,229,649 |
| Copper | $63^{0}/_{100}$ per cent. | 5,083,921 |
| Lead | $90^{4}/_{100}$ per cent. | 8,163,550 |
| Total | | $89,313,612 |

Formerly these records, made up from returns of transportation companies, differed quite widely from the Mint reports. Of late years they have been much more nearly in accord. Last year's Mint report of gold production for the whole United States reached only 3½ millions more, and the silver 1⅛ millions less, than Mr. Valentine's figures for the States and Territories west of the Missouri River during the same year. Such small differences as those stated are possible, and yet the aggregate of both reports be very nearly correct, since there is a small amount of gold produced in the Atlantic States which Mr. Valentine does not include, and furthermore in refining the silver ore, it is not improbable that gold may have been found in excess of Mr. Valentine's estimate. That the reader may have the details of the late Mint figures, we give below Mr. Burchard's reports for the last two years.

| States and Territories. | 1881. | | | 1882. | | |

In the Mint report presented to Congress on the first of December it is stated "that the production of gold in the "calendar year 1883 will probably be at least a half mil- "lion less than that of the previous year." Mr. Valentine, it will be seen, finds that the yield of that metal in the territory covered by his report has been $1,200,000 less than in 1882. Allowing that about this same loss will appear in the Mint returns, when they are made up, which is probable, the total gold production of the year has reached say about 31½ millions, against 32⅛ millions in 1882 and 34¾ millions in 1881. As to the silver yield, Mr. Valentine shows a decrease of over 5 millions; from the estimates in the Mint report it would seem as if its returns of silver when compiled would indicate a larger result.

Turning now to the yield of the mines in other countries, we find the same tendency which our own mines show, to a lower total for the output of gold. That remark needs qualification in the case of Australasia; that is to say, since the large decrease which was so marked in those colonies down to 1878, the total product seems to have been quite constant. In Victoria, however, there is a steady recovery in the output since 1879, and there is also a small increase in Queensland, but a considerable falling off in the supply from other sources has kept the total for Australia at about 6 million pounds sterling for five years. We have taken great pains to revise our figures of gold production for those colonies. It has been a work of much difficulty, as there is no little variation in some of the reports we have obtained. The figures which represent Queensland, for instance, we have found it impossible to reconcile. We are not, therefore, wholly satisfied with our results, and shall pursue the matter further, giving the details at present only as far back as 1877, which are probably very nearly, if not wholly, accurate.

GOLD PRODUCTION IN AUSTRALASIA.

| Colonies. | 1877. | 1878. | 1879. | 1880. | 1881. | 1882. |
|---|---|---|---|---|---|---|
| | £ | £ | £ | £ | £ | £ |
| Victoria | 3,116,664 | 2,918,454 | 2,921,945 | 3,310,000 | 3,445,042 | 3,467,086 |
| New Zealand | 1,478,520 | 1,245,780 | 1,093,789 | 1,220,263 | 1,112,231 | 921,994 |
| Queensland | 1,807,080 | 1,218,410 | 1,188,123 | 701,618 | 812,890 | 901,830 |
| N. So. Wales | 424,380 | 569,268 | 465,460 | 434,641 | 461,309 | 495,989 |

| W. Australia | ..... | ..... | ..... | ..... | ..... | ..... |
| Total | 7,027,965 | 6,113,122 | 5,968,519 | 5,913,819 | 6,069,396 | 5,980,479 |

Better methods of mining are probably the reason for the increase in the production in Victoria. Of course a chief cause of the loss in all the colonies was the near exhaustion of the alluvial gold deposits; but another influence coupled with it was the profitableness, and therefore attractiveness, of agricultural pursuits. An illustration of the tendency in this latter particular is seen in the fact that the number of sheep in Queensland in 1876 was 7,315,074 and the number of cattle 2,079,979, while in 1882 the sheep had increased to 12,043,893 and the cattle to 4,318,839. Still, those familiar with mining interests in Australasia seem to anticipate some recovery hereafter in gold production there.

With regard to the yield of Russian mines and those of other countries, we have secured but few new facts. Bringing forward our totals, therefore, of former years, and revising them so far as late returns authorize us to do so, we have the following as the world's gold production since 1857, the sources of our information being stated at the bottom of the table.

| Gold. | 1 Production in Australia. | 2 Production in U. States (Mint estimate) | 3 Production in Russia. | 4 Production of Other Countries | 5 Total Production in World. |
|---|---|---|---|---|---|
| | £ | £ | £ | £ | £ |
| 1857 | 12,096,000 | 11,000,000 | 3,549,000 | 2,500,000 | 29,145,000 |
| 1858 | 12,762,000 | 10,000,000 | 3,454,000 | 2,500,000 | 28,716,000 |
| 1859 | 12,861,000 | 10,000,000 | 3,156,000 | 2,500,000 | 28,512,000 |
| 1860 | 11,838,000 | 9,200,000 | 3,053,000 | 2,500,000 | 26,591,000 |
| 1861 | 12,635,000 | 8,600,000 | 2,980,000 | 2,500,000 | 26,715,000 |
| Total '57-61 | 62,192,000 | 48,800,000 | 16,192,000 | 12,500,000 | 139,684,000 |

* Estimated.

NOTE.—The figures in Column 1 for the first ten years are *net* exports taken from the Statistical Abstract for the Colonies added to the total coinage of the Sydney Mint; for next five years they are the net exports added to three-fourths of the coinage of the Sydney Mint; from 1872 (when the Melbourne Mint was opened) to 1876 we add to the net exports about 1¼ million pounds sterling for amount kept for circulation and consumption. This mode of reaching production is the same in substance as adopted by the Silver Committee of the House of Commons in 1876, and seems more reliable in result than the gross estimates which have been made. For subsequent years we have revised our figures to conform to the returns published above.

The figures in Column 2 are (down to and including 1874) the Mint estimates as sent to the Parliamentary Silver Committee in 1876. Since that date they are taken from the annual Mint report.

The figures in Column 3 and 4 (down to and including 1875) are from information supplied to the Parliamentary Silver Commission. Since that date they are the figures obtained by Mr. Burchard of the United States Mint.

The foregoing shows that the annual new supply is now reduced to about 20½ million pounds sterling.

But the most important point in connection with this inquiry is the extent of the stock which is available for commerce. We have not the space now to discuss the annual distribution of the new supply, except to state that the demands of Europe are increasing while the contribution it is receiving from the mines can hardly exceed its consumption in the arts and manufactures. The most recent draft made for currency purposes was by Italy, that State having on the 12th of last April brought its currency up to the gold standard. Another similar instance, smaller in the extent of its needs, but of interest in this connection, is the Argentine Republic, which, we presume, on the first of January, 1884, entered upon its new currency system Under the national decree of November 5, 1881, its use was made obligatory upon all, as soon as eight million dollars in gold and four million in silver were coined. It is called a bi-metallic system, but in the present condition of silver currency that means a currency with a gold basis.

The important inquiry then is, what portion of the old stock can the commercial nations of the world depend upon for their uses. Gold hidden in India or in China is of very little service. So also the portion that is in the hands of the people is mainly out of reach, so far as external commerce is concerned. This is not strictly true of France or of Great Britain, but it is true of the United States and of most other nations. Consequently, the amount in bank and public treasury must substantially be taken as the stock available for commerce. And this is the reason why industrial enterprise in Europe is to-day everywhere restrained by the fear of a short supply of gold. A rise in the money markets of London, Paris or Berlin is not, as formerly, an evidence of over-trading or of an enlarged industrial demand for capital, but is simply a notice that the nation's gold reserve is in danger.

The importance of this point has led us to prepare the following table. It shows the two remarkable facts—First, that after inventorying the entire stock of gold held in bank and Government Treasury throughout the whole world, we can only find about 229 millions sterling in sight. This includes the reserve for domestic currencies, for Government requirements, for international commerce, and for supplying the wants of new countries desiring to adopt a gold standard.

Second—The world's total supply of gold (including both what is in sight and in the hands of the people) and accepting in all cases pretty high estimates, appears to be a little less than the production given in a previous table from 1857 to the present date.

In the light of these facts and of the known sensitiveness of the money markets of Europe under a fear of losing gold, we would once more suggest to the monometallists whether it is not wise to attempt to devise a way in which silver can be made useful again.

The table is as follows, the sources of our information being also given below.

| | Held by Banks and Treasury. | | Held by the People. | | Totals. | |

GREAT BRITAIN.—The Coinage Committee of the London Institute of Bankers reported June 6, 1883 (see *Journal of Institute of Bankers*, June, 1883 page 360), that £25,000,000 gold *coin* was held by Banks of England, Ireland and Scotland April 30. The Bank of England also held at that time £11,000,000 bullion. As that committee's figures were intended to be the *average* holdings we use them here.

The gold in people's hands is obtained by deducting the bank holdings from the total gold in Great Britain. The last estimate of total gold in Great Britain we have seen is that given in the interesting paper read before the Institute of Bankers by R. H. Inglis Palgrave, Esq., F. R. S., February 21, 1883. He assumes as an outside limit that the gold circulation is £50,000,000 sovereigns and £20,000,000 half sovereigns. To that we add the £11,000,000 bullion as the average bullion holding of Bank of England, to make the total £121,000,000 gold coin and bullion in Great Britain.

FRANCE.—The Bank holdings are from the Bank returns of January 3, 1884. For the total gold and silver in France we have made our figures from the sixth edition of "Arbitrages and Parities" by M. Ottomar Haupt. Silver includes fractional silver in this and in all cases.

GERMANY.—For amount in Bank and in hands of the people we give the figures from the *Deutsches Handelsblatt*. They were made up by that journal for the close of 1882. In Bank includes not only the amounts in the Bank of Germany at that date, but also in other banks and public institutions.

ITALY.—For amount of gold in hands of people and for all the holdings of silver we take the figures from the London *Economist* of January 13, 1883, page 13. The remaining items of gold were the reported condition of the Treasury, &c., about the 12th of April, when specie payments were resumed.

BELGIUM.—We have seen no recent return of the proportions of gold and silver in the reserve of the Bank of Belgium. Two years since it was made up of about 80 per cent gold and 20 per cent silver. We have divided this item, "coin and bullion," in the Bank return of December 27, 1883, on that basis.

HOLLAND.—Bank returns are of December 29, 1883. The gold in the hands of the people must be very small—not sufficient to make a record of it important. The purchasing power of silver is equal to gold for internal purposes, and consequently silver is the currency and gold flows out. For late explanation of the monetary situation in Holland see London *Economist*, September 29, 1883, page 1,132.

AUSTRIA.—For amount in Bank and Treasury we have no figures except the returns of the Austro-Hungarian Bank, and those we give for December 22, 1883.

RUSSIA.—According to M. Ottomar Haupt the returns of the Imperial Bank of Russia in March, 1883, showed a stock of gold and silver amounting to 206,000,000 roubles "of which only a small part was silver." In the report of the special committee of Parliament in 1876 on "Depreciation of Silver," are the returns from 1865 to 1876 inclusive, the totals for the latter year being 207,630,000 gold and 29,370,000 silver. During the past three years the net exports of gold have been very heavy, but have not apparently entrenched materially upon the Bank reserve since the stock of the Bank in 1883 was considerably larger than in 1882. Besides, as the mintage of silver has for years been almost nominal, it is presumable that the portion of silver in the reserve is small,—perhaps as small as in 1872 and 1873, when it was only 5,663,000 the former year and 6,990,000 the latter year. In the above, however, we estimate the silver at 10,000,000 roubles. The stock outside of Bank as given above is of course wholly estimate. But as Russia produces about 28 million dollars a year of gold, and as the amount in Bank has increased over 60 million roubles the past year, notwithstanding the large net export, it would seem as if there must be a considerable stock in reserve.

"REST OF EUROPE."—All other European countries are covered by this heading (except Turkey), and for them we use the figures of M. Ottomar Haupt, which seem to agree very nearly in their total with the estimate of Mr. Ernest Seyd made in 1870; the details are as follows in francs: Greece, 10 millions gold and 25·8 millions silver; Switzerland, 60 millions gold and 58 millions silver; Spain, 760 millions gold and 510 millions silver; Denmark, 76 millions gold and 25 millions silver; Sweden, 56 millions gold and 1·32 millions silver; Norway, 39 millions gold and 6·5 millions silver; Portugal, 143 millions gold and 48·5 millions silver. Total of foregoing is of gold 1,144 million francs, or say 46 millions pound sterling, and of silver 693 million francs, or 28 million pounds sterling.

INDIA.—Colonel Henry Hyde, formerly Director of the Mint at Calcutta, on his examination before the Parliamentary Committee in 1876, estimated the silver coin in circulation in India at £166,315,000. At the same time he presented a detailed statement showing the surplus imports of silver over exports from 1835 to that date the total being £200,019,705. Also the total coinage for same period at £213,211,429. If the amount in circulation in 1875 can be taken as approximately correct, the total now can not be less than total given above. There must also be a large amount of gold held there in various forms, but we make no attempt to estimate it.

UNITED STATES. See COMMERCIAL AND FINANCIAL CHRONICLE of December 1, 1883, page 576.

## *COTTON SUPPLY AND CONSUMPTION IN EUROPE.*

We have received by cable to-day the particulars of Mr. Ellison's annual cotton review for 1883, issued this week. The actual results during the calendar year are

seen in the following summary in bales of 400 pounds each.

SPINNERS' TAKINGS, CONSUMPTION AND STOCKS IN 1883.

| *In 400 lbs. bales.* | *Great Britain.* | *Continent.* | *Total.* |
|---|---|---|---|
| Stocks January 1, 1883 | 67,000 | 181,000 | 248,000 |
| Takings | 3,822,000 | 3,593,000 | 7,415,000 |
| Supply | 3,889,000 | 3,774,000 | 7,663,000 |
| Consumption | 3,783,000 | 3,489,000 | 7,272,000 |
| Stock January 1, 1884. | 106,000 | 285,000 | 391,000 |
| Weekly consumption | 72,750 | 67,096 | 139,846 |

As to supply and spinners' requirements from January 1, 1884, to October 1st, Mr. Ellison makes his customary estimate. In doing so he assumes that the American crop will turn out as reported by the Agricultural Department. On that basis he reaches a total supply of 6,361,000 bales. The consumption he states at about 137,000 bales per week, 5,362,000, leaving the stock on the 30th of next September in ports and at mills 999,000 bales. These estimates of course are in bales of ordinary weights. Stated in our usual form his conclusions are as follows:

| *From January 1 to October 1, 1884.* | *Bales.* |
|---|---|
| Supply from all sources, including mill and port stocks December 31, 1883 | 6,361,000 |
| Consumption in Europe | 5,362,000 |
| Leaving stocks at ports and mills Sept. 30, 1884 | 999,000 |

As to movement during December, and for the three months of the year since last October, we have only room to present the usual figures. Spinners' takings in *actual* bales and pounds have been as follows.

| *From Oct. 1 to Jan. 1.* | *Great Britain.* | *Continent.* | *Total.* |
|---|---|---|---|
| **For 1883-84.** | | | |
| Takings by spinners...bales | 895,000 | 746,000 | 1,641,000 |
| Average weight of bales | 428 | 435 | 431 |
| Takings in pounds | 383,060,000 | 324,510,000 | 707,570,000 |
| **For 1882-83.** | | | |
| Takings by spinners...bales | 847,410 | 802,500 | 1,649,910 |
| Average weight of bales | 435 | 432 | 433 5 |
| Takings in pounds | 368,623,350 | 346,680,000 | 715,303,350 |

According to the above, the average weight of the deliveries in Great Britain is 428 pounds per bale to January 1, against 435 pounds per bale during the same time last season. The Continental deliveries average 435 pounds, against 432 pounds last year, and for the whole of Europe the deliveries average 431 pounds per bale, against 433½ pounds during the same period last season. In the following table we give the stock held by the mills, their takings and their consumption, each month since October 1, all reduced to bales of 400 pounds each for this season and last season. It is a very convenient and useful summary.

| *Oct. 1 to Jan. 1. Bales of 400 lbs. each. 000s omitted.* | 1883-84. | | | 1882-83. | | |
|---|---|---|---|---|---|---|
| | *Great Britain.* | *Continent.* | *Total.* | *Great Britain.* | *Continent.* | *Total.* |
| Spinners' stock Oct 1. | 98, | 344, | 442, | 92, | 134, | 216, |
| Takings in October... | 323, | 176, | 499, | 233, | 149, | 382, |
| Total supply | 421, | 520, | 941, | 315, | 283, | 598, |
| Consump. Oct., 4 wks. | 292, | 268. | 560, | 288, | 252, | 540. |
| Spinners' stock Nov. 1 | 129, | 252, | 381, | 27, | 31, | 158, |
| Takings in November | 386, | 335, | 721, | 387, | 320, | 707, |
| Total supply | 515, | 587, | 1,102, | 414, | 351, | 765, |
| Consump. Nov., 5 wks. | 365, | 335, | 700, | 360, | 315, | 675, |
| Spinners' stock Dec. 1 | 150, | 252, | 402, | 54, | 36, | 90, |
| Takings in December. | 248, | 301, | 549, | 301, | 397, | 698, |
| Total supply | 398, | 553, | 951, | 355, | 433, | 788. |
| Consump. Dec., 4 wks. | 292, | 268, | 560, | 288, | 252, | 540. |
| Spinners' stock Jan. 1 | 106, | 285, | 391, | 67, | 181, | 248. |

The comparison with last year is made more striking by bringing together the above totals and adding the average weekly consumption up to this time for the two years.

| *Oct. 1 to Jan. 1. Bales of 400 lbs. each. 000s omitted.* | 1883-84. | | | 1882-83. | | |
|---|---|---|---|---|---|---|
| | *Great Britain.* | *Continent.* | *Total.* | *Great Britain.* | *Continent.* | *Total.* |
| Spinners' stock Oct. 1. | 98, | 344, | 442. | 82, | 134, | 216, |
| Takings to Jan. 1.... | 957, | 812, | 1,769. | 921, | 866, | 1,787, |
| Supply | 1,055. | 1,156, | 2,211. | 1,003, | 1,000, | 2,003, |
| Consumpt'n 13 weeks | 949, | 871, | 1,820, | 936, | 819, | 1,755, |
| Spinners' stock Jan. 1. | 106, | 285, | 391, | 67. | 181, | 248, |
| *Weekly Consumption. 000s omitted.* | | | | | | |
| In October | 73,0 | 67,0 | 140,0 | 72.0 | 63,0 | 135,0 |
| In November | 73,0 | 67.0 | 140,0 | 72,0 | 63,0 | 135,0 |
| In December | 73,0 | 67,0 | 140,0 | 72,0 | 63.0 | 135,0 |

The foregoing shows that the weekly consumption in Europe is still 140,000 bales of 400 pounds each, against 135,000 bales of the same weight at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent show a slight decrease from the stocks at the same time last month, but continue larger than at the same date of last season, the combined excess being 143,000 bales.

## *THE SOUDAN AND "CHINESE" GORDON.*

The resolution come to by the British Government to abandon the Soudan has not had the effect of lessening public interest in Egyptian affairs. The opinions which we have repeatedly expressed in these pages regarding the policy of the Gladstone Administration in Egypt have been abundantly justified by events. There is but little, if any, evidence to show that when the evacuation was first resolved upon, any active assistance on the part of the British Government was contemplated. It seems to have been the opinion of the more prominent British officials that all that it was necessary to do in the premises was simply to recall the Egyptian troops. The fact seems to have been overlooked that in Khartoum, Senaar, and the other cities to the South, there was a large mixed population, including Egyptians from the Lower Country, French, Italians, Austrians and Germans, who could not be left to their fate; and the actual difficulty connected with the removing of the troops themselves seems to have been greatly under-rated.

Of this, however, there appears now to be no longer any doubt, that the evacuation, probably with some qualifications, is to be carried out. The new aspect of the situation is the appointment of "Chinese" Gordon to the supreme command of the forces entrusted with the execution of this scheme. Colonel Gordon's views in regard to the Soudan are no secret to the newspaper reader. From the first he has been distinct and positive in his utterances on the subject. He has been willing to admit that in the circumstances it was necessary to abandon the provinces of Darfur and Kordofan; but he has not changed his opinion that great danger would be attended with the giving up of that section of the Soudan which lies to the east of the White Nile. His opinions have also been decided as to the method to be adopted. There are Egyptian garrisons at Khartoum, in Darfur, in Bahr-Gazelle, and in Gondokoro. If these are not to be sacrificed, it will be necessary to defend Khartoum at all hazard. In his opinion, no other course is to be thought of. Gordon is not a man who speaks without knowledge, nor does he change his opinions without cause. His appointment to take charge at this juncture, we now learn, is the result of an understanding come to by Baker and Gordon. Sir Samuel very properly condemns the policy of the Government, and although not without hope, is of the opinion that the change comes almost too late. In his own terse language, it is like bringing the fire brigade when the building has been consumed.

But who is "Chinese" Gordon? What have been his facilities for acquiring correct information regarding the Soudan? and what fitness has he for the executing of the admittedly difficult task entrusted to him? These are questions which many are now asking. The answering of the first question will involve the answers to the other two. Gordon is of Scottish stock, his ancestors having fought for the Pretender at Culloden. His family has for generations been connected with the army. He was educated at Taunton and at the Royal Military Academy at Woolwich; and on his leaving Woolwich, in 1854, for service as an officer of engineers, he was ordered to Pembroke. In the same year he was ordered to Corfu; but before he had set out for the Ionian Island he received counter instructions to start for the Crimea. When the Crimean war was ended, he was put on the staff of Major Stanton to help in the work of laying down the new frontiers of Russia, Turkey and Roumania. It was not, however, till later, that Gordor found his real sphere of activity. From 1860 to the end of 1864 he was in China; and his name is inseparably associated with the putting down of the Taeping rebellion. His history during this period reads like a wild romance. He organized an army such as China had never known before; and such was the faith of that army in its chief, and such was its success, that it acquired the title of the Ever-Victorious Army. Under Gordon it marched from victory to victory, until finally it crushed out rebellion, and restored at once the unity of the empire and the imperial authority.

In China, Gordon won the good opinion of the world, and to day China is stronger for the example he gave and the lesson he taught her. In 1874 Gordon took service with Ismail Pasha in Egypt, and succeeded Sir Samuel Baker as Governor of the tribes in Upper Egypt. His career in Egypt, although it was characterized by less actual fighting, is even more interesting than his career in China. He carried on and extended the work which Baker had begun, made his name and that of the Khedive respected by all the tribes and by all the neighboring States. He abolished slavery; and, difficult as was the task, he compelled the slave-dealers to respect the law. He was beloved by the people and was spoken of by them as the "Little Khedive." On the appointment of the Marquis of Ripon in 1879 as Governor-General of India, Gordon accepted an appointment under him; but he did not remain in India. He has since been in China, and it is known that his advice was taken in regard to the army. Latterly he has spent some time in Palestine, having become deeply interested in the Jordan Canal. And, as is well known, when the present command was given him, he had just been requested by the King of the Belgians to take command of an expedition on the Congo. Gordon is a soldier of the Cromwell stamp. He carries his religion with him wherever he goes.

Such is the man who has been called to the difficult task of carrying out his government's orders with regard to the evacuation of the Soudan. He is to work in connection with, and to be in a certain sense subject to, Sir Evelyn Baring. It remains to be seen whether Gordon's influence with the black tribes has not died out during his absence, and how far their feelings for the foreigner and for the Khedive have been affected by the success of El Mahdi. Of his personal fitness for the task he has undertaken there can be no two opinions; but much depends on the feeling of the tribes, on the liberty allowed him, and on the support which he may receive.

**Toledo Cincinnati & St. Louis.**—At Chicago, January 19, Judge Drummond, in the United States Circuit Court, entered a decree authorizing the receiver of the Toledo Cincinnati & St. Louis Railroad Company to issue receiver's certificates, bearing six per cent interest, to the amount of $110,000, to pay the amount due for the construction of that portion of the road between Kokomo and East St. Louis. This perfects the title, the bondholders' certificates remaining the first lien on that portion of the road lying between the two cities named.

[From our own correspondent.]

LONDON, Saturday, Jan. 12, 1884.

The value of money, as anticipated, has been declining during the week, and both the rates of interest for loans and the quotations for discount have receded to a low point; in fact short loans are procurable at 1¼ to 1½ per cent, while the rate of discount for three months' bills is only 2 to 2⅛ per cent. The ease of the money market has revived the discussion by the discount houses as to the expediency of lowering the rates of interest for deposits, and, after some hesitation, a reduction of ¼ per cent has been made. So small a change has not commended itself greatly, as either a reduction of one-half per cent or no alteration at all would have been more acceptable.

Present appearances are not favorable to a revival of buoyancy in monetary circles. The business of the new year has been disappointing, and the mercantile community are not very sanguine about the future. The state of the wheat trade and the strikes in a portion of the cotton districts are causes for anxiety, and merchants prefer to trade much in the same manner as they did last year, viz., with the greatest caution. The supplies of food and of manufactured goods in existence in this country are very large, and difficulty is experienced in effecting a reduction in them. Sales have in consequence to be made at low and unremunerative prices, and there seems to be no chance of immediate improvement. If, however, this condition of things is disastrous to the producer and manufacturer, it must be productive of some advantage to consumers, as the cost of living is much reduced; but this feature, together with the fact that the money market is very easy, fails to exercise the beneficial influence usually expected of it.

But it does not follow that because money is quoted at only 2 to 2⅛ per cent for discounts many participate in that advantage. The rate is low because fine bills are a scarce commodity, and are eagerly sought after by the banks and discount houses. The majority of bills now undergo a keen scrutiny before they are discounted, and many are refused. The confidence existing is not great, and cheap money is more frequently brought about by the indisposition which capitalists show to lend, except upon the best securities.

This week's Bank return shows that the dividends on the public funds have been distributed, and that loans to a considerable amount have been repaid the Bank. There has been a small increase, viz., of £45,016, in the supply of bullion; but as the Bank had exported £211,000 during the week, a moderate quantity of coin has been returned from provincial circulation during the week. There is a trifling decline in the note circulation, and there is an increase of £51,986 in the total reserve. The supply of gold now amounts to £21,482,381, against £20,617,638, and the total reserve to £11,622,681, against £10,474,478 last year. The proportion of reserve to liabilities is 36·49 per cent, against 34·11 per cent last week and 37·71 per cent in 1883.

The following are the quotations for money and the interest allowed by the discount houses to-day and same day of the previous five weeks:

| London | Bank rate. | Open market rates. Bank Bills. Three Months | Four Months | Six Months | Trade Bills. Three Months | Four Months | Six Months | Interest allowed for deposits by Joint Stock Banks. | Disc't Hses At Call. | Disc't Hses 7 to 14 Days. |

| Hamburg | — | 2⅞ | — | 3⅜ | — | 3⅝ | — | 3⅜ |
| Amsterdam | 3½ | 3¼ | 3½ | 3¼ | 3½ | 3½ | 3½ | 3¼ |
| Brussels | 3½ | 3¼ | 3½ | 3¼ | 3½ | 3¼ | 3½ | 3¼ |
| Madrid | 5 | 5 | 5 | 5 | 5 | 5 | 5 | 5 |
| Vienna | 4 | 4 | 4 | 4 | 4 | 4 | 4 | 4 |
| St. Petersburg | 6 | 6 | 6 | 6¼ | 6 | 6¼ | 6 | 6¼ |

In reference to the state of the bullion market during the past week, Messrs. Pixley & Abell remark:

Gold—A steady demand for gold has absorbed all the arrivals, with the exception of £9,000 sovereigns, which have been sent to the Bank; on the other hand there has been a large withdrawal of this coin for transmission to South America, Egypt, &c., the total taken being £220,000. We have received £10,200 from New Zealand and £8,700 from Australia. The Peninsular & Oriental steamer has taken £25,000 to Egypt and Bombay.

Silver—The India Council have again been heavy sellers of drafts and telegraphic transfers; this has had the effect of depressing the price of silver, and transactions have been entered into at 50¾d., being a decline of ⅛d. per oz. The amounts to hand have not been of importance; they comprise £5,250 from New York, and £35,000 frome Chili; total £40,250. The "Clyde" has taken £106,000 to Bombay.

Mexican dollars have also declined, and 49⅝d. and 49½d. have been the prices current during the week. The French steamer has arrived at St. Nazaire, bringing £120,000 value of this coin; these have not yet been placed.

The quotations for bullion are reported as below:

| | Price of Gold. Jan. 10. | Jan. 3. | | Price of Silver. Jan. 10. | Jan. 3. |

| Exports in 12 mos. | 7,093,982 | 8,965,454 | 9,322,846 | 31,343 | 29,420 | 48,650 |

The imports of silver from France last year were £2,069,628, against £2,643,528; and from Mexico, &c., £3,787,881, against £3,308,682 in 1882. The shipments to India were—

| | 1881. | 1882. | 1883. |
|---|---|---|---|
| In December | £309,7 9 | £332,800 | £329,300 |
| In 12 months | 3,391,271 | 5,986,195 | 6,107,422 |

While the imports of gold from Australasia were—

| | 1881. | 1882. | 1883. |
|---|---|---|---|
| In December | £2 0,450 | £204,027 | £157,402 |
| In 12 months | 4,470,186 | 2,996,549 | 2,256,128 |

Tenders were received at the National Bank of New Zealand on Thursday for £100,000 City of Auckland 5 per cent debentures. The applications amounted to £702,000 at prices ranging from the minimum of £101 to £103 15s. Tenders at and above £102 8s. will receive allotments in full, and those at £102 7s. 6d. about 5 per cent. The average price was £102 11s. 4d.

Tenders were received at the Bank of England yesterday for £1,000,000 New Zealand 4 per cent Government stock. The applications amounted to £5,073,500 at prices varying from £100 16s. 6d. to £98 10s. per cent, the minimum. Tenders at £100 5s. 6d. will receive about 54 per cent of the amount applied for and those above that price will be allotted in full.

At a representative meeting of the shareholders of the New York Ontario & Western Railway, held at Bartholomew House to-day, the following firms were represented —Messrs. James Shepherd & Co., M. Lehmaier, S. R. Scott, J. Adler, H. D. Rhodes, W. Vivian, C. Satterthwaite, E. F. Satterthwaite & Co., Joseph Price, Keyser & Co., J. Shepherd, Foster & Braithwaite, James & Prush, J. Taylor & Co., G. W. Medley, H. K. Paxton, Messel & Co., J. Gibbs, L. A. Crowley, Kendal G. N. Strawbridge, A. L. Oswalt, F. E. Robinson, and Borthwick, Wark & Co. The following resolution was proposed by Mr. Medley and seconded by Mr. Vivian:—"That a committee of seven shareholders be formed (with power to add to their number) to represent the interests of English shareholders in the New York Ontario & Western Railway, and that the following be appointed: Mr. G. W. Medley, Mr. Joseph Price, Mr. Edward F. Satterthwaite (Messrs. Satterthwaite & Co.), Mr. H. Pearson (Messrs. John Taylor & Co.), Mr. H. C. Mayhew (Messrs. Borthwick, Wark & Co.), Mr. W. H. Beeman (Messrs. Foster & Braithwaite, and Mr. W. Vivian (Messrs. Vivian, Gray & Co.)"

Further dividends have been declared this week and they compare favorably with previous periods. In a few instances the distributions of profits have slightly increased.

The salt trade continues very firm and prices have risen, in consequence of the failure of some of the Cheshire brine springs. The total exports last year were 1,187,169 tons, against 1,091,825 tons in 1882.

Further difficulties are reported in the wheat trade. At Liverpool, this week, Mr. John Herd, Jr., has suspended payment. It is stated that his speculative transactions were upon a very large scale. Mr. Herd, Jr., and his partner, Mr. William H. Mullins, have been charged with fraud by the North Western Bank of Liverpool.

The failures in the wheat trade at Liverpool and San Francisco have added to the depression existing in the grain trade, and, except for very fine parcels of wheat, former prices have been with difficulty supported. The stocks in London and Liverpool are very large, and it is estimated that the stock of foreign wheat and flour in the United Kingdom is now as much as 2,800,000 quarters. The weather has been very mild, and a check to the growth of vegetation is much to be desired.

The following are the quantities of wheat, flour and India corn estimated to be afloat to the United Kingdom, Baltic supplies not being included:

| | At present. | Last week. | Last year. | 1882. |
|---|---|---|---|---|
| Wheat.....qrs. | 1,959,000 | 1,858,000 | 2,068,000 | 2,724,000 |
| Flour | 210,000 | 236,000 | 220,000 | 108,000 |
| Indian corn | 255,000 | 268,000 | 164,000 | 196,000 |

The extent of the sales of home-grown wheat, barley and oats in the leading markets of England and Wales, together with the average prices realized, during the first nineteen weeks of the season, is shown in the following statement:

| | SALES. 1883-84. | 1882-83. | 1881-82. | 1880-81 |
|---|---|---|---|---|
| Wheat.....qrs. | 1,237,367 | 913,612 | 872,938 | 777,541 |
| Barley | 1,872,449 | 1,202,476 | 954,891 | 1,039,166 |
| Oats | 224,480 | 93,650 | 115,764 | 77,514 |

The following are the average prices for the season (per qr):

| | 1883-84. s. d. | 1882-83. s. d. | 1881-82. s. d. | 1880-81 s. d. |
|---|---|---|---|---|
| Wheat | 40 5 | 41 3 | 47 0 | 42 8 |
| Barley | 33 0 | 34 5 | 33 10 | 33 8 |
| Oats | 19 11 | 20 9 | 20 10 | 21 6 |

Converting quarters of wheat into hundred weights, the totals for the whole kingdom are estimated as follows:

| | 1883-84. | 1882-83. | 1881-82. | 1880-81. |
|---|---|---|---|---|
| Wheat*.....cwt. | 17,873,000 | 15,923,000 | 15,131,000 | 13,477,000 |

*This aggregate is arrived at by multiplying the sales in the 187 markets above by 31/3, and that result is reduced to cwt. by multiplying it by 4/5. This proportion between the 187 markets and the totals for the kingdom is adopted by the London grain trade and is accepted by it as producing a result approximately correct.

The following return shows the extent of the imports of cereal produce into the United Kingdom during the first nine-

teen weeks of the season, the average price of home-grown wheat, the visible supply of wheat in the United States, and the quantity of produce afloat to the United Kingdom, compared with previous seasons:

IMPORTS.

| | 1883-84. | 1882-83. | 1881-82. | 1880-81 |
|---|---|---|---|---|

| United States ..... | 3,480,498 | 3,322,861 | 2,072,245 | 2,574,458 |
| Brit. N. America ... | 269,672 | 187,151 | 163,380 | 310,357 |
| Other countries ..... | 683,669 | 883,175 | 508,531 | 861,406 |
| Total ..... | 5,101,364 | 5,285,208 | 3,421,023 | 4,323,184 |

Annexed is a return showing the estimated value of the imports of cereal produce into the United Kingdom during the first four months of the season, viz., from September to cember inclusive, compared with previous years:

| | 1883. | 1882. | 1881. | 1880. |
|---|---|---|---|---|
| Wheat..... | £9,703,669 | £11,843,970 | £12,206,096 | £10,620,653 |
| Barley ..... | 2,856,845 | 2,690,182 | 2,247,633 | 2,514,357 |
| Oats..... | 1,533,813 | 1,753,825 | 1,284,312 | 1,429,803 |
| Peas..... | 227,021 | 308,498 | 320,886 | 457,571 |
| Beans..... | 336,991 | 247,098 | 262,784 | 360,577 |
| Indian corn.. | 2,831,818 | 1,402,319 | 2,786,486 | 3,725,186 |
| Flour..... | 3,731,416 | 4,227,726 | 2,893,802 | 3,505,507 |
| Total .... | £21,221,573 | £22,473,618 | £21,942,496 | £22,672,650 |

The estimated value of our imports of cereal produce during the season have been, therefore, about £1,250,000 less than in the corresponding four months of 1882. The diminution in wheat is considerable, being about £2,140,000, but Indian corn shows an increase of £1,400,000. Barley has been paid for largely, and there is an increase as regards beans; but flour, oats and peas exhibit a falling off, though not to any important extent.

The stocks of grain and flour in London are still very large, especially of wheat, flour and barley. The following are the particulars:

| | 1884. Waterside Granaries. | 1884. Railways. | 1883. Waterside Granaries. | 1883. Railways. |
|---|---|---|---|---|
| Wheat.....qrs. | 989,578 | 3,646 | 376,282 | 4,074 |
| Barley..... | 99,832 | 5,681 | 47,881 | 3,488 |
| Malt..... | 801 | 3,415 | 7,864 | 5,104 |
| Oats..... | 406,103 | 5,936 | 564,399 | 7,319 |

* Oilseed, 9,365; cotton, 3,078 tons. † Oilseed, 9,365; cotton, 3,078 tons.

The Board of Trade returns issued this week for the month of January and for the past year are fairly satisfactory. The estimated value of the imports for the month, compared with 1882, shows a decrease of £1,498,000, and the exports an increase of £800,000. The principal reduction is in our food imports, especially as far as cereals are concerned. There is also an increase in our exports of cotton yarns, and in woolen and worsted fabrics. The returns have had the effect of giving a more confident feeling to general business. The following are the leading particulars:

IMPORTS.

| | 1881. £ | 1882. £ | 1883. £ |
|---|---|---|---|
| Imports in December..... | 33,235,260 | 35,369,131 | 33,871,131 |
| Imports in 12 months..... | 396,773,350 | 412,001,683 | 425,603,932 |
| EXPORTS. | | | |
| Exports in December..... | 20,182,052 | 18,171,551 | 18,971,102 |
| Exports in 12 months..... | 234,022,678 | 241,467,162 | 239,829,744 |

The following figures relate to the years ended December 31:

IMPORTS.

NATIONAL BANKS.—The following national banks have lately been organized:

3,108—The Woodson National Bank of Yates Center, Kansas. Capital, $50,000. George D. Carpenter, President; N. F. Follett, Cash.

3,109—The Plymouth National Bank, Michigan. Capital, $50,000. Theodore Sherwood, President. No cashier.

3,110—The First National Bank of Milan, Missouri. Capital, $75,000. L. T. Hatfield, President; J. C. McCoy, Cashier.

3,111—The Mercantile National Bank of Louisiana, Missouri. Capital, $50,000. Stuart Carkener, President; Walter G. Tinsley, Cashier.

3,112—The Clarinda National Bank, Iowa. Capital, $50,000. Frank W. Parish, President; Isaac J. Paley, Cashier.

The Farmers National Bank of Sullivan, Indiana. Voluntary liquidation December 24, 1883.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show a decrease in both dry goods and general merchandise. The total imports were $8,496,911, against $9,296,951 the preceding week and $8,061,980 two weeks previous. The exports for the week ended Jan. 22 amounted to $5,955,765, against $6,474,595 last week and $6,413,607 two weeks previous. The following are the imports at New York for the week ending (for dry goods) Jan. 17 and for the week ending (for general merchandise) Jan. 18; also totals since the beginning of first week in January:

FOREIGN IMPORTS AT NEW YORK.

| For Week. | 1881. | 1882. | 1883. | 1884 |
|---|---|---|---|---|
| Dry goods | $2,274,274 | $3,435,029 | $1,737,279 | $2,591,920 |
| Gen'l mer'dise.. | 3,951,158 | 7,452,337 | 4,573,321 | 5,904,991 |
| Total | $6,225,432 | $10,887,366 | $6,310,600 | $8,496,911 |
| *Since Jan. 1.* | | | | |
| Dry goods | $7,331,144 | $9,191,954 | $7,130,595 | $8,073,262 |
| Gen'l mer'dise.. | 15,131,824 | 20,159,970 | 16,136,093 | 17,782,580 |
| Total 3 weeks.. | $22,462,968 | $29,351,924 | $23,266,688 | $25,855,842 |

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Jan. 22, 1884, and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1881. | 1882. | 1883. | 1884 |
|---|---|---|---|---|
| For the week... | $7,140,034 | $7,277,299 | $6,574,998 | $5,955,765 |
| Prev. reported.. | 13,252,797 | 12,091,770 | 14,357,124 | 12,888,202 |
| Total 3 weeks.. | $20,392,881 | $19,369,069 | $20,932,122 | $18,843,967 |

The following table shows the exports and imports of specie at the port of New York for the week ending Jan. 19, and since Jan. 1, 1884, and for the corresponding periods in 1883 and 1882.

**Perkiomen.**—The annual report of this railroad for the year ending November 30, 1883, shows that the receipts from all sources were $355,893, and the total expenses $240,088, making the net receipts $115,804. The falling off in gross receipts, $7,783, is due to a decrease in the merchandise traffic, the passenger travel and coal traffic showing a healthy increase. The expenses were $1,292 less than in 1882. The decrease in net receipts is $6,491. The sum of $37,109 was expended in repairing. After paying $115,476 interest on the road's bonded indebtedness, the surplus net receipts are $328.

—The Atlantic Mutual Insurance Company (Marine) is out with its annual statement, showing a heavy business, as usual, and an improvement in 1883 in a reduction of the amount of losses paid as compared with 1882. The total marine premiums in 1883 were $5,708,185. A scrip dividend of 40 per cent on the premiums of 1883 is declared, for which certificates will be issued on and after May 6. The liberal management of the Atlantic, its financial strength, and the prospect, which amounts almost to a certainty, that they will receive a dividend of 40 per cent on their premiums, induces merchants to hold to the Atlantic and pay fair rates for their insurance.

—The Penn Mutual Life Insurance Company presents its thirty-sixth annual exhibit in the columns of the CHRONICLE today. Further progress has been made by this company and the assets have grown to upwards of $9,000,000, while the surplus reaches nearly $2,000,000. The year closed with a membership of nearly 17,000, representing the large aggregate of $41,521,000 of insurance. Total amount paid policy-holders during the year, out of receipts of $1,971,463 58, was $1,099,825 83, while the further sum of $528,000 was added to the reserves upon their policies. The expenses of management have been very moderate. The Penn is a purely mutual company, and applies all its surplus earnings to the reduction of the cost of insurance.

—The Insurance Company of North America of Philadelphia is one of the leading insurance corporations whose annual statement appears to-day in the CHRONICLE. This company takes risks in fire, marine and inland insurance, and is one of the old reliable companies incorporated in 1794), having large assets safely invested. The net premiums received in 1883 amounted to $3,851,148 and the losses paid were $2,390,724. The assets are now $9,071,696, and the surplus over all liabilitiesi $3,211,964.

—The Mutual Life Insurance Company publishes its annual statement this week, showing a large business and a further increase in assets, the total now being $101,143,248, against $97,961,317 last year. The total income from premiums and from interest on investments was about $18,500,000 in 1883, against $17,500,000 in 1882. The surplus fund on the 4 per cent basis is now $4,636,000, and on the New York standard of 4½ per cent the surplus is over $12,000,000. The Mutual Life is managed with its usual vigor and economy of administration.

—Attention is invited to the card of the United States Life Insurance Company, which gives a summary of the business in 1883 compared with 1882. The new insurance written in 1883 was $5,231,000, against $2,800,000 in 1882, and the insurance in force Jan. 1, 1884, is $18,806,000, against $16,790,000 Jan. 1, 1883. Mr. T. H. Brosnan is President of this company, Mr. C. P. Fraleigh, Secretary, and Mr. George H Buford, Actuary.

—The Ontario Silver Mining Company of Utah announces its ninety-first dividend, $75,000, for December, payable at the office in San Francisco or by the agents in this city, Lounsbery & Haggin, 15 Broad Street, on the 31st inst.

—Mr. J. P. Wintringham of 36 Pine Street has issued his annual chart showing the monthly range of bank stocks (New York and Brooklyn), of insurance stocks, of gas stocks and city horse railroad and trust companies' stocks.

**Auction Sales.**—The following, seldom or never sold at the Stock Exchange, were sold at auction this week by Messrs. Adrian H. Muller & Son.

NEW YORK, FRIDAY, JANUARY 25—5 P. M.

**The Money Market and Financial Situation.**—While there have been no special developments in the last week to further unsettle confidence in mercantile and financial affairs generally, the incidents of the preceding week have still exercised an influence on the public mind. The decrease in the exports of breadstuffs, the decline in prices of grain and the several failures in that line, together with the more important ones in connection with railway enterprises, have all combined to create an atmosphere of apprehension and expectancy.

Rumor has been busy with the names of corporations, and also of prominent individuals, though as near as can be learned the foundation for any of the rumors has been nothing more than conjecture. The great decline in certain securities in the last month or two has undoubtedly caused large losses to individuals in every scale of financial importance; but there is reason for believing that if any bankers or other prominent individuals have been overloaded, they have succeeded in largely relieving themselves of late. It is quite certain that there have been very large sales in the last ten days of West Shore and other railroad bonds and of Northern Pacific preferred, Oregon & Trans-Continental, and other stocks, by persons who had invested in them a year or two ago, and that to a great extent these sales have been compulsory. This large volume of securities thrown upon the market has caused temporary depressions in a number of stocks and bonds, but they all seem to have found a resting-place in the hands of new investors at the lower prices.

The decline on Wednesday of 6 per cent in the Northern Pacific first mortgage bonds, from 101½ to 95½, and which was not only unexpected, but is unaccountable except upon the theory of manipulation, has been a conspicuous feature of the week, and one which, if not directly instigated by bear operators, certainly helped their interests.

General mercantile trade throughout the country is dull. Country merchants in the West are carrying unusually light stocks, and for the present show but little disposition to increase them. Nevertheless, collections in all parts of the country have been very satisfactory, and the volume of current mercantile liabilities has been reduced to an unusually low level. Money is plenty at the West, Northwest and Southwest, and the domestic exchanges in almost every quarter are in favor of New York.

The New York money market continues plethoric with unemployed funds, and rates of interest for call loans are so low—1½ to 2 per cent—that a great deal of money is held idle in the banks and trust companies without any offer of it either for loan or investment. Time loans can be had at 4 and 4½ per cent on stock collaterals for four or six months. Mercantile discounts remain unchanged at 4 and 4½ per cent for 60 days and 4 months for first-class double-name paper, and 5 and 5½ for single name.

The weekly statement of the Bank of England showed a gain of £156,000 in specie. The percentage of reserve to liabilities was increased to 41¾ per cent from 40⅜ per cent last week. The statement of the Bank of France exhibited a gain during the week of 4,425,000 francs in gold and 3,750,000 francs in silver. Owing to recent manifestations of a disposition in Paris to sell out investments in British corporate securities, there has been, and is yet, a movement of specie to the Continent from London.

The following table shows the changes from the previous week and a comparison with the two preceding years:

| | 1884. Jan. 19. | Differences fr'm previous week. | 1883. Jan. 20. | 1882. Jan. 21. |
|---|---|---|---|---|

**Exchange.**—The New York market for sterling has been gradually hardening during the last two weeks, and on Friday, the 25th, the posted rates were advanced to 4 86 and 4 88½, against 4 85½ and 4 88 on the 18th and 4 84 and 4 86½ on the 11th. On Friday, the 25th, the rates for actual business were as follows, viz.: Sixty days, 4 85@4 85¼; demand, 4 87½@4 88; cables, 4 88@4 88½; commercial bills have continued scare and were quoted on Friday at 4 83½@4 83¾.

**United States Bonds.**—In the absence of any particular demand, government bonds have been less firm this week, and both the 4s and the 4½s show a fractional decline from last Friday's prices.

The closing prices at the N. Y. Board have been as follows:

| | Interest Periods. | Jan. 19. | Jan. 21 | Jan. 22. | Jan. 23. | Jan. 24 | Jan. 25. |

* Includes $3,000,000 notes received from Washington.
† Includes $210,000 gold certificates taken out of cash.

**State and Railroad Bonds.**—The railroad bond market has been depressed this week by the heavy selling of several prominent issues of bonds, which may have been in part legitimate and due to the throwing of large lots of the same upon the market by holders who found this step necessary in order to protect other interests, but in great part no doubt was speculative, for the purpose of affecting the stock market. In the cases of the West Shore bonds and the Northern Pacific firsts, certainly the decline partook very largely of the nature of a raid by the bears. During the last two days there has been a partial re-action from the extreme declines, but there has nevertheless been an unsettlement of confidence which has affected nearly the whole range of issues most traded in. The more important net declines for the week are Northern Pacific firsts 4⅞ per cent, Oregon Improvement firsts 8 per cent, Oregon & Trans-Continental firsts 7½ per cent, West Shore fives 1½ per cent and Denver & Rio Grande consols 3 per cent. The transactions in West Shore bonds during the last six business days aggregated $13,800,000. The following was the range of prices for the issues that have shown the greatest changes during the week since Saturday morning the 19th, viz.: New York West Shore & Buffalo 5s at 53¾@54@52⅝@56@50⅛@53¾@52⅛; Northern Pacific firsts at 101@101⅞@95@98½@96¼@96½; New York Chicago & St. Louis firsts at 101@100@101@100⅝; Erie second consols at 89¾@88@89½@88½@90@89½; Kansas & Texas general mortgages at 81@76@80⅝@80; Louisville & Nashville general mortgages at 93¼@91¾@92; Denver & Rio Grande consols at 85@82; St. Paul & Omaha consols at 109@108@108¼; Canada Southern firsts at 95¾@95¼@95½; Oregon Short Line 6s at 92@90½@91½; Oregon Railway & Navigation firsts at 104¼@103@104@103½; Wabash general mortgages at 60@59@60¾@59½@60; Indiana Bloomington & Western firsts at 85@86½; New Orleans & Pacific firsts at 83@81½; Oregon Improvement firsts at 75@66@72; Oregon & Trans-Continental firsts at 72½@65; Texas & Pacific land grant incomes at 41¼@39@41½; do. Rio Grande Division firsts at 72⅛@69½@73; St. Louis & Iron Mountain 5s at 70½@68¼@70; Fort Worth & Denver City firsts at 66½@65@67; East Tennessee incomes at 27@26@26¼; Atlantic & Pacific incomes at 18@18¾@17@17½@17¼; and Metropolitan Elevated firsts at 101½@103@102¾.

State issues were in active demand, and prices were firm. Georgia 7s sold at 111@113¼; Alabama, class A, at 81; do., class B, at 100; South Carolina 6s, non-fundable, at 3½@2½; Louisiana consols, ex-matured coupon, at 66; Ohio 6s of 1886 at 107; Missouri 6s of 1886 at 104½; 1887 at 107; 1889 at 111; Tennessee compromise at 43@43½@42½@43½; do. 6s. old, at 37½@38@37¾.

**Railroad and Miscellaneous Stocks.**—The stock market has been depressed by rumors of impending failures and by the expectation of further unfavorable developments in connection with the Northern Pacifics and the Oregon stocks. These influences have more than offset the good effects of the apparent prospect of settlement of the difficulties in the various railroad pools. It is now believed that the apprehensions of important failures were, to a very large extent, entirely groundless, and that the rumors were circulated for the purpose of depressing prices. Nevertheless, there has undoubtedly been a large amount of stocks and bonds forced to sale, and the effects of this are shown in the heavy declines of some of the most active stocks. The principal net changes for the week are shown in the following: Advanced—Michigan Central 2; New York Central 1⅛. Declined—Colorado Coal 1¼; Denver & Rio Grande 2¼; Northern Pacific 4⅜; do. preferred 10⅛; Oregon Railway & Navigation 10; Oregon & Trans-Continental 7⅝; Oregon Improvement 2½; Reading 2¾; Jersey Central 2½; St. Paul 1⅝; St. Paul & Omaha preferred 1¾; St. Paul & Manitoba 9; Wabash preferred 3⅜; and New York & New England 2¼.

* Since June 1st in 1883 includes earnings of Cent. RR. of New Jersey.
‡ Included in Central Pacific earnings above.
§ Mexican currency. ‖ Includes Utah lines in 1884.
*a* Includes St. Louis Iron Mountain & Southern in both years.
*b* Includes International & Great Northern in both years.
*c* Embracing lines in Mo. Ark. and Texas.
*d* Includes Southern Division.
*e* Figures for the 1st week of January were incorrectly reported in our last issue, the years being transposed, making it appear that there had been a gain where there was a loss. The proper correction has been made this week.

## New York City Banks.

THE INVESTORS' SUPPLEMENT *contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the* CHRONICLE. *Single copies are sold at $1 per copy.*

## ANNUAL REPORTS.

### Buffalo New York & Philadelphia.

(*For the year ending September* 30, 1883.)

The directors' report for the year ending September 30, 1883, has just been published. Earnings and expenses were as follows:

| EARNINGS. | | EXPENSES. | |
|---|---|---|---|
| Merchandise | $1,810,732 | Transportation | $506,984 |
| Passengers | 730,886 | Motive power | 425,524 |
| Express | 33,871 | Maintenance of cars | 83,781 |
| United States mail | 28,128 | Maintenance of way | 284,928 |
| Rents | 7,264 | General expenses | 85,970 |
| Miscellaneous sources | 92,245 | | |
| Total | $2,703,128 | Total | $1,387,189 |
| Net earnings | | | $1,315,939 |

These net profits include no earnings for twelve months on thirty miles of road (from Olean to Salamanca, twenty-one miles, and nine miles of coal branches in Mercer County); nor any earnings for about eight months on thirty miles, from Kinzua to Salamanca, nor any earnings for about six months from through business on the Rochester division, one hundred and ten miles, nor any freight earnings for about six months on forty-nine miles, from Brocton to Buffalo.

A general statement of income and disbursements is made as follows:

| INCOME ACCOUNT. | | |
|---|---|---|
| Interest on bonded debt | | $1,149,245 |
| Total net profits as above | | $1,315,939 |
| Less net earnings of Buffalo Pitts. & Western RR. Oct. to Dec., 1882, included in last report | | 104,271 |
| | | $1,211,668 |
| Balance of reserve funds, 1882 | | 1,033,036 |
| Total | | $2,244,704 |
| From which deduct— | | |
| Interest on bonded debt less already charged in last report | $1,131,745 | |
| Dividend on pref. stock, 6 p. c. on $6,600,000 | 396,000— | 1,527,745 |
| | | $716,959 |
| Proportion of difference between cash value of cars and engines and cost per car trusts | $59,500 | |
| Merger expenses, &c | 54,112 | |
| Taxes, 1882 and 1883 | 69,781 | |
| Insurance | 11,141 | |
| Lease line Oil City to Stoneboro | 3 ,471 | |
| Damages to persons and property | 25,964 | |
| Discount on bonds sold, sundry drawbacks, &c. | 136,099— | 387,071 |
| Balance to credit profit and loss, Sept. 30, 1883 | | $329,888 |

The result of the year's business, as compared with the previous year, is as follows:

| | *Gross.* | *Expenses.* | *Net.* |
|---|---|---|---|
| 1882 | $2,520,960 | $1,216,751 | $1,304,209 |
| 1883 | 2,703,128 | 1,387,189 | 1,315,939 |
| Increase | $182,168 | $170,433 | $11,730 |

Gross expenses in 1882 were 48 2 per cent of gross receipts, and in 1883 they were 51 3 per cent of gross receipts.

Statement of tonnage moved during the year ending Sept. 30, 1883, compared with that of the previous year:

| | 1883. | 1882. | *Decrease.* |
|---|---|---|---|
| | *Tons.* | *Tons.* | *Tons.* |
| Coal | 1,367,793 | 1,467,177 | 99,384 |
| Oil | 169,916 | 223,501 | 53,585 |
| General merchandise | 1,090,250 | 1,104,287 | 14,037 |
| Total | 2,627,959 | 2,794,965 | 167,006 |

The decrease in oil was anticipated. The decrease in coal and general merchandise was caused by a strike of miners in the bituminous coal region, and by want of adequate facilities in Buffalo to handle all the anthracite coal offered. The strike began early in September and continued for more than two months, when operations were partially resumed.

Since October 1, 1882, large additions have been made to the rolling stock, and among the items added to capital account are included 14¾ miles new sidings, $80,332; new steel rails, frogs, switches, &c., $166,496; engines and cars built and rebuilt, $83,078; new locomotives and cars, $1,309,160; terminals Buffalo Salamanca and Olean, $113,695; Genesee Valley Canal Railroad construction, $208,778; the total of all additions being $2,167,379.

The merger of the Buffalo Pittsburg & Western Railroad, the Buffalo New York & Philadelphia Railway, the Oil City & Chicago Railroad, and the Olean & Salamanca Railroad, was accomplished, and the agreement was filed in the office of the Secretary of State at Harrisburg and Albany, on February 14, 1883.

The Olean & Salamanca Railroad was completed in September last, uniting the two systems—the Buffalo Pittsburg & Western Railroad and the Buffalo New York & Philadelphia Railway—and hereafter the tonnage of the river division, from which we have heretofore received the earnings on only fifty miles, will be transported over the tracks of this company to Buffalo and Rochester, increasing the earnings by the additional mileage to those cities, 138 and 175 miles respectively.

The item of $1,175,000 temporary loans on balance sheet was incurred and expended for property acquired and for betterments.

The following securities belong to the company:

13,048 shares Buffalo New York & Philadelphia preferred stock.
4,246 shares Buffalo New York & Philadelphia common stock.
5,000 shares Genesee Valley Terminal Railroad stock, par $100.
$50,000 Buffalo New York & Philadelphia consolidated mortgage bonds ($11,000,000 loan).
$30,000 Buffalo New York & Philadelphia trust bonds.
$125,000 Northwestern Coal & Iron Company first mortgage bonds.
$15,000 Lackawanna & Pittsburg first mortgage bonds.

"These securities are more than sufficient to provide for the expenditures, but your board think it a wiser plan to create a general mortgage loan of $25,000,000, bearing six per cent interest, and payable in forty years, of which $21,300,000 will be reserved to provide for prior issues, and $1,700,000 have been sold to pay for the expenditures already made, and for additional facilities so much needed, amounting to $625,000. The balance, $2,000,000, to remain in the treasury, and only to be issued for additional rolling stock, land, side tracks and other permanent betterments of the property, as may seem advisable by the board." * * *

"The road and rolling stock are now in excellent condition, and not more than $250,000 will be required during the coming year to complete the permanent betterments heretofore authorized by the board."

| BALANCE SHEET SEPTEMBER 30, 1883. | |
|---|---|
| Construction and equipment | $30,949,583 |
| Real estate | 1,053,263 |
| Leasehold estates | 7,000,000 |

| Total | $47,692,747 |

* Included in bonds held in trust on debit side.

### New York Central & Hudson River Railroad.

(*For the year ending Sept.* 30, 1883.)

In the annual report published in the CHRONICLE of December 22, on page 693, there were a few particulars which could not then be obtained from the preliminary report issued by the company. These details consisting mainly of the equipment, the details of operating expenses, and the issues of bonded debt, are now found in the pamphlet report just published, and are presented below.

It will be observed that the full limit of $40,000,000 is now almost reached in the issue of mortgage bonds, and as the Central, like all other great railroad corporations, requires a considerable amount of money from year to year for betterments and the acquisition of new property, it may fairly be assumed that a new issue of bonds will in some form be authorized soon to supply the yearly requirements for new capital. In 1881-82 the funded debt was increased $5,000,000 and in 1882-83 $1,524,200.

| *Equipment*— | 1879-80. | 1880-81. | 1881-82. | 1882-83. |
|---|---|---|---|---|
| Locomotives | 639 | 646 | 632 | 655 |
| Pass. mail & exp. cars | 600 | 588 | 596 | 636 |
| Freight & other cars | 19,395 | 22,465 | 24,565 | 25,511 |
| *Operating expenses*— | $ | $ | $ | $ |

## GENERAL INVESTMENT NEWS.

**Anthracite Coal Tonnage in 1883.**—The statement of Anthracite coal tonnage for 1883, compared with 1882, has been compiled as usual by Mr. John H. Jones, Philadelphia. This statement includes the entire production of Anthracite Coal, excepting that consumed by employees, and for steam and heating purposes about the mines.

| | 1883. | 1882. | Difference. |
|---|---|---|---|
| Philadelphia & Reading RR.. | 10,187,002 | 7,000,113 | Inc. 3,186,889 |
| Central Railroad of N. J.... | 3,745,353 | 4,211,092 | Dec. 2,465,153 |
| Lehigh Valley Railroad ..... | 6,271,773 | 5,933,730 | Inc. 338,033 |
| Delaware Lack. & W. RR.... | 5,079,122 | 4,638,717 | Inc. 440,405 |
| Delaware & Hudson Canal Co. | 3,512,971 | 3,203,768 | Inc. 309,203 |
| Pennsylvania Railroad..... | 2,773,418 | 2,332,973 | Inc. 440,445 |
| Pennsylvania Coal Co..... | 1,511,145 | 1,439,820 | Inc. 71,324 |
| New York Lake Erie & W. RR. | 782,194 | 730,510 | Inc. 51,683 |
| Total..... | 31,793,027 | 29,120,066 | Inc. 2,672,931 |

The whole increase in production in 1883 was made in the eleven months ending with Nov. 30, as in December, 1883, there was a decrease of 466,192 tons compared with December, 1882.

The stock of coal on hand at tide-water shipping points Dec. 31, 1883, was 748,330 tons. The amount on hand Dec. 31, 1882, was 562,116 tons.

Of the total production in 1883, 15,604,492 tons, or 49 08 per cent was from the Wyoming region; 6,113,809 tons, or 19 23 per cent from Lehigh region; and 10,074,726 tons, or 31·69 per cent from Schuylkill region.

Eastern competitive tonnage, including all coal which for final consumption or in transit, reaches any point on Hudson River or the Bay of New York, or which passes out of the Capes of the Delaware, was in 1882, 12,018,764 tons; in 1883, 13,148,185 tons.

**Boston West-Bound Pool.**—The west-bound freight business out of New-England has been in a condition of demoralization as regards rates, and the leading roads, the Boston & Albany, the New York & New England, and the Hoosac Tunnel roads, have all endeavored to get business as best they might. Efforts have been made repeatedly to bring about a betterment of this state of affairs. A meeting of representatives of the through Boston lines in conjunction with the standing committee of the trunk lines was held this week in Commissioner Fink's office. Arthur Mills, General Freight Agent of the Boston & Albany; Receiver Clark, of the New York & New England; L. Millis, General Manager of the Central Vermont, and Thomas Whittemore, Corporation Clerk of the Fitchburg Railroad, were present. After a discussion it was agreed to pool the west-bound business out of Boston between these four lines. Commissioner Fink's recommendations as to percentages were accepted for the temporary government of the division of traffic, but they are subject to appeal and arbitration. It was agreed also to restore the tariff rates out of New-England and maintain them.

**Brooklyn Elevated.**—The committee of stock and bond holders recently appointed to raise money reported this week. Mr. Frederick Uhlman presided, and reported that no subscription would be binding unless $400,000 was subscribed before Feb. 20, and that no money would be expended unless before April 1, 1884, a contract shall be signed insuring the construction and equipment of the railway from Fulton Ferry or the bridge to East New York. The committee reported that on the receipt of the $400,000 such a contract could be had, the iron firm taking it agreeing to construct and equip the road at a cost of not over $1,500,000, and to take its pay in the securities of the road at a price which has not yet been determined upon.

By the plan proposed by the committee, it was stated that the subscribers to the $400,000 would receive a minimum profit of 170 per cent in first-mortgage bonds and 225 per cent in the new stock. Subscriptions amounted to about $200,000 when the meeting adjourned.

**Brooklyn Flatbush & Coney Island.**—An action has been begun by Charles Storrs and Stephen H. Harriman to secure the appointment of a receiver for the Brooklyn Flatbush & Coney Island Railroad Company. The complaint sets forth that judgments for over $40,000 against the company are unsatisfied and that the company defaulted on the semi-annual interest on the second mortgage bonds last fall, showing that the company is temporarily insolvent. Judge Pratt granted an order yesterday to show cause on Friday why a receiver should not be appointed. The proceeding is a friendly one in the interests of the stockholders.

**Chicago Milwaukee & St. Paul.**—The Chief Engineer furnishes the following statement of track laid in 1883:

| WISCONSIN. | *Miles.* |
|---|---|
| Between Eau Claire and Chippewa Falls | 10·96 |
| IOWA. | |
| Cedar Rapids southwest | 21·07 |
| Between Sigourney and Ottumwa | 2·37 |
| Okoboji to Spirit Lake | 3·12 |
| DAKOTA. | |
| Letcher to Woonsocket Junction | 13·26 |
| Howard to Woonsocket Junction | 37·72 |
| Ashton to Woonsocket Junction | 67·44 |
| Aberdeen to end of track west | 26 52 |
| Total | 206·46 |

Also the following statement of lines acquired in 1883:

| WISCONSIN. | |
|---|---|
| North La Crosse to Onalaska | 3·76 |
| Iron Ridge Junction to Fond Du Lac | 27·67 |
| Junction Wisconsin Central Railroad to Chippewa Falls (½ int.) | 1·22 |
| Total | 32·65 |

—The Chicago Milwaukee & St. Paul RR. has applied to have 120 additional of its Wisconsin & Minnesota 5 per cent 40 year gold bonds listed at the Stock Exchange. The same company also asks to have listed 860 of its $1,000 bonds—Chicago & Pacific Western Division—dated January 1, 1881, and payable January 1, 1921, issued to cover 43 miles of new road completed since November 15, 1883, at a cost of $20,000 a mile.

**Connotton Valley.**—This road went into the hands of a receiver on the 19th inst. The petition for the appointment of a receiver stated that the interest on $68,000 old-line bonds and $78,000 Straitsville bonds is in default since May 1, 1882, covering also the six months preceding that date. Interest on $6,359,000 new mortgage bonds is in default since November 1, 1882, but $16,000 of the coupons have been converted into new bonds, and are included in the above amount. The interest coupons of May 1 and November 1, 1883, have not been paid, and no provision has been made to pay them. The bonded debt is as follows: Five per cents, under new mortgage, $4,603,000; 6 per cents, under new mortgage, $1,756,000; old-line bonds, $69,000; old Straitsville, $78,000; convertible assessment scrip, $91,000; total, $6,957,000. In addition, there are $540,000 of car trust certificates and $270,000 terminal trust certificates for land in Cleveland.

The bondholders have been invited to sign an agreement appointing W. J. Rotch, A. N. Parlin and Joseph B Thomas trustees to buy in the property under foreclosure, and consenting to deposit their bonds with the trustees, paying $2 on each bond, and agreeing to pay an additional $3 per bond whenever called upon. The agreement also provides that upon reorganization each bondholder shall receive stock in lieu of his bonds, dollar for dollar, and shall pay in cash an amount not to exceed $80 for each $1,000 bond.

**Consolidated Vermont.**—At St. Albans, Vt., Jan. 17, in the old case of the Vermont & Canada vs. the Vermont Central Railroad, pending since 1855, on a full hearing the court made an order discharging the receivers and managers, and ordering them to turn over to the Consolidated Railroad Company of Vermont the railroads and equipments, and assign all personal property and assets of every kind; also to make a full inventory of the same to court, the court retaining control of the property for the time being, until the inventory is completed, and the accounts of the receivers and managers for six months, between July 1, 1883, and January 1, 1884, are settled; the consolidated road to assume and execute all contracts and leases authorized by the court, or being on the property of the receivers, and to execute a covenant to the satisfaction of the court for the performance of this order. The court retains the property under its control until this order is complied with. Subsequently a motion came up to dismiss the cause of Langdon vs. the Vermont & Canada Railroad and others, the motion being made by the Central Vermont Railroad Company. After a hearing on this subject, it was adjudged by the court that said suit and all proceedings thereunder be dismissed without prejudice. Thus ends the receivership and litigation of 27 years' standing.

**Hocking Valley Pool.**—The Baltimore & Ohio, Ohio Central and Toledo Columbus & Hocking Valley railroads are reported to have entered into a pooling arrangement regarding the bituminous coal business of the Hocking Valley. The two great coal companies in the valley are in the pool, and the entire product is thus controlled in the common interest. Large agencies for the sale of the coal have been established in Chicago and Detroit under the new arrangement.

**Kentucky Central.**—The directors of the Kentucky Central Railroad Company have elected C. P. Huntington President and Isaac E Gates Treasurer. The future policy of the road was discussed, and it is stated that it will be made a part of the Chesapeake & Ohio system.

**Lake Erie & Western—Central Iowa.**—The directors of the Lake Erie & Western have decided to extend their road from Bloomington to Peoria, a distance of forty-three miles. The new division will be known as the Lake Erie & Mississippi Railroad, and will be built by issuing bonds for the exact cost of the road. This will give the Central of Iowa and the Peoria Decatur & Evansville roads a route eastward by the Lake Erie & Western, and will entitle the latter to a share of the pooled business at Peoria, estimated at $500,000 per annum.

**Louisville & Nashville.**—The official statement of the Louisville & Nashville road for the six months ended Dec. 31, 1883, being the first half of the company's fiscal year, is presented below. The statement is very favorable, more particularly as the increase in earnings is due largely to the development of the local traffic of the road. Important features of the report are the increase in income from sources other than traffic and the

decrease in the debits to income. The surplus is equal to 4 3-10 per cent on the stock for the six months, as against 1⅜ per cent for the corresponding period of the previous year. The following are the comparative figures for the six months ended Dec. 31 in each year.

| | 1883. | 1882. |
|---|---|---|
| Gross earnings | $7,761,944 18 | $6,860,533 54 |
| Operating expenses | 4,522,017 85 | 4,188,461 85 |
| Net from traffic | $3,239,926 33 | $2,672,071 69 |
| Other income | 130,482 10 | 72,000 00 |
| Total credits to income | $3,370,405 43 | $2,744,071 69 |
| Interest and rentals | $2,126,962 22 | $2,202 538 13 |
| Taxes | 170,000 00 | 130,429 88 |
| Total debits to income | $2,297,962 22 | $2 332,968 01 |
| Surplus | $1,073,443 21 | $351,103 68 |

**Louisville New Orleans & St. Louis.**—This road now has 256 miles completed, as follows: From Memphis, south, 52 miles; from Vicksburg, north, 58 miles, and south 46 miles, and from New Orleans north 100 miles. From Memphis the track is within four miles of Magnolia Junction, on the Mobile & Northwestern road. From Vicksburg north the track has reached the southern line of Washington County, and south of Vicksburg extends to Cole's Creek, four miles from Fayette Junction. From New Orleans the road is completed ten miles north of Baton Rouge. The grading between Memphis and Vicksburg will be completed in the next thirty days, unless prevented by heavy rains. From New Orleans to Vicksburg the grading is expected to be completed within the next sixty days. The entire line will probably be completed by May next.

**Michigan & Ohio.**—The Michigan & Ohio has made arrangements with the Wheeling & Lake Erie for the use of the latter's terminals at Toledo, and formed a close alliance with that road The company will run its trains over the track of the Wheeling & Lake Erie and the Baltimore & Ohio roads to Baltimore and the East. Negotiations are also being made with President Jewett, of the Erie, for use of track of New York Pennsylvania & Ohio and Erie roads to New York.

**Missouri Kansas & Texas.**—This company makes application for admission to the regular list of the Stock Exchange of a further issue of bonds under the provisions of its general consolidated mortgage of Dec. 1, 1880, as follows:

Bonds Nos. 18,218 to 28,217. both inclusive, for $1,000 each, set apart and reserved, pursuant to section sixth of said general consolidated mortgage, for the purpose of retiring on the following plan this company's second mortgage income bonds, and the coupons or scrip certificates representing interest accrued thereon, viz.: The above bonds to bear interest at the rate of 5 per cent per annum, payable semi-annually on the 1st days of June and December, and to run until Dec. 1, 1920. First coupon to fall due Dec. 1, 1883, and represent two months' interest from Oct. 1, 1883. Said 5 per cent bonds to be issued in exchange for said second mortgage income bonds, dollar for dollar. Past-due coupons of income bonds and scrip representing such coupons to be exchangeable at sixty per cent of their face value, flat, for said 5 per cent bonds at par. The new 5 per cent general consolidated bonds to be in the same form as the 6 per cent bonds already issued, except only such changes therein as may be made necessary because of the change in the rate of interest. Pending the preparation of these bonds the second mortgage income bonds may be stamped as assenting to the Exchange on the above terms. The income bonds received in exchange for the 5 per cent bonds to be deposited with the Mercantile Trust Company Trustee, and held uncanceled as security for the new bonds until all the income bonds have been converted. Total amount, $10,000,000.

The Stock Exchange Committee recommend that these bonds, Nos. 18,218 to 20,649 inclusive, $2,432,000, be placed on the regular list and a like amount of second mortgage incomes be deducted therefrom; and on notice from Mercantile Trust Company of the further issue in exchange for incomes, such further issue be added and a like amount of incomes deducted from the list.

**New York Danbury & Boston.**—The contract for this road, it is reported from Danbury, Conn., has been signed, and is in the hands of Capt. S. M. Sullivan, the original contractor of the road, who ten years ago graded one-third its length. It is said work in the cuts will be commenced this winter. The name of "Port Chester & Ridgefield" has been dropped and that of the "New York Danbury & Boston" substituted. The route as now projected will connect at Bronxville with the Second Avenue Railway, pass under the arched bridge of the New York New Haven & Hartford Railroad at Port Chester, strike the old grade of the Port Chester & Ridgefield road a mile northeast of Port Chester station, follow this with very slight changes to Ridgefield, and thence, by a new survey, to Danbury, where it is proposed to connect with the New York & New England road to Boston. The total distance as surveyed is a fraction less than 65 miles.

**New York Mutual Telegraph—Mutual Union.**—The New York Mutual Telegraph Company has made application to have its capital stock of $2,500,000 placed on the regular list of the Stock Exchange. This is the old Mutual Union stock reduced to one-quarter of the original amount.

**New York West Shore & Buffalo.**—No definite plan of action has yet been agreed upon by the West Shore and the Ontario officers. The Hon. James Emott has given to ex-Judge Ashbel Green, Receiver of the North River Construction Company, an opinion regarding the effect of a mechanic's lien upon the right of bondholders under the first mortgage of the New York West Shore & Buffalo Railroad Company. Mr. Emott declares that no lien can disturb or obtain precedence of the lien created by the existing first mortgage. The Judge makes the following points as a summary of the law as he understands it:

*First*—No lien can be created under the mechanic's lien laws upon the track or superstructure generally of the railroad, or the land on which they rest, nor for work or materials furnished in building the same.

*Second*—No lien can be established except for work done upon, or materials expressly supplied for, some particular structure, and then upon that structure only, and not upon the whole or any other portion of the property of the company.

*Third*—No lien can be established by a sub-contractor unless some payment is due to him, and to all persons between him and the owner, and of course from the owner to the principal contractor. The object and effect of the lien law is to take from the owner money actually due or to become due on his contract, and apply it in payment of laborers and others who have contributed to its performance.

**Northern of California.**—The corporate name of the company is the Northern Railway Company. The authorized capital stock is $3,400,000; capital stock paid in is $6,190,500. The bonded debt of the company will be when all are issued, $6,300,000 first mortgage bonds, in one series. They are dated Jan. 1, 1877, and become due Jan. 1, 1907; having coupons bearing 6 per cent interest per annum attached, payable in gold coin on the first days of January and July in the City of New York. The payment of the bonds is secured by a mortgage of even date to Eugene Kelly and Henry B Laidlaw of New York, upon the following described property, viz.: "Its road from West Oakland to Martinez; from Benicia to Tehama, and from Davisville to Sacramento, in all about 210 miles." Bonds have been issued only to the amount of Nos. 1 to 3,964 inclusive, each $1,000) $3,964,000, being the amount now outstanding, and covering road completed, viz.: from West Oakland to Martinez; from Benicia to Suisun, and from Woodland to Tehama, amounting in all to 149 30 miles. The company has a floating debt of $141,245 recently incurred for the extensive improvements at Port Costa. This indebtedness will be liquidated within a few months from the surplus revenues of the company. The rolling stock has not yet been furnished, owing to the leasing of the road to another railroad corporation that furnishes all the rolling stock necessary to operate. The total cost of the completed portion of the road is $10,964,057.

The road is leased to the Central Pacific, and the rental in 1882 was $590,617; taxes and general expenses, $11,113; lease San Pablo & Tulare Railroad. $167.464; profit, $412,038; interest, $188,880; 1st 6 mos. 1883; rental, $316,500; taxes, $4,409; lease, $83,732; profit, $228,357; interest, $94,440.

DIVIDENDS.—Out of the surplus revenues of this company there have been disbursed three dividends, as follows: February 16, 1881, 8 per cent on $4,710,500, $376,840; March 1, 1882, 1¾ per cent on $4,710,500, $82,433; February 28, 1883, 3½ per cent on $6.190,500, $216 667.

OFFICERS:—President, W. V. Huntington, San Francisco. Cal.; Vice-President, Charles F. Crocker, San Francisco, Cal; Treasurer, E H. Miller, Jr., San Francisco, Cal Secretary Timothy Hopkins, San Francisco, Cal.

**Northern Central.**—The comparative statement of gross earnings and expenses for December and for the twelve months ending December 31, is as follows:

| | December. | | 12 mos. ended Dec. 31. | |
|---|---|---|---|---|
| | 1883. | 1882. | 1883. | 1882. |
| Gross earnings | $409,151 | $490,003 | $6,088,130 | $5,800,176 |
| Operating expenses | $299,096 | $347,032 | $3,351,749 | $3,386,192 |
| Extraordinary expenses | 90,074 | 116,283 | 180,055 | 456,130 |
| Total expenses | $389,771 | $461,315 | $3,831,604 | $3,842,323 |
| Net earnings | $19,380 | $28,688 | $2,256,525 | $1,957,852 |

**Northern Pacific.**—This company is preparing to go on with its Cascade Division which is a part of the main line on which first mortgage bonds can be issued at $25,000 per mile. The following notice is given:

NORTHERN PACIFIC RAILROAD COMPANY,
St. Paul, Minn., Jan. 12, 1884.

Sealed proposals will be received at this office until the twelfth day of February, 1884, inclusive, for doing the work of clearing, grubbing, grading, building, and furnishing cross-ties for about SIXTY (60) miles of the Cascade Branch of the Northern Pacific Railroad from the present end of track, twenty-five (25) miles west of Wallula, in Washington Territory, to Yakima City, in the same Territory. Maps, profiles and plans may be seen, and specifications, forms of contract, and blank forms for proposals obtained, at the office of the Engineer-in-Chief, St. Paul, Minn. The company reserves the right to reject any and all bids.

A. ANDERSON, Engineer-in-Chief.

**Ohio & Mississippi.**—The suit of Dumfel *et al.*, *vs.* Ohio & Mississippi Railroad, to set aside the contract by which the latter company became the owner of that portion of its road running from Beardstown to Shawneetown, Ill., 222 miles, known as the Springfield division, has been decided by the United States Supreme Court adversely to the plaintiffs. The court holds that the complainants have not shown any ground which would justify the court on their application in inquiring into the validity of the transaction set forth in their bill. The road was purchased January 1, 1875, for $1,700,000 in bonds, secured by a mortgage thereon.

**Oregon Improvement Company.**—The floating debt of the Oregon Improvement Company is estimated at about $1,250,000, of which $65,000 represents a final payment nearly due on a new steamship, $67,000 for equipment of the vessel, and $30,000 for insurance. About 130,000 acres of land have lately been sold to the Oregon Navigation Company for $520,000, practically reducing the floating debt to $730,000. It is thought that the March dividend will be passed in order to pay off the floating debt, but dividends be resumed in September.

**Pennsylvania Railroad.**—The gross and net earnings in Dec., 1882 and 1883, are specially compiled for the CHRONICLE in the table below. In December, 1883, there was a decrease of $316,659 in gross earnings and a decrease of $1,625 in the net. For the year 1883 there was an increase of $2,003,418 in gross and $903,673 in net earnings.

ALL LINES EAST OF PITTSBURG AND ERIE.

| | Gross Earnings. | | Net Earnings. | |
|---|---|---|---|---|
| | 1883. | 1882. | 1883. | 1882. |
| January | $3,929,357 | $3,373,321 | $1,471,058 | $1,074,266 |
| February | 3,712,215 | 3,306,750 | 1,336,694 | 1,079,621 |

| Total year | $803,948 | $1,924,365 | Dec. $1,120,517 |

**Richmond & Danville.**—The directors of the Richmond & Danville Railroad Company have taken no action on the offer of financial aid recently made by the city of Baltimore. It is understood that the city has offered to loan the company $2,000,000 at 6 per cent, payable at the option of the company at any time within fifty years. The object of the offer is to put the Richmond & Danville in harmony with the Baltimore & Ohio Railroad line.

A prominent director of the Richmond & Danville Railroad Company said that the offer did not contemplate an exclusive contract between the two railroad companies. "The offer was made without solicitation by us," he said, "and, as I understand it, the city wishes simply to improve its railroad facilities. The security that the city asks for its loan is the pledge of a like amount of Virginia Midland income bonds, which we have in the company's treasury. There are really no conditions to the loan. The city of Baltimore is anxious to have an interest in the Southern system of railroads, and this is its offer to our company. As to the agreement between the city and the Baltimore & Ohio RR. in regard to this action by the city, I cannot speak, for the simple reason that I do not know and have not inquired. What the company's directors will do about the offer I certainly cannot say."—*N. Y. Tribune.*

**Union Pacific.**—The report of the Government directors fro the year ending June 30, 1883, gives nothing essentially new concerning this company, and the reports of gross and net earnings in the CHRONICLE are to much later dates.

The *Boston Journal* gives the following as to this company's new branches: Manager Kimball of the Union Pacific reports the construction of 375½ miles of new road by his company in 1883, at a cost in round figures of $56,00,000. The most important work was the building of 264 miles of the Oregon Short Line, making 597 miles now completed, and carrying the road well into Oregon. With the exception of the Wood River Branch from Shoshone to Hailey, 56 miles, no attempt has been made as yet to develop the tributary country, all efforts being directed to pushing forward the main line. The junction of the Oregon Short Line and Oregon Railway & Navigation Company will be at Huntington, Oregon, to which point it was understood that both lines would be completed in December last. Under Villard's management, however, the construction forces of the Railway & Navigation Company were set to work on the Northern Pacific, and the former line is badly behind. Awaiting connection with the Oregon Railway & Navigation Company, the Union Pacific is forwarding freight and passengers to Portland, via the Utah Northern and Northern Pacific, transfers to the latter being made at Garrison.

In Colorado the Union Pacific is branching out in all directions. The South Park Division, thirty-five miles, from Dillon to Leadville, was built under strong opposition from the Denver & Rio Grande, and it was found necessary many times to keep armed men on guard, and occupy the track with loaded trains as fast as laid in order to prevent it being torn up. In the Valley of the Arkansas a connecting link between the Gunnison Branch and the main line has been constructed, running from Nathrop to Buena Vista. Also, nine miles on the Boulder Branch of the Colorado Central, and some six miles at Georgetown, on the Union Pacific & Colorado.

With the exception of the extension from Lincoln to Beatrice, twenty miles, and one from Genoa to Fullerton, fourteen miles, there was but little work done by the Union Pacific in Nebraska in 1883. The Beatrice extension referred to is a part of the cross road which is to tap the Kansas Pacific at Manhattan, crossing the Kansas Central at Garrison.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, Jan. 25, 1884.

Fresh troubles on the Stock Exchange have again caused much uneasiness in commercial circles, and had a depressing influence upon speculative values. The weather has been unfavorable to active business, and general trade is dull. Some additional failures of importance are reported, which have further contributed to the disquieting effect of the Wall Street troubles. Still the situation is less one of actual difficulty than of apprehension, and the approach of spring may bring the needed return of confidence.

During the early part of the week provisions were weakened by free sales to realize at the West. Latterly the tone has improved, in sympathy with a higher market for cereals, coupled with larger buying orders. To-day lard opened firm, but fell off toward the close, and the final figures were weak. January quoted 9·27@9·30c.; February, 9·28@9·30c.; March, 9·32@9·35c.; April, 9·43@9·45c.; May, 9·52@9·55c.; June, 9·55@9·60c. On the spot Western sold at 9·27½c.; refined to the Continent, 9·50c.; South America, 9·75c. Mess pork has latterly been very strong, and to-day there were sales on the spot at $15@$15 50, and clear back $18@$19. Beef, while quiet, has remained steady at $24@$26 for city extra India mess. Beef hams steady at $23 75@$24. Bacon is firm at 8c. for long clear. Butter is less firm, the best creameries being reduced to 40c. Cheese, however, remains firm at 13¼@14c. for the best State factory. Tallow quiet but steady at 7½@7⅝c. for prime. Stearine dull at 9⅝@9¾c. for prime and 8⅝@8¾c. for oleomargarine.

Rio coffee on the spot has been quiet and weaker, closing about steady at 12½c. for fair; options have been less active even than last week, but prices have nevertheless advanced, and closed steady at 10·35c. for February, 10·60c. for March, 10 75c. for April, 10·85c. for May and 10·95c. for June; mild grades have been more active in the case of Maracaibo, but at somewhat lower prices; other grades have been to a great extent nominal in value. Tea has been active both on the spot and for future delivery at firm prices. Spices have been in good demand and firm. Rice has been fairly active and steady. Foreign fruits have been firm and moderately active. Molasses has been in moderate demand and steady. Raw sugar has been more active, but has shown no improvement in prices, options, in fact, being weak; to-day the market was quiet and steady; fair closed at 5¾@5 13-16c.; refined was fairly active and steady; crushed closed at 8¼c., powdered at 8⅛c., granulated at 7⅞c. and standard "A." at 7 7-16@7½c.

In Kentucky tobacco a better business, embracing 313 hhds., 130 of which were for export, has been done at about steady figures; lugs 7@8c.; leaf, 8½@11½c. The business in seed leaf has been quite insignificant, but no material changes in prices have been noted. Sales embrace 850 cases, including 400 cases crop 1882, Pennsylvania, 5@18c.; 150 cases crop 1881, do., 8@11c.; 150 cases crop 1882, Wisconsin Havana, 14@20c.; 150 cases crop 1882, sundries, 4½@20c.; also 1,000 bales Havana, 80c.@$1 15.

There has been a week of inactivity in naval stores, and prices at best have been little more than nominal at $1 45@$1 50 for strained to good strained rosin; spirits turpentine is quoted at 34½c. in yard. Refined petroleum has had a better export movement for the first part of February at 9½c. for 70 Abel test; cases have been advanced to 11⅜@12⅜c. Crude oil certificates have had a vacillating week; the speculation has been among the broker fraternity, and at times much easiness has prevailed. To-day there was a better market, and after selling at $1 09⅞, the closing figures were $1 10⅜. Ingot copper remains firm at 15c. for Lake. American pig iron has continued active, the sales now aggregating 78,000 tons; No. 1 $20 50@$21. Steel rails have been firm, and 20,000 tons have been recently sold at $35, deliverable at the mills.

The business in ocean freight room has been larger. Berth tonnage has improved a trifle as to rates, and the inquiries for oil charter room have imparted a brighter feeling to that description of freight room. To-day grain was taken to Liverpool by steam at 3¾d. from store; bacon, 20@25s.; cheese, 30s.; cotton 3-16@7-32d.; grain to London, by steam, 2⅞d.; do. to Leith, by steam, 4⅛d. from store; do. to Newcastle, by steam, 3¾d.; do. by sail, to Lisbon, 11@11½c. refined petroleum to Hamburg, 2s. 5¼d.

# COTTON.

FRIDAY, P. M., January 25, 1884.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Jan. 25) the total receipts have reached 104,533 bales, against 110,467 bales last week, 90,245 bales the previous week and 140,612 bales three weeks since; making the total receipts since the 1st of September, 1883, 3,862,207 bales, against 4,148,631 bales for the same period of 1882-83, showing a decrease since September 1, 1883, of 286,424 bales.

The speculation in futures at this market began the week under a feeling of some depression, owing to the increased movement of the crop and the enlarged estimates of receipts at the ports for the current week. Prices declined during Saturday and Monday, but on Tuesday there was some recovery. Wednesday opened stronger, but the semi-panic in certain railroad securities caused a heavy selling movement at the close, in which not only the early advance was lost, but prices returned to about the closing figures of Monday. On Thursday there was a more confident tone; the Liverpool and New Orleans markets were better; it became evident that early estimates of crop movement would not be realized, and prices were quite buoyant, closing firm at 6 to 8 points advance. This morning there was some further improvement, but the demand was limited, and the market soon relapsed into stagnation; but the close was steady. The changes from last Friday are an advance of 1@3 points for this crop and 1@3 for the next. The wide difference between February and March is attributed to anticipations of free deliveries on February contracts. Cotton on the spot has been without feature, so far as the volume of business is concerned. Quotations were reduced 1-16c. on Wednesday and advanced 1-16c. to-day, standing at the close at 10 11-16c. for middling uplands, the same as last Friday.

The total sales for forward delivery for the week are 393,100 bales. For immediate delivery the total sales foot up this week 2,704 bales, including 100 for export, 1,830 for consumption, 274 for speculation and 500 in transit. Of the above, —— bales were to arrive. The following are the official quotations for each day of the past week.

* Includes sales in September, 1883, for September, 76,200; September-October, for October, 338,600; September-November, for November, 399,800; September-December, for December, 869,500.

☞ We have included in the above table, and shall continue each week to give, the average price of futures each day for each month. It will be found under each day following the abbreviation "Aver." The average for each month for the week is also given at bottom of table.

Transferable Orders—Saturday, 10·60c.; Monday, 10·60c.; Tuesday, 10·60c.; Wednesday, 10·60c.; Thursday, 10·65c.; Friday, 10·70c.

**The following exchanges have been made during the week:**

17 pd. to exch. 600 Feb. for Mar.
3 2 pd. to exch. 500 Feb. for April.
4 6 pd. to exch. 100 Feb. for May.
6 2 pd. to exch. 700 Feb. for June.
18 pd. to exch. 100 Feb. for Mar
40 pd. to exch. 2,000 Apr. for July
16 pd. to exch. 500 Mar. for April.
27 pd. to exch. 2,000 Apr. for June
47 pd. to exch. 6,300 Feb. for May.
47 pd. to exch. 1,700 Feb. for May.
47 pd. to exch. 200 Feb. for May.
48 pd. to exch. 500 Mar. for May.
19 pd. to exch. 500 Feb. for Mar.
18 pd. to exch. 200 Feb. for Mar.
18 pd. to exch. 100 Feb. for Mar.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. The Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Jan. 25), we add the item of exports from the United States, including in it the exports of Friday only.

☞ The imports into Continental ports this week have been 50,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 218,459 bales as compared with the same date of 1883, an *increase* of 306,083 bales as compared with the corresponding date of 1882 and an *increase* of 617,029 bales as compared with 1881.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since Sept. 1, the shipments for the week, and the stocks to-night, and the same items for the corresponding period of 1882-83—is set out in detail in the following statement

| Towns. | Movement to January 25, 1884. Receipts. This week. | Receipts. Since Sept. 1, '83. | Shipm'ts. This week. | Shipm'ts. Since Sept. 1, '83. | Stock Jan. 25. | Movement to January 26, 1883. Receipts. This week. | Receipts. Since Sept. 1, '82. | Shipm'ts. This week. | Shipm'ts. Since Sept. 1, '82. | Stock Jan. 26. |

| Louisville | 10⅜ | 10⅜ | 10⅜ | 10⅜ | 10⅜ | 10⅜ |

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports.

RECEIPTS FROM PLANTATIONS.

| " 25 | 92,081 | 138,400 | 104,533 | 400,986 | 370,749 | 330,900 | 74,031 | 119,182 | 74,718 |

The above statement shows—1. That the total receipts from the plantations since September 1, 1883, were 4,143,951 bales; in 1882-83 were 4,482,895 bales; in 1881-82 were 4,048,042 bales.

2.—That, although the receipts at the out-ports the past week were 104,533 bales, the actual movement from plantations was only 74,718 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the same week were 119,182 bales and for 1882 they were 74,024 bales.

AMOUNT OF COTTON IN SIGHT JANUARY 25.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to January 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight.

| | 1883-84. | 1882-83. | 1881-82. | 1880-81. |
|---|---|---|---|---|
| Receipts at the ports to Jan. 25 | 3,862,207 | 4,148,631 | 3,692,481 | 3,964,141 |
| Interior stocks on Jan. 25 in excess of September 1 | 281,744 | 334,264 | 355,561 | 267,483 |
| Tot. receipts from plantat'ns | 4,143,951 | 4,482,895 | 4,048,042 | 4,231,624 |
| Net overland to January 1 | 382,415 | 413,082 | 323,510 | 316,763 |
| Southern consumpt'n to Jan. 1 | 123,000 | 130,000 | 100,000 | 85,000 |
| Total in sight January 25 | 4,649,366 | 5,025,977 | 4,471,552 | 4,633,387 |

It will be seen by the above that the decrease in amount in sight to-night, as compared with last year, is 376,611 bales, and that the increase as compared with 1881-82 is 177,814 bales, and with 1880-81 is 15,979 bales.

WEATHER REPORTS BY TELEGRAPH.—There has been rain or snow in all sections of the South during the week, and in some districts the rainfall has been rather heavy. The temperature has also been lower, but not so low as two weeks since.

*Galveston, Texas.*—We have had rain on two days of the week, the rainfall reaching one inch and thirty-four hundredths. Ice formed in this vicinity on two nights of the week. The thermometer has ranged from 24 to 64, averaging 44.

*Indianola, Texas.*—There has been rain on two days of the week, the rainfall reaching fifty-eight hundredths of an inch. Ice formed on two nights. Average thermometer 45, highest 67 and lowest 22.

*Palestine, Texas.*—It has rained on two days of the week, the rainfall reaching one inch and thirty-four hundredths. There have been five killing frosts during the week, and ice formed on three nights. It is terribly cold.

*New Orleans, Louisiana.*—It has rained on three days of the week, the rainfall reaching two inches and twenty-four hundredths. The thermometer has averaged 47.

*Shreveport, Louisiana.*—Telegram not received.

*Vicksburg, Mississippi.*—We are having too much rain. It has rained steadily on three days of the week, the remainder being cloudy, but at the close there is a favorable change. The rainfall reached four inches and fifty-eight hundredths. The thermometer has ranged from 22 to 53.

*Meridian, Mississippi.*—Telegram not received.

*Greenville, Mississippi.*—It has rained on two days of the week, the rainfall reaching two inches and twenty-seven hundredths. Average thermometer 42, highest 57 and lowest 24.

*Columbus, Mississippi.*—It has rained on two days of the week, the rainfall reaching two inches and sixty-eight hundredths.

*Little Rock, Arkansas.*—It has been cloudy on five days of the week, with rain on one, the rainfall reaching twenty-one hundredths. The thermometer has averaged 28, the highest being 45 and the lowest 11.

*Pine Bluff, Arkansas.*—Telegram not received.

*Fort Smith, Arkansas.*—Telegram not received.

*Helena, Arkansas.*—We have had rain on two days, and the remainder of the week has been cloudy. The rainfall reached one inch and fourteen hundredths. Average thermometer 31, highest 48 and lowest 16.

*Monticello, Arkansas.*—Telegram not received.

*Memphis, Tennessee.*—We have had rain on four days and snow on one day of the week. The rainfall reached one inch and thirty-six hundredths. The thermometer has averaged 34, ranging from 15 to 51.

*Nashville, Tennessee.*—We have had rain on three days of the week, the rainfall reaching one inch and eighty-two hundredths. Snow fell here this week to the depth of six inches. The thermometer has ranged from 12 to 48, averaging 30.

*Mobile, Alabama.*—Telegram not received.

*Montgomery, Alabama.*—We have had rain on five days of the week, the rainfall reaching two inches and seventeen hundredths. We have had three killing frosts during the week. The weather is very cold to-day. The thermometer has averaged 39, the highest being 53 and the lowest 20.

*Selma, Alabama.*—It has rained on three days of the week, the rainfall reaching three inches and thirty-eight hundredths. Ice formed in this vicinity on three nights of the week. The thermometer has averaged 35, ranging from 19 to 47.

*Madison, Florida.*—Telegram not received.

*Macon, Georgia.*—It has rained on one day of the week. Average thermometer 42, highest 60 and lowest 15.

*Columbus, Georgia.*—We have had rain on two days of the week, the rainfall reaching three inches and fifty-six hundredths. The thermometer has averaged 34, the highest being 50 and the lowest 21.

*Savannah, Georgia.*—There has been rain on three days of the week, and the remainder of the week has been cloudy. The rainfall reached ninety-five hundredths of an inch. The thermometer has averaged 47, ranging from 23 to 63.

*Atlanta, Georgia.*—Telegram not received.

*Augusta, Georgia.*—The early part of the week was clear and pleasant, but during the latter portion we have had heavy general rain on three days, the rainfall reaching two inches and eight hundredths. The thermometer has ranged from 28 to 59, averaging 43.

*Charleston, South Carolina.*—It has rained on three days of the week, the rainfall reaching thirty-nine hundredths of an inch. The thermometer has averaged 47, the highest being 66 and the lowest 28.

*Columbia, South Carolina.*—There has been rain on two days of the week, the rainfall reaching two inches and twelve hundredths. The thermometer has averaged 40, ranging from 59 to 22.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock January 24, 1884, and January 25, 1883.

| | | *Jan. 24, '84* | | *Jan. 25, '83.* | |
|---|---|---|---|---|---|
| | | *Feet.* | *Inch.* | *Feet.* | *Inch.* |
| New Orleans | Below high-water mark | 4 | 8 | 10 | 4 |
| Memphis | Above low-water mark | 20 | 9 | 12 | 11 |
| Nashville | Above low-water mark | 23 | 9 | 30 | 0 |
| Shreveport | Above low-water mark | 10 | 11 | 18 | 6 |
| Vicksburg | Above low-water mark | 31 | 2 | 16 | [illegible] |

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

INDIA COTTON MOVEMENT FROM ALL PORTS.—We have re-arranged our India service so as to make our reports more detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to January 24.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

| Year | *Shipments this week.* | | | *Shipments since Jan. 1.* | | | *Receipts.* | |
|---|---|---|---|---|---|---|---|---|
| | *Great Brit'n.* | *Continent* | *Total.* | *Great Britain* | *Continent.* | *Total.* | *This Week.* | *Since Jan. 1.* |
| 1884 | 22,000 | 25,000 | 47,000 | 46,000 | 56,000 | 102,000 | 44,000 | 157,000 |
| 1883 | 10,000 | ..... | 1,000 | 28,000 | 28,000 | 56,000 | 37,000 | 127,000 |
| 1882 | 17,000 | 10,000 | 27,000 | 66,000 | 35,000 | 101,000 | 41,000 | 141,000 |
| 1881 | ..... | 1,000 | 1,000 | 13,000 | 16,000 | 29,000 | 26,000 | 90,000 |

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 7,000 bales, and an *increase* in shipments of 37,000 bales, and the shipments since January 1 show an *increase* of 46,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of January, for two years has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

| | Shipments for the week. | | | Shipments since January 1. | | |
|---|---|---|---|---|---|---|
| | Great Britain. | Continent. | Total. | Great Britain. | Continent. | Total. |
| Calcutta— | | | | | | |
| 1884..... | 2,700 | 800 | 3,500 | 9,000 | 800 | 9,800 |
| 1883..... | 3,000 | 1,000 | 4,000 | 18,000 | 2,500 | 20,500 |
| Madras— | | | | | | |
| 1884..... | ..... | ..... | ..... | 2,200 | ..... | 2,200 |
| 1883..... | ..... | ..... | ..... | 2,000 | ..... | 2,000 |
| All others— | | | | | | |
| 1884..... | 300 | ..... | 300 | 1,700 | ..... | 1,700 |
| 1883..... | ..... | ..... | ..... | 1,000 | ..... | 1,000 |
| Total all— | | | | | | |
| 1884..... | 3,000 | 800 | 3,800 | 12,900 | 800 | 13,700 |
| 1883..... | 3,000 | 1,000 | 4,000 | 21,000 | 2,500 | 23,500 |

The above totals for the week show that the movement from the ports other than Bombay is 200 bales *less* than same week last year. For the whole of India, therefore, the total shipments since January 1, 1884, and for the corresponding periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

| Shipments to all Europe from— | 1884. | | 1883. | | 1882. | |
|---|---|---|---|---|---|---|
| | This week. | Since Jan. 1. | This week. | Since Jan. 1. | This week. | Since Jan. 1. |
| Bombay..... | 47,000 | 102,000 | 10,000 | 56,000 | 27,000 | 101,000 |
| All other ports. | 3,800 | 13,700 | 4,000 | 23,500 | 5,700 | 33,200 |
| Total.. ..... | 50,800 | 115,700 | 14,000 | 79,500 | 32,700 | 134,200 |

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

Alexandria Receipts and Shipments.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

| Alexandria, Egypt, January 23. | 1883-84. | | 1882-83. | | 1881-82 | |
|---|---|---|---|---|---|---|
| Receipts (cantars*)— | | | | | | |
| This week.... | | 65,000 | | 65,000 | | 110,000 |
| Since Sept. 1 | | 2,307,000 | | 1,886,000 | | 2,437,350 |
| | This week. | Since Sept. 1. | This week. | Since Sept. 1. | This week. | Since Sept. 1 |
| Exports (bales)— | | | | | | |
| To Liverpool..... .... | 4,000 | 168,000 | 7,000 | 153,000 | 11,000 | 159,000 |
| To Continent .... .... | 5,000 | 76,000 | 4,000 | 49,000 | 7,319 | 95,301 |
| Total Europe..... | 9,000 | 244,000 | 11,000 | 202,000 | 18,319 | 254,301 |

* A cantar is 98 lbs.

This statement shows that the receipts for the week ending Jan. 23 were 65,000 cantars and the shipments to all Europe were 9,000 bales.

Manchester Market.—Our report received from Manchester to-night states that holders of yarns are less willing to sell at the reduced price, but that the cloth market is firm at unchanged prices. We give the prices of to-day below, and leave previous weeks prices for comparison.

European Supply and Consumption.—By cable we have to-day received the substance of Mr. Ellison's annual first of January cotton review, and it will be found in our editorial columns.

Jute Butts, Bagging, &c.—The market for bagging has not shown any improvement since our last report, and beyond a jobbing inquiry we hear of no business. The prices have been advanced by the association, and it has been settled to reduce the out-turn from the mills and not limit the sales as heretofore. The present quotations are 9½c. for 1½ lbs., 10c. for 1¾ lbs., 10¾c. for 2 lbs. and 11½c. for standard grades. Butts have been in better demand and prices are firmer, owing to higher prices abroad. We hear of sales of 2,000 bales paper grades at 2⅜@2½c. on spot, while to arrive some 4,000 bales were placed at 2⅜c. Bagging grades have sold to the extent of 1,200 bales at 2⅞c. At the close sellers are asking 2½@2 9-16c. for paper and 2⅞c. for bagging.

Weather Record for November and December.—Below we give the rainfall and thermometer record for the months of Nov. and Dec. and previous months of this year and the two preceding years. The figures are from the records of the Signal Service Bureau, except at points where they have no station, and at those points they are from the records kept by our own agents.

* Figures for September and October, 1881, are for Corsicana.

The following remarks accompany the month's weather reports for December, 1883:

*Norfolk, Va.*—Frosts on the 1st, 4th, 11th and 22d.

*Wilmington, N. C.*—Frosts on the 11th, 12th, 13th, 17th and 18th.

*Murphy N. C.*—On the 17th snow fell to the depth of two inches, but did not stay but one day.

*Charlest m, S. C.*—Ice A. M. of 16th. Heavy hoar frost on the morning of the 18th. Very dry in Charleston and vicinity during first half of month.

*Spartanburg, S. C.*—Unusually heavy fogs during the month—foggy on 6 days.

*Savannah, Ga.*—First killing frost of season Dec. 18th. Heavy frost on the 29th.

*Macon, Ga.*—Receipts are showing exhaustion of crop in this section. Fully nine-tenths has been marketed. Rainfall for year 1883, 37·52 inches, and for 1882, 51·04 inches.

*Forsyth, Ga.*—Cotton has been all gathered and the work of the year has been completed—an unusual thing—and planters have nothing to do but to commence the work of another year from the first. Usually we have scattered cotton to gather, and have to finish up the sowing of oats after the first of January.

*Jacksonville, Fla.*—Strawberries, oranges and winter vegetables very much damaged by drought and frost.

*Cedar Keys, Fla.*—Ice formed on the 16th.

*Montgomery, Ala.*—Very heavy white frosts on the 16th, 26th, 28th and 29th. Rainfall 1·93 inches below the mean for past nine years.

*Greene Springs, Ala.*—No agricultural operations carried on and but little work done on the plantations. Cotton all gathered in November.

*Selma, Ala.*—Ice formed on three days in December.

*New Orleans, La.*—Frost on A. M. Dec. 16th.

*Shreveport, La.*—Heavy frosts occurred on mornings of the 15th, 16th and 28th.

*Ashwood, Tenn.*—Winter mild thus far. Very little cotton in the field.

*Austin, Tenn.*—We have had a great deal of cloudy weather this month, but no storm, and only a trace of snow.

*Galveston, Texas.*—Light frosts Dec. 16th and 17th.

NEW YORK COTTON EXCHANGE—COMMISSION LAW.—During the first eleven years after the opening of the Exchange, the rate of commission to be charged to customers was left optional, but when greatly increased competition, combined with the reduction of the price difference to 1-100 in all dealings in futures, had led to a partial trading on unremunerative terms, a law was passed, and came into force on May 1, 1881, which fixed the lowest commission for members at $5 and to non-members at $25 for buying and selling 100 bales, and attached the penalty of expulsion to all cases of evasion. This law had not been long in existence when complaints were heard that it acted against the interests of the Exchange, as it sensibly diminished orders from outsiders; and efforts were made to have it canceled or modified. At first they were resisted on the plea that the law had not been tried long enough to judge of its merits, and when, after renewed applications, opportunities were given to test the opinion of the members by a vote, the result thus far has proved adverse to a change, through the failure of the requisite two-thirds majority. The law has consequently remained in force, and at the end of this month will have had a trial of two years and nine months. Instead of its utility having been proved, it has restricted business more and more, and outsiders, after painful experiences, have almost entirely withdrawn; transactions show a marked falling off and fluctuations are small. The principal reason given hitherto for objecting to a change has been that it would be acting unfairly to those who bought seats in order to benefit by the rebate, of which advantage they ought not to be deprived. But it is asserted that in reality they are not benefitted by the law, as it has contracted business to such an extent that fluctuations are kept in so small a compass that there is little chance for making profits except by quick turns and by member trading with member, thus incurring no commission. Moreover, the value of the seats has declined. The managers of the Exchange appear to have come over to this view, as in response to the last application for a change, under date of about Dec. 10, they now propose to reduce the commission for

buying and selling 100 bales for outsiders from $25 to $15, and for a resident beyond the prescribed limits from $7 50 to $5—the present commission for members of $5 to remain without change. There will be a meeting held on Jan 30 to discuss the proposed new terms, when it may be expected that certificates for cotton delivered on contracts and the extension of the present price difference when bidding for future deliveries will again be recommended.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.—A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1, 1883, has been as follows.

| Monthly Receipts. | Year Beginning September 1. | | | | | |
|---|---|---|---|---|---|---|
| | 1883 | 1882. | 1881. | 1880. | 1879. | 1878 |
| Sept'mb'r | 343,812 | 326,656 | 429,777 | 458,478 | 333,643 | 288,848 |
| October.. | 1,046,092 | 980,584 | 853,195 | 968,318 | 888,49[illegible] | 689,264 |
| Novemb'r | 1,030,380 | 1,024,607 | 974,048 | 1,006,501 | 942,275 | 779,237 |
| Decemb'r | 1,05 ,653 | 1,112,536 | 996,807 | 1,020,802 | 956,464 | 893,664 |
| Totalyear | 3,479,937 | 3,514,473 | 3,253,822 | 3,454,099 | 3,120 871 | 2,651 013 |
| P'rc'tage of tot. port receipts Dec. 31.. | 58 38 | 68 93 | 58 80 | 62·39 | 59·60 | |

This statement shows that up to Dec. 31 the receipts at the ports this year were 34,536 bales less than in 1882 and 226,115 bales more than at the same time in 1881. By adding to the above totals to Dec. 31 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

| Percentage of total port rec'pts Jan. 25 | 68 31 | 77·52 | 66·29 | 72·74 | 70 33 | |

This statement shows that the receipts since Sept. 1 up to to-night are now 252,050 bales less than they were to the same day of the month in 1883 and 208,037 bales more than they were to the same day of the month in 1882. We add to the table the percentages of total port receipts which had been received to January 25 in each of the years named.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 140,795 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Thursday night of this week:

| | Total bales |
|---|---|
| NEW YORK—To Liverpool, per steamers Cephalonia, 1,701.... City of Chicago, 73....Olbers, 1,806....Wisconsin, 1,963.. | 5,543 |
| To Havre, per steamer France, 227 | 227 |
| To Bremen, per steamers Oder, 702... Salier, 999 | 1,701 |
| To Amsterdam, per steamer Amsterdam, 558 | 558 |
| To Antwerp, per steamer Rhynland, 783 | 783 |
| NEW ORLEANS—To Liverpool, per steamers Asturiano, 4,075.... Buenaventura, 3,300....Humacao, 5,650....Kepler, 3,375 ... Sapphire, 5,900.....Sculptor, 2,837.....Tamaulipas, 3,596....Venezuelan, 2,897 | 31,630 |
| To Havre, per steamer Marseille, 4,885.....per barks Agostino C., 3,005....Nimrod, 2,082 | 9,972 |
| To Bremen, per steamers Caradoc, 3,400....Sacrobosco, 2,500 | 5,900 |
| To Sebastopol, per steamers Cassius, 6,200....Elmfield, 4,875 | 11,075 |
| MOBILE—To Liverpool, per barks Arcadia, 2,186....Rebus, 3,028 | 5,514 |
| CHARLESTON—To Bremen, per steamer Yoronba, 4,600 Upland. | 4,600 |
| To Gottenburg, per brig Albatross, 1,025 Upland | 1,025 |
| To Barcelona, per brig Virgenes, 590 Upland | 590 |
| SAVANNAH—To Liverpool, per ship Macdougall, 4,011 Upland ....per barks Mary Graham, 2,470 Upland....Romanoff, 3,782 Upland | 10,263 |
| To Amsterdam, per steamer Orsini, 5,598 Upland | 5,598 |
| To Ghent, per brig Economy, 1,591 Upland | 1,591 |
| To Barcelona, per steamer Chiswick, 3,500 Upland | 3,500 |
| GALVESTON—To Liverpool, per steamer Westergate, 4,508.... per ship Dunrobin, 4,393 | 8,901 |
| To Vera Cruz, per steamer Whitney, 326 | 326 |
| NORFOLK—To Liverpool, per steamers Athabasca, 7,270.... Crane, 5,800....per ship Equator, 4,180 | 17,250 |
| NEWPORT NEWS—To Liverpool, per steamer Nubian, 3,944 | 3,944 |
| BALTIMORE—To Liverpool, per steamer Oranmore, 2,108 | 2,108 |
| BOSTON—To Liverpool, per steamers Illyrian, 1,298 ...Iowa, 2,462....Venetian, 2,003 | 5,763 |
| PHILADELPHIA—To Liverpool, per steamer British Crown, 2,235 | 2,235 |
| SAN FRANCISCO—To Liverpool, per ship Scottish Minstrel, 198 (foreign) | 198 |
| Total | 140,795 |

The particulars of these shipments, arranged in our usual form, are as follows:

Below we add the clearances this week of vessels carrying cotton from United States ports, bringing our data down to the latest dates:

GALVESTON—For Liverpool—Jan. 18—Steamer Phoenix, 4,362....Jan 19—Steamer Sirocco, 5,406; bark Herbert, 4,455....Jan. 22—Steamer Amoor, 5,975... Jan. 23—Brig Alphonsine, 744.
For Havre—Jan. 21—Bark Matthanja, 1,361.
NEW ORLEANS—For Liverpool—Jan. 19—Steamer Geofredo, 5,850.... Jan. 21—Steamers Chancellor, 4,096; Humboldt, 2,686; Lemuria, 4,287.
For Havre—Jan. 19—Steamers Avon, 2,012; Irthington, 5,250.... Jan. 22—Steamer Flachat, 3,786.
For Bremen—Jan. 21—Bark Boretelj, 2,248.
For Genoa—Jan. 19—Bark Vesuvio, 1,157.
MOBILE—For Liverpool—Jan. 22—Bark H. W. Palmer, 1,349....Jan 24—Ship Flying Foam, 4,650.
SAVANNAH—For Liverpool Jan 18—Steamer North Britain, 4,924
For Bremen—Jan. 21—Steamer Clintonio, 6,058.
For Corunna—Jan. 23—Brig Selina, 600.

CHARLESTON—For Liverpool—Jan. 18—Steamer Hesper, 4,262....Jan. 21—Steamer Scandinavia, 2,639; bark Venice, 2,000.
For Havre—Jan. 22—Bark Crown Jewel, 2,344.
For Genoa—Jan. 19—Bark Nellie T. Guest, 2,300.
NORFOLK—For Liverpool—Jan. 19—Steamer Winthorpe, 3,490.
BOSTON—For Liverpool—Jan. 16—Steamer Palestine, 2,042....Jan. 18—Steamer Catalonia, 136.
BALTIMORE—For Liverpool—Jan. 21—Steamer Nova Scotian, 2,385....Jan. 22—Steamer Mentmore, 1,439....Jan. 23—Steamer Hugo, 3,949.
For Rotterdam—Jan. 19—Steamer Lord Collingwood, 467.
PHILADELPHIA—For Liverpool—Jan. 21—Steamer Pennsylvania, 930.
For Antwerp—Jan. 23—Steamer Nederland, ——.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.:

STRATHLEVEN, steamer (Br.), loading cotton at Tybee, S. C. Fire was discovered Jan. 20 in the forward lower hold of the British steamer Strathleven, at Tybee, S. C., in which there were about 1,000 bales of cotton. Two tugs were sent alongside to fill the compartment with water. The fire was under control at 9 P. M. of the same day. The damage to cargo has not been fully ascertained as yet.

SOLID, bark (Nor.), Bautson, at Galveston, for Liverpool, was on fire Jan. 22. The fire was extinguished by the crew with only two bales of cotton partly burned.

## BREADSTUFFS.

FRIDAY, P. M., Jan. 25, 1884.

Flour has been more active at times of late, but, as a rule, only moderately active, and, though when trade improved the market became rather firmer, the tendency of prices in the main has been downward. The supply here is large, and even burdensome, especially that of spring wheat flour, while the demand has been mainly for the lower grades of shipping brands and some descriptions of winter wheat. To-day the market was generally quiet and depressed. Towards the close, however, the demand increased, and after sales of 20,000 barrels the market closed firm.

Wheat has been fairly active, both for export and on speculation, and, though early in the week there was some depression in prices, there has latterly been a recovery and some advance. There have been no further postings of unsound wheat and no new failures or embarressments in the trade. The advance latterly is attributable more to a natural reaction after the recent heavy decline than to any positive change in the general situation. This, indeed, remains essentially the same as it has been for some time past. The supplies here and in Europe are still burdensome, and the competition of foreign wheat in European markets is still much too active to be ignored, while the lack of storage facilities at Chicago is still an unfavorable feature, so far as the West is concerned. The visible supply in this country has decreased slightly, but this is due party to the fact that some of the Chicago stock has been withdrawn, and stored in propellers to remain till the opening of spring navigation. To-day the market was fairly active at an advance of ⅛ to 1c. The closing prices to-day for No. 2 red were $1 05 for January, $1 06 for February, $1 08½ for March, $1 10⅞ for April, $1 13¼ for May and $1 14 for June, these prices being 2c. to 2½c. higher than those of a week ago. No. 2 Milwaukee spring wheat to arrive sold at $1 06. White wheat was scarce and nominal.

Indian corn has been only moderately active, but prices have latterly advanced in sympathy with the rise in wheat. The speculation at this market has greatly decreased within the last month, while the foreign trade has, as a rule, been light. The visible supply in the United States has increased 1,000,000 bushels, according to the latest statement. Aside from this there is nothing really new in the statistical situation. To-day the market was a fraction higher. The closing prices for No. mixed were 61½c. for January, 61¾c. for February, 63c. for March, 64¼c. for April and 66c. for May.

Rye and barley have been moderately active and steady. Oats have been less active at some decline, but within a few days have become firmer. No. 2 mixed sold to-day at 40c. February, 41c. for March and 42⅛@42¾c. for May.

The following are closing quotations:

| Same wk. '82 | 137,962 | 619,459 | 2,584,610 | 1,152,493 | 291,280 | 56,887 |
| Since Aug. 1— | | | | | | |
| 1883 | 4,863,990 | 53,594,098 | 58,422 039 | 34,200 323 | 12,301,161 | 5,463 673 |
| 1882 | 5,099,806 | 53,890,378 | 38,865,592 | 27,375,243 | 9,838,801 | 2,645,056 |
| 1881 | 4,139,911 | 27,478,167 | 66,038,63. | 18,899,897 | 8,669,157 | 2,876,031 |

The comparative shipments of flour and grain from the same ports from Dec. 24, 1883, to Jan. 19, 1884, inclusive, for four years, show as follows:

| | 1883-84. | 1882-83. | 1881-82. | 1880-81. |
|---|---|---|---|---|
| Flour bbls. | 696,545 | 926,514 | 518,851 | 680,096 |
| Wheat bush. | 1,527.675 | 1,381,582 | 1,576,076 | 1,661.110 |
| Corn | 4,.79,906 | 5,495,.55 | 3,808 655 | 2,846 924 |
| Oats | 1,825,338 | 2,477,890 | 2,200 470 | 1,777 023 |
| Barley | 570,270 | 873.703 | 532.718 | 688,278 |
| Rye | 192,386 | 173,369 | 170,406 | 199,474 |
| Total grain | 8,695,573 | 10,401,799 | 8,287.755 | 7,172,809 |

Below are the rail shipments from Western lake and river ports for four years:

| | 1884. Week Jan. 19. | 1883. Week Jan. 20. | 1882. Week Jan. 21. | 1881 Week Jan. 22 |
|---|---|---|---|---|
| Flour bbls. | 179,625 | 172,214 | 127,335 | 170.078 |
| Wheat bush. | 557,685 | 314,238 | 359,622 | 187.759 |
| Corn | 1,617,324 | 1,327,961 | 1,322,603 | 712 99 |
| Oats | 741.428 | 690.488 | 825,763 | 427,119 |
| Barley | 182,990 | 202.245 | 80,840 | 142,715 |
| Rye | 60.748 | 36 877 | 36,804 | 31,951 |
| Total | 3,160,175 | 2,571,809 | 2,634,632 | 1,532,536 |

The rail and lake shipments from same ports for last four weeks were:

| *Week ending—* | *Flour, bbls.* | *Wheat, bush.* | *Corn, bush.* | *Oats, bush.* | *Barley, bush.* | *Rye bush.* |
|---|---|---|---|---|---|---|
| Jan. 19. | 179,625 | 5 7 685 | 1,617 324 | 741.128 | 182,990 | 60.748 |
| Jan. 12. | 149,592 | 4 5.778 | 1,108,404 | 431.-13 | 153,406 | 74,500 |
| Jan. 5. | 147,886 | 269,278 | 901,885 | 336,62 | 116 523 | 32,9 7 |

* Includes millers' stocks.
† Includes search ins ories' stocks.
‡ The store stock of wheat was decreased last week 3 2,196 bushels, put afloat in vessels for export and not cleared up to the 20th inst. This would, if cleared, have reduced the floating stock in New York (in this statement 8 0,797 bushels) to 428,600 bushels, and would have made a decrease in visible wheat of 50 ,000 bushels.

The following statement, prepared by the Bureau of Statistics, will show the exports of domestic breadstuffs from the undermentioned customs districts, during the month of Dec., 1883, and for the twelve months ended the same, as compared with the corresponding months of the previous year:

| Customs Districts. | Barley. | | Indian corn. | | Indian corn meal. | | Oats. | | Rye. | |

## THE DRY GOODS TRADE.

FRIDAY, P. M., Jan. 25, 1884.

The general demand for dry goods was somewhat disappointing the past week, but a fairly satisfactory business was done in a few descriptions of spring and summer goods by the domestic commission houses. Recent events have not tended to restore confidence in the most staple cotton goods, and though some large purchases of certain kinds were stimulated by very low prices, most buyers have shown a determination to pursue a cautious hand-to-mouth policy for the present. The movement in domestic woolens was very light as regards fabrics adapted to men's wear, but miscellaneous woolens were a trifle more active in agents' hands. Imported goods have met with rather more attention from intending buyers, but actual business was restricted in volume. The jobbing trade was irregular and upon the whole quiet, but a fair package business in domestics, prints, ginghams, hosiery, &c., was done by a few of the leading jobbers.

DOMESTIC COTTON GOODS.—The exports of domestics for the week were 2,143 packages, the principal shipments having been 640 to great Britain, 629 to Argentine Republic and 330 to Brazil. The demand for plain and colored cottons was quite irregular, and for the most part of a hand-to-mouth character Some large sales of four-yard brown sheetings were made by agents, but at very low prices, and other brown cottons were lightly dealt in. Drills, especially Southern brands, ruled very quiet, and though a fair aggregate business was done in bleached shirtings, selections were individually light. Wide sheetings were in steady request, and colored cottons were only in moderate demand, buyers of the latter having been pretty well stocked-up by recent purchases. White goods and quilts were in fair demand, and prices remained steady as a rule. Agents' quotations for staple cottons have not materially changed, but the tone of the market is unsettled. Print cloths were in moderate demand and steady, at 3½c. for 64x64s and 3 1-16c. for 56x60s. Prints were distributed in small lots to a fair aggregate amount, and there was a fairly good business in ginghams, chambrays, seersuckers and wash fabrics

DOMESTIC WOOLEN GOODS.—There was a continuation of the quiet tone lately noted in the market for men's-wear woolens and business in this connection was light and unsatisfactory. Spring cassimeres and worsteds were taken in small lots for the renewal of broken assortments, but heavy goods ruled quiet. Satinets and Kentucky jeans met with moderate sales, but the demand lacked spirit. Ladies' cloths, tricots, sackings, Jersey cloths and stockinettes were in better request, and sales in this connection were fairly satisfactory in the aggregate, while there was an active business in dress goods, in which both all-wool and worsted fabrics participated. White flannels were in good request, but colored makes ruled quiet, and the demand for blankets was comparatively light. Wool hosiery and underwear continued quiet as usual at this stage of the season. Carpets were in fair demand and steady at opening prices.

FOREIGN DRY GOODS.—The demand for imported goods has not yet become active, but a moderately increased business was done in a few specialties. Dress goods were more sought after, and some fair orders were placed for men's-wear woolens for next fall. Velveteens were in steady request, and silk and velvet ribbons were moderately active; but dress silks and silk velvets remained quiet. White goods and embroideries were in fair request, as were imitation laces, and hosiery and gloves met with increased attention.

### Importations of Dry Goods.

The importations of dry goods at this port for the week ending Jan. 24, 1884, and since January 1, and the same facts for the corresponding periods of 1883, are as follows:

| | Week Ending Jan. 25, 1883. | | Since Jan 1, 1883. | | Week Ending Jan. 24, 1884. | | Since Jan. 1, 1884. | |

### *THE FINANCIAL SITUATION.*

Little real change has taken place during the week in the actual conditions of our markets, though some events, mainly of local importance, have transpired in Wall street which for a time had a marked effect there. As to the commercial outlook, it is very slowly but certainly improving. This is by no means everywhere discernible, nor is it clear how far it will further develop. The iron industry, however, continues to show revival, one large establishment at least having resumed operations this week. Some other trades also report more doing, and although prices are still scarcely remunerative, yet with transactions increasing and production falling off, the tone has become more hopeful.

But there is one feature in the situation which is not reassuring; we refer to the phenomenal condition of our foreign exchange market. The returns of the Bureau of Statistics this week show a merchandise balance in our favor of $21,593,142 for December, of $61,988,665 for the last six months, while the cotton and breadstuffs shipments for January indicate a favorable balance of $15,000,000 or more for that month, making for the seven months ending with yesterday, Feb. 1, nearly if not more than $77,000,000. Yet, notwithstanding this condition of our trade, the rates for sterling are close up to the gold exporting point, with a fair prospect that any urgency in the demand will result in the shipment of gold. Taking the trade figures as the basis of our foreign accounts, and setting off $100,000,000 per year, or say $59,000,000 for the seven months, for undervaluations of imports, freight, interest, etc., we should still show a considerable balance outstanding to be settled for, a condition of indebtedness which would ensure exchange rates way below those now ruling.

These facts make it apparent that securities must have been returned to this country quite freely of late, though it may not be possible definitely to trace them. Such a movement is not surprising, in view of the conditions that have existed here and in Europe. First, we must remember that, relatively, the dearest thing in Europe and the cheapest thing here, to-day, is gold. London, Paris and Berlin, have a currency virtually on a gold basis, and their money markets are acutely sensitive to any loss of reserve. Here we are producing a precisely opposite relation, by forcing out a silver and silver certificate currency. Government is giving the banks a premium all the time, if they will take these certificates and push them into circulation. We thus over-value silver, and in doing it, undervalue gold; we force into use an inferior currency, and lose our grip upon the better. Under such circumstances Europe, in paying the balances she owes us, keeps what she can least afford to spare, and which, fortunately for her, we repel, sending us in its stead anything else we will take.

In this way it turns out that although the prices of many good stocks are temptingly low, yet, as we cannot accept their merchandise beyond a certain limit since business here is so depressed, Europe, having no other alternative, returns us our securities. Such a movement may be said, perhaps, to have found encouragement in recent events transpiring here, though in saying this, it ought not to be forgotten that foreign stock markets on former similar occasions have not only protected their holdings but enlarged them. Still, the collapse of the New York & New England, quickly followed by the disaster to the North River construction company, the decline in New York West Shore & Buffalo bonds, the fall in the Villard properties, and the semi-panic which resulted, doubtless had some disquieting effect abroad favoring the impression that other corporations would soon be compelled to succumb. But besides securities, another movement of capital is reported to be in progress, directly chargeable

to the relative cheapness of money here (due, is it not, to the very condition of our currency referred to above?) compared with London and the Continental cities and the prospect that a rise would soon occur in Europe, while the plethora which has so long existed in New York would continue. The movement we refer to is a transfer of bankers' balances to the other side, especially those having correspondents in Paris, in view of the prospective offering of the new French loan of 350 million francs. This transfer has not perhaps been large in extent; but, coming after our balance had been liquidated by the return of securities, may have been a feature in the more recent firmness which has prevailed in the foreign exchange market.

What makes all this especially important, and for that reason peculiarly unfavorable, is that we are about entering upon a portion of the year when cotton exports (our main item) must be very small, and when, therefore, if other things are to remain unchanged, the balance of trade must be against us. This will appear the more imminent if we examine one feature of the December trade exhibit which we have reviewed in a subsequent column. The point we would call attention to is the total merchandise exports in December, which were only 75½ millions, or about 17½ millions less than last December, and smaller than they have been any year in that month since 1878. But the fact of chief significance in connection with them is, that the small total is not explainable in the usual way by a decrease in cotton, breadstuffs and provisions, but apparently it is due to a lesser movement in the smaller items of exports as well, a loss running through the whole list evidencing the existence of a common cause or disease checking the outflow of our goods as well as produce. Now let the reader connect these facts with those respecting our currency and money market already cited, and then consider how could the evil referred to manifest itself more naturally and effectively than through just such a condition of prices which curtails exports. We doubt whether gold to any considerable amount will leave us, for either the fear of loss, as we have so little to lose, or, if that is not sufficient, the loss itself, will force prices into a condition at which our exports can go out and imports be further checked. In the meantime, however, this threat hanging over the markets cannot but interfere with a speedy revival of business.

With regard to the temper of the stock market, there has been a decided change during the week. Depression and distrust which were the features of last week have been very greatly relieved, through a removal of a cause which was materially contributing to produce such a condition. The managers of the Oregon & Trans-Continental Company were in financial straits. Some of their loans had been called in, and if the stocks which secured them were thrown upon the market, it would prove very disastrous to the values of all the late Villard properties. In this emergency, which was well known on the Street and had led to the large short sales, negotiations were unexpectedly to the bears closed with a syndicate of leading operators to take from that company at prices agreed upon 10,000 shares of Oregon Railway & Navigation and 30,000 each of Northern Pacific common and preferred, thus realizing $2,310,000. The company also borrowed of the same parties $1,200,000 for six months on 20,000 shares of the first-named stock. This transaction, together with the $8,000,000 loan negotiated early in January, withdrew from the market, for the time being, 120,000 shares of the Oregon Railway & Navigation company's stock, thus very largely reducing the floating supply. It also enabled the Oregon & Trans-Continental to meet pressing obligations, relieving it from the necessity of marketing any more of its assets.

The bears had, as already remarked, made free speculative sales of all the properties named, in expectation of being able to cover with the stocks which they assumed would be thrown over either by the lenders of the money borrowed on call or by the Oregon & Trans Continental. The fact of the negotiation was not made public until late on Saturday evening. At the opening of the market on Monday the bears sought to cover their short contracts in Oregon Railway & Navigation, and in the scramble for the stock the premium was forced up to 9 per cent and the price advanced 40½ per cent compared with the lowest on Saturday. The Northern Pacifics and Oregon Trans-Continental were affected in sympathy, and in fact the whole list advanced more or less rapidly. The leaders took advantage of the changed situation to carry the market steadily upward, and they doubtless succeeded in selling to the bears a considerable proportion of the stock they had bought during the period of depression. The result of the covering of the short interest in some of the specialties was seen on Thursday, when the market was inclined towards lower figures; but on Friday the upward movement was resumed and prices further marked up, the close in many cases being at the best figures of the day and week.

The meeting of the Philadelphia & Reading stockholders this week and the conservative course pursued, have been well received in financial circles. Unfavorable comment has been made with regard to the traffic statement just furnished for December. The figures, however, are easily explainable and should not be given too much importance as an indication of future returns. They show results as follows. To make the comparison we deduct the net of Central New Jersey, which is included this year but not last year.

| | *December*, 1883. | *December*, 1882. |
|---|---|---|
| Net earnings of Railroad | $885,557 | $838,609 |
| Deduct Central of New Jersey net | 270,295 | ..... |
| | $615,262 | $838,609 |
| Net earnings of Coal Company | Loss, 106,110 | Profit, 5,174 |
| Total of both companies | $509,152 | $843,783 |
| Loss on Central lease | 213,796 | ..... |
| Net result | $295,356 | $843,783 |

This gives a net income in 1883 of $295,356, against $843,783 in December, 1882, a falling off of $548,427. As stated, however, this should not be accepted as offering any criterion of what will be the outcome of future months. The unfavorable result on both the Railroad and the Coal Company for December is due entirely to the restricted production of coal, which was resolved upon by all the coal-producing companies, in order the better to maintain prices of that article. What an important influence this was will appear when we say that allowing for the Central of New Jersey the tons of coal which the Reading carried in 1883 aggregate only 492,382, against 706,565 tons in December, 1882, a contraction of 214,183 tons for the month. Of course this will continue an unfavorable feature only so long as the company finds it necessary to limit its output of coal. On the other hand, a most encouraging feature in the company's showing is the large movement of general merchandise and the increased volume of passengers carried. In December, 1882, the tonnage of merchandise amounted to 524,529 tons, while in December, 1883, it amounted to but little less, viz., 512,993 tons, which is really a very good exhibit, considering the universal depression prevailing in all branches of trade and industry, in view of which fact the gain of 100,000 passengers during the month, (from

958,703 in 1882 to 1,058,133 in 1883, always deducting the Central of New Jersey figures) is particularly significant, and offers much hope for the future. In this connection one cannot refrain from commending the policy of the managers of this road in frankly and openly and without reserve giving stockholders full information each month about the business and progress of their property, even though the showing may, as in the present instance, be temporarily unfavorable.

From the East Tennessee road we also have a statement of net earnings which is worthy of mention. It covers the first six months of the company's fiscal year, and presents a very satisfactory exhibit. The result shown is a gain of $367,521 in gross receipts during the half year, of which $316,518 went to swell net, making the total of the latter $1,072,063, against $755,545 in the corresponding half-year period of 1882. The following will show the result for each month separately in the two years.

| | Gross. | | Net. | |
|---|---|---|---|---|
| | 1883. | 1882. | 1883. | 1882. |
| July | $311,784 13 | $213,525 04 | $137,345 48 | $82,252 97 |
| August | 362,561 90 | 289,286 75 | 178,048 28 | 114,022 47 |
| September | 394,434 47 | 320,358 49 | 204,981 78 | 125,663 26 |
| October | 455,592 60 | 386,215 92 | 2 6,476 22 | 180,022 41 |
| November | 409,664 75 | 360,736 36 | 183,815 72 | 126,598 51 |
| December | 371,911 55 | 341,311 50 | 131,395 80 | 127,005 44 |
| Total | $2,308,985 5[illegible] | $1,911,434 06 | $1,072,063 28 | $755,545 06 |

Hardly as favorable a showing should be expected for the current half year, as the cotton movement is likely to be lighter, and the company a year ago was reporting very heavy gains in earnings. Besides, the second half of the fiscal year is usually a period of smaller business and earnings. Thus while the company earned $755,545 net, as shown above, in the six months from July to December 1882, in the six months from January to July 1883 it earned only $637,507 apparently, since the total for the whole fiscal year 1882–3, according to the annual report, was $1,393,052. But if the company makes no more net in the current half year than it did in the same six months of 1883, the total for the year 1883–4 would reach $1,709,570, or $326,263 in excess of the amount paid out in 1882–3 for interest and taxes, not including in this of course anything for the 16½ million income bonds outstanding, on which the payment of interest is not obligatory.

The following shows relative prices of leading bonds and stocks in London and New York at the opening each day.

*Expressed in their New York equivalent.
†Reading on basis of $50, par value.

Money cannot be otherwise than abundant with the banks in their present plethoric condition, and trust companies obliged, from the magnitude of the offerings, to reduce the interest on deposits. Banks at the interior cities have such an accumulation of funds from the institutions of which they are centres that the surplus is shipped hither, thus augmenting the supply already burdensome. A call for 10 million bonds matured on Friday, and payments for that portion of the unpaid 5½ millions which shall be immediately presented, together with the interest due on that date, will still further swell the bank reserves. The following statement, made up from returns collected by us, exhibits the week's receipts and shipments of currency and gold by the New York banks.

| Week Ending Feb. 1, 1884. | Received by N.Y. Banks. | Shipped by N.Y. Banks. | Net Interior Movement. |
|---|---|---|---|
| Currency | $1,843,000 | $200,000 | Gain $1,643,000 |
| Gold | 14,000 | ..... | Gain. 14,000 |
| Total gold and legal tenders | $1,857,000 | $200,000 | Gain. $1,657,000 |

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement, the banks have lost $500,000 through the operations of the Sub-Treasury. Adding that item therefore to the above, we have the following, which should indicate the total gain to the New York Clearing House banks of gold and currency for the week covered by the bank statement to be issued to-day.

| Week Ending Feb. 1, 1884. | Into Banks. | Out of Banks | Net Change in Bank Holdings. |
|---|---|---|---|
| Banks' Interior Movement, as above | $1,857,000 | $200,000 | Gain. $1,657,000 |
| Sub-Treasury operations, net | ..... | 500,000 | Loss. 500,000 |
| Total gold and legal tenders | $1,857,000 | $700,000 | Gain. $1,157,000 |

The Bank of England reports a decrease of £56,000 bullion for the week. This represents £403,000 received from the interior and £459,000 exported, the bulk of which has probably gone to Paris. The Bank of France shows a gain of 1,862,000 francs gold and a loss of 1,056,000 francs silver, and the Bank of Germany since the last return has gained 17,258,000 marks. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date in 1883.

| | Feb. 1, 1884. | | Feb. 2, 1883. | |
|---|---|---|---|---|
| | Gold. | Silver. | Gold. | Silver. |
| | £ | £ | £ | £ |
| Bank of England | 21,600,365 | ..... | 22,116,046 | ..... |
| Bank of France | 38,094,152 | 39,744,192 | 38,705,769 | 43,223,232 |
| Bank of Germany | 7,416,000 | 22,248,000 | 7,706,250 | 23,118,750 |
| Total this week | 67,110,517 | 61,992,192 | 68,528,065 | 66,341,982 |
| Total previous week | 66,876,303 | 61,387,182 | 67,601,291 | 66,033,426 |

The Assay Office paid $92,094 through the S[illegible] for domestic bullion during the week, and t[illegible] Treasurer received the following from the Custom[illegible]

| Date. | Duties. | Consisting of— | | | |
|---|---|---|---|---|---|

## ST. PAUL'S CHARGES AND INCOME.

The Chicago Milwaukee & St. Paul Railroad Company has this week issued a brief preliminary statement of its income account for 1883. Most all returns we have yet had for this period have been very satisfactory, and that of the St. Paul is evidently no exception to the rule. It certainly presents a showing which is quite in contrast with the discouraging predictions as to the property so freely indulged in by many, clearly demonstrating that whatever weak points there may be in the company's system of roads, they have not up to this time developed to any appreciable extent. Our readers understand that the chief element of uncertainty in connection with the St. Paul, is in determining the effect of operating so

much additional mileage—the system probably comprising a larger proportion of lately constructed road than any other system of like size in the country, and for this reason deemed peculiarly assailable. While it may be unwise to predicate upon the results of the past equally favorable anticipations for the future, it must be admitted that the outcome of the years 1881, 1882, 1883—and more particularly the latter—is full of encouragement to the friends of the property.

The gross earnings during 1883 reached $23,659,823, or over 3¼ million dollars more than in 1882, and the net aggregate $9,881,785, an improvement of $1,681,132. The charge for interest was of course heavier than in 1882, and so was the requirement for dividends on the stock, but after allowing for an increase of $587,872 in the former and $526,179 in the latter, or $1,114,051 together, there still remains $567,081 of the improvement in net to swell the balance on the year's operations. In other words, while in 1882 the company had left a surplus for the year of $619,612, after paying all charges and 7 per cent on both classes of stock, in 1883 this surplus, notwithstanding a large addition to the interest and dividend charges, was increased $567,081, to $1,186,693.

It should be said that the above figures and comparisons relate strictly to the operations of the railroad. In the preliminary statement of a year ago, it was announced that in addition to its ordinary revenue the company had received $1,014,223 from sales of land. This year no mention is made of receipts from land sales, and as the company substantially disposed of all its lands in 1882, we presume that little, if anything, was realized from this source. There was (at the end of 1882) a considerable amount still due the company on time contracts and mortgages arising from such sales—as much as $1,787,509—but against this $1,600,000 of land grant income bonds were put out in 1883, and we may suppose that any income on this account was applied in one way or another to these bonds. Assuming, therefore, that the ordinary revenue from the operations of the road was not swelled during 1883 as it had been in 1882 by land sales, the surplus of $1,186,693 for the past year would compare, not with $619,612 in the preceding year but with $619,612 plus $1,014,223, making together $1,633,835. Referring to the pamphlet report, however, we find that the $1,014,223 for land sales in 1882 given in the preliminary statement must have been too large, for in the income account in this pamphlet the company gives only $475,852 cash from land sales, while $109,604 is credited as premium on bonds and stock sold, and $38,358 as dividend on St. Paul & Duluth stock, or a total for the three items of $623,814. This then would seem all that was derived from outside sources in 1882, instead of the $1,014,223 as given. Adding that amount to the surplus from operations in 1882, and nothing at all in 1883, the balance in the two years would stand thus: in 1883 $1,186,693, in 1882 $1,243,426—making even on this basis a very favorable comparison.

But these miscellaneous receipts are after all of comparatively little importance, especially now that the item of land sales has practically disappeared. It is the operations and income of the railroad that must measure the company's progress in the past and furnish the guide to the future. And in this connection a summary of the fiscal results for five years past, will prove interesting. During this period, not only the system itself, but its earning capacity and general growth, has undergone marvellous development. With each succeeding year the company has had a larger amount of stock and debt to take care of, and as a result of this the call for interest and dividends is now more than twice what it was in 1879. If the company had increased its business sufficiently to meet merely the increased interest charge, its progress could not but arrest attention; but it has done more than that—it has maintained full dividends on the stock besides. Nothing could represent this progress more clearly and more strikingly than the following table of its business since 1879.

| Year. | Mileage end of yr. | Gross Earnings. | Operating Expenses. | Net Earnings. | Interest Paid. | Dividends. | Balance. |
|---|---|---|---|---|---|---|---|
| | | $ | $ | $ | $ | $ | $ |
| 1879..... | 2,359 | 10,012,820 | 5,473,795 | 4,539,025 | 2,357,407 | 1,783,819 | 397,799 |
| 1880..... | 3,775 | 13,086,119 | 7,742,426 | 5,343,693 | 2,918,384 | 1,942,237 | 483,072 |
| 1881..... | 4,217 | 17,025,141 | 10,317,931 | 6,707,530 | 4,127,389 | 2,210,617 | 369,524 |
| 1882..... | 4,520 | 20,386,726 | 12,186,073 | 8,200,653 | 4,787,053 | 2,794,988 | 619,612 |
| 1883..... | 4,760 | 23,659,823 | 13,778,038 | 9,881,785 | 5,373,925 | 3,321,167 | 1,186,693 |

Here we see that in four years' time the gross earnings have risen from 10 millions to 23½ millions, and the net from 4½ millions to over 9¾ millions, affording an idea of the great expansion which has been in progress in the company's business. But this is accompanied, as was to be expected, by an equally noteworthy increase in the fixed charges. Thus interest paid in 1879 amounted to no more than $2,357,407; in 1883 it amounted to $5,373,925, or over 3 millions more. During the same time the sum paid out as dividends has also been augmented about 1½ million dollars, making a total increase of over 4½ million dollars in these two items. Yet the balance in 1879, when only 6 per cent was paid on the common stock and 7 on the preferred, amounted to but $397,799, while in 1883 it amounted to $1,186,693 after 7 per cent had been paid on both classes of stock. This is the striking feature in the above figures that we would refer to—namely, that as the company's requirements for interest and dividends increased from year to year, the net income also increased in even larger ratio, leaving a continually augmenting balance on the year's results—this of course irrespective of any miscellaneous income. It should, perhaps, be said that in our table "interest paid" means the interest actually paid in any year, but "dividends" means not dividends paid in the year under which the amount is given, but rather the dividends paid out of that year's earnings. For instance, the amount for 1883 is made up of the sum paid for dividends last October and that to be paid next April, the latter being dependent upon the profits of the preceding and not the current calendar year.

Some question may be raised as to the accuracy of the amount given above for interest charges in 1883. This is $5,373,925, per company's exhibit, while on the basis of the debt outstanding at the beginning of 1883 the yearly requirement is as much as $5,598,578, and during the twelve months since, the debt was still further added to, augmenting of course to that extent the requirement. This apparent discrepancy is explained by the company's officials as follows: They say that many of the bonds given as being outstanding January 1, 1883, had been put out towards the close of the year 1882, and on such bonds the company did not have to pay a full coupon on January 1, 1883, (interest being adjusted to that date at the time of the sale of the bonds), so that these count for only a half year's interest in the total—namely the July, 1883, coupon, that for January, 1884, not being included in the accounts for 1883. In the same way the bonds placed during the year 1883 did not bear more than a half-year's interest at the most, and in the case of those put out subsequent to July 1 not that.

Of course during the present year the company's income will have to meet the full amount of interest on the debt

outstanding January 1, 1883, and, in addition, the interest in whole or in part of the debt put out since then. The debt was increased during the year by $2,500,000 Chicago & Pacific division 5 per cent bonds, calling for $125,000 per annum, by $390,000 Hastings & Dakota division 7 per cent bonds, calling for $27,300, and by $1,300,000 Wisconsin & Minnesota division 5 per cents, calling for $65,000 per annum. The company also issued the $1,600,000 land grant income 7s referred to above, but as the interest on the land notes held as security for these bonds probably equals the interest on the bonds, we disregard them in the present calculation. The company has, however, listed some additional amounts of bonds during 1884 thus far, which must be taken into consideration. These are $860,000 Chicago & Pacific 5s and $120,000 Wisconsin & Minnesota 5s, calling together for $49,000 interest. These latter of course cannot come in for more than a half year's interest in the accounts for 1884; but assuming that they, as well as all the new bonds issued during 1883, will come in for their full amount, we would have a total interest charge on the new debt of $266,300. On the debt outstanding a year ago the charge was, as stated, $5,598,578. Adding the additional amount, we get $5,864,878 as the maximum of interest required on the debt now outstanding, or $490,953 more than was actually paid in 1883. And against this the company has (assuming as a basis last year's operations) a balance of net earnings of $1,186,693, or $695,740 beyond the amount required for the additional interest. Even if the $112,000 called for on the land grant bonds has to be taken into account, there would remain a balance of $583,000 (the dividend requirement counted in full in the 1883 statement), or only a trifle less than in 1882.

## *A LESS FAVORABLE TRADE STATEMENT.*

The figures of our foreign trade for the month of December, issued this week by the Bureau of Statistics, do not make an altogether satisfactory exhibit. There is quite a large excess of merchandise exports, and in that particular the statement is favorable, but this balance though large is pretty nearly 12 millions smaller than for the corresponding month of 1882, and, besides, the decline in the balance is wholly the result of a falling off in the export movement, which is of course a feature that does not inspire confidence. A reduction in the exports was expected in view of the smaller outward movement of breadstuffs and cotton, but few, even among those best informed, were prepared for a total so small as that now reported—the smallest December aggregate since 1878. Moreover, as we shall show later on, we can find no explanation in the returns yet at hand of the heavy falling off from 1882. In the following table we give the import and export movement from each leading port during December and the twelve months, in 1883 and 1882.

EXPORTS AND IMPORTS OF MERCHANDISE AT U. S. PORTS.

| *Exports (Domestic and Foreign.)* | 1883. | | 1882. | |
|---|---|---|---|---|
| | *December.* | *Since Jan.1.* | *December.* | *Since Jan.1.* |
| | $ | $ | $ | $ |
| New York | 29,165,426 | 351,705,554 | 34,709,365 | 346,606,126 |

| Boston, &c | 5,890,984 | 65,164,785 | 5,903,513 | 57,738,235 |
| Philadelphia | 2,984,307 | 38,679,862 | 3,397,540 | 34,625,366 |
| San Francisco | 3,616,311 | 42,087,130 | 3,783,371 | 49,624,998 |
| All other ports | 19,291,819 | 159,864,752 | 23,497,706 | 154,802,874 |
| Total | 75,534,862 | 795,091,806 | 92,966,026 | 767,981,916 |
| *Imports.* | | | | |
| New York | 39,417,210 | 475,046,170 | 43,09 1747 | 514,273,974 |
| New Orleans | 998,792 | 8,776,869 | 1,035,36 | 11,076,256 |
| Baltimore | 860,390 | 12,309,192 | 1,234,43 | 14,658,006 |
| Boston, &c | 4,426,859 | 71,164,261 | 5,351,718 | 73,733,576 |
| Philadelphia | 2,208,200 | 32,772,777 | 2,096,761 | 37,614,138 |
| San Francisco | 2,503,168 | 39,828,817 | 3,128,65 | 41,348,545 |
| All other ports | 3,437,101 | 47,117,036 | 3,258,643 | 57,130,012 |
| Total | 53,941,720 | 687,020,122 | 59,500,349 | 752,813,567 |

Here we see that the balance in our favor for December, 1883, is only 21½ millions, against 33½ millions in December, 1882, and that the smaller excess this year is the result of a falling off of 17½ millions in the exports, offset to the extent of 5½ millions by a decrease in the imports. As to the imports, they are undoubtedly getting down to a basis more in accord with the state of our trade. The total for the twelve months of 1883, though still quite heavy, is yet 65¾ millions smaller than in the corresponding period of 1882, and the closing months have been particularly conspicuous in the downward movement that has distinguished the whole year. The December aggregate was, as said, over 5½ millions smaller than that of 1882, and indeed with the exception of the September, 1883, aggregate, is the smallest monthly total since July, 1881. Certainly a total of about 54 millions wears a more reassuring look than did the 65 to 68 million totals of 1882. It is to be noted, too, that notwithstanding the smaller imports, stocks of goods in the warehouses are slowly mounting up. On the 1st of November the total in bond was $26,757,781, on the 1st of December it had risen to $28,276,924, and now (on the 1st of January) it is $29,948,104. On January 1, 1883, however, it was as much as 31¼ millions.

The falling off of 17½ millions in the exports for December, is, as stated above, not easy to explain. Usually, any increase or decrease in the total exports of merchandise is accounted for by the fluctuations in our three chief staples—cotton, breadstuffs and provisions—as they constitute so large a proportion of the whole; but for December this method of interpreting the figures can not be made to answer. The breadstuffs aggregate for the month shows a decrease of $4,146,097, and the provisions aggregate a decrease of $1,226,470, or together $5,372,567, so that over 12 millions of the 17½ millions decrease would remain for the item of cotton. But allowing for a diminution of 150,000 bales in the shipments for the month, (our figures show much less than that), values would be reduced only about 7½ million dollars, leaving over 4½ millions of the decrease still unaccounted for, a very large sum for a single month. Petroleum is an item of some importance at times in this respect, but as the exports of this commodity in December, 1882, were less than 3 millions in value, and the commercial figures show very little change in quantity for December, 1883, with prices higher, it is evident that no portion of the decrease could have occurred there. To show the part played by the breadstuffs and provisions shipments in the export movement at each leading port, both in December and the full year, we give the following table.

EXPORTS OF BREADSTUFFS AND PROVISIONS FROM LEADING PORTS.

| *Breadstuffs.* | 1883. | | 1882. | |
|---|---|---|---|---|

There is nothing to be said of the individual items of the breadstuffs movement for December, except that the decrease is due entirely to the falling off in the exports of wheat and flour. It is worthy of remark, though, that

the shipments of corn were but little greater than in the preceding December, when in fact it was expected they would be very much greater. For the full year, however, they show a very large gain, as is natural considering the increased supplies available. The effect upon our foreign trade of a good or a bad yield of this one cereal alone, is well illustrated in the table below, showing that while the exports of corn in 1882 reached no more than 11⅝ million dollars, in 1883 they reached but a trifle less than 39 millions. Another feature in the year's figures is the increased movement of rye, the total of which, though small, is almost three times what it was in 1882. A significant fact in connection with the exports of wheat during 1883, is, that while the movement of this cereal in its native state exhibits a marked decrease, the movement of flour — the manufactured article — shows quite an increase. Below are the figures.

EXPORTS OF BREADSTUFFS IN DECEMBER AND SINCE JANUARY 1.

| Total..... | | | 172,692,180 | 182,678,865 |

As to the provisions exports there was, as already stated, a falling off in December. This, however, is ascribable more largely to the lower prices prevailing than to any decided falling off in the quantity exported. For the full twelve months we have a gain of over 17¼ million dollars, notwithstanding the lower prices ruling. Every item shows a gain in quantity, but owing to the decline in price pork records a decrease in value. This will be seen from the subjoined figures.

## *FINANCIAL REVIEW OF JANUARY*, 1884.

January closed with a much better feeling at the Stock Exchange than prevailed about the middle of the month. The general results, however, were not satisfactory to the average speculator, while the reports in regard to commercial affairs gave indications of an improvement in tone in several particulars. The tendency among merchants was all towards conservatism, and in the dry goods trade a very large quantity of cotton goods was disposed of at low prices, including a decided increase in the goods taken for export.

The money market showed a further increase in the bank surplus and in the accumulation of loanable funds, and the rates for call loans on any respectable collateral ruled at a minimum of 1½@2 per cent per annum. Even the extreme fluctuations and depressions in the prices of railroad securities, which necessarily involve the calling in and shifting of loans among stock brokers, had but very little effect on the loan market, and monetary stringency, as an active influence on the stock market, is almost looked upon as a thing of the past.

For investment securities the demand was fair, but it hardly seemed to be equal to the usual January demand, and the conclusion was naturally drawn that there was less surplus money to invest.

At the Stock Exchange the tone was quite variable, and the year opened with the depression of December yet clouding the market, to which was added the appointment of a receiver on January 1 for the New York & New England Railroad. For about ten days there was an improvement; but this was destroyed by the break in New York West Shore & Buffalo first mortgage bonds to below 50, together with the appointment of a receiver for the North River Construction Company. From the effects of this the market had barely recovered when another break took place in the Northern Pacifics, and the price of the preferred stock fell to 40½, common to 20, and Oregon Trans-Continental to 16⅝. This carried down the whole list, and the downward turn was brought to a close on January 26, when a syndicate composed of Messrs. Gould, Field, Drexel, and others, purchased of the O. T. Company 30,000 shares of N. Pacific preferred stock at 36 and 30,000 shares of common at 16, with 30,000 shares of Oregon Railway & Navigation Company at 75. This was followed by a very sharp twist on the shorts, when Oregon Navigation was jumped up to 119 cash. The last few days of the month were marked by a general covering of shorts and a strong market, under the manipulation of the bull operators.

Foreign exchange became stronger as the month advanced, and at the close bankers' asking rates for prime bills were 4 86½ for 60 days and 4 89 for demand. The rise in exchange was scarcely to be accounted for by the trade movement, and it was believed that a considerable importation of American stock and bonds from abroad must have been in progress.

The following summary shows the condition of the New York City Clearing-House banks, rate of foreign exchange, and prices of leading securities and articles of merchandise, on or about the 1st of Feb., 1882, 1883 and 1884.

## *GREAT BRITAIN IN* 1883.

[Communicated by our London correspondent.]

It may be safely said that the past year has been one disappointment in most circles of business. The cause it would be difficult to fully explain. In the United States, as we understand the situation on this side, much the same conditions appear to have existed. Money has been abundant, food cheap, production large, labor well employed, wages high, crops good, and traffic returns of railways compare very favorably with previous years. Furthermore, there has been nothing in political affairs to have affected the markets materially, though there is no doubt of the fact that the differences between France and China have compelled merchants dealing with the East to circumscribe to an extent their operations. And yet, notwithstanding the surroundings seem to have favored a growth in enterprise, there has been no enterprise, complaints have been general that business has been carried on with very little profit, and the balance sheets are said to be discouraging.

As to special trades probably the iron industry has fared the worst. It is to be remarked that the depression here (and the same is true of about every other department) did not result in decreased production. If further prolonged it is likely to have a material effect in that direction. In fact, as the year

closed a movement to curtail production was in progress, and since the first of January several furnaces have been damped down. This process must continue. The iron trade during late years has had an extraordinary expansion throughout the whole world. It is not only in Great Britain, but also in the United States and on the Continent that the industry has developed so rapidly. The total production of pig iron in the United Kingdom has not yet been made up, but the figures at hand, those for Scotland and Cleveland, indicate a small increase. An idea of the recent growth in production may be obtained from the fact that the total tons reported in 1879 were 5,995,337 and in 1882 were 8,493,287 tons. Our production and exports have been as follows since 1873.

| | EXPORTS. | | | | TOTAL PRODUCTION. |
|---|---|---|---|---|---|
| | Pig Iron. | Rails. | Other Descript'ns | Total. | |
| | Tons. | Tons. | Tons. | Tons. | Tons. |
| 1883 | 1,564,137 | 971,662 | 1,508,474 | 4,044,273 | *8,500,000 |
| 1882 | 1,758,072 | 936,949 | 1,658,531 | 4,353,552 | 8,493,287 |
| 1881 | 1,480,196 | 820,871 | 1,517,458 | 3,820,315 | 8,377,364 |
| 1880 | 1,632,343 | 693,796 | 1,456,055 | 3,792,993 | 7,749,233 |
| 1879 | 1,223,436 | 463,878 | 1,196,170 | 2,883,484 | 5,996,337 |
| 1878 | 924,648 | 411,384 | 933,193 | 2,269,810 | 6,381,051 |
| 1877 | 881,442 | 497,924 | 965,285 | 2,346,370 | 6,608,661 |
| 1876 | 910,905 | 414,556 | 899,809 | 2,224,470 | 6,555,997 |
| 1875 | 947,827 | 545,981 | 963,498 | 2,457,306 | 6,365,462 |
| 1874 | 776,116 | 782,665 | 621,741 | 2,487,522 | 5,991,408 |
| 1873 | 1,142,065 | 785,014 | 1,030,734 | 2,957,813 | 6,566,451 |

* Estimated.

These figures show a production of pig iron, as already stated, in 1879 of 5,996,337 tons and in 1883 of 8,500,000 tons, or an increase of about 42 per cent in production, while the export of all kinds of iron in 1879 was 2,883,484 tons and in 1883 of 4,044,273, or an increase of about 41 per cent in exports. That ought to be considered a fairly favorable showing, and would be, were it not for the three facts, (1) that the depression in business is not confined to Great Britain, and hence the export demand is falling off; (2) that production of iron elsewhere has increased very decidedly, adding to the competition in consuming markets; and (3) that our ship-building trade the coming year is likely to be comparatively poor. On the latter point we may add that the steamer and ship tonnage built during late years has been swelling rapidly until it has reached remarkable proportions. A report of that trade by C. Möller of London states that in 1883 no less than 720 steamers, with a total of 1,102,801 tons, were added to the mercantile fleet in the United Kingdom alone; and if to this be added 674 steamers, of 982,961 tons, built in 1882, and 630 steamers, of 925,000 tons, in 1881, we obtain a total of 2,024 steamers and 3,010,762 tons in three years. Besides, with this must be included the ships constructed in France, Sweden and Germany which form a not inconsiderable fleet. It is not surprising, therefore, that freights should as a consequence be greatly reduced through competition, and the prospects as regards steamship-building be pronounced gloomy. Altogether, therefore, there seems to be no present cure for the iron industry except by reducing production. As an interesting point in the trade exhibit, we give the portion of the iron exports which the United States has taken:

| Exported to— | 1883. | 1882. | 1881. | 1880. | 1879. |
|---|---|---|---|---|---|
| | Tons. | Tons. | Tons. | Tons. | Tons. |
| United States | 688,187 | 1,195,116 | 1,162,459 | 1,358,136 | 707,427 |
| Other countries | 3,356,086 | 3,158,436 | 2,657,856 | 2,434,857 | 2,176,057 |
| Total | 4,044,273 | 4,353,552 | 3,820,315 | 3,782,993 | 2,883,484 |

Our cotton manufacturing industry, if we are to believe the representations of manufacturers, is even less favorably situated. It is two years or more, it is claimed, since a good portion of the mills have made much money, and they have long been hoping for better times. Still, in spite of this adverse outlook, they have gone on increasing spindles and the consumption of cotton as rapidly as if they were in the midst of prosperity, the weekly consumption this year being 73,000 bales of 400 pounds each, against 72,000 bales last year, 70,000 bales in 1881 and 69,000 bales in 1880. Furthermore, now, in Lancashire they are in the midst of a strike which very few quite understand, it being ostensibly an effort to reduce wages 5 per cent; but under the color of it production is also being reduced, so the result may be better prices for goods at the same time that a lower cost of production is secured. This may all be neeessary, but the truth is we do not more than half believe that our cotton spinners are as badly off as they contend. Or at least if they are, it must be a disease of long standing, since during the past two years home consumption must certainly have increased materially under our improved crops, while exports have not decreased this year, either in quantities or values, as may be seen from the following statement.

| Piece Goods. | 1883. | 1882. |
|---|---|---|
| White or plain ..... yards. | 3,136,891,400 | 2,970,617,000 |
| Printed or dyed ..... " | 1,379,430,300 | 1,318,223,000 |
| Mixed materials ..... " | 22,835,500 | 39,894,000 |
| Total goods ..... " | 4,539,157,200 | 4,348,764,000 |
| Total yarns ..... lbs. | 261,847,300 | 238,251,700 |
| Values. | £ | £ |
| Total piece goods ..... | 55,532,624 | 55,442,785 |
| Total yarns ..... | 13,510,886 | 12,864,711 |
| Total value ..... | 69. 43,510 | 68,307,496 |

From the foregoing we obtain the following as the amount realized per yard of goods and per pound of yarn for the two years' exports.

Exports of cloth realized 2·93d. per yard in 1883.

Exports of cloth realized 3·06d. per yard in 1882.

Exports of yarn realized 12·24d. per pound in 1883.

Exports of yarn realized 12·96d. per pound in 1882.

In other words, we have obtained about one-tenth of a penny less per yard in 1883 than in 1882 for our goods and about three-quarters of a penny less per lb. for our yarn, and yet cotton (middling uplands) averaged at Liverpool about 5⅝d. in 1883, against 6⅝d. in 1882. That certainly does not make a bad comparative showing. Of course whether there is any money in goods at either price depends upon the average quantity exported, which the official figures do not disclose.

As to the yield of agricultural produce during the season, it has been satisfactory. In consequence of the wet autumn of 1882, the area of land under cultivation was much smaller than in the previous year, but, taken as a whole, the result has been fairly good. The weather was a little unsettled during the ingathering of the crops, and the condition of the wheat coming to market has been disappointing. Barley was planted extensively, and there has been a large production; but, the weather being unsettled, really fine produce is scarce. The yield of other crops was quite up to an average, and the farmers' position would have improved to a greater extent were it not for the fact that with foreign produce we have been superabundantly supplied. The "prophets" foretold so great a scarcity of wheat that a remunerative market was sure to be found here, while there was a belief that the supplies available of foreign produce were not excessive. The expectation, however, of remunerative prices soon brought to light the fact that there was a large quantity abroad left over from previous seasons, especially in Russia, and that country has been making every effort to realize on as much of her produce as possible during the season, so that our imports have been very large. America, however, has been dealing very cautiously in wheat, but has exported freely of flour. The trade in American flour has become one of great and substantial proportions. It has for some time past interfered with the Irish milling trade, and has now almost entirely broken it up. The result of these large imports of wheat and flour has been that the accumulation at our outports has been unusual, and has reached the heavy total of 3,000,000 quarters. As we have been importing far above our requirements, buyers have all along obtained great advantages, and to-day wheat is ruling very low in price. Any chance of improvement it is difficult to discern, as supplies, actual and prospective, are very abundant. We may be certainly sure of cheap bread in future, and this is always regarded as an important aid to prosperity. This is not encouraging to our farmers. But at the same time, with good crops they should secure satisfactory returns. Competition is keen and profits are small, yet their sufferings of late years have not been so much on account of competition as because of consecutively bad seasons. Great Britain must have supplies from abroad and of considerable abundance, and if there has been a superabundance of imports of late, a recuperation will take place in the usual way under the law of supply and demand.

Numerous new companies and loans have been introduced to public notice during the year, and it is estimated that the total capital required will be about £84,000,000, against about £142,000,000. The falling off has therefore been very considerable, and this might reasonably be the case, as the issues of late years have been excessive. These figures do not, however, lead to the conclusion that the public have committed themselves to such heavy payments, as every company is not successful. It is nevertheless the fact that loans of acknowledged soundness have been eagerly subscribed, which undoubtedly indicates that capital in abundance is seeking employment. Very little money has been applied for by foreign governments, but the

Australasian Colonies have been successfully floating loans, especially during the last few months. It was said long ago that much caution was necessary as the Colonial governments were piling up debt very freely; but as they have large available resources, which augment as population increases and as new lands are opened up, the public were of opinion that the security offered was a satisfactory and reliable one. These loans are a great benefit to this country. They create a demand for iron goods, especially railroad iron, and for other articles of manufacture necessary for the construction of public works. The Australasian governments obtained all they asked for on favorable terms.

The rates for money have not fluctuated greatly during the year, but they show one fact in a marked degree, that our bank minimum now is not changed in obedience to commercial wants, but is strictly governed by the foreign demand for gold. A dull year in business, with money requirements for commercial purposes very small, should have given us very low rates for money. And, yet from May 9th to September 12th, always the dullest portion of the year, the Bank rate ruled at the very unusual figure for the summer months of 4 per cent. We are far from criticising the action of the Bank managers in this particular, as the results on our gold reserve prove its wisdom. The following summary of the bank movements each week during 1883, in connection with the table next below of interest changes, will illustrate this.

| 1883. | [000s omitted.] Circulation. | Deposits. Public | Deposits. Priv'te | Securities. Gov't. | Securities. Other. | Reserve. | Bullion. | Proportion of reserve to liabilities |

A glance at the above returns of bullion show the need for the changes made in the rates, while a comparison between the former and the latter, as disclosed in the following table, indicate how speedy was the effect of the changes made.

| 1879. | Per ct. | 1881. | Per ct. | 1882. | Per ct. | 1883. | Per ct. |
|---|---|---|---|---|---|---|---|
| January 16 | 4 | January 13 | 3½ | January 20 | 6 | January 24 | 4 |
| January 30 | 3 | Febru'ry 17 | 3 | Febru'ry 23 | 5 | Febru'ry 14 | 3½ |
| March 13 | 2½ | April 28 | 4 | March 9 | 4 | Febru'ry 28 | 3 |
| April 10 | 2 | August 18 | 3 | March 23 | 3 | May 9 | 4 |
| Novemb'r 6 | 3 | August 25 | 4 | August 17 | 4 | Sept'ber 12 | 3½ |
| 1880. | | October 6 | 5 | Sept'ber 14 | 5 | Sept'ber 26 | 3 |
| June 17 | 2½ | | | | | | |
| Decemb'r 9 | 3 | | | | | | |

The lower rates through the autumn were a direct consequence of our accumulations of gold in the summer. But a less satisfactory feature is that the increased reserve must wholly have come from domestic sources, as our total imports in 1883 were only £7,733,309, while our exports were £7,091,365, showing an actual increase in stock of but £641,944.

The amounts of bullion in the Bank of France have been as follows, according to the last return of each month in 1882 and 1883, given in pounds sterling—00,000 being omitted:

| 1883. | Gold. | Silv'r | Total | Circulation | 1882. | Gold. | Silv'r | Total | Circulation. |
